## Curran Says Children Should Respect Law

"Breath in children a respect for law and morality" as a means of combating juvenile delinquency, State Attorney Frank W. Curran told Exchange at the weekly meeting of the club Wednesday.

"A lack of education and church attendance is not the whole factor in juvenile delinquency," Curran indicated, stating that "children need a hand."

He explained that there are two classes of children in the courts—dependent, who are not properly cared for at home, and who may go to a home fostered by churches or benevolent organizations, and delinquents, those who violate laws, who can either go to jail or such institutions as the boys school at Shawanago.

SOME PARENTS' broad contempt of the law, Curran said, stating the case of the adults who come home under the influence of liquor leaving their children with the feeling that they can do the same. He criticized tavern owners who permit intoxicated children and the parents who refuse to sign a consent complaint against such irresponsible tavern owners so the law can make the proper prosecution.

Curran stated, "There is too much publicity of boys and girls getting into trouble." He referred to a local case of boys involved in a burglary and sentenced and the resulting publicity. He reported that the news story did not include the fact that the boys had been previous violators and the sentence had been a "last remedy."

He quoted a poem written by a Chicago free lance writer and entitled "Turn Back the Clock." The poem portrayed a habitual felon's idea of why he had led a life of crime. The poem's main theme was "If we don't give kids a helping hand—more will end up in the pen."

Tom Carpenter, a St. Patrick's Central High School student, was guest of the Exchange Club, in the first of four meetings which will be held. Victor Cardoni was program chairman.

## Seek Women For Girl Scout Camp Aides

Women and girls over 18 years old interested in camp counselor work are asked to contact the Girl Scout office, 131 S. Washington Ave. Camp counselors are needed within Trailways Girl Scout Council, as well as elsewhere, according to Miss Veta G. Funderburk, executive director.

Counselor positions open are in swimming, rowing and canoeing, nature, music, unit leaders, assistant unit leaders, dietitians, nurses and first aiders, games, outdoor cook, dramatics and handicraft. Some of the counselor opportunities are in day camp, others are in established camps.

"Besides a special ability," Miss Funderburk said, "counselors should have a sense of responsibility, sense of humor, like girls and feel at home in the outdoors."

THREE TYPES of camp will be available to Girl Scouts this year, according to Roy E. Eddy, general camp chairman for Trailways Council: troop camp at Camp Chain-na-Chalet in McKinley Woods; established camp at the Boy Scout Reservation near Morris; and day camp, sponsored by 19 neighborhoods at 17 nearby sites.

Day camp registration is under way, according to Mrs. Edward S. Snyder, day camp chairman. It is for Brownies, and Intermediate Girl Scouts with varying fees averaging \$4 per girl for the 54 day period. The fee covers food after the first day, milk daily, craft and program supplies.

Kankakee neighborhood sponsored day camps are Boy-La-La-Bra, East-Kankakee, Ro-Mar-La, Wa-Pa-La and Momma. Approximately 1,700 will attend day camp this year, compared to 1,423 last year.

Established camp has been reduced from two to one week this year, due to more extensive use of the Boy Scout Reservation by the Boy Scouts, explained Mrs. Clifford W. Schultz of Kankakee, Trailways Council established camp chairman. Intermediate and Senior Girl Scouts may attend established Camp Aug. 13-19 at the Boy Scout Reservation, Morris.

The Intermediate and Senior reservations are filled and there is a waiting list, but the Brownie quota has not been filled. The Brownie quota has been reduced from 250 last year to 145 this year.

CAMP STANDARDS call for a minimum of 12 days for establishment.

## Only 74 Polio Cases Reported In Week

WASHINGTON (AP)—Seventy-four new cases of polio were reported last week, barely more than half the 146 in the corresponding week of 1955.

A public health spokesman said, however, that "it is too early to tell what will happen later."

Wednesday Surgeon General Leonard A. Scheele and Dr. Alexander D. Langmuir, chief of the service's epidemiological branch at Atlanta, both expressed belief that the rise in cases this year would be slower than in the past.

Today's weekly report showed that there had been 1,370 polio cases reported in 1956 up through April 28, compared with 1,450 in 1955.

Dr. Etna, in Sicily, has erupted violently 30 times during the period of written history.

## Open House Planned For Iroquois Hospital

WATSEKA (JNS)—Open House will be held in observance of National Hospital week at the Iroquois Hospital on Sunday.

The event will be held from 2 to 4 p. m., according to an announcement made Tuesday by Alvan A. Sauer, hospital administrator.

The observance of National Hospital Week, May 6-12, presents an opportunity to learn more about opportunities in hospital careers.

Sauer pointed out the important role of the hospital as an employer in the community, adding that hospitals in the nation employ more than 1,200,000 fulltime personnel.

He said "hospitals constantly need new personnel to keep the tasks brought about by rapid medical advance."

He added that despite expanding educational facilities for training health personnel, population growth and greater demands for health services have resulted in shortages of many types of personnel.

He urged that if adequate health care is to be provided, there must be real effort to attract youngsters into the health professions.

He recommended that persons interested in health careers get in touch with the hospital during National Hospital Week, for information about vocational opportunities.

SPRINGFIELD (AP)—The board of governors of the Illinois Bar Association Wednesday adopted a resolution reaffirming the right of counsel to all accused, including alleged Communists.

The resolution also said the bar should seek "disbarment" of any lawyer who advocates communism.

The resolution was in reply to a recent criticism by William F. Tompkins, head of the internal security division of the Justice Department, that bar associations are "dupes of Communist party strategy" in "providing respectable people to discredit the Smith Act."

## Reveals A-Sub Almost Sank Fishing Vessel

GROTON, Conn. (UP)—The atom-powered submarine almost sank a small fishing trawler off the New Jersey coast April 22 when it disabled a fishing net, the Navy disclosed.

The 55-million-dollar submarine, the world's first nuclear powered vessel, suffered only damage to a steering light and a scratch on the hull while it was undergoing repairs here last Saturday.

It was the fourth mishap to the vessel since it was launched. A small fire started by a welder's torch ignited cork insulation and burned paint from the Nautilus' hull while it was undergoing repairs here last Saturday.

THE NAVY SAID damage from the fire, the third to break out on the sub, was slight.

Tenney Anderson, Point Pleasant Beach, N. J., captain of the trawler, Jennie, also estimated his damage at \$1,200 for fish and gear dragged away April 22 by the submarine, which apparently never surfaced after it snagged the trawler's net.

Anderson last Friday told 3rd Naval District officials about his 6-foot trawler's encounter with a mysterious undersea object. One of the Jennie's crew believed it was a sea serpent. Another said he thought it must have been a submarine.

CHICAGO (AP)—The difference in their ranks ranked her Air Force husband, said an ex-WAC sergeant Wednesday, in winning a divorce on grounds of desertion.

Mrs. June Fishbein, 27, said her husband James, 24, deserted her because he claimed she was always "pulling rank" and running their house "like the Army."

When they wed in Japan Oct. 26, 1944, James was a private and she was a sergeant. Mrs. Fishbein told Judge Harry G. Hershenov in Superior Court.

He was so ashamed of his lower rank, she said, that he refused to go on a honeymoon with her. He left her Dec. 2, 1954, she said.

Fishbein now is a corporal stationed at Tandyville Air Base, Florida.

Mrs. Fishbein said she was discharged from the WAC shortly before birth of their daughter, Casey Elizabeth.

Fishbein's father, Harry, an East St. Louis, Ill., attorney represented him in court. The judge directed that Fishbein support the child.

## Teacher Convicted In Death Of Wife

CHEYENNE, Wyo. (U-P)—Almost 48 hours after it received the case, a district court jury Wednesday night convicted James V. Alexander, 46, of second degree murder in the death of his second wife, Barbara, 24. The body was dug from the basement floor of Alexander's home nearly 2½ years after she disappeared.

THE HUSBAND, former Casper, Wyo., school teacher, faces a penalty of 20 years to life in prison. Alexander appeared unopposed and solemn. As Dist. Judge Sam Thompson read the verdict at 10:42 p.m. (MST) to conclude a 15-day trial.

Natrona County Prosecutor Raymond Whitaker had asked the death penalty shortly before the jury of seven men and five women was given the case. Alexander was charged with first degree murder.

Fred Layman, a defense lawyer, moved that the verdict be set aside. Judge Thompson was expected to rule on this motion and to sentence Alexander today.

Layman told reporters he would appeal the conviction to the Wyoming Supreme Court.

At prosecution request, trial of Alexander's first and present wife, Rose, was continued from next Monday until the fall term of court.

ROSE WAS NOT present to hear her husband convicted. Now free on \$10,000 bond, she also is accused of first degree murder in the death of her son, Barbara Alexander, 16.

Barbara's body was unearthed Dec. 6 from a concrete tomb in the basement of the Casper home. At a coroner's inquest and again as a defense witness for her husband, Rose testified Barbara died July 18, 1953, in an accidental fall.

Rose said she buried Barbara and the grave was cemented over by Alexander. Both claimed he was unaware of the tragedy until Casper police discovered the young mother's remains.

Whitaker charged the husky, balding defendant with Barbara to death in a jealous rage.

## Rains Aid Small Grains, But Subsoil Still Lacks Moisture

Despite the recent rains, which have aided the small grains and pastures, the subsoil moisture throughout the Kankakee area remains exceptionally short.

Since last October most of the area has received only from a quarter to a half of its average rainfall. This lack of precipitation has thrown out of balance the usual recharging of the subsoil moisture reserve.

Ordinarily crops—such as corn—draw water from deeper and deeper in the soil as the growing season passes. In the dry part of the summer, these plants depend upon subsoil moisture at depths of three to six feet.

THIS SUBSOIL reserve is usually recharged in late fall, winter and early spring. This has not happened this year in the northern two-thirds of Illinois.

Agronomists believe that there will probably be enough rain in the next few weeks to give the crops a start. The critical period, however, will come in the middle of summer when rainfall normally slackens off and crops begin to draw heavily on water stored in the subsoil.

The recent rains have done won-

and put to use those crops that are able to resist drought.

HERE ARE THE specific recommendations from the soil specialists:

1. Work and plant sloping land on the contour to reduce runoff. The soil moisture storage land on most level land. Plant the most important crops on bottomlands or uplands.

2. Leave seeded surfaces rough so that rain will soak in rapidly. Overworking does not necessarily reduce evaporation, and it definitely slows the water's entering the soil. For the same reason, do not cultivate row crops frequently or deeply.

3. PLANT WHEN the soil is moist. Plant deeper than normal if that is necessary to reach moist soil. Plant at a uniform depth to assure uniform germination and emergence. Spread the risk by varying maturity through the use of different corn hybrids or different planting rates or both.

4. Cut nitrogen applications in proportion to plant population. Side dressing will allow in adjusting nitrogen applications to the amount of rain in May and June. If a starter fertilizer is used, apply it at moderate rates, especially on dry soils. Do not let the seed touch banded or hill dropped fertilizer.

5. Save old grass legume seedlings that are still productive, even through prospects for a full crop are not good. New seedlings may fail this year, but prepared to crop failures with a knowledge of useful emergency crops.

6. CONTROL WEEDS. Every weed left alive will be taking valuable moisture from neighboring crop plants.

7. Save old grass legume seedlings that are still productive, even through prospects for a full crop are not good. New seedlings may fail this year, but prepared to crop failures with a knowledge of useful emergency crops.

### Brown Beats Smith, Hopes For Title Go

HOUSTON, Tex. (U-P)—Joe Brown did not get the win he had predicted but he believes his unanimous decision over lightweight champion Wallace (Bud) Smith has earned him a rematch for the title.

Brown, 29-year-old Negro from New Orleans, used a vicious right, a strong left and a sharp defense Wednesday night in scoring a popular decision over the champion in a nationally televised 10-rounder at Sam Houston Coliseum.

## Get In Shape For The Swim Suit Season

By IDA JEAN KAIN

Modern swim suits are skillfully designed to flatter the figure, and flatter they will—but only if you are in fair shape. So a spring toning routine is just the tonic needed prior to the swim season.

Here's a routine designed to reach important figure contour muscles with a resistance exercise for toning the chest and muscular muscles which support the bust.

**Position:** Standing or sitting. Bend elbows and place palm of one hand in palm of other hand, with hands at chest level.

**Movement:** Press palms together forcibly, holding to a slow count of six, breathing between each count. Then, resisting with right hand and pushing with the left, push hands to the right. Push toward the left, again resisting. This not only strengthens the pectorals, but helps skinny lasses add curves across the collar bones.

This stretch-bend slimms midriff.

**Position:** Sitting on floor, lean slightly back to bring weight to bear on hip spread. Have palms of hands on floor at sides.

**Movement:** R-44 across buttocks and over to thighs. . . . then slowly and heavily roll back flush across hip spread. Make this a 1-2-3 roll.

Most swim suits can't keep a secret, so banish bulk and bulging, but do not hold breath. Roll for smooth hips.

**Position:** Stand on knees, arms arched overhead. Pull up-and-in strongly with middle muscles and tighten buttocks. This centers the pelvic girdle.

**Movement:** Stretch right leg out to the other side. Four times, alternating sides, is ample. Make this a smooth stretch, a held move.

When a highly trained pilot and co-pilot are wearing head phones to keep in constant touch with airports on the ground for warnings, reports, etc., they should not be jeopardized by drunks aboard their planes.

NOT ALL AIRLINES have succumbed to the sale of liquor aboard planes.

But some of the large companies have done so, arguing that it is forced on them by "competitive necessity."

That's malarky! Most people prefer sober pilots as well as sober passengers on airlines, and even those men who drink, don't want their wives and children jeopardized by drunk passengers on air liners.

This "competitive necessity" is just a camouflage for the fact that airlines are trying to tempt to make a few more dollars.

Thomas Macaulay, British statesman, once said that if commercial firms ever found it to their financial advantage to deny the law of gravity, soon they'd cleverly evade even the public schools.

This same greed for \$\$\$ is what originally led to the 18th Amendment and is causing a growing opposition to the liquor industry and more. John Barleycorn better sober up to a realization of what doesn't cost a fortune!

## Rocket Test Fails, Plan Another Tuesday

WHITE SANDS PROVING GROUND, N.M.—Disappointed Navy scientists, despite a fizzle on their initial try, are planning another attempt at a new rocket altitude record next week.

The first production model of the Aerobee-II plunged to earth about 100 miles from its launch point Tuesday after its main motor failed to fire.

The Navy had hoped to set a new altitude record for a single stage rocket of approximately 185 miles.

The booster mechanism blasted the research vehicle to only 18,000 feet before it turned its nose down and hit the ground just a mile from the launching tower.

John W. Townsend, Naval Research Laboratory scientist in charge of the launching, said the failure was due to a "glitch" in the launching mechanism.

Just what caused the failure will not be known until after a close inspection of the rocket. Townsend said the main rocket motor never fired.

The scientists said they may consider removing other instruments from the rocket's instrument bay to "get all there is to get" out of the firing.

## Wilmington Police To Sponsor Circus

WILMINGTON (JNS)—A circus will come to town on May 29, sponsored by the Wilmington Police Department.

The Leonard Brothers Circus will be staged on Little Joe in Route 113S.

There will be two shows, 1 1/2 hours long. The first one will be at 3:30 p.m. and the second at 8 p.m.

Chief of Police Oscar Bullock Jr. said the circus will include clowns and trained animals among its acts.

There will be an advance sale of tickets and reserved seats. There also will be a parade.

John W. Townsend, Naval Research Laboratory scientist in charge of the launching, said the failure was due to a "glitch" in the launching mechanism.

### Survey Discloses Religious Persons Have Few Crashes

**CHICAGO (UP)**—Religious persons tend to have fewer automobile accidents, psychological tests showed today.  
A report on the tests conducted by the University of Chicago medical school in conjunction with Fitzsimons Army Hospital was presented at the 112th annual meeting of the American Psychiatric Association.  
University psychologists and psychiatrists gave exhaustive tests to 264 young airman at Lowry Base over a three-year period.  
The airman were divided into three groups—the high accident group, with at least two automobile accidents in the last 45 years; the middle group, with one accident in the past 45 years; and the low accident group.  
The researchers found that the no-accident group had fewer conflicts with authority in the forms of truancy, delinquency, and minor offenses, and that they more regularly go to church, engage in prayer, and in general behave in rather socially conforming ways.  
The partition of India in 1947 caused the greatest mass migration in the world's history, says the United Nations.

### Americans Helpful

**MUNICH, Germany (UP)**—The newspaper, Suddeutsche Zeitung said a test staged by German police and the automobile club showed that four out of four Americans would stop to help at an accident scene while three out of four Germans merely would drive on.

## Can She Serve A Chinese Supper?

By CECILY BROWNSTONE Associated Press Food Editor

You can pull your company menus out of a rut by allowing the cookery of other countries to influence them. Not hard to do, either.

How about a Chinese-style supper? For a first course we like to add strips of cooked pork and a garlic clove to well-seasoned homemade chicken broth. We remove the garlic just before serving and throw a handful of small-leafed tender spinach leaves into the broth. The spinach leaves may be cut into wide strips if you like, but they should be well-soaked and cooked. You can use canned clear chicken broth instead of the homemade stock. Smash the garlic clove with the heavy blade of a knife, before adding it to the soup, so it will give off lots of flavor but still be removable.

If you want the simple way out for your main course, serve chow mein along with steamed rice and crisp fried noodles. Use the frozen chow mein or buy it from a good Chinese restaurant, if you have one near you. Here in New York a Chinese family cooks Chinese food to order "to take out." If you live near the family's shop, you of the children will bring the orders to you on the split second you want them; if you live further afield, you will call for the food yourself.  
Instead of the chow mein, you might serve broiled steak with a topping of onions and bean sprouts. Choose a really thick steak that can be carved (in the kitchen) into wide strips after it's broiled. The onions are cut into thin rings or strips and cooked until soft and golden in butter in a skillet; at the last minute drained canned bean sprouts are heated with the onions and the whole seasoned with a little sugar and soy sauce. The steak strips are arranged on a platter, the onions and bean sprouts spooned over them and the whole plated with short sprays of water cress and spiral-cut radishes.  
With the steak you might serve fresh asparagus cooked only until tender-crisp. Peel the stalks with the thin blade of a swivel-type vegetable peeler and cook in a saucepan or skillet in a small amount of salted water. Drain and switch a square or two of butter over the stalks.  
Vanilla ice cream makes a fine dessert for a Chinese-style supper if it is topped with diced preserved ginger (along with a little of the ginger syrup) or with preserved quince.  
Add you won't go wrong if you make up a batch of these American Almond Cookies to serve with the ice cream. All our tasters admired the cookies' crisp texture and the hint of almond in their flavoring. No one guessed these crunchy tidbits had rolled oats in them.

**CHINESE-AMERICAN ALMOND COOKIES**  
Ingredients: 1 1/2 cups sifted flour, 1/2 teaspoon baking powder, 1/2 teaspoon salt, 1/2 cup butter or margarine, 1/2 cup sugar, 1 egg, 1/2 teaspoon almond extract, 1/2 cup unsifted quick rolled oats, whole unbleached almonds.  
Method: Sift together the flour, baking powder and salt. With an electric mixer or wooden spoon, beat butter, gradually and thoroughly beat in the sugar. Beat in egg and almond extract. Stir sifted flour mixture into creamed mixture until blended. Stir in rolled oats so as to distribute evenly. Chill. Shape dough into balls about the size of a walnut; place on buttered cookie sheet allowing 2 inches between each. Flatten balls with the bottom of a glass tied round with waxed paper. (Or use a glass with several thicknesses of cheesecloth wrung out of cold water and tied over its bottom.) Press a whole almond into the center of each cookie. Bake cookies in a moderate (375 degrees) oven 8 to 12 minutes. Remove from cookie sheets with a wide spatula to cooling rack. When cold, store cookies in a tightly covered container and they will stay crisp. Makes about 40 cookies.  
Note: If you want to shape the cookies without chilling and the dough is very soft, keep wetting hands with cold water and you will be able to roll the dough into balls between your palms. In this case, use the cold damp cheesecloth-covered bottom of a glass for stamping cookies flat.

CURED BEEF STEAKS—here's a dinner plan you can complete in 30 minutes flat with handy cubed beef steaks. For a satisfying meal these flavorful steaks are served with country-fried potatoes, a frozen green vegetable, cabbage salad and banana-butterscotch pudding.

### Thirty Minute Beef Dinner

Flavorful results. First, dredge the steaks with flour. This gives them a rich brown appetizing appearance. Then place the meat in a frying pan with a small amount of lard or drippings. When browned season and let them cook at a moderate temperature for only 5 or 6 minutes.

Here's a tip to shorten preparation time of the country-fried potatoes. Instead of peeling the potatoes (and who will mind that), scrub them thoroughly, slice the potatoes quite thin and fry with the peeling left on.

Frozen Brussels sprouts, or any one of the other frozen or canned green vegetables may be added to your menu.

To dress-up vegetables such as green beans, have shivered almonds already toasted, then simply saute them in a little butter or margarine and serve atop the vegetable.

A quick cabbage salad adds texture interest to your meal. Coarsely shred cabbage and toss with thin strips of green pepper.

For your "short order" dessert, prepare a package pudding mix such as vanilla or butterscotch. To serve, arrange thin banana slices in the bottom of dessert dishes, top with the pudding and sprinkle generously with vanilla wafer crumbs.

## Mushrooming Kankakee Sees Only Rose Colored Picture Ahead

(Editor's Note: This is another in a series of stories on the growth of Kankakee and how they are meeting the problems of industrial expansion and rapid population growth. James Nichols, Journal reporter assigned to the municipal "beat," wrote this story. Publication of this article in newspapers throughout the state will serve to point up the progressive steps taken by Kankakee and its civic leaders.)

KANKAKEE (JNS)—You ain't seen nothing yet," was the ungrammatical but expressive phrase popularized by a comedian some years ago.

It describes the attitude of Kankakee as it reviews its rapid industrial growth of the last few years and looks toward the future.

Kankakee is reaping the rewards of an industrial and community development program that still is gaining momentum.

AROUND THE edges of Kankakee has grown a ring of big, new industrial plants and inside that ring a city has been transformed to meet the demands of its growth.

New schools, bridges, parking lots, civic and business buildings, parks and other recreational facilities have been built or are under construction. The reason for the rapid growth and the improvement program is the migration of industry to smaller cities. Kankakee has the advantages of a choice location and facilities needed by industry.

Chamber of Commerce sources estimate that private industry has spent upward of 20 million dollars since 1950 and has allotted 15 million more for the construction of new factories and expansion of existing plants in the immediate Kankakee area.

Greater Kankakee includes the communities of Bradley and Bourbonnais, the unincorporated area of West Kankakee and other housing developments on the fringes of the city. The population of this area, according to the 1950 census, was 42,600. The Chamber of Commerce estimates that the population now is between 49,000 and 50,000.

Expansion of present plants and new industrial growth in Kankakee now in the planning stage are expected to increase factory payroll considerably.

THE EXPANDING population since the end of World War II filled Kankakee schools but the overcrowded conditions have been and are being met with ambitious building programs.

The unusual St. Patrick's Central High School was opened in February. The \$500,000 school for 500 students was built in a circular shape with pin-shaped classrooms around the perimeter of the building.

In 1954 voters approved a 2½ million dollar public school expansion which will be completed this year.

By THE ASSOCIATED PRESS  
Food shoppers in many areas this weekend will find higher price tags on a number of meats.

Meat prices, although still below their levels of a year ago, generally moved up again this week. In recent weeks lamb has made substantial price gains and is now close to last year's figures.

Supplies of pork on wholesale markets were plentiful this week, but prices held firm after a two-week rise.

A VARIETY of beef cuts are the most generally featured weekend specials across the country even though those sale prices did increase slightly.

Eggs are cheaper in many sections. Chickens and turkeys were featured specials in some areas while prices went up in others, apparently reflecting local supply conditions.

The best buys in vegetables for most parts of the country are asparagus and cabbage. Other good buys are potatoes, both old crop and new, peppers, endive, escarole, onions, celery and carrots, lettuce and sweet potatoes.

**Peotone Couple Is Honored On 25th Anniversary**

PEOTONE (JNS)—Mr. and Mrs. Walter Alberts were honored Sunday evening when friends and relatives gathered in the Immanuel Evangelical and Reformed Church of their 25th wedding anniversary.

The guests were greeted by the couple's children, Helen and Walter Alberts.

Mrs. Eugene Weiringer of Steger and Miss Barbara Oehrling registered the guests. Miss Janet Schroeder, Miss Gail McDaniel and Miss Judy Knack assisted with the gifts. The tables were decorated by Mesdames R. D. McDaniel, Lesley Schroeder, Clarence Schroeder and Elmer Schroeder.

Dr. E. H. Pfaffmann offered a prayer. Dinner was served by the Women's Guild. Earl Knack of Bescher was master of ceremonies. Entertainment was provided by Franklin Lohrbach, Mary Ann Frhm, Jim and Roy Schroeder, Ronald Alberts, Robert Grant, John and Joy Schroeder and Mrs. Clarence Schroeder.

Mrs. and Mrs. Alberts were married May 2, 1931 at Moline by the Rev. A. B. Garbe. Their attendants were Mrs. Arnold Walters of Grant Park and Leo Oehrling of Peotone.

Junior high schools, an industrial site addition to the senior high school and additions to five other schools.

This most recent school expansion came on the heels of a \$2,125,000 building program which was completed in 1951 and included construction of two junior high schools and additions to two elementary schools. Another new elementary school was complete late in 1952.

Kankakee has had its parking problems. To meet

the needs of the city, a \$15,000 revenue bond issue was approved and purchase and construction of nine off-street parking lots was started in 1952. The lots are between and contain space for approximately 400 cars.

KANKAKEE IS on Route 54, main highway artery leading downstate from Chicago and is served by five other highways and three railroads. The state constructed a new six-lane bridge across the Kankakee River in 1955. Another bridge is being modernized and a third bridge is being designed.

Recreational needs have not been neglected. In 1948 a \$650,000 bond issue was approved for a \$100,000 expansion of St. Mary's Catholic Hospital.

But not all of the problems resulting from the industrialization and growth of Kankakee have been met so easily.

Mayor Ed P. Madison lists the need for an expanded and improved sewage system as the city's top priority long range program.

Dutch elm disease has taken a heavy toll of elm trees and Madison regards combating the blight as one of the most serious problems. Street marking and expanded police and fire protection are projects which the city plans to undertake this year.

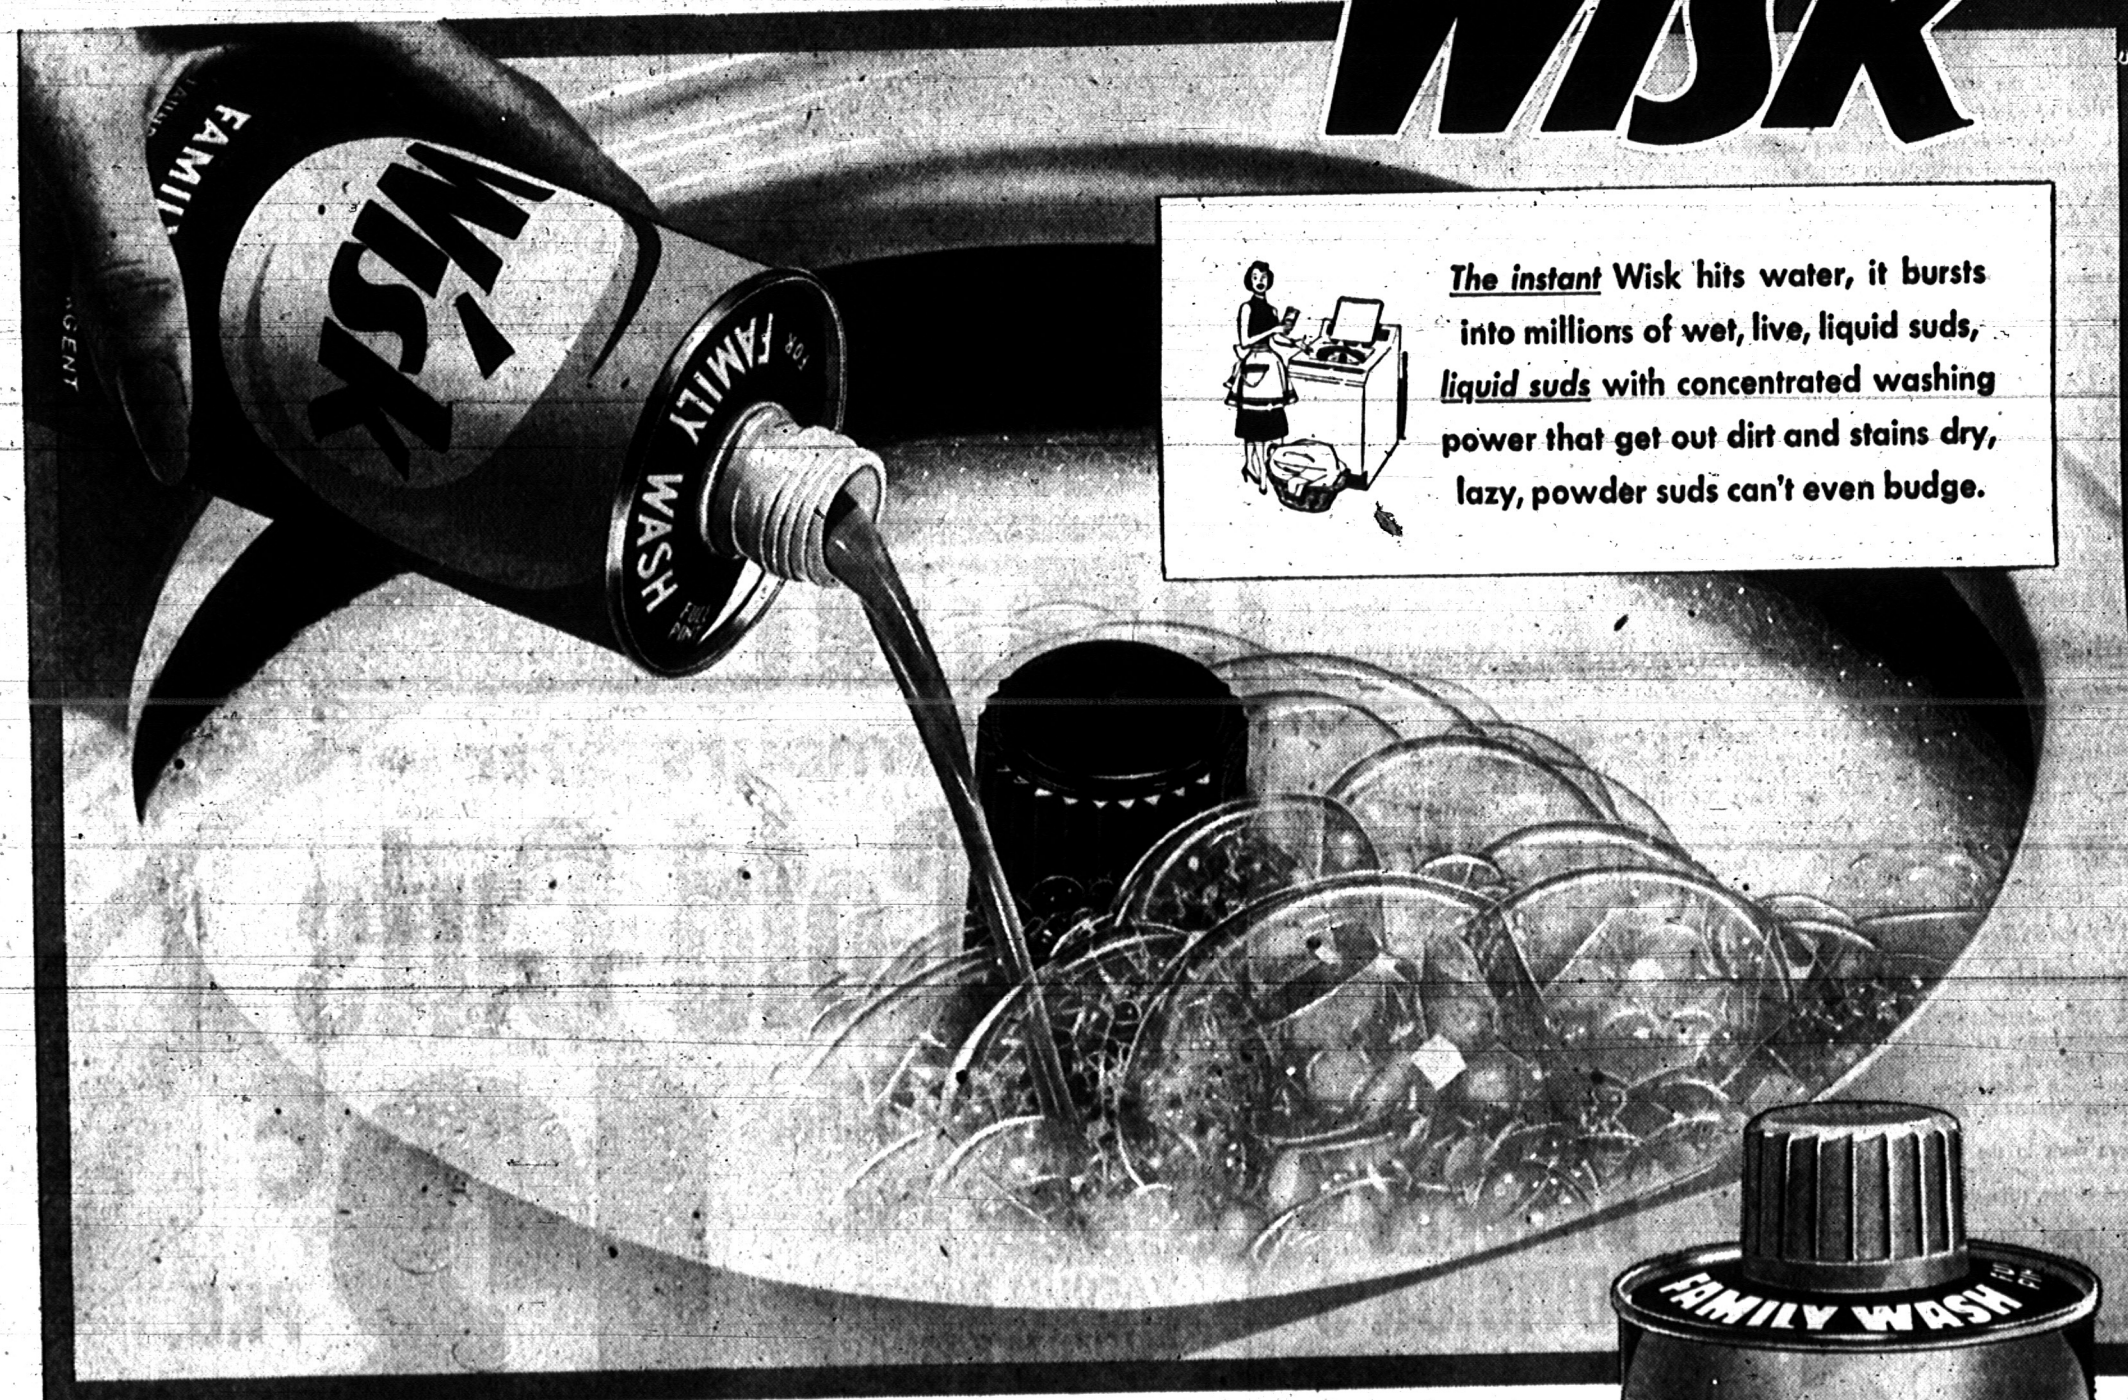

Like many other Illinois cities Kankakee adopted the one-half cent municipal sales tax. The revenue, if expected to help the city's improvement program but the tax has not been in effect long enough to add a significant amount of revenue. As a result of the improved finances of the city government the City Council repealed a \$6 a year wheel tax starting this year and also abolished a city tax on cigarettes.

The last year has seen the completion of two new shopping centers and new housing projects have been announced to keep pace with the growing demand for homes.

system of 19 parks, a \$287,000 swimming pool and a Civic Auditorium which serves as a center of cultural, civic and social activities in Gov. Small Memorial Park.

THE ANNOUNCEMENT on Feb. 9 that 1,715 acres of land along the Kankakee River, northwest of the city, had been dedicated to the state for recreational purposes by the Commonwealth of Edison Co., still mean still more recreational benefits to Kankakee.

## Liquid Miracle! No washday powder ever made can give you the concentrated washing power of new blue instant liquid Wisk

You will pour Wisk into your washer. It will get your family wash so clean and white that you will never use a powder detergent again!

**LIQUID MIRACLE!**  
WISK washes clothes whiter than any powder ever made! Without bluing or bleach, it gets white things up to three shades whiter with the first wash!

**LIQUID MIRACLE!**  
WISK removes most stains with water. Spread WISK directly on stain. Put in machine with rest of wash. WISK gets everything clean.

**LIQUID MIRACLE!**  
WISK is safer, much safer, than any powder ever made! WISK is safe as only a liquid can be. Safe for delicate fabrics, colors, safe for hands. And no need for bluing!

New, blue WISK is different from anything you ever tried. In the first place, it is a liquid you pour into your washer. It goes to work instantly. No waiting for powders to dissolve.

But, more important, new WISK is concentrated. It does three times as much wash as the same amount of powder. And does it better, too. For it gives you a concentrated washing power unequalled by any powder. Besides, new WISK is safe for fabrics—safe as only a liquid can be.

**MAKES ANY WASHER TURN OUT A CLEANER AND WHITER FAMILY WASH**  
Never again need you find a gray spot left in a just-washed napkin, or a lipstick stain in a hand towel, or a grease spot in a suit of coveralls. For concentrated liquid WISK penetrates deep into cloth fibers in a way no powder can. Safely, but thoroughly, it pulls out stubborn stains, removes hidden dirt, gets everything clean.

And wait till you see what WISK does for shirt collars and cuffs! Without bluing or bleach, it gets white things up to three shades whiter with the first wash. In fact, WISK gets all your family wash so clean it even smells clean.

**FIRST REALLY ALL-PURPOSE DETERGENT!**  
You will use WISK for just about every cleaning job in your home! It makes quick work of dishes. Soaks them clean. Concentrated WISK wipes grease off a stove or kitchen wall. It makes old, discolored linoleum look new. It gets yellowed kitchen cabinets white and shiny again.

WISK does the toughest jobs quicker, easier, more safely than products designed for these tasks. Now you can throw away those harsh and dangerous chemicals!

**NO MORE MESSY, SNEEZY POWDERS!**  
And what a blessing WISK is! It does away with "washday hay fever" . . . with clumsy, soggy boxes . . . with messy powders that spill. And because WISK does so many jobs so well, you don't have to clutter your shelves with all those boxes and bottles you used to need.

**WISK IS UNCONDITIONALLY GUARANTEED!**  
We've promised a good deal for WISK and we mean it. In fact, we guarantee it! If you don't agree that WISK is the best detergent you've ever used—not just as good, but the BEST!—we at Lever Brothers will return the purchase price to you . . . plus postage!

## Catsup Biscuits Top This Beef Pie

TODAY CASSEROLES have a definite spot in menus. They fit so well into our modern food habits. Here's a different ground beef dish. The beef is combined with lima beans, tomatoes and special seasonings, then topped with tender catsup biscuits.

One pound of ground beef is sufficient for six generous servings. Brown the meat in 2 tablespoons of lard or drippings. Then to the meat add 2 tablespoons of grated onion, 1 teaspoon salt, 1/4 teaspoon pepper, 1/2 cup of catsup and 1 No. 303 can of drained lima beans.

### MEAT PIE WITH CATSUP BISCUITS

1 pound ground beef  
2 tablespoons lard or drippings  
2 tablespoons grated onion  
1 teaspoon salt  
1/4 teaspoon pepper  
1/2 cup catsup

1 No. 303 can lima beans, drained  
2 cups sifted enriched flour  
1 tablespoon baking powder  
1/2 teaspoon salt  
4 to 6 tablespoons lard  
1/2 to 1 cup milk  
1/2 cup catsup

Brown meat in lard or drippings. Add onion, seasonings, tomatoes and lima beans. Pour into a casserole.

Sift together flour, baking powder and salt. Cut in lard until mixture has a fine even crumb. Add enough milk to make a soft dough. Turn onto a lightly floured surface and knead gently for 1/2 minute. Roll 1/4 inch thick and spread with catsup. Roll like a jelly roll and cut into 1-inch slices. Place cut side down on hot meat mixture in casserole. Bake in a hot oven (425° F.) for 25 to 30 minutes or until biscuits are done. 6 servings.

NEXT COMES the biscuit topping for the meat pie. Sift together 2 cups of sifted enriched flour, 1 tablespoon of baking powder and 1/2 teaspoon salt. With a pastry blender or two knives cut in 4-6 tablespoons of lard. When crumbs are fine, add only enough milk to make a soft dough (from 1/2 to 1 cup). Then roll out the dough, the same as a jelly roll, to 1/4 inch thickness. Spread with 1/2 cup of catsup. Roll up the dough and cut into 1-inch slices and arrange over the top of the casserole.

HERE IS your finished meat pie. It requires only 25 to 30 minutes baking time in a 425° F. oven. Serve with assorted relishes, dessert and beverage.

#### Try Cucumber Sauce With Fresh Fish

Sauce for the goose is not necessarily sauce for the gander. However, here is a good fresh Cucumber Sauce that will keep both happy, because it wonderfully enhances any broiled fish. This interesting sauce can be used on a different decoy each day, whether salmon, sword fish or white fish.

Peel a large cucumber. Cut lengthwise in quarters. Remove the seeds and grate the meat. Whip 1 cup thick sour cream, add 1 teaspoon lemon juice, 1/4 teaspoon salt, a couple of twists on the pepper mill and 1/2 teaspoon dill seeds, either fresh or dried. Fold in the grated cucumber. Chill and serve.

#### Bacon Easy To Prepare

IT TAKES just a few minutes to prepare, so why not have bacon for breakfast? Sliced the new thick way or the regular way, bacon may be panfried, panbroiled, baked or broiled.

Breakfast menu with a he-man appeal, that's a wholesome serving of bacon and waffles. Serve it for breakfast or a Sunday evening supper. It's a hit any time of the day.

Bacon, a typical breakfast meat, may be prepared in a variety of different ways.  
To panbroil bacon, place a single layer of bacon in a cool frying pan. Place the pan over low heat, turn the bacon frequently. Drain off any drippings as they accumulate. Cook slowly until the bacon is a light, golden brown and evenly crisped.  
Bacon may also be panfried, baked or broiled.

#### U.S. Reds To Hold December Parley

NEW YORK (U.S. News)—The American Communist party will hold its first national convention in six years in December.  
The convention call was announced Wednesday after a four-day meeting of about 50 top party leaders which was described as a "preliminary release" of the "most self-critical in the party's history."  
Most of the self-criticism at the top echelon meeting reportedly involved getting in step with Moscow on the new policy of downgrading Joseph Stalin, the late Russian leader.  
Details of the convention, including site and date, will be announced later.

#### Ex-Officer Freed In Man's Slaying

CHICAGO (U.S. News)—A former policeman has been acquitted in the fatal slaying of an old age pensioner.  
Melvin P. Hill, 35, the former policeman, admitted in Criminal Court Wednesday that he fought with Edward Crego, 72, who died after the fracas last Oct. 15. Hill said that Crego attacked him.  
Hill admitted leaving the scene after the fight. He was traced through his auto license.  
Hill was a probationary policeman at the time. He was fired after his arrest.

#### Whistling Can End Thumb Sucking

BOSTON (U.S. News)—Prof. Clifford L. Whitman of Columbia University offered a simple solution for child thumb suckers in a talk to the American Association of Orthodontists. He said if a child is taught to whistle it would take the thumb from his mouth and thus allow his teeth to develop normally.

## Working-Girl Cook's Quick Trick

By CECILY BROWNSTONE  
Associated Press Food Editor

HEAVEN MAY PROTECT the working girl—but heaven doesn't provide recipes. Our career-lady friends are always asking us to suggest dishes that are speedy to prepare.

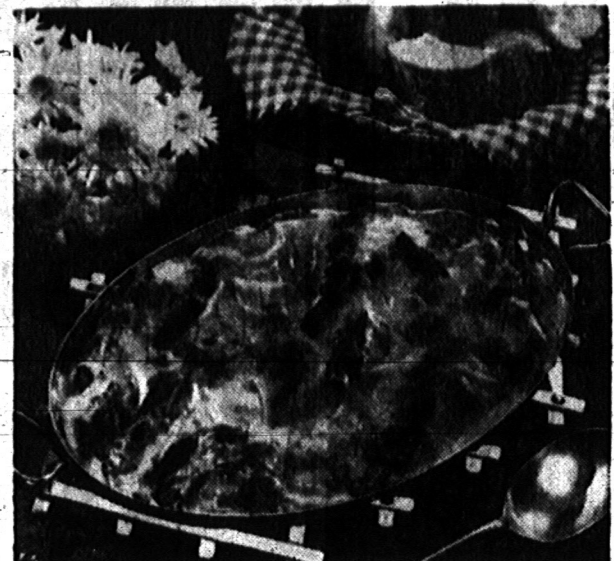

For lunch recently we served an easy new main dish—Creamy Chicken Hash. It could be used for supper. Diced cooked chicken and frozen potato patties are the main ingredients. Over them goes a sauce made with the comparatively new product, instant cream—so convenient because it can be kept on a pantry shelf. The dish can be baked to a bubbling brown while you set the table and make a salad. Hot crusty garlic bread is also a good accompaniment to the chicken casserole.

Once you try handy, instant cream in this sauce, you'll probably want to use it in sauces for other dishes because it adds richness. During the warm weather you can use instant cream in home-made ice cream sodas and in chilled soups to good effect.

Want your biscuits and pastry to have a beautiful golden glaze? Mix a tablespoon of the instant cream with a tablespoon of hot water; brush the mixture on the biscuits or pastry before baking.

If there are tea-drinkers in your household we can strongly recommend instant cream for use in a good hot strong cup of that comforting beverage.

The quick-frozen potato patties called for in our Creamy Chicken Hash recipe come four to a 12-ounce package. They are made of

CHICKEN HASH made with instant cream and frozen potato patties.

shredded raw potatoes seasoned with salt and onion, and are rectangular in shape. They should not be thawed before using in the chicken hash casserole.

### CREAMY CHICKEN HASH

Ingredients: 1/2 cup instant cream, 4 tablespoons flour, 1 1/2 cups seasoned chicken broth (cold or warm), 1 package (12 ounces) quick-frozen potato patties, 2 cups diced cooked chicken (bite-size pieces), grated Parmesan or Romano cheese, paprika.

Method: Stir instant cream and flour together thoroughly in a saucepan. Gradually stir in the chicken broth with a whisk or a fork so mixture is smooth. Cook and stir constantly over moderate heat until boiling and thickened.

Place frozen potato patties in bottom of shallow casserole. Pour sauce over chicken. Sprinkle generously with grated cheese; sprinkle with paprika. Bake in

moderate (375 degrees) oven until top is browned and sauce is bubbling—about 25 minutes. Poke a fork under chicken and sauce and try potatoes to make sure they are cooked. Makes 4 servings.

## U.S. Chamber Rejects Plan To Join OTC

WASHINGTON (AP)—Rejecting a direct, convention vote, the U.S. Chamber of Commerce set in motion today a referendum among its 3,100 affiliates on whether this country should join the Organization for Trade Cooperation.

By a 27-183 tally, voting delegates to the Chamber's 44th annual convention declined Wednesday night to act on a resolution which would have endorsed American entry into the 35-nation OTC.

In so doing, they overrode the recommendations of their 32-member Policy Committee and turned a deaf ear to an indirect plea from President Eisenhower.

OTC has been proposed as an administrative office for the General Agreement on Tariffs and Trade (GATT). Congress has never formally approved U.S. participation in GATT, and some members oppose joining the OTC.

"THE CHAMBER'S action means that it probably will not be able to go on record concerning OTC before Congress acts on the controversial question."

The fight to save the resolution endorsing OTC was led by William Blackie, chairman of the Chamber's Foreign Commerce Committee and executive vice president of the Caterpillar Tractor Co., Peoria, Ill.

He read a letter from Gabriel Hauge, presidential assistant on economic matters, saying Eisenhower "earnestly hopes the Chamber will see its way clear to endorse the principles" of U.S. participation in OTC and calling it "vitally necessary to his program."

One opponent of the resolution, Chase M. Smith, general counsel of the Lumberman's Mutual Insurance Co., Chicago, said during the debate that OTC represents "an attempt to change from a free enterprise system to a world planner's dream."

Introducing Lever Brothers' new non-dairy spread for bread!

## Imperial THE FIRST MARGARINE UNCONDITIONALLY GUARANTEED TO TASTE LIKE THE HIGH-PRICED SPREAD!

All you need to do is try it once! You can taste that Imperial is a completely new kind of margarine... a product so superior that it carries a guarantee never before made in all of margarine history. But then, there's never been a margarine like it! Imperial is the first margarine unconditionally guaranteed to bring you the tantalizing flavor formerly found only in the expensive spread for bread.

Imperial's Got That Flavor

Flavor is what's been missing in margarine. And flavor is what Lever Brothers devoted seven years to achieve... seven years of testing formula after formula to bring you the incomparable flavor of the expensive spread for bread. It wasn't hard to make Imperial spread smoother and easier than any other margarine. And it wasn't hard to make Imperial as nutritious as even the most expensive spread you can buy. The trick was flavor. And Imperial is the first margarine to capture and hold that unmistakable flavor everybody loves.

Tastes Like the High-Priced Spread

We know you may find it hard to believe that a margarine could live up to all we claim for Imperial. So, we want you to give Imperial the toughest tests you

know. Spread Imperial on bread or toast... use it for seasoning vegetables... plop a generous chunk of Imperial in your frying pan and set it sizzling with eggs for your fussy husband. Any way, and every way, new Imperial tastes like the high-priced spread.

**Aroma to Match That Flavor**

Imperial's superiority shows itself in many ways—as a matter of fact—in every way you use it. For instance, when you fry with Imperial, just lean over and sniff its sweet, fresh goodness. Imperial smells so good it makes you hungry just watching it melt. Hot or cold, in your frying pan, or spread on bread, Imperial is the one margarine you'll never have to make excuses for—no matter how fussy the company.

**You Agree, or We Return Your Money!**

Try Imperial and see. Remember—when you take home a pound of Imperial, you're not buying, you're just trying. Because Lever Brothers unconditionally guarantees Imperial will taste like the high-priced spread to you, or they'll return every penny you spent to try it.

P.S. Like the high-priced spread, Imperial is delicate and perishable. So to protect its perfect flavor, always keep Imperial in your refrigerator!

**DON'T CHANGE YOUR TASTE! JUST CHANGE TO IMPERIAL!**
