Benefit Foreseen From County Zoning Measure

Action by the Kankakee County Board and George Luehrs, its chairman, toward a county zoning measure and county zoning measures merits public commendation because such measures have been found good in other localities as guides to orderly growth and as safeguards in the long run for property values of the general public.

Such regulation need not be invasion of the private rights of individuals. Rather, it is drawn up to protect the 98 per cent of the citizens of a county or city who wish orderly growth as against haphazard mushrooming and, in many cases, invasion of the rights and security of others. Existing property would not be affected.

In our modern social-economic system of interdependence, the interests of the many must take precedence over the interests of the individual in community growth. Good zoning and associated regulation helps everybody by stabilizing property values and eliminating frictions over the use of property.

Today's thrown-together buildings are tomorrow's shacks. Carelessness today with drainage and sanitation makes tomorrow's health emergency.

There is no need for rural areas to be apprehensive over such measures. They would protect the interests of rural people as well as those of the towns. The entire purpose of such laws is to insure the best possible use of land and to protect property from undesirable uses. It is an obvious fact that agriculture is the best possible use of most of the land in this county.

It should be emphasized that building code and zoning regulations are not intended to keep out industries. This area has benefited too much from industry to consider such action for a moment. Modern industry, we have learned here, is an asset indeed a necessity to an area which needs tax help to pay for new schools, roads and other improvements which accompany growth and progress.

We should continue to encourage the establishment of good industries here, such as we have now, and help them find plant sites that best serve their needs, which are separate from the needs of home builders.

It is important that the county board have the cooperation of city, village and township officials in this enterprise, as well as the backing of the general public.

Trouble Abroad Shows Up In Price Rise Here

Recent increases in prices of crude oil and gasoline are expected to become nationwide. Some crude prices have shot up 12 per cent.

One of the firms involved in the boost claims that a big factor is the notable rise in oil industry costs since the last price hike in 1953.

Also, the sharp drop in shipments of Middle East oil via Suez to our east coast is a prime factor. Furthermore, shipments from this country abroad to take up some of the emergency slack in Europe have put additional pressure on our supplies.

This teaches afresh the lesson of our close link with the rest of the world. In this interdependent age there seems to be no way to obtain insulation from events which stir any quarter of the globe.

Social Security Good, Should Be Controlled

OTTAWA DAILY REPUBLICAN-TIMES

Everyone covered by social security began paying more for the privilege at the first of the year, but chances are there will be few complaints. This government program of paying benefits to citizens in their sunset years, in return for contributions during their earning lives, has gained thoroughgoing acceptance as a part of the American system.

The present increases in social security payments are to go into a special fund to pay for a new disability program under which benefits will be paid beginning at age 50 to workers who become totally disabled. Congress also established a provision under which women workers may start getting benefits at 62 instead of 65.

There is no longer any doubt that the American people favor the principle of social security. That principle would be violated, however, if the program were ever to degenerate into a mere government handout. Social security is not a handout; it is a return to the workers on the basis of their contributions over the years.

Knowland Can Be An Independent

WASHINGTON—Politics and the ambition of men to serve in high office sometimes lead them to surrender convictions to expediency or to report to critical ways of seeking to gain prestige.

It is, therefore, refreshing to note the forthright way in which Sen. William Knowland of California, at present Republican leader of the Senate, has voted to support the independence of the Philippines.

This gives David Lawrence Knowland the opportunity to steer an independent course in the present session—to express his support of administration policies when he agrees with them and to dissent when he feels impelled to do so. The post of Senate leader is never intended to be a "rubber stamp" affair. Both in the Democratic and Republican parties in the Senate during the last half century, the elected leader has reserved the right to transfer to a committee chairman or to a deputy leader the task of guiding administration measures through the Senate when he feels conscientiously a difference of opinion.

The late Sen. Barkley in 1944 differed with President Roosevelt on an important tax bill and, when a veto came, the Kentucky senator resigned his leadership position only to be reelected by an almost unanimous vote of his party in the Senate in 1948.

Today's thrown-together buildings are tomorrow's shacks. Carelessness today with drainage and sanitation makes tomorrow's health emergency.

There is no need for rural areas to be apprehensive over such measures. They would protect the interests of rural people as well as those of the towns. Let's Explore Your Mind

By Albert Edward Wiggam, D. Sc.

KNOWLAND IS ONE OF the most conscientious men who ever entered public life. He candidly says what he thinks and is not given to wishy-washy statements of evasion so common in present-day politics. He is unquestionably presidential timber. He has the mind of a great statesman, for he is not unwilling to risk popular disapproval in the name of principle. He is not afraid to express his opinion forthrightly in accordance with deep-seated convictions.

This correspondent has not discussed with Sen. Knowland his recent announcement or his reasons for making it at this time. But from a knowledge of the California senator's record in public life, it is natural to conclude that he did not want to wait to make his announcement until early in 1958 and in the interim give the impression that he had not made up his mind. He preferred to let other candidates for the Senate seat in California know far in advance that the field is open.

Will Knowland try for the presidential nomination in 1960? To answer that question requires an answer to another one—what will the political situation be in 1960? Will the administration have proved popular? Will the voters want a change? Will Vice President Nixon, if considered a logical nominee for the presidency, represent in the public mind a continuation of Eisenhower policies, and will the voters want him or someone else who has somewhat different views on major issues? To put it another way, maybe the country 3½ years from now will be in a far more conservative mood than it is today. Maybe the international situation will have created issues that could conceivably affect the trend in the next presidential election.

IT IS TOO EARLY TO appraise the 1960 outlook except to note that for Knowland there is no politics future here in remaining as Republican leader of the Senate. He will have accomplished all he can as a Senate leader and will have obtained invaluable experience for the future if he should be chosen as the Republican presidential nominee in 1960 or thereafter, for he is only 48 years old now.

But if Knowland wants to be in the next presidential contest, he will have to run for and be elected governor of California—the second largest state in the union now. Also if Thomas E. Dewey wants to be in the 1960 race, he will have to run against Gov. Harriman and lose the governorship of New York State in 1958. A governorship, after all, is a steppingstone to the presidential nomination more frequently than it is a leadership post in Congress.

There is no longer any doubt that the American people favor the principle of social security. That principle would be violated, however, if the program were ever to degenerate into a mere government handout. Social security is not a handout; it is a return to the workers on the basis of their contributions over the years.

Algerians Fight On For Freedom

By John B. Crane

ALTHOUGH FRENCH forces killed 18,960 Algerian rebels last year, with only 2,435 casualties of their own, there appears little likelihood that the Algerians will give up their determined drive for independence.

The independence movement may have been slowed down somewhat by the massive punitive campaigns conducted by hundreds of thousands of French soldiers in Algeria during the past year, but native resistance is still strong, and the JOHN B. CRANE Algerians are more united than ever before in their opposition to French rule.

Later this month, the United Nations will take up the Algerian problem in its 15th session. It is hoped that the French will agree to a ceasefire and to a referendum on Algerian independence. If this is an example of French democracy and equity, it would be a great step toward independence.

One can easily find much to criticize the French about in their political administration of Algeria, but to be fair, one should not overlook the benefits which France has bestowed on its North African territories, including Algeria.

DURING THE PAST 100 years, since France succeeded in pacifying the Algerian tribes and introducing the French system of law and government, tremendous improvements have taken place in the country. These changes have been at an exceptional rapid pace since the end of World War II, and have been followed by a very rapid growth of population. From 2.5 million people a century ago, the population has

grown to nearly 10 million at the present time, although 14 per cent are European.

During the past 15 years, the production and consumption of electricity has tripled. Production of coal, iron pyrites and zinc have increased several hundred per cent. Since 1939, production of rolled steel has doubled, while that of cement and soap has increased nearly six times.

Today, Algeria has a network of modern surfaced roads totaling over 12,000 miles, an increase of nearly 2,500 miles since the beginning of World War II.

THESE ARE ONLY A FEW of the production statistics to which the French are proud to refer. Much more such data, together with other interesting information about life and conditions in Algeria, are contained in a beautiful 62 page brochure, with pictures, issued last year by the Information Service of the general government of Algeria. Copies of these are available at the French Embassy here in Washington. They present the Algerian problem exclusively from the French standpoint, of course.

It cannot be denied that Algeria and millions of Algerians have other ways from French rule. But more bread is not considered a satisfactory substitute for more freedom in the eyes of most Algerians who, like the rest of their Arab and Moslem brethren, have little love for the French, to put it mildly.

MANY ARABS WITH WHOM I talked in the Middle East last year declared passionately that they would prefer complete independence and poverty, to comfort and continued subjection to French or British rule.

When millions of Africans and Asians feel that strongly about independence, it is only a matter of time till they will get it. The best French can do, in my opinion, is to fight a rearguard action, and try to see that complete freedom is not granted so rapidly as to invite chaos and the possible establishment of a communist regime.

It has been suggested by some that the United Nations take jurisdiction over Algeria and give it freedom gradually, as was done in the case of Libya after the war. This would furnish France an honorable way out, and save the millions of dollars, trying to pacify Arabs who remain obstinately unappeasable.

Apparently it's a matter of psychology.

U. N. Complexities

THE UNITED NATIONS has thus far had two secretaries-general and each has been from a Scandinavian country and each has been from an American standpoint, somewhat to the left. The reason for this is that the secretary-general has to be acceptable to Soviet Russia as well as to the United States, and all the countries and blocs that comprise the United Nations. The secretary-general, in accordance with the charter, has to be elected by the General Assembly after having been recommended by the Security Council.

In a word, he has two burdens to bear: in the Security Council, he must satisfy both Soviet Russia and the western powers; in the General Assembly, he must satisfy nearly everybody. There are now 50 nations in the United Nations and they are divided into groups that often vote as blocs; the Soviet countries with rare exceptions vote as though one man were casting the vote for all of them; the Afro-Asian group votes in a bloc; the NATO powers have usually voted the same way and so it has gone.

A secretary-general has to be fairly milk-and-water, really controversial people could not reach first—G. Sokolsky

THE DIFFICULTY IS THAT the secretary-general has considerable to do under the charter of the United Nations. He could become a tremendous influence in the affairs of the world. Neither Trygve Lie nor Dag Hammarskjöld has developed great importance in the affairs of his own countries, nor do their respective countries exercise great influence in world affairs.

The secretary-general is the top permanent official of the United Nations. The presidents of the Security Council serve only one month at a time so that they may not count. The president of the General Assembly is elected for a session. He has no administrative responsibility. There is a general committee of the General Assembly, consisting of the vice presidents and the chairmen of the six main committees which really conduct each session.

The way the United Nations is organized, the secretary-general and his staff really run the show and as long as nobody's toes are stepped upon, the secretary-general can have his own way, particularly as the main business of the United Nations is conducted in a maze of committees which are not dramatic as the Security Council or the General Assembly. These committees and various commissions are run by the hired help among whom are numerous left-wingers, including communists.

IN FACT, BECAUSE OF THE conflict between capitalism and socialism in its various forms, any international agency, no matter for what purpose established, is bound to become a stage for the war of ideas. Nowhere is this so sharp as in the International Labor Organization which has three types of delegates, those representing employers, labor unions and governments. But what happens when the Soviet country joins the ILO? In such a country employers are officials of the government which owns and operates the means of production, distribution and exchange. Similarly in such a country, the labor unions are governmental agencies. Therefore, all the delegates from such a country are government officials and represent a government point of view. W. L. McGraw, representative of the American employers to the ILO, has undoubtedly been astonished by the American employers to the ILO, to discover that although the United States pays 23 per cent of the cost of the ILO, it is now, from an ideological standpoint, a socialist organization. This is a natural development as most of the member states are socialist and the American government delegates are more concerned with preserving the ILO than with ideological concepts of it.

The charter of the United Nations was supposed to be reviewed and possibly revised and amended in 1958. The year has passed and nothing has happened because there could not be agreement between the Soviet bloc and the Western bloc as to what should be done. In a word, the question of amendment of the United Nations charter is stymied; the world is stuck with the present charter until one group or the other has control of the U.N., or it goes out of existence because it does not serve effectively.

Eden's Successor Certain To Heal Wounds In U. S.-British Relations

WASHINGTON (UP)—U.S. officials today welcomed the appointment of Harold Macmillan as new British Prime Minister. He is regarded as a friend of the United States who will work for improvement in U.S.-British relations.

Macmillan probably will be invited to come to Washington for talks with President Eisenhower early in the year.

Eisenhower had rebuffed reports by former Prime Minister Anthony Eden to visit Washington immediately after the U.S.-British split over Egypt, but high officials said Macmillan would be made welcome whenever he is interested in coming over.

THE UNITED STATES has been pleased with Macmillan's policy of meeting the latest crisis by domestic, but high officials said Macmillan would be made welcome whenever he is interested in coming over.

Most Stores Feature Beef For Weekend

By THE ASSOCIATED PRESS

Special sales in food stores across the country this weekend give housewives a wide choice of meat items on their menus.

Beef continues to be the meat most often found on sale, particularly in cheaper cuts like chuck.

Ground beef is also plentiful and in some areas roasts and steaks are on special sale for the weekend.

Lamb prices edged a little higher on wholesale markets but some food stores offer various cuts at special sale prices.

SOME STORES show a considerable drop in pork prices although the level is "merely" still above the bargain prices of a month ago.

Wholesale prices for hogs went down a little, promising future reductions at retail, but dressed "eat at wholesale" was up a little this week in some markets.

Egg prices are down several cents in most areas.

Winter vegetables are plentiful in a wide belt across the middle states. This puts nearby cabbage, onions, carrots, beets, parsnips and turnips in the category of outstanding buys.

New crops of cabbage, beans and carrots are coming to the market from growers in the Deep South at prices regarded by government experts as good buys.

Potato prices moved up a little bit in most wholesale markets, but are still in a range that most housewives would consider a good buy.

The Case Of The 89 Bones' Revived

The "Case of the 89 Bones" in which Warren Cleaver Brown was convicted of slaying of his wife received revived attention in Atlantic City, N. J., with the discovery of this trunk admittedly owned and containing the belongings of Brown.

He denies knowledge of the skull in the trunk but the skull was missing at the time of his conviction. Shown examining the trunk contents are State Police Detective Leroy Umbholtz and Trooper R. E. Haas. (Ulfah)

DAMASCUS, Syria (U) — Adnan Attassi, former Syrian ambassador to Paris, has testified that Iraq is working for an armed revolt in Syria.

Eden also gave up a \$28,000 income when he resigned. He is not wealthy, but this was believed a minor problem since he can take his pick of a handful of business directorships if he wants them.

ARMY TYPE IS CUT DETROIT (UP)—A woman worker won \$200 for a suggestion that did away with 46 million inches of tape at the Army Ordnance Center here.

Mrs. Ruby Finckle keeps tabs on automotive spare parts. But she got tired of all the paper work that came in from Army Ordnance posts.

She suggested that much of the information be consolidated on separate 100-inch tapes. The Army said her idea would save \$8,000 a year in tape.

COASTER FINED FOR SPEEDING! LONDON (UP)—A motorist coasting downhill to save gasoline during rationing was fined \$10 Wednesday for speeding.

DOCTOR IN PALACE To Be Near Grace MONTE CARLO (U) — One of Princess Grace's doctors took up residence in the royal palace today although the birth of her child is still predicted for Jan. 20.

HOUSE HUNTING First Eden Job After Resignation LONDON (UP)—One of the first tasks facing Sir Anthony and Lady Eden will be that of house hunting.

When Eden resigned as prime minister he gave up his official residence at No. 10 Downing Street and the sprawling country estate of Chequers in the Chiltern Hills.

That left him with but one home of his own, a quaint little cottage with a thatched roof and rose pink walls in Wiltshire which Lady Eden bought some years back. It is not suitable for entertaining or commuting to London.

Eden also gave up a \$28,000 income when he resigned. He is not wealthy, but this was believed a minor problem since he can take his pick of a handful of business directorships if he wants them.

SENIOR RECITAL SATURDAY Two Olivet Nazarene College students will present senior recitals Saturday at 8 p.m. in the college recital hall.

TRIPLETS TIE SCORE For Mother Of 11 ERIE, Pa. (UP)—A 38-year-old mother of 11 children who gave birth to triplet girls, said today "we'll make out the best we can on her husband's \$65-a-week salary."

Mrs. Ida Burnett of Albion, Pa., said "It's wonderful that they are girls." Mrs. Burnett said: "We have seven boys and four girls at home and the triplets now even the score."

WHILE A HEAVY snow presents countless hazards and inconveniences in this modern world, mankind is unable to ignore the quiet veil of beauty that masks the scars of time. Above is a view of the steps leading to the Bird Park Club House as the sun's rays cut through the early morning sub-freezing temperatures.

THERE'S A TRICK to plowing, whether it be in a field or on the highway. But it's even more tricky to plow an ice-covered river. At least, that's what workmen discovered at 8:30 a.m. today while attempting to clear the ice at the Beckman park boat docks for ice skating. The tractor plow pictured above proved to be too heavy for the ice and sank. William Noe, park employee, is shown operating the tractor as a tow truck prepares to pull it to shore.

When park employees tested the ice Wednesday night, it was three inches thick. Looking on (at right) is E. J. LaPorte, park district superintendent. (Journal photo)

DEPUTY Aids As Snowbound Mom Has Tot CHICAGO (U) — Mrs. Charlotte Leonhardt felt the warning signals of labor pains. Then the pangs of anxiety.

For the time to give birth to a baby was at hand. And she was alone in her home in Schaumburg in northwest Cook County, marooned by snow that formed waist-high drifts.

She appealed to three neighbors they made frantic efforts to get their automobiles going. But they were trapped, helpless.

An emergency call brought Deputy Sheriff Jerome Krokocki and Thomas Mann to the rescue. Krokocki waded the last 100 yards to the home.

KROKOCKI helped bring an 8-pound boy into the world early today — the first time he ever had handled a maternity case.

Deputy Mann, meanwhile, had hauled a passing snowplow. A path was cleared to the home. The 38-year-old mother and her child were placed in the squad car. With the snowplow running interference, the car made a 15-mile, half-hour trip to St. Joseph's Hospital in Elgin.

A doctor examined the new patient and gave the chilled parents a brief but warming tribute. "Well done," he said.

Autos Damaged Two cars were damaged when one slid into the other on Chicago Avenue near Oak street about 10 a.m. today.

The drivers were Frederick A. Hunt, 20, Chebanse, and Marge M. Epton, 57, 723 S. Wildwood Ave. Both were headed south on Chicago.

The police report said the Epton car stopped and was struck in the rear by Hunt, who was unable to stop because of the icy street.

No injuries were listed.

IN THE OLD DAYS, they say, the snows were deeper. But then, the walks were fewer and the driveways were shorter. Today, the average motorist virtually needs a plow to get his car from the garage to the road. Ralph Chandler, 1388 Walnut St., resorts to the more "primitive" methods of clearing the way for his truck.

Driver Given Jail Sentence George Cooper, 412 N. Wildwood Ave., was sentenced to 30 days in county jail when he was unable to pay fines on four traffic counts in police court today.

Authorities said Cooper was to property displayed.

Magistrate Paul Davidson fined him \$25 on the stop sign count, \$100 (\$80 suspended), for having a fictitious driver's license, \$14 for having fictitious license plates and \$14 for having license plates made in a non-fire district.

Plans are under way for the annual fireman's ball.

WEATHER CONDITIONS today in Kankakee gave many an opportunity to view the wonders of nature's winter scene. the shining look of Mid-America -1957

The road ahead for Mid-America shines as brightly as the Illinois Central rails that carried more freight for more people last year than ever before.

Doing its share toward keeping this future shining, the Illinois Central has held down the cost of its services. It has speeded up freight trains, added new equipment, extended piggy-back routes and given passengers finer service.

To make these improvements, despite rising wage and material costs, the Illinois Central has spent \$265 million since the last war. It has bought diesel locomotives by the hundreds and added more than 22,000 new cars. It has laid heavier rail and, in some places, put down continuous welded rail. It has built electronic yards and installed new signal and communications systems.

Better planning, better machines and better-trained personnel all contribute to the bright look ahead. It will become even brighter when more reliance on competition and less on regulation permits our rates to reflect the full economy of modern rail transport.

Meanwhile, the Illinois Central continues determined to look ahead always for new ways to provide the low-cost, modern transport its friends and neighbors deserve.

Is It Better? Find Out in 2 Tilts

Face Fractional, Blue Island in Weekend Card

The holiday "truce" is over in the South Suburban League and Kankakee High coach Earl Jones is anxious to find out whether the improvement in his team showed during the Yuletide season was the real thing or just the result of the Christmas spirit.

Jones ought to be convinced one way or the other over the weekend, for his last-place Kays go into league action today at Thornton Fractional (Calumet City) Friday and against Blue Island at home Saturday.

All eight SSL teams are in action twice this weekend, the big games being the Leyden-Bloomington encounter Friday at Chicago Heights and the Bloomington-Leyden-Lockport engagements Saturday. Leyden and Lockport are both undefeated in four league games while Bloom and Thornton have each lost once.

In other games Friday, Lockport is at Blue Island and Thornton at Argo. The other Saturday game sends Argo to Fractional.

FRIDAY'S KANKAKEE - Fractional game is a cellar battle, for neither of the combatants has registered a league victory in four starts. Fractional, in fact, has won only twice in its 18 games both in and out of the league. The Kays have done a little better overall, winning four while losing eight.

It is the last of those four victories, a sparkling 7-1 triumph over a small but polished Danville five, that encourages Jones to think that his boys may be coming—that game plus three fast to excellent performances in their own holiday tournament even though they lost two out of three games.

The Jonesmen have won two of their last four starts and were credited with a near miss when they came within a hair of upsetting strong Ottawa in the tournament third-place game.

Most of the Kays' recent success has been due to the return to early season form of two seniors, guard John Donley and center Dan VanMitt, whose defensive play during a six-game losing streak was so poor that they were benched for several games.

DONLEY'S SHOWING of late has been particularly encouraging. The speedy guard, who picked up hands seems to have regained his confidence and he has scored 40 points in the last four games. VanMitt, although playing less than half of the Danville game because of foul trouble, nevertheless hit on eight of 10 shots in a brilliant shooting display.

Jim Windmiller and Carl Coleman, the two juniors who have been the steadiest workers for Jones all season, will be at the forward spots again Friday. Coleman, however, is still bothered by a finger he smashed in a car door New Year's day and if it still hampers him by Friday, sophomore Mike Wright may again get the call.

Jones has tried seniors Tyrrell and Kenny Palmater and junior Walt Johnson in his quest for a fifth starter and has been steady, although each has turned in good jobs on occasion. Tyrrell looked good in relief against Danville and Jones has decided to give him another chance.

The Kays had to hit a torrid streak to get back on a par with the almost equally warm Danville Maroons and they can't be expected to continue the pace, especially since they had only twice previously hit above .400. But they won't have to be that good to win most of their games and if they can average around the .400 mark they can expect to step up their victory pace.

FRACTIONAL, despite its poor record, hasn't been doing too bad in recent games. Bob Masterson's lowly Meteors have lost their last six starts but have put up good scraps in all six, losing two games in the Pontiac tournament (to Pontiac 52-50 and Kewanee 53-51) and two points each in the last two. St. Anne and Mokena will hook more than 13 points. They played league-leader Lockport on even terms for three quarters before losing 57-46.

The only common foe Kankakee and Fractional have played are Thornton and Leyden. Thornton edged the Kays 41-30 and dumped Fractional 60-47. Leyden walked Kankakee 73-54 and Fractional 54-30.

Central Changes Mind; To Stay In W-R-K Conference

S. P. Monthie, superintendent of the Central Community Unit District No. 4, confirmed a report today that Central will remain in what is now known as the Wil-Ro-Kee Conference. He said the decision was made at a meeting of the school board Monday night.

Central was one of the four schools which several weeks ago elected to organize a new "All-Activities Conference" consisting also of Mokena, St. Anne and Gilman of the old W-R-K and Herscher. The other three members — Bradley-Bourbonnais, St. Patrick Central and Crete-Monea — were also to form a new circuit, taking in Wilmington and Morris. Morris later withdrew to join still another conference.

Monthie declined to give details of the reason for a change of mind in the new alignments other than that the board decided that the best interests of the school would be served by joining the larger schools.

He also declined to comment on reports that Mokena will decide this week whether to rejoin Central back to the larger school alignment or remain with the small All-Activities organization. It has been rumored that if Central decided to stay with Bradley, St. Pat and Crete-Monea, Mokena would do likewise.

Bradley Does Things By 'Halves'

Hopes To Play Whole Game Against Gilman

By GIL BRENNER
If the Bradley-Bourbonnais game can develop into as good a first half ball club as it is a second half team, somewhere along this season, the warning flag will go up over the school for all sports.

The Bradley boys will be hosting Gilman Friday night in a Wil-Ro-Kee Conference game. The boys have been playing well in the first half, but have been losing the second half for the last two games.

Who'll Stop B-B? That's Big Question In Wil-Ro-Kee

By THE ASSOCIATED PRESS
A Collinsville-Edwardsville duel and a decisive Peoria area contest feature Illinois high school basketball action.

Collinsville's untapped Kinko stands out in the southwestern area as the second-ranked team in the state. A Kinko triumph would strengthen its area position since Edwardsville, a perennial strong rival, has outplayed all southern teams but Pinckneyville and West Frankfort. The game comes Saturday, the night after the Kinko entertain Alton, and Edwardsville goes to Belleville.

PEORIA Central's Lions, sluggish starters now apparently running at high speed, attempt to dump Peoria's Chiefs Friday. The Lions are ranked 4th and Pekin 15th. Both have had trouble with East Peoria, in the 13th spot. Central plays at Decatur Saturday, while Pekin entertains Peoria Manual.

East Peoria is at Lima Saturday. The game is a double overtime. East Peoria has lost only once, in a double overtime to Elgin. So far, East has lost only once, in a double overtime to Elgin. So far, East has lost only once, in a double overtime to Elgin.

Can any league team beat Bradley-Bourbonnais? That's the question facing the Wil-Ro-Kee Conference teams right now. The Bradley boys will be hosting Gilman Friday night in a Wil-Ro-Kee Conference game.

Plaque For 'Coach Of Year'

NCAA Frowns On Plan For 'Player Contracts'

ST. LOUIS — The National Collegiate A. A. probably will strengthen its rules on amateurism and recruiting of athletes, but the plan to allow colleges to sign "player contracts" has been rejected.

The trend toward tightening controls was reflected in discussions leading up to a second day of debate today and the plan to allow colleges to sign "player contracts" has been rejected.

During Wednesday's sessions, the NCAA council refused to modify a list of penalties inflicted on three Pacific Coast Conference colleges which had asked for a lighter loan based on a conference decision.

The American Football Coaches Association closely allied with the NCAA, handed out unprecedented penalties.

The football coaches ethics committee, acting principally on information obtained through NCAA investigations of recruiting and subsidizing violations, slapped down nearly a dozen members of the coaches for acting unethically.

Seek Revenge Friday From Joliet Catholic

By JIM TISHE
A seventh victory in 14 starts will be the target of the improving Fighting Irish of St. Patrick Central when they tangle with Joliet Catholic in a home game Friday night.

The Green and White will have several goals when they take the floor. First the Patricians want to avenge an early season loss to the Irish when they were 1-10.

In Joliet Catholic, the Irish will meet a team which has been meeting tough competition all season. The high point of the Irish's record was when they captured the Morris-Holtz tournament by defeating Morris 63-48.

The Hilltoppers upped their record to 4-6 last Tuesday by defeating Immaculate Conception of Elmhurst 73-45. The six losses have all been to tough teams—Thornton 60-47, Lockport 68-36, Joliet 54-52, Dupue 75-55, Downers Grove 68-67, and Blue Island 59-51.

COACH LEROY Leslie's crew has tossed in 691 points this season, an average of 37.6 points per game. Hilltoppers opponents have flipped in 649 points for an average of 32.4.

In the December game at Joliet, the Hilltoppers grabbed a 62-54 victory. A cold second quarter hurt the Irish in that game as they played the Hilltoppers on even terms in the other three quarters.

The Hilltoppers have been playing well in the first half, but have been losing the second half for the last two games.

WATSEKA stands between the Rantoul Eagles and their second straight Wausau Conference Championship.

The Eagles have found easy pickup in the rest of the conference, defeating Gibson City 62-41 and 48-30, Oakwood 63-49, Paxton 76-53 and Hoopston 82-48.

Hungarian Miler Denies Spouting Off

NEW YORK (AP) — A 3:29.8 clocking for the mile run stamped Lakos Tabori of Hungary a fast runner. Wednesday night he proved himself a fast talker as well, flatly denying statements which had him dissatisfied with living, eating and training conditions in Miami.

Basilio's Hand Hurt; Asks Postponement

CLEVELAND (AP) — An examination by Cleveland Boxing Commission physician today was to determine whether the commission will grant welterweight champion Carmen Basilio's request for a postponement of his title defense against Johnny Saxton because of an injury to his right hand.

BASILIO AND his managers were scheduled to appear before the boxing commission to ask for an official postponement and a new date for the fight.

McIntosh Larry Atkins said \$50,000 worth of tickets already had been sold for the third Basilio-Saxton bout scheduled Jan. 18.

He said he requested today's examination after being informed Wednesday by Billy Brown, matchmaker for the International Boxing Club, in a telephone call that Basilio would request a postponement.

Basilio, in Syracuse Wednesday night for the Wayne Bethe-Zora Foley fight, said he had injured his hand in training and would postpone his bout with Saxton at least five weeks. His hand was bandaged.

BASILIO SAID he had bruised the hand a few days ago and hasn't been able to hit the punching bags with it. He said he had hoped that it would get better.

The 29-year-old champion regained the 147-pound title by stopping Saxton in the ninth round of a return bout at Syracuse last Sept. 12. Saxton had taken the crown from Basilio on a controversial 15-round decision at Chicago last March 15.

WILMINGTON Plays St. Paul In Top CV League Test

WILMINGTON has a full two-game lead in the Coal Valley Conference as a result of Tuesday night's action.

The Wildcats clipped Marion 58-40 and Gardner upset St. Paul 58-54. Marion and St. Paul are tied for second place in the league with one important game, Coal City put a crimp in Seneca's title chances with a 59-34 victory.

Barney night will be a do or die game for the Saints of St. Paul. The Odeli crew will travel to Marion for the big game in the CVC that night. It will be the first meeting of the year between the two teams. A third defeat will just about kill the Saints' title hopes.

In other Friday games, Coal City is at Dwight and Braidwood to Seneca.

WATSEKA stands between the Rantoul Eagles and their second straight Wausau Conference Championship.

Peotone, Herscher Meet Friday For Kan-Will Lead

Peotone and Herscher are hooked up in a real tight race with only a game and one-half separating the first and sixth place teams. At the present time, it would be hard to say any one team as the favorite.

Herscher moved back into first place this week when Peotone dropped two straight conference games. The Blue Devils were defeated by Manteno 37-38 last Friday and again 35-46 by Grant Park last Tuesday night.

First place will be at stake again Friday night as Peotone is at Herscher. A victory would put the Blue Devils back into first place again. Manteno (32) tied for second place with Peotone has an important home engagement with Herscher.

Probe Dope, Extortion Ring Angle In 'Body' Kidnap Case

HOLLYWOOD (UP)—Police Chief William Parker today assigned his top intelligence squad to investigate a tip that "four or five" persons might have been involved in narcotics and extortion in the Marie McDonald kidnaping case.

Continue Fight To Save Tot

CHICAGO (UP)—Another phase of the battle to save the life of 3-year-old Cindy Evans began Wednesday when doctors grafted skin from healthy parts of her critically-burned body.

Seventy per cent of Cindy's body was burned when her dress caught fire in her Decatur, Ill., home last November.

A temporary cover was given the burned portions two weeks ago when the skin of a three-year-old boy killed in a Christmas traffic accident was grafted on Cindy.

IN WEDNESDAY'S operation at Children's Memorial Hospital, skin from unburned portions of Cindy's lower legs was transplanted to her forearm and lower chest. Additional transplants are planned.

The little girl, a daughter of Mr. and Mrs. James Evans, was reported still in critical condition, but "holding her own."

Douglas Loses Eastland Fight

WASHINGTON (UP)—Over the opposition of Sen. Douglas (D-Ill.), Sen. Eastland (D-Miss) was reappointed chairman of the Senate Judiciary Committee Wednesday.

The reappointment was by voice vote in the Senate — with the Illinois senator alone heard in opposition.

Douglas said he believed "Eastland should not hold the key post because of Eastland's strong criticism of Supreme Court decisions against racial segregation. The committee handles such things as civil rights legislation."

WINNIE GONE WITH WIND!

WESTERHAM, England (UP)—Sir Winston Churchill, who for years had groomed Sir Anthony Eden to succeed him as prime minister, was not available for comment Wednesday night on Eden's resignation. He had gone to see the movie, "Gone With The Wind."

HOW NOT TO WIN FRIENDS!

PHILADELPHIA (UP)—A "Rock 'n' Roll" says a Harvard sociologist, "is not, as many people say, the fantasy of crazy teenagers, but a symptom of a decaying art form in America."

As far as one of its chief exponents, Elvis Presley, the man said, he can be summed up as "wild modern music in general."

These views were expressed Wednesday by Dr. Pitirim Sorokin in a panel discussion of fine arts at the meeting of the Association of American Colleges.

Dr. Sorokin said a new creative day is coming, but meanwhile, "we are living through the descent of our art forms into the social sewers inhabited by all kinds of dehumanized and pathological human animals."

Seize Parolee In Theater Holdup

MOUNT CARMEL (UP)—A 29-year-old parolee from Indiana State Prison was arrested Wednesday night minutes after the Uptown Theater was robbed of \$53.

Police said a cashier at the theater identified Prentice Wilson of Princeton, Ind., as the holdup man.

The cashier, Mrs. Vera Goodart, and the theater manager pursued the bandit to a nearby tavern and called police. Authorities said they found \$4 in bills and \$9 in coins on Wilson when he was arrested.

Make Your Roast Beef Go Round

By CECILY BROWNSTONE
Associated Press Food Editor

Women like rotary-broiling! Modern small electric roasters that broil meat and poultry as these foods revolve on a spit have come to have a really welcome place in many kitchens.

These appliances have several advantages. They do a beautiful job of cooking meat and poultry so these foods are crisp and brown on the outside, juicy and tender within. They're easy to use and to clean. They're versatile—they can do lots more besides spit cooking. And they're portable; you can use them in any room and you can easily switch their positions in a small kitchen.

The following directions may be of help when you rotary-broil a roast of beef. Although this recipe is for a four-pound roast, it uses a mixture of 1 teaspoon salt, 1 teaspoon celery salt, 1 teaspoon paprika and 1 teaspoon garlic salt for rubbing on the surface of the meat before it goes round-and-round.

SPIT-COOKED BEEF
Use a rolled beef (roast) about 4 inches in diameter and weighing from 3 to 5 pounds. Remove roast from refrigerator 1 to 2 hours before cooking. Rub meat with oil, clove or garlic salt, pepper and flour. Rub skewer spit with cut garlic. Slip one clamp onto skewer, then put roast on spit so that the meat will be centered when the spit is placed in the electric roaster. Put second clamp onto spit; tighten thumb screws. Pre-heat broiler 5 minutes with broiler set at medium. Pour 1/4 cup water into drip tray and place in bottom of broiler. Place spit with roast on it in roaster. Turn heat to high. Turn on motor and close

spatter shield. Roast until meat is cooked to desired doneness, allowing about 1 hour for the rarest stage. The 4-inch diameter of the rolled roast, rather than the number of pounds it weighs, determines the cooking time.

GOLDEN FISH BROIL
Ingredients: 1 pound fish fillets, juice of 1/2 lemon, 1/4 cup fine dry bread crumbs, 1 tablespoon paprika, 1/4 teaspoon salt, 1/4 teaspoon pepper, 1/4 cup (1/2 pound) butter or margarine.
Method: Sprinkle fish fillets with lemon juice. Coat with mixture of bread crumbs, paprika, salt and pepper. Cut butter into thin pats and arrange on fish fillets. Pre-heat broiler and broiler tray of electric roaster five minutes. Grate hot tray. Place fish fillets skin side down on hot greased broiler tray of roaster. Place on top shelf (first shelf below heat) and broil about 10 minutes or until fish is golden and flakes easily when tested with a fork. Makes 2 to 4 servings.

Teacher Turns To Homemaking Every Day At 5

By MARY JEAN HOUBE

A woman may be a typist, secretary, teacher or lawyer for eight hours daily, but if she is married, she must immediately turn into a cook at dinner time. Among Kansas City's teacher-homemakers is Mrs. George Gollanis of 239 1/2 S. Greenwood Ave. Her choice of favorite recipes is printed here, and she adds a word of appreciation for the quick-meal tricks of modern homemaking.

Featured from Mrs. Gollanis' recipes is her Meat In A Blanket, pictured. She recommends the dish as appetizing in appearance as well as taste.

Mrs. Gollanis is the former Joan Gregg, daughter of Mr. and Mrs. Edward V. Gregg of 628 S. Nelson Ave. She teaches second grade at the East Bradley Elementary School. After graduation from Illinois State Normal University, she taught school in Waynesville, and she and her husband moved to Kansas City about a year ago. They have a 9-month-old daughter, Stephanie. Mrs. Gollanis' busy schedule is emphasized by the fact that in addition to her duties as elementary teacher, she is a reading clinician, with special classes these regular school hours.

These are her favorite recipes:

Meat In A Blanket
1 1/2 pounds round steak, thinly sliced
1 green pepper
1 onion
Mushrooms

Cut round steak into strips 1 1/2 inches by 2 inches in size. Next cut onions and green peppers in long strips. Roll the meat around a strip of onion and green pepper and secure with toothpicks. Salt and pepper to taste. Brown in 2 tablespoons fat. Add 3 cups water and simmer for 1 hour. Thicken gravy and add mushrooms.

Mrs. Gollanis serves her Meat In Blankets on a large platter, with rice or whipped potatoes.

Meat And Vegetable Pie
Melt 2 tablespoons butter. Add 2 tablespoons flour, blending well. Cook until bubbling. Add 1 medium (16 ounces) can vegetable soup. Cook, stirring, until thickened. Add 2 cups diced cooked beef, pork or veal.

Pour into large casserole or individual ones. Cover with rich biscuit dough cut into small biscuits. Bake in a hot oven (400 degrees F.) for 15 minutes. Arrange on a platter. Serve at once. (Serves 6.)

Sweet Potato Puffs
Combine 2 cups cold cooked mashed sweet potatoes, 1 egg yolk, 1/2 teaspoon salt and 2 tablespoons butter, melted. Then mix thoroughly. Divide into six portions. Flatten each portion, then place a marshmallow in center of each. Full potato up around marshmallow leaving small opening in top. Crush very finely 2 cups rice flakes. Combine rice flakes with 4 tablespoons butter, melted.

Roll sweet potato balls in buttered rice flakes, then place on a buttered cookie sheet. Bake in a hot oven (400 degrees F.) for 15 minutes. Arrange on a platter. Serve at once. (Serves 6.)

Crisp Sugar Cookies
Sift together 3/4 cups sifted all-purpose flour, 4 teaspoons baking powder and 1/2 teaspoon salt. Cream 1/2 cup butter. Add gradually, creaming thoroughly 1/4 cup sugar. Add 1 egg. Beat mixture until fluffy. Add sifted dry ingredients alternately with 1/4 cup milk, beating until smooth after each addition.

If time permits, chill dough for an hour or so in coldest part of refrigerator, as it makes the dough easier to roll. Roll to 1/4 inch in thickness and cut into desired shapes. Place on greased cookie sheet and sprinkle cookies with sugar. Bake in a hot oven (400 degrees F.) for 8 to 10 minutes, until browned lightly.

Roll thin slice from trim end of 3 genuine dill pickles. With apple corer or narrow sharp paring knife blade, using a twisting motion, re-

move centers. Stuff centers, using Cream Cheese, Pimiento Cheese or Deviled Ham.

Chill 3 to 4 hours; then slice thinly. Arrange 3 slices of each in shamrock fashion, on individual salad plates, using thin strips of pickle for stem. Tuck sprigs of watercress here and there around the shamrocks.

An Old Salad Gets A New Look

By CECILY BROWNSTONE

Associated Press Food Editor's Waldorf Salad featuring apples, celery and mayonnaise served on lettuce, has been a favorite ever since it was introduced into the American cuisine dozent of years ago. But nowadays the salad has taken on new ways. In the following recipe, for instance, a dressing of oil, vinegar and spices is substituted for the mayonnaise because crisp rich bacon is included in the main ingredients.

NEW WALDORF SALAD
Ingredients: 1 envelope old-fashioned garlic salad or French dressing mix, cider vinegar, water salad oil, 1/4 pound bacon, 1/2 of a medium head lettuce, 1 cup diced unpeeled red apple, 1/2 cup diced celery, salt.
Method: Combine the salad dressing mix, cider vinegar, water and salad oil as directed on envelope. Cook bacon until crisp, drain and crumble. Shred lettuce into a bowl, or tear into bite-size pieces. Add apple, celery, crumbled cooked bacon and enough of the salad dressing to moisten; toss, adding salt to taste. Serve at once. Makes 4 small servings. Store remaining salad dressing in refrigerator.

OTHER LIBERTIES
1. Adding walnuts to the basic Waldorf-Salad-mixture — apples, celery and lettuce.

celery and mayonnaise—has been going on for so many years that it has ceased to be a liberty!

2. Adding diced cooked ham or smoked tongue is a way of making basic Waldorf Salad hearty for a lunch or Sunday night supper.

3. Pitted fresh dates, cut into slivers with the kitchen scissors, are sometimes added to basic Waldorf Salad. This is a good served as a dessert salad.

4. Waldorf-Salad may be made in molded form. Lemon flavored gelatin is spiked with a little vinegar and the apple and celery are folded in when the gelatin mixture has been chilled and is slightly thickened. When the salad is unmolded it should be served on greens with mayonnaise. Sliced nuts are a pleasant accompaniment.

5. Swiss or mild cheddar cheese may be finely diced and added to the basic mixture.

6. Fresh pear is sometimes peeled and diced and used to supplement the apple. Or tidbits of canned pineapple may be used instead of the pear.

7. Even diced cooked potatoes have been added to the basic mixture for Waldorf Salad. For this combination sour cream, if available, may be mixed with the mayonnaise for the salad. For extra seasoning in this combination, dill is a good choice.

8. Shredded green cabbage may be added to the basic Waldorf Salad mixture.

9. Raisins have been known to be added to this salad. If this is your pleasure, wash the raisins in very hot water and drain well before using whole or chopped.

10. Leftover turkey or chicken from the bottom of the roast—Robert white meat—may be cut into thin strips and added to the basic Waldorf Salad-mixture.
