4 Killed In Georgia By Winds

Southern Illinois
Facing Flood Threat
After 6-Day Rain

By THE ASSOCIATED PRESS
A rash of violent early April
storms battered broad areas from
the Rockies to the Atlantic Coast
today.

Gully-washing rain and vicious,
erratic wind storms hit Georgia
early today and Thursday night,
killed four persons, flattened
homes and farm buildings and
stalled a fast passenger train.

Hardest hit was the area
around Ellaville, Oglethorpe and
Montezuma, about 110 miles south
of Atlanta. Two children were
killed near Ellaville in Schley
County and two in adjoining Macon
County. At least 34 homes or
barns were reported destroyed or
badly damaged.

From this area, the storm ap-
parently tore on northeastward. It
dipped down at Warner Robins to
blow out windows and lift a num-
ber of roofs. It also struck again
between Jeffersonville in Twiggs
County and Macon.

Rainfall exceeding four inches in
24 hours in some localities sent
streams rising to dangerous levels,
flooded cellars, washed out
country roads and small bridges.

SOUTHERN ILLINOIS' heaviest
rainfall in at least seven years
had entered its sixth day today,
sending heaving waters higher in
rivers and creating some flood
threats.

A creek bridge on State Route
about 18 miles north of Mount
Carroll was closed due to high
water. Traffic was being rerouted
through Indiana.

But flooding generally meas-
ured in depths of a foot or so.
Several highways were stalled in
spots and traffic conditions on
most southern Illinois highways
remained poor.

Six days of heavy rains, inter-
rupted only briefly Thursday by
sunshine, had created the most
dangerous flood threat along the
Wabash River at the Illinois-Indiana
boundary.

The U. S. Weather Bureau at
St. Louis said the river's waters
continue to rise for several days.
It reported no immediate prop-
sals of flood at the state's south-
eastern end.

The Ohio River at Cairo rose 4
feet in the last 24 hours and is
expected to crest at 33 feet Sun-
day, 7 feet below flood stage.

The Big Muddy River from Ben-
ton to its confluence with the Mis-
sissippi below Murphysboro was
rising by the hour.

The meteorology department at
Southern Illinois University re-
ported the week's rainfall was the
highest since January 1955.

Russians Continue To Threaten Allies

LONDON — The Russians,
continuing their warnings to
America's NATO allies, have
threatened devastating retaliation
for any nuclear attacks from bases
in Britain, the Netherlands
and Germany.

Moscow radio made the warn-
ings Thursday night in broad-
casts beamed to the three coun-
tries.

They followed recent letters
from Soviet Premier Bulganin to
the governments of Norway and
Denmark, only Scandinavian coun-
tries in NATO. Bulganin told
both countries that Russia would
peace but would retaliate with
great destruction for any atomic
attack.

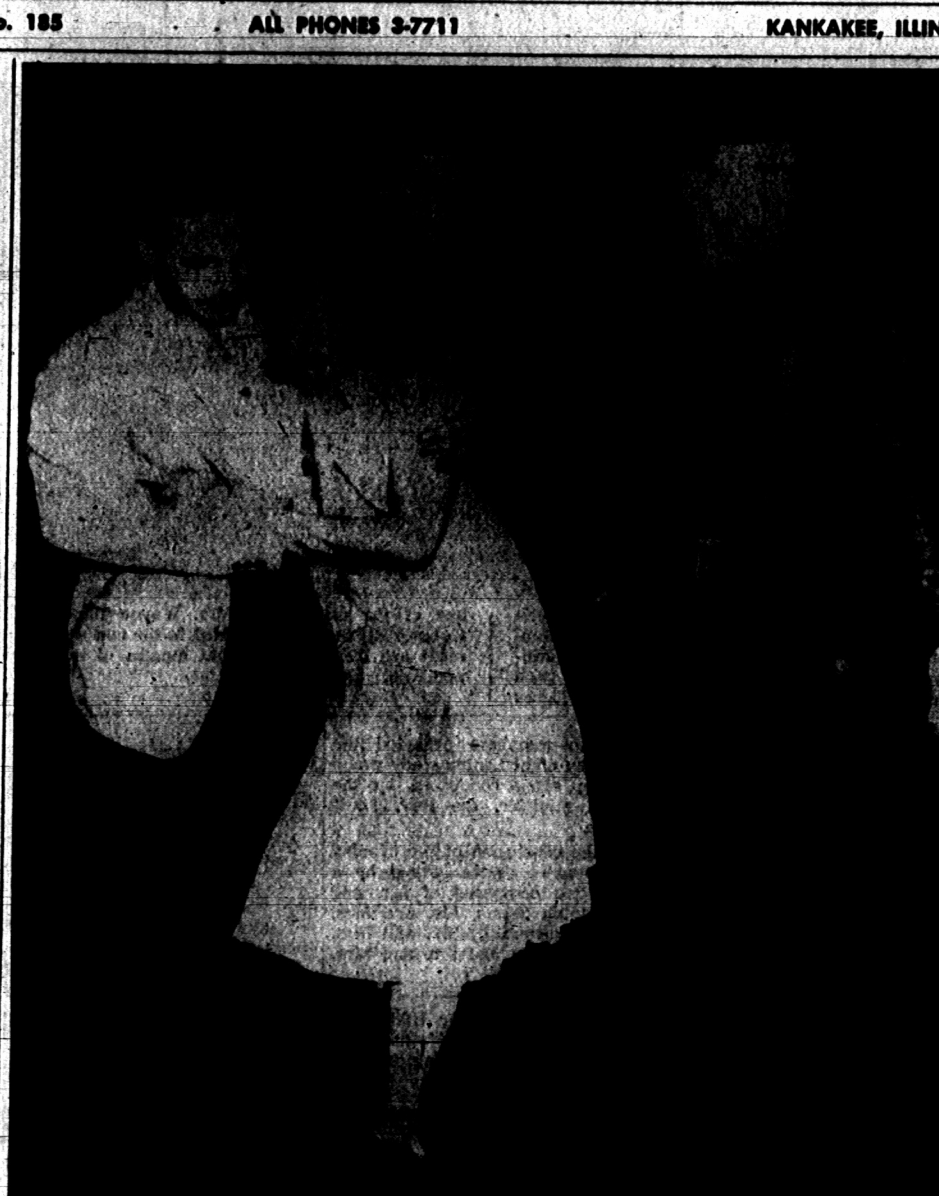

THE COMMERCE Department
said today that it has approved
for the department and related
agencies for the fiscal year start-
ing next July 1. This was \$217-
\$274 million, or 1.5 percent below
requested and \$25,000,000 below ap-
propriations for the current year.

In continuing one of its biggest
cuts of the year, the committee
approved a 10 percent cut in the
cost of the Labor and Welfare de-
partment.

It cut 118 million dollars
from that measure only to have
the House itself slash off an ex-
tra 15 million. Still another 50
million tentatively cut by the
House was restored on roll call
votes Thursday.

money bill sent to the House this
year by the committee and

Seek 3 For Tossing Fire Bomb Into Club, Killing 6

LOS ANGELES — A makeshift gasoline bomb turned a quiet
neighborhood bar into a funeral pyre for at least six persons shortly
before midnight.

The corner said six persons died at the scene on a quiet street
in south central Los Angeles. At least five others were injured.

Police said the bomb apparently
was thrown through the front
door of the Club Mecca by three
men who had been ejected earlier
when they tried to dance with one
of the cocktail bar's regular wom-
an customers.

ASST. FIRE CHIEF R. A. Wil-
liams said the men sloshed a
bucket of gasoline, or some other
highly inflammable liquid, onto the
bar and then threw a match in
after it.

"It went up like a blow torch,"
said the bartender, Larry Fenton,
24, who escaped uninjured out the
back door.

Norman, ambassador to Egypt,
committed suicide Thursday by
leaping from a building in Cairo.
The subcommittee had published
charges made before it that he
had been a Communist. Canadian
Foreign Secretary Lester B. Pease
said the charges were "be-
neath contempt," and that the Can-
adian government had investi-
gated them in 1951 and held them
unfounded.

SUBCOMMITTEE leaders in a
statement Thursday said they
would not be living up to our
obligations if they omitted ref-
erences to foreign nations in their
investigations of communism in
the United States. Norman was
acting chief of the Canadian dele-
gation to the U. N. in 1951.

The United Church of Canada,
a merger of 21 Methodist, Pres-
byterian and Congregational de-
nominations, in a statement by its
secretary, Dr. Ernest E. Long,
asked President Eisenhower and
the U. S. Congress to call a halt
to "distorting the characters of
innocent men."

The three men who threw the
bomb escaped in a car amidst a
barrage of gunfire from a passer-
by, Vernon Waggy, 34, told police
he was walking down the street
when he saw the men running.

"I PULLED OUT a .32 caliber
automatic which I carry for pro-
tection and fired at them. I think
I hit one," he said.

Commerce Dept. Funds Cut 25% By Appropriations Committee

WASHINGTON — The House
Appropriations Committee today
elaborated 25 per cent from Presi-
dent Eisenhower's request for
new Commerce Department
funds.

The committee recommended
\$223,000,000 in new appropriations
for the department and related
agencies for the fiscal year start-
ing next July 1. This was \$217-
\$274 million, or 1.5 percent below
requested and \$25,000,000 below ap-
propriations for the current year.

In continuing one of its biggest
cuts of the year, the committee
approved a 10 percent cut in the
cost of the Labor and Welfare de-
partment.

from that measure only to have
the House itself slash off an ex-

Seaton Undergoes Surgery On Back

WASHINGTON — Secretary of
the Interior Seaton underwent
surgery today for the back ailment
which has incapacitated him since
February.

His condition after the two-hour
operation was reported "good" and
Seaton's office quoted the surgeons
as predicting full recovery after
"relatively short" convalescence
period.

AL AHAM said Seaton's agree-
ment with the Egyptians, also
called for:

1. Transfer of UNEF headquar-
ters from Gaza to Rafah, on the
Sinai-Gaza Strip border.

2. Israeli forces to pull out of
the Gaza Strip and the Sinai
peninsula.

3 Gunmen Get \$1,167 In Holdup Of State Line Inn

Three gunmen, two with nylon stockings pulled over their faces,
stole more than \$1,167 from the State Line Inn seven miles east of
Macon on Route 114 early today.

The trio entered the tavern about 12:45 a.m., one carrying a .38
gauge shotgun, another a .45 caliber revolver and the third a 12
caliber revolver.

After emptying two cash regis-
ters and two cash boxes, the
thieves took money from the bar-
tender and two customers, took
away their car keys, herded them
into a washroom and left in a 1954
cream colored Ford convertible,
headed east.

The loot from the registers and
cash boxes totaled about \$250, and
the gunmen obtained \$105 from
bartender Fred Schaffer, \$90 from
James Greer, a customer who
lives nearby, and \$12 from Agnes
Country, a customer from Sumner
Ind. The tavern is owned by Lane
Shaner.

The thieves also stole a box of
jewelry and a cigar box full of
pennies. They put the loot in a
metal box. One of them tore out
phone wires during the robbery.

Deputy Ray Van Diepen and
State Policemen Roger Draves and
Ralph Mann were called to the
scene. A statewide police radio
broadcast was issued.

The net result, it was generally
agreed, will be a weakening of
the available security strength of
the free world although this ef-
fect will be offset in some degree
by providing greater firepower for
the smaller British forces, partly
with U.S. aid.

THE UNITED STATES has already
committed itself to provide the
British with 1,500-mile-range
guided missiles as soon as they
become available.

The eventual establishment of
missile bases in Britain with
atomic warheads stored nearby
under American control will give
the British a striking power
which they have not heretofore had.

More than 40 families left their
homes and the Red Cross said it
will set up a precautionary shelter
for 50 persons in the Wabash
Army. The early evacuees
moved in with relatives and
friends on higher ground.

Wabash police said most resi-
dents of the section were moving
furniture to second floors or haul-
ing away from single floor dwell-
ings.

The river reached 20.38 feet, 38
above evacuation stage for the
low area, at 8:30 a.m. (EST).
Flood stage at Wabash is 12 feet.
The Weather Bureau said it ex-
pected the river to crest there be-
low 21 feet.

Inside, the small safe was a
blackened ruin.

The three men who threw the
bomb escaped in a car amidst a
barrage of gunfire from a passer-
by, Vernon Waggy, 34, told police
he was walking down the street
when he saw the men running.

\$17 Million Allotted, Plan Study In Week

Summerfield Claims
\$30 Million More
Needed For Operation

WASHINGTON — The House
Appropriations Committee today
informally approved a \$17-million
extra appropriation for the
Post Office and agreed to con-
sider next Friday a request for
\$30 million more.

Advise of the committee's de-
cision, aides to Summerfield said
he would either issue a formal
statement or meet with newsmen
before the end of the day to dis-
cuss further moves.

Implied in the committee's ac-
tion was an understanding that
the department would not put into
effect Saturday sharp service cur-
tailments which Postmaster Gen-
eral Summerfield had said would
be ordered if extra money was
not provided.

The department has requested
to give it an extra \$7 million dol-
lars for the next three months. An
appropriations subcommittee
proved 17 millions of the request
last Wednesday.

Summerfield said that was in-
adequate, and announced that
starting Saturday he would order
such steps as to halt city and
rural mail deliveries on Saturdays
and stop selling money orders.

HE HAS SAID unforeseen ex-
penses stemmed from increased
mail volume and the need to serve
expanding residential areas.

When the Appropriations Com-
mittee met today to consider the
annual money bill for the Com-
merce Department, most Republi-
cans and some Democrats
favored immediate action on the
Post Office funds, but a motion
to consider the matter was ruled
out of order.

Finally, however, after a re-
portedly tempestuous session, the
committee agreed to notify Sum-
merfield he could count on at
least 17 million dollars and that
the committee would consider
how much more, if any, to give

Haiti Political Leaders Told To Ease Crisis

PORT AU PRINCE, Haiti, UP —
The army alternately appealed
and threatened today to return
police-placed Haiti to something
resembling normal. Presidential
candidates still wrangled without
reaching agreement over an in-
term regime to run the country
until the April 28 general election.

The military banned demonstra-
tions and warned the people in
radio broadcasts that the police
have been ordered to shoot to
kill. The announcement sternly
forbade any incitements to disor-
der during the political crisis re-
sulting from the ouster of three
presidents in four months.

Many burglaries have been re-
ported during recent nights.
The army communique appealed
to employers and workers to settle
their differences and bring an end
to strikes. It said the economy
of the country is so precariously
balanced it cannot accommodate
further interruptions of work.

A CONTINUING dock strike
threatened to make the dock sit-
uation serious. Five food-laden ships
left the island Thursday because
they could not unload.

Haiti remained without a chief
executive. The nine presidential
candidates argued without reach-
ing any decision on the mem-
bership of a proposed 15-member
executive committee to administer
the government. The public grew
increasingly impatient over the
stalemate.

Frank Sylvain, who resigned
the presidency Tuesday under
pressure of strikes and demon-
strations, was still under heavy
guard in a suburban house. He is
held on suspicion of complicity in
an alleged bomb plot against Presi-
dent R. P. R. and a presidential
candidate, to promote the candidacy
of Dr. Francois Duvalier.

British Condemn 5 Cyriots To Death

NICOSIA — A Nicolaia special
court today sentenced five young
Greek Cypriots to death for the
shooting of a British soldier during
a security force patrol. It was the largest number
of Cypriots condemned to death
at one time since the EOKA un-
derground started its guerrilla
campaign to drive the British out
of Cyprus.

In Tel Aviv, Israeli army head-
quarters reported a long exchange
of gunfire between Israeli and
Syrian forces early today on the frontier
east of Lake Hula. No Israeli
casualties were reported.

Reporting another incident, the
Israeli spokesman said infiltrators
from Jordan attacked two Israeli
frontier policemen Thursday night
six miles south of the Sea of Galilee. One Israeli policeman was
reported wounded.

At U. N. headquarters in New
York, Hammarskjold indicated he
believes Egypt may let Israeli
ships use the Suez Canal.

Madison cut the ribbon at the door of the department signifying its official opening. The department is located in the north section of the store and includes more than 12,000 square feet of display space. The new department more than doubles the first home furniture department established in the store 10 years ago.

To provide sufficient space for the new department, an addition to the Fair Store was secured. The addition, to the north of the store, previously housed a Kroger store. The new department is located on both the first floor and the basement in the north section of The Fair.

Couples Club Shown Movie Of Columbia River

Members of the Couples Club of the Kankakee First Presbyterian Church were taken on a trip down the Columbia River Thursday night through the camera of Kankakee's Helen Trecker.

The film featured the April meeting of the club held in the church fellowship room. Trecker, who spent 10 days on the river expedition, especially pointed out the beautiful scenery that marks the trip. He discussed some of the Indian ruins the group visited on the way, the abandoned prospector camps, the famous Rainbow Bridge and other points of interest.

The Kankakee also told the group of the famed Presbyterian mission which is carried on in the midst of the Navajo Indians.

"Presbyterian mission funds that go to this mission are money that is well spent," he commented. Prior to the showing of the film

Widow Charged With Embezzling

SPRINGFIELD (UPI)—A 74-year-old widow employed by a Springfield department store for 40 years has been indicted for embezzlement by a Circuit Court grand jury.

Mrs. Carolyn M. Roberts, who has been employed by the John Bressner Co. here since 1917, was indicted Thursday for the embezzlement of \$4,148. She had been indicted on a charge of embezzlement by a Circuit Court grand jury.

The state's attorney's office here said the embezzlement charges concerned only 1956, because the statute of limitations prevented prosecution on other possible embezzlements.

Mrs. Roberts has been ill and was recently hospitalized. The alleged shortages in her accounts were turned up during an audit of the store's books.

First CC Service Clinic Held Thursday

A meeting of the Community Chest planning board and the first of the Chest's second annual series of community service clinics were held Thursday evening in the YM-CA building.

Kenneth Cole, clinic chairman last year, reported that four handicapped persons were referred to the state division of vocational rehabilitation, and that jobs were found for them, as a direct result of the clinic.

Members of the planning board, under the chairman Richard Kraft, indicated if they wished to attend the clinic, or to work on plans for the annual "come-see tour" of Chest agencies.

It was announced that local unions and employee groups will be contacted to delegate some one to attend clinic sessions.

Persons attending the clinic learn about Community Chest youth recreation agencies and other public and private aid groups. They are granted as trained counselors able to assist fellow employees in obtaining community services.

The next clinic session will be held May 2.

During the session Thursday evening, clinic members toured the YMCA and heard an explanation of its services from S. O. Swygert, Y secretary.

Miss Beatrice Bedard, supervisor of the local office of the Illinois Public Aid Commission, also spoke.

Victim of SODA "HABIT" Before He Got Sys-Tone

One Kankakee man told us he took baking soda for years. Says he used over a barrel of it for stomach gas; got only temporary relief. But now he has quit the soda habit after taking SYS-TONE.

SYS-TONE is a strong, healthy, of gas "victim" in Kankakee. Taken with meals, it helps digest your food faster. Opens closed intestines of gas build-up. Many gas-filled, miserable people soon feel like new. So don't go on suffering. Get Sys-Tone.

Tells Need For Early Detection Of Cancer

Dr. John A. Rogers, executive director of the Illinois Division of the American Cancer Society, told the Kankakee Rotary Club that there are "many hopeful aspects" in the treatment and cure of cancer today. He was the guest speaker at the weekly meeting of the Rotary Club Thursday noon.

Introducing Dr. Rogers was Mrs. T. E. Shule, chairman of the Kankakee County chapter of the American Cancer Society.

Dr. Rogers said that one of the best ways to stop cancer is education of the public of its early symptoms. He told the men that "as-ture cancer grows rapidly in a person when a cancer begins to cause pain, it is generally too late for treatment but pointed out that in the early stages it is highly curable.

The speaker pointed out that cancer death rates have climbed from only 30,000 persons in 1900 to 50,000 last year in the United States. He cited the rise as due to the medical advances and drugs which have been developed to control other heavy killers.

DR. ROGERS SAID that recently the death rate due to cancer for men has exceeded the rate in women. "Cancer of the lung sticks out like a sore thumb," he said, commenting "something is doing it."

"There are many interesting developments in the research field," Dr. Rogers said. He cited experimentation which has shown how cancer cells grow rapidly in a person who has a cancer while in an experiment among prisoners at an Ohio Penitentiary, those cancer cells were overcome by persons who did not have cancer.

He said no two cases are alike, that in one instance a cancer will spread rapidly throughout the body while in another it will lie dormant for a long time.

Dr. Rogers cited experimentation which he said might lead to a vaccine containing, "I doubt it." He pointed out other research working on the theory that cancer is caused by a virus. Work is progressing on training a virus to eat nothing but cancer cells, he said. There is also work on drugs which may destroy cancer and the Public Health Service has allotted 20 million dollars for work on this angle, he said.

The Illinois Cancer Society representative said, "We are gaining on this thing" and praised the work of the Kankakee County chapter of the American Cancer Society for its help. He said that the Kankakee County unit is the only one in the state maintained solely on a volunteer basis and urged local support of the program.

Iroquois County Teacher For 52 Years

Miss Linda Richardson, a teacher for 52 years in Iroquois County, was honored Thursday night at a special dinner party in Watseka High School in observance of the centennial of the National Education Association. She represented the teachers of the county who served

many years in the school system. Miss Richardson is pictured above being serenaded by members of the Sheldon Quartet, (from left) Joe Reynolds, Jack Hamm, Irving Hollingsworth and Floyd Brown. (Journal photo)

When He Thinks He's Right

Knowland Continues To Defy President

WASHINGTON (U.S.)—Sen. William Fife Knowland, the 48-year-old Californian who may seek the presidency someday, continues what he's been doing since he became Republican leader in the Senate in 1953.

He continues to criticize and oppose President Eisenhower's programs when it suits him, which is often. If it seems strange that the Senate Republican leader should buck the Republican President, Knowland has offered an explanation. He thinks, he said, it's his job to bring about a meeting of Senate minds on the President's proposals. He was quoted in a weekly magazine as saying he will agree with the President "unless it involves a matter of deep personal principle."

AND HE HAS said he has supported Eisenhower's program most of the time. Two years ago he claimed a 90 per cent record on that score.

Eisenhower has avoided a break with the senator, who must be a thorn in his side many times, diplomatically he said of the differences between them that they are really more a matter of method than of principle.

Knowland announced not long ago he would quit the Senate when his term ends in January 1959. He had his eye on the White House. In 1956, until Eisenhower said he would run again, Knowland said he would run against Eisenhower. He said he would run against Eisenhower. He said he would run against Eisenhower. He said he would run against Eisenhower.

Vandalia Refuses 3 Prisoners In Dope Law Mixup

VANDALIA (U.S.)—Confusion over the state's new narcotics law has resulted in three Chicago narcotics violators being imprisoned in the Fayette County jail.

The prisoners had been transferred to the Vandalia State Prison Farm Thursday. But Warden Glenn Murphy said the men he lodged in the state penitentiary. He refused to accept them.

Murphy based his opinion on a law signed by Gov. Siratton two weeks ago making possession of narcotics a felony punishable by imprisonment in the penitentiary. Greenville Boardley, Illinois assistant attorney general, ruled the law applies only to offenders arrested after March 21. The Cook County prisoners had been convicted prior to that date. Boardley said they should be admitted to the Vandalia institution.

However, Murphy said he could not accept the prisoners unless ordered to do so by Joseph D. Bibb, state public safety director. The three men were locked up in the Fayette county jail.

By SAM DAWSON
NEW YORK (AP)—Citizens struggling with their income tax burdens may take some solace today in the many promises of a cut in taxes.

But Washington seems as reluctant to set a date for it as it is to set a date for it.

Financial circles here think the present uncertainty over the business climate may have led to a delay in the tax cut.

They say the tax cut is a necessary part of the government's program to stimulate the economy.

1. The government just now is spending more than it estimated earlier and the administration advocates spending still more.

2. The Treasury's future income depends in a large degree on which way corporate profits turn and upon a continuing increase in personal income.

TO TAKE THE gloomiest view first, for sake of argument, financial economists say:

If government spending goes higher and corporate earnings turn down or don't increase as hoped, and if business activity should slow down enough to keep the Treasury's take from individual income taxes only level, the Treasury could find itself with a deficit instead of the small surplus the President anticipated in January when he made his guess for next year's revenues and expenditures.

Even if there is a small surplus there will be a sizable body of conservative opinion that it would be applied to cutting the federal debt which has now risen to the point where the annual interest charges top seven billion dollars.

In this view, tax cuts should come only later.

President Eisenhower's view is that tax cuts should come only after at least a token cut in the federal debt. And he says a Treasury surplus is more likely to come from increased tax returns due to higher incomes and greater business activity than from any substantial decline in government spending.

THOSE WHO take the rosiest view that tax cuts may not be too far away have their hopes on one of two things:

1. Party politics could bring tax cuts regardless of what the deficit to the federal debt.

2. Congress might cut the proposed budget enough to make a tax cut feasible.

Somewhere in between is a small band that holds that tax cuts would spur consumer buying, stimulate business activity and expansion, and thereby give the Treasury as much in income tax returns at the lower rate as it now gets from present rates on corporate and individual incomes.

But whatever the final outcome in Congress over federal expenditures and taxes, most citizens can take small comfort from the prospect of a tax cut.

State and local tax rates have been on the rise, in general, for some time. Even faster has risen the demand for the things that these taxes pay: Schools, hospitals, highways, sewer and water systems, police and fire protection, and the increasing public payroll.

So the prospect is that the rise in state and local tax rates will continue.

That's part of the economy's growing pains.

Expert Offers Suggestions

CHICAGO (UP)—The secret of avoiding car, train or sea sickness is a simple matter of keeping your head steady and your eyes on the horizon, an expert on the subject said today.

Dr. John E. Eichenlaub, conceded in an article for the American Medical Association, that his advice could result in a pretty dull trip for many travelers. But he could offer no alternative except drugs.

"MOTION SICKNESS COMES from too much nerve-tugging action in the ear's labyrinth, the organ that helps a person keep his balance. Keeping the head steady reduces this action," he said.

Eichenlaub suggested immobilizing the head by leaning it against a headrest and bracing it in position.

Things not to do, he said, include looking at rapidly passing objects such as auto or telephone poles.

"It's all right to read if you choose big type and periodically look away. Crocheting and knitting are all right too if you can do it without looking," he said.

"They should be encouraged to focus on the horizon by spotting tractors or animals instead," he said.

Eichenlaub exploded a few popular beliefs about motion sickness, such as taking a turn around the deck for a breath of fresh air, or drinking heavily before starting out.

"It's not the fresh air that helps in the trip to the deck, but the look at the horizon," he said.

"And as for starting out with a hangover, that is certainly wrong."

Denies Being Jailed As Draft Dodger

CHICAGO (UP)—William Worthy, a reporter for the Baltimore Afro-American, has denied that he was sent to jail as a draft dodger or served in a conscientious objector's camp.

However, in a statement issued late Thursday, Worthy said he once was classified as a conscientious objector during World War II.

Worthy's statement was prompted by a Senate subcommittee's request to the State Department to determine if he was the same man who pleaded guilty to a charge of draft evasion and served one day in jail.

The subcommittee is investigating the department's refusal to renew Worthy's passport because the newsmen defied a ban against travel in Red China.

WORTHY said he was classified as a conscientious objector in 1943, but "refused to enter a conscientious objector's camp because the government was assigning men geographically on the ground of race and color."

He said the Justice Department, rather than make a test case of the racial discrimination issue, dropped the case when it learned "I was eligible for a 4-F exemption because of a duodenal ulcer."

The newspaper charged the State Department was "trying to becloud the issue of freedom of movement and freedom of the press by raising an irrelevant matter on which I publicly took a principled position."

"There was no charge of 'draft dodging,'" he said, "and my statement of refusal to the Boston draft board was fully published in the press including the Baltimore Afro-American."

Herscher Gas Storage Below Expectancy

The Herscher underground storage project of the Peoples Gas Light and Coke Co. has not been able to handle as much gas as originally believed, stockholders of the company were informed Thursday at their annual meeting in Chicago.

James P. Oates Jr., chairman of the board, said that the storage project was expected to have a daily deliverability of as much as 100 million cubic feet. Present availability is only about 43 million cubic feet, he said.

Oates told the stockholders that it is possible "to say when, if ever, the storage facility's peak day deliverability can be further expanded."

Oates, incidentally, has withdrawn from the chairmanship of the board effective today because of being elected president and chief executive of the Equitable Life Insurance Society of the United States. A new chairman is to be elected by the stockholders today.

At the Thursday session the shareholders approved action of the directors in splitting the capital stock of a four-for-one basis.

The par value after the split, effective April 15, will be changed from \$100 to \$25. The dividend after the split will be at an initial quarterly rate of 50 cents a share, equal to one-fourth the current rate of \$2.

Of the two million shares of \$100 par value stock authorized, there are 1,320,203 shares outstanding. The company said the new stock certificates for the dividend already are being mailed to stockholders.

SOUTH WILMINGTON (JNS)—James Jensen was surprised in the home of his parents, Mr. and Mrs. Roy Jensen, on Wednesday evening when members of the freshman class of G-SW High School came to help him celebrate his birthday.

A social evening was held and Mrs. Jensen, assisted by Mrs. Hulda Anderson and Mrs. Jean Stellan, served refreshments. James was presented two large birthday cakes baked by Mrs. Alice Neece and a gift from the group.

James is convalescing in his home following injuries in a motorcycle accident on Sept. 25.

The general tendency this year for farm costs to rise continues, but in the aggregate the rise is very slow, according to farm management specialists.

Police Fear Kane, DeKalb Pinball War

AURORA (UP)—Authorities today sought to head off a possible war among pinball machine operators in Kane and DeKalb counties.

Sheriff Howard Kellett of Kane County said two men from a group apparently seeking control of pinball operations in the two counties smashed coin machines in three taverns recently.

Kellett said the machines were wrecked shortly before he issued an ultimatum for the removal of the devices. The ultimatum was voided when the State Supreme Court ruled the machines were legal.

"I AM IN FAVOR of local jurisdiction over pinballs, just like there is on liquor, with community lawmen having power to ban them, if they so choose," Kellett said. "My job is to protect the public. I'll do everything I can to do so."

Kellett said the Kane County state's attorney was looking "into the legal aspects of the situation."

The lavers hit by the same two men were DeKalb's Roy Jensen, the Half Moon, on Route 24, and the Club Modern, near Geneva on U. S. A. 30.

Shot after the mishap Thursday, Mrs. Margaret Lingebach suffered fatal injuries when a car in which she rode with her husband collided with the police emergency vehicle.

YOUTH AT SCHOOL
Gibson City, Flanagan In Battle For Music Crown

A repeat of the 1956 battle between Gibson City and Flanagan for the IHSA district music championship is expected in Gilman Saturday night when Part II of the 1957 contest is staged.

Solos and ensembles competed March 6 at Momence and bands and choruses will be in competition at Gilman. The sweepstakes winner will be determined from points scored by schools at both parts of the contest.

Last year Gibson City edged Flanagan by a single point, 102-101. Saturday the two enter the final phase of the contest with Gibson City holding a 127-109 lead.

Both schools have a band and three choruses in the Saturday competition. That each gets a top rating Gibson would have a potential final score of 139 and Gilman of 181.

NINE OTHER SCHOOLS in the competition have an opportunity of topping points at all their Saturday entries receive Division I awards.

These include Gilman with a potential point total of 108. Central with 136, Herscher with 139, Piper City and Paxton with 133 each, and with 132, Kempton with 116, Bradley-Bourbonnais with 111, Watseka with 113, and Cissna Park with 102.

Official points scored at the solo-ensemble competition at Momence in March are as follows, according to Momence contest manager Charles Jenkins: Gibson City, 127; Flanagan, 109; Gilman, 96; Dwight, 92; Central, 84; Kankakee, 78; Piper City and Paxton, 77; van, 58; Watseka, 57; Milford, 46; Momence, 32; Cissna Park, 30; Robert, 29; Sheldon, 25; St. Anne, 22; Wellington, 19; Melvin, 15; Fairbury, 12; Reddick, 9; Cullom, 8; Onarga Military School, 6; Fort, 5; Buckley, 4; Crescent-Iroquois, 3; and Stockland, 2.

Bands from 20 high schools will begin their competition at 8 a.m. Saturday in the new gymnasium of Gilman High School and will continue through 8:30 p.m.

Forty-two girls' boys and mixed choruses will compete in the old gymnasium with the competition beginning at 8 a.m. and continuing through 9 p.m.

EACH ORGANIZATION will be eligible for the Division I rating being eligible for the state finals in the school's particular class.

Among the schools entered in the district music competition only Kankakee High School is considered a Class A school. Thus Kankakee band and choruses may advance to the state finals without district competition. Schools in Classes B, C and D (based on enrollment) can qualify entries for the state finals only through district competition.

Four students at St. Joseph's Seminary made the special honor-roll for the third quarter. The four are Carolyn Barker, Joy Casey, Karen Chouinard and Carol Donati.

Eight members and two sponsors of the Peotone High School gym classes attended a modern dance recital at Northern Illinois State College at DeKalb.

Students attending were Sally McRadden, Nancy Ponton, Georgia Broadrick, Phyllis Shiping, Ann Lehner, Phyllis Gurtis, Lovella Strubhaar and Donna Hafele.

A group of student librarians from Manteno High School attended a sectional library meeting at Hoopston last Saturday.

Manteno's official representatives were Kathy Plicher, Jean Perkins, Dorcas Blanchette and Ora Lee LaMore.

Brownell Lists Top Subjects For Probes

WASHINGTON (UP)—Atty. Gen. Brownell has told Congress the fields of fraud, labor and other types of racketeering, narcotics violations and civil rights are at present the busiest for federal law enforcement agencies.

Brownell testified before a House Appropriations subcommittee Jan. 22, prior to Senate hearings on activities of tenacious union officials. The attorney general's testimony was published today.

"The unions themselves have taken some action over the past year to combat labor racketeering," Brownell said. "The AFL-CIO has set up what it calls the ethical practices committee, and we have on our part been continuing to drive against labor racketeering, so that during the past year we have had 14 cases in this area and we have pending indictments against another 60 defendants."

Try Abundant Diet To Change Food Habits

By IDA JEAN KAIN

"Don't think for a minute I haven't tried to lose weight," an overweight writer. "I've tried the Bliss Diet, but after two days, I had cottage cheese up to my ears. I tried the Fabulous Formula, but felt awful and quit. I'm married for seven years, and in that time I have gained 85 pounds. Is there any help for me?"

This question is convinced that fatty diets are actually to blame for much of the overweight that plagues so many of us. By the diets are restricted to a few foods, and the very monotony of the fare sends you back to eating as usual, just as important, fatty diets accomplish nothing toward permanently changing food habits.

The satisfying way to reduce is to follow a protective pattern of eating, leaving out unnecessary calories. This plan can be so nearly like your regular ways of eating, you will scarcely know you're dieting. The difference will be that you'll get the full-rim by which you can lose 2 pounds a week without going hungry.

Look over the following list of foods and the amounts suggested. You'll find it's a lot more than you thought you could eat. It's a lot more than you thought you could eat. It's a lot more than you thought you could eat.

ONCE YOU KNOW which foods provide the essential nutrients to make good the wear and tear of daily living, and the approximate calorie value of standard servings, you've got the pattern by which you can lose 2 pounds a week without going hungry.

RUTH MILLETT She Can't Explain How She Knows

A woman can't explain to a man how she knows: Within a few dollars how much a woman paid for a dress without ever having seen the price tag.

That a woman is lying about her age—even though a man would readily accept as fact the age she is going by.

That a married couple who are being extremely pleasant to each other in public nevertheless were having a fight before they left home.

That the living room a woman is taking credit for having put together was actually done by a high-priced decorator.

That a woman she has just met isn't to be trusted.

That a dress another woman is wearing was made by her own hands.

Just what ingredients went into the dressing on a restaurant salad.

A HOMEMAKER NEEDS a day to spend on herself. Begin it with a bath and shampoo. Give hair a cream rinse to make it lustrous.

Spend A Day On Y-O-U

BY JEANNE D'ARCY
Suffering from housewife blues? Feel lonely and anything but chic? Lady, you need the full beauty treatment to pick up morale, make you feel pretty again.

Take a day off from homework and spend it on Y-O-U! Soon as the family clears out in the morning, YOUR day begins! Take a nice relaxing bath—plenty of suds and some fragrant bath oil, bubbles or salts to make the bath glamorous. Relax in the water while you catch up on the magazines you subscribe to, but never have time to read!

Next, a shampoo. Add a drop of cologne to the last rinse so hair will be fragrant, too. When you get out, experiment with a coiffure change. If you don't wear bangs, try 'em. If you do, comb hair back. The idea is to get away from your old coiffure, try something, anything, as long as it's new!

Give yourself a facial. If you don't have a mask on hand, make one by mixing two envelopes of yeast (crush it first) with enough smooth it on and remove with warm water after it's dried.

Take time for a thorough manicure. If you're like most homemakers—busy every minute—polish is probably something you paint on nails five minutes before you head out the door for a social engagement. All right, if it's your day, so a full manicure—complete with base coat, two applications of polish and a sealer—is indicated.

While you're painting fingernails do toenails, as well. Now look over your wardrobe—the same old clothes! Well, study them. Maybe you can effect a few changes to perk 'em up. Perhaps a bright scarf instead of a jeweled pin would give a new look to an old dress.

Try a bit of white around the neck and sleeves to help last season's navy blue sheer meet another spring in style. Even such minor changes give

you the nice feeling that comes from wearing something new. Until the kids come home from school, the day's yours, lady. Use it to window-shop, to meet a friend for lunch, to watch TV. Don't do any chores. Every working person gets a day off. Why not the housewife?

64 Million Employed In U.S. Today

WASHINGTON (UP)—Almost a quarter of a million people who were out of work in February found jobs last month. This helped boost total U. S. employment to about 64 million.

Secretary of Commerce Weeks gave newsmen this advance peek Thursday at the Census Bureau's monthly employment tally. The official report will not be out until next week.

The 64 million job figure for March is about one million higher than a year ago and about 700,000 higher than in February. It represents a record for the month, although considerably short of the annual summertime peak when students swell the nation's payroll.

Solon Asks Tax Cut

WASHINGTON (UP)—Rep. Richard M. Simpson (R-Pa.) said today taxpayers can count on substantial tax relief possibly this year but certainly by next year.

Simpson, a high-ranking Republican on the tax-writing House Ways and Means Committee, disclosed that he plans soon to introduce a bill to provide for billions of dollars worth of reductions in both personal income taxes and levies on corporation income.

Simpson said his bill would provide for a “modest increase” in the 1000 personal exemptions and for some revisions in the taxation of capital gains. He said the measure is aimed at providing \$1,500,000,000 to \$4,000,000,000 in tax relief.

Simpson took issue with those who contend that big tax cuts must await sharp reductions in federal spending. He has been outspoken in his criticism of President Eisenhower's record-high spending budget.

“IF WE WANT TO CUT spending,” he told a reporter, “the way to do it is to cut taxes. That will force the government to cut back spending to live within its income.”

“I don't think we will ever get a substantial tax cut if we wait for a big federal surplus to develop.”

He blamed the administration's record high spending budget on the fact that a sizable surplus was in prospect.

“The spenders in government saw a chance to enlarge their work areas and they proceeded to increase spending.”

May Use Old Wells To Dump Atom Waste
MOUNT CARMEL, Ill. — Atomic Energy Commission scientists were scheduled today to look at abandoned oil wells in this southern Illinois border area as possible sites for the world's newest ash can.
They're hunting a safe place to dump millions of tons of dangerous nuclear ash waste.
Current atomic expansion in industry is creating a lot of nuclear waste material which must be disposed of safely and with speed.
AEC officials are concerned with the task of keeping the material neutralized and the population safe from nuclear harm.
As yet it is unsolved.
Today's visit to the Mount Carmel area is the heart of the Illinois oil belt, where AEC scientists and members of the Illinois Geological Survey. They were invited by Joe Fulop Jr., local oil manager investigating possible disposal of the waste in abandoned oilfields nearby.
Some AEC experts checking the problem said in a statement the future of atomic waste disposal depends on a solution to the waste problem. They added:
"Disposal of reactor and fuel wastes will be one of the major problems of the future."
Dr. John C. Frye, chief of the Illinois Geological Survey, said he thought the use of abandoned oil fields to store atomic waste a "logical endeavor."

Beck's Teamster Foe Comes Into Limelight
WASHINGTON (UP) — Everybody makes mistakes, but one of Dave Beck's worst was ignoring John F. English, a top fellow officer of the giant Teamsters Union.
English is a 37-year-old Irishman who as a teenage boy went to work guiding a horse-drawn dumpcart through the slums of Boston.
As general secretary-treasurer of the Teamsters, English began drawing the reins on Beck's tangled financial deals with union funds long before the Senate Rackets Investigating Committee became interested in the Teamsters president.
BECK NEVER paid too much attention to English, his No. 2 man to the Teamsters. He dealt with English's subordinate on money matters.
But back in 1955 English began at the union's buying Beck's Seattle home for \$100,000 and letting Beck continue to live rent-free. That didn't seem too amiable to English, a conservative and careful manager. He gave in on the union's entire executive board put an end to the program in Beck's behalf.
A year later, English wouldn't pay out some \$50,000 for the union to buy Beck's home furnishings — even with board approval. And he recently quashed Beck's plan for a million-dollar, union-paid publicity program in Beck's behalf.
That followed Beck's statement and refusal to testify that he used some \$300,000 to \$400,000 in union funds from other schemes to buy Beck's home furnishings — even with board approval. And he recently quashed Beck's plan for a million-dollar, union-paid publicity program in Beck's behalf.

Defends 'Frill' Courses In High Schools
CHICAGO (UP) — A St. Louis educator today defended "frill" courses in high schools because a "substantial number" of students lack mental capacity to profit from a heavy academic program.
William Kottemeyer, assistant superintendent of schools at St. Louis, spoke at a meeting of the North Central Association of Colleges and Secondary Schools.
He said to provide a program for the less able students, "schools have expanded the course offerings to include driver training, practical math, everyday English, problems of living, first aid, home care for the sick and many others."
"There is little quarrel about the need for a modified and emancipated curriculum for some students," Kottemeyer said.
HOWEVER, HE WARNED that large numbers of competent students should not be allowed to take such a sequence of courses or they will end up "illiberally educated."
Kottemeyer also called for more emphasis on reading skills "in these days of compulsory school attendance and with the popularization of the thesis that every American child has an inalienable right to a high school education."
He said secondary education actually begins in the fourth grade where pupils start to learn to read and use English. English textbooks and expand their vocabularies and concepts.

Burke Only Par Breaker In 1st Round of Masters

AUGUSTA, Ga. (UP)—Defending champion Jack Burke Jr. carried a shaky one-stroke lead today into the second round of the highest-scoring Masters Golf Tournament in 21 years.

And that lead was in immediate danger of an assault by veteran pro Marty Furgol of Lemont, Ill., who shot a 71 today to tie Burke at 101.

After today's second round, the two players are tied for the lead at 101. Burke, who has reached the last round only three times in the past 11 years, will meet for the National Golf League's coveted post-season trophy won by the Canadian Soviet last year.

Both gained the championship round Thursday night by identical 43 scores and the same 41 margin in games over their semifinal opponents. They will open the best-of-seven series in Montreal Saturday night.

THE CANADIENS wrapped up their series against the New York Rangers on 35-year-old Maurice Richard's goal at 2:11 of a sudden death overtime. The Bruins turned back the Detroit Red Wings, who finished first during the regular season.

Trailing after the Canadiens had struck with almost unbelievable speed for three goals — two by Jean Beliveau — within 2 minutes of the second period, the Rangers struck back with three goals in the final period to send the game into overtime.

Then the famous Rocket, oldest player in the league, picked up the puck on a pass from brother Henri after the disc had hit him in the stomach and fired it past New York goalie Gump Worsley for his 66th goal in Stanley Cup play.

BELOW BURKE'S SCORING in the Boston-Detroit game was packed in the final period as the Bruins scored three times and the Wings twice.

Alex Delvecchio sent the Wings ahead with the only first period goal. Rookie Bud Boone matched it for the Bruins in the second only to have veteran Ted Lindsay score the game-winning goal above the Wings' in command again at the 35-second mark of the final. Six minutes later, Lindsay tied the score again and then Doug Mohns put the Bruins ahead 2-1.

THOMSON and the Bruins scored three times and the Wings twice.

THE TWO AUSTRALIANS, Thomson and the muscular Cramp, both 21, were finalists in the Australian Open with the kid winning.

Schmidt Gets 30 As Stars Win 107-73

It's been four years since the Kankakee High's gymnasium took the kind of punishment they got Thursday night and the gym was doing most of the damage Thursday. The same one who last blasted the hoops—Harvey Schmidt—was the star of the game.

Schmidt, who averaged 28.1 points in his last year at Kankakee, bettered that mark slightly Thursday by scoring 30 points in 12 baskets and six free throws. However, he got outed for the evening's scoring honors by team-mate Dick Mast, the Northwestern star who collected 31 points.
