

A photograph of a London street scene. In the foreground on the right is a classic red telephone booth with a crown emblem and the word 'TELEPHONE' on its top panel. The background shows a busy street with a red double-decker bus (number 26) and a yellow taxi. A church spire is visible in the distance. A semi-transparent white rounded rectangle is overlaid in the center, containing the title 'Architecture & London' in a cursive font.

Architecture & London

BY ALAINA DURR

*Why Does
Architecture
Matter?*

It Tells Stories!

The damage to the walls of this church is due to bombings that occurred during WWII.

It Gives Insight to the Culture!

The buildings of a country often reflect the people that live in them and the values of that culture.

It is Beautiful!

There is an innate part in us that finds the towering structures of architecture to be intimidating and awe-inspiring.

The London Experience

As told by an ONU student
who is fascinated by the City

Retrofit Vs. Modern

using McDonald's as an example

The top image is a great example of Londoner's repurposing a building while the bottom image is a modern build.

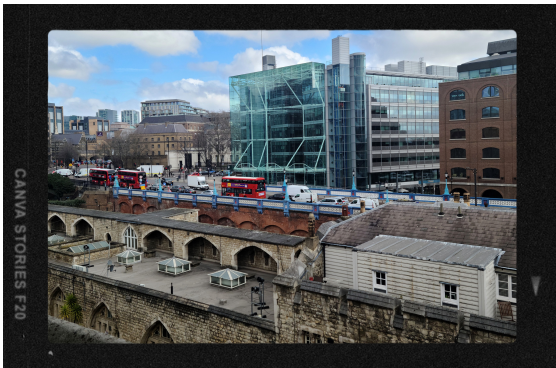

Christchurch Greyfriars Church Garden

an example of
repurposing

Viewing the Modern with the Ancient

Seeing ancient
architecture next to
modern architecture
is a common
occurrence in
London.
