HOTTEST CONTEST GOING!

\$50,000⁰⁰

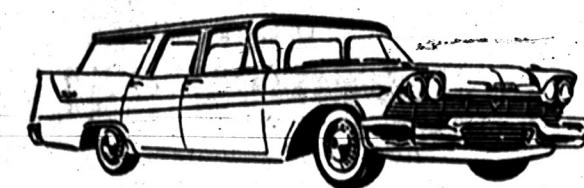

112 Prizes Plus Bonuses

First Prize:

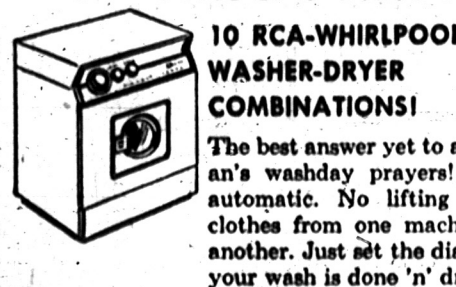

A CADILLAC FULL OF CASH!

Second Prize:

1958 STATION WAGON OF YOUR CHOICE!
Choose the Ford, Chevrolet or Plymouth Station Wagon you've always wanted... 2-door, 4-door; 6-passenger, 8-passenger... the make, color and equipment you want (up to \$4000).

Third Prize:

Fourth Prize:
100 PHILCO "SLENDER SEVENTEEN" PORTABLE TV SETS!
Big, beautiful and '58-new TV, in a trim new form really designed to be carried. Styled to look stunning from any angle. Living room, kitchen, patio... now, wherever you go, you can take the show!

PLUS: \$100 Cash Bonuses to every prize winner who gets an oil change with either New Conoco all-season Super Motor Oil or Conoco Super Motor Oil before sending in his entry blank, and has entry blank so certified by his Conoco Dealer signing in space provided.

*Choose any 1958 Cadillac model (Series 62) you prefer: convertible, hardtop, sedan... or similar choice of comparably priced car (maximum retail value \$6200). We'll fill it with \$10,000 in cash!

Get Going in the Hottest Contest Going—SEE YOUR CONOCO DEALER TODAY!

CONOCO—The Hottest Brand Going—Announces...

IT'S EASY TO WIN! Just complete this simple jingle:

ALL YOU HAVE TO DO to win a Cadillac full of cash, or the station wagon of your choice, or any of the other 110 prizes plus bonuses, is to write a winning last line to this jingle. It's easy! Last word of last line must rhyme with agree.

Drive in today and you will soon know
Why the Hottest Brand Going is Conoco;
Try our gas, oil, service—and you'll agree.

For Example: It's Conoco care for my car—and me!

How to enter: Obtain an official entry blank from any Conoco Dealer. Complete the last line of the jingle printed on the entry card. Your last line must rhyme with agree. Print your name and address in space provided. You may enter as often as you wish, but use only official entry blanks.

Where to send: After completing entry, tear out of folder, affix 3¢ stamp, and mail to: Conoco Hottest Brand Going Contest, Box 7508, Chicago 77, Illinois.

Other Rules: Contest begins April 1, 1958 and ends May 15, 1958. Entries must be postmarked before midnight, May 15, 1958. Contest is subject to the complete rules as set forth on the entry blank available at all Conoco Dealers.

\$100 Cash Bonus: Contestants who get an oil change with either New Conoco all-season Super or Conoco Super Motor Oil and have their entry blank certified by Conoco Dealer signing in space provided will receive a \$100 Bonus Prize if their entry is judged as one of the 112 winning entries.

Hints to help you win: You'll have a better chance of winning if your last line to the jingle points up one or more of the following facts about Conoco—The Hottest Brand Going!

Facts about Conoco Products:
Conoco Royal Gasoline with TCP plus... combines benefits of TCP with exclusive oil-plating action... boosts power as it cuts wear as it increases mileage... protects as it powers.
New Conoco all-season Super Motor Oil... exclusive Oil-Plating... actually plates a full-time film of protection to upper engine parts that can't drain down... even overnight. Gives you faster, safer starts, automatic warm-up, up to 80% less engine wear.
Conoco Royal Service: Every Conoco Dealer has pledged himself to give you the most complete and courteous service on the highway... to give you that wonderful Royal Feeling when you drive!

Facts about Continental Oil Company:
It's America's second oldest major oil company.
The famous Conoco Red Triangle is seen by 48 million people everyday.
Conoco serves the people of 27 states in the heart of America, through 8,766 service stations.

(Trademark owned and patent applied for by Ethel Oil Company.)

Creation Of Civilian Space Agency Asked

Don't Take Red Nuclear Ban Seriously: Ike

Says U.S. Continues Search For Real Pact With Soviets

WASHINGTON (U.P.)—President Eisenhower said today Russia's nuclear test ban announcement is just a gimmick which should not be taken seriously.

Eisenhower told a news conference that evaluation does not mean, however, we should stop trying to find a common ground for agreement with the Soviet Union.

He recalled repeated U.S. efforts over the years seeking agreement with the Soviet Union in the disarmament, nuclear test and other fields.

And he said we should keep on trying to win agreement.

A good deal of the questioning at the news conference dealt with the Russian test ban. Eisenhower have gained if it had labeled the Russian test ban as just propaganda in advance of the Soviet announcement.

The announcement by Russia had been widely forecast.

Eisenhower replied that he was considered by this government along with the possibility of the United States' making the first move toward banning tests—but that both proposals were rejected on the grounds that Russia was not seeking to gain from a propaganda standpoint.

RECESSION—Eisenhower said the government must give very careful thought to the idea of an "anticession" tax cut. He added forcefully that if we don't approach the problem of the business slump very seriously, we will build trouble for ourselves in the future. Such trouble, the President said, would make the current recession look small by comparison.

PALACE GUARD—Commenting on a remark by Sen. Bridges (R-NH) that the President is surrounded by a palace guard which does not always keep him well informed, Eisenhower said he was confident on Page 4, Column 3.

JUSTICE RAYMOND GRUMISH (left) served as moderator of the annual Kankakee Township meeting Tuesday. With him are Justice George Gebotte, who has been moderator the past two years, and Township Supervisor Marcellus A. Conway. (Journal photo)

Township Urges Board Of Health

Elected at the annual Kankakee town meeting Tuesday approved a report of Township Health Officer Thomas R. Houde which asks that the board of town auditors:

"Continue to urge the supervisor and assistant supervisors to do anything and everything to introduce measures to obtain a county board of health."

THE REPORT MADE by Houde, who is also town clerk, said: "It seems apparent that the new ordinance regarding public health had made a good deal of effect by its mere existence, although the use of such ordinance has not been required in the public interest."

Traditionally, this money is voted at the annual town meeting and other important actions are taken with only a handful of electors attending.

Township officials wish that more persons would attend. There was a flurry of interest Tuesday when seven students from West Junior High civics classes, with their teacher, George W. Kreutzer, walked into the meeting room in city hall to observe the meeting.

ANNUAL TOWN MEETINGS are actually very important to the taxpayer. Under existing laws, the township general corporate fund is not subject to statutory or constitutional limitations.

In other words, any amount, no matter how large, can be assessed against taxpayers for this fund.

However, only \$31,000 in tax money was voted for the corporate fund of Kankakee Township in the coming fiscal year.

"It's a good thing we have a group of honest township officials," one elector present commented. "When no one attends, practically any amount of money could be levied without a dissenting vote."

Robel groups in New York, Chicago and Miami joined them in their hunger strike.

Although they were captured last Thursday after a U.S. Coast Guard cutter rammed their 78-foot freighter, the Elvador, authorities said they hadn't eaten since last Tuesday, because of excitement or lack of time.

Appropriate \$53,000 For Township

Kankakee Township voted more than \$53,000 in tax appropriations Tuesday, but only 18 persons who were in the room knew about it.

Actually, the township handles more public funds than this amount, because the road and bridge fund, which had receipts of \$37,720 the last fiscal year, will be appropriated later during a public meeting.

Traditionally, this money is voted at the annual town meeting and other important actions are taken with only a handful of electors attending.

Township officials wish that more persons would attend. There was a flurry of interest Tuesday when seven students from West Junior High civics classes, with their teacher, George W. Kreutzer, walked into the meeting room in city hall to observe the meeting.

Communists Back Castro; 18 Slain In Cuban Clashes

HAVANA, Cuba (U.P.)—The Cuban Communist party threw its weight today behind rebel leader Fidel Castro's demand for a general strike to overthrow the government of President Fulgencio Batista.

Communists issued a manifesto demanding establishment of a broad democratic coalition government.

THE OUTLAWED party is credited with having 8,000 card-carrying members and about 12,000 sympathizers in Cuba.

The manifesto charged that more than half a million Cubans are jobless and that Yankee imperialism was responsible for national misery.

It accused Batista of being a puppet of the United States and of having stolen the 1954 election.

It called for a general strike and for the overthrow of Batista.

REBELS continued bombing and shooting attacks upon highway and railway transport.

Most stores and business establishments will be closing then over Good Friday or until next Monday. This would give the rebels the advantage of claiming the places closed because of the strike order.

The indictment was directed against Stanley J. Bachman, Jerome H. Bachman, Bernard Sidney Bachman and the corporation. It also charged attempted evasion of federal taxes on transfers of firearms and execution of false documents.

U.S. Indicts Firm Aiding Cuban Rebels

WASHINGTON (U.P.)—A federal grand jury here today indicted Southern Aeronautics Corp. of Rochester, N. Y., and its principal owners on charges of conspiring to obtain arms for the Cuban revolution.

The indictment was directed against Stanley J. Bachman, Jerome H. Bachman, Bernard Sidney Bachman and the corporation. It also charged attempted evasion of federal taxes on transfers of firearms and execution of false documents.

Reds Seen Planning Games Or Tests

LONDON (U.P.)—The banning of foreign diplomats from travel in four big areas of the Soviet Union led British officials to speculate that military factors are considered by the board.

At least one member would come from the Pentagon to assure that military factors are considered by the board.

Board members outside the government are added, should be eminent in science, engineering, technology, education or public affairs.

HE SAID he will suggest that Congress give Secretary McElroy additional financial flexibility, to make possible day-by-day changes in the military setup to meet changing conditions.

Eisenhower said the secretary continued on Page 4, Column 3.

U.S. Separates Arrested Cubans In Effort To End Hunger Strike

BROWNSVILLE, Tex. (U.P.)—Federal authorities tried to break up a hunger strike of 35 captured Cuban rebels today by separating the leaders and splitting them off to other jails in south Texas.

Rebel groups in New York, Chicago and Miami joined them in their hunger strike.

Although they were captured last Thursday after a U.S. Coast Guard cutter rammed their 78-foot freighter, the Elvador, authorities said they hadn't eaten since last Tuesday, because of excitement or lack of time.

Organization Would Develop Peaceful Uses

Eisenhower Says New Unit Would Cooperate With The Military

WASHINGTON (U.P.)—President Eisenhower today asked Congress to create a new civilian agency to run America's space exploration program.

His request was in a special message. It went to the legislators immediately after a news conference at which the President said he will have another special message Thursday on the program for reorganization of the Defense Department.

One aim of the defense reorganization plan, Eisenhower said, is to strengthen authority of the secretary of defense in military strategy matters.

Eisenhower's message would absorb the National Aeronautics and Space Administration and would be responsible for an imaginative and well-conceived program.

The new agency would administer space projects as well as conduct space research. It would cooperate closely with the Defense Department in carrying out some military space research, but the secret would be on peaceful uses of outer space.

Eisenhower called it the "National Aeronautics and Space Agency."

HE SAID it would be run by a civilian director, backed up by a space board composed of government and private experts.

While the new agency is being set up, Eisenhower said, he is ordering an interim program of space technology and exploration.

This program, already announced, includes plans to launch a number of unmanned space vehicles under direction of the Pentagon's Advanced Research Project Agency.

Earth satellites and moon explorations are included.

The proposal, which the legislation provided for members of the space board to include representatives from government agencies directly interested in aeronautics, space science and space technology.

At least one member would come from the Pentagon to assure that military factors are considered by the board.

Board members outside the government are added, should be eminent in science, engineering, technology, education or public affairs.

Town Hall Given To Bourbonnais

Bourbonnais received a "new" 60-year-old village hall and Bradley was offered a 70 by 670 foot park at the annual Bourbonnais Township meeting Tuesday afternoon.

With 19 electors present, including six township officials, a unanimous vote was cast to give the village of Bourbonnais the township hall which it is located at the intersection of Routes 45 and 113-N. The village had a one-third interest in the hall and ground.

Oddy enough the plot of ground at one time belonged to the village. Records show it was deeded to the village by Graveline for \$387 on Nov. 15, 1898. On Aug. 13, 1944, the village deeded to Bourbonnais Township two-thirds interest in the plot on the condition the township construct a building worth a minimum of \$2,000. According to township officials at Tuesday's meeting, an assessor two years ago placed value of the building and property at \$38,000.

Robert Nicholson, chairman of the fund campaign, said by the chapter has reached 93 per cent of its goal of \$44,171.

Extension of the campaign in Kankakee County is in keeping with the National Red Cross headquarters, 183 N. Indiana Ave., Nicholson explained. "We are also asking persons who have given to consider the possibility of giving more. These, too, we are asking to send the contributions to the Red Cross headquarters."

Chairman Nicholson pointed out that a \$5 donation to the Red Cross will mean one of several important things: can finance the shipping of one pint of blood to help in saving the life of an ill or injured person; can mean the processing of two vital gamma globulin for use in preventing or modifying a variety of diseases; it can provide water safety training for three persons; it can train three homemakers to care for sick, aged, or chronically ill members of their families or it can train three persons in first aid.

Pointing out the disaster fund needs of the Red Cross, the chairman emphasized that the humanitarian organization is daily being called upon to meet disaster needs in the country. A few days ago, he said, in storm-stricken Pennsylvania, New Jersey and New York, Red Cross shelters were in operation offering a haven to stranded motorists, families forced from their homes by lack of heat and light, and public utility crews.

Red Cross Extends Drive Through April

The Kankakee County Red Cross chapter will use the month of April to try to gain final funds needed to put its 1958 drive over the goal.

Robert Nicholson, chairman of the fund campaign, said by the chapter has reached 93 per cent of its goal of \$44,171.

Extension of the campaign in Kankakee County is in keeping with the National Red Cross headquarters, 183 N. Indiana Ave., Nicholson explained. "We are also asking persons who have given to consider the possibility of giving more. These, too, we are asking to send the contributions to the Red Cross headquarters."

Heavy Seas Crack Hull Of Carrier

NEW YORK (U.P.)—The aircraft carrier USS Corregidor suffered a crack in her hull in heavy seas in the Atlantic Tuesday night. She took in some water but was repaired and is expected to reach the islands in about two days.

The carrier was limping today toward the Azores for emergency repairs. Aboard were 20 officers and 150 enlisted men.

The Navy's Military Sea Transportation Service, operator of the vessel, said she was about 420 miles northeast of the Azores and was expected to reach the islands in about two days.

Now serving as an aircraft and cargo carrier, the Corregidor was en route from Barcelona, Spain, to Pensacola, Fla.

2 Snowslides Strike Passenger Train

SAN FRANCISCO (U.P.)—A Southern Pacific train was hit by two snowslides in the Sierra Nevada early today. 31 miles west of Truckee.

About 25 passengers aboard escaped injury. Two trainmen were injured. The train was stuck out of the snow shed for about 10 hours.

The eastbound passenger train was coming out of a snow tunnel 15 miles west of Donner Summit when leading diesel units were hit by the first slide at 4:40 a.m. The slide crushed the cab manned by engineer Ralph B. Spangler of Roseville, Calif., and engineer S. B. McNamara, Sacramento, Calif., injuring them slightly.

The second slide at 5:20 a.m. hit the rear of the train, which was sticking out of the snow shed. One baggage car was derailed.

ILLINOIS COUPLE WED 70 YEARS

TOLEDO (U.P.)—Mr. and Mrs. W. M. Lavine of Toledo, both 68, will mark their 70th wedding anniversary Friday.

Their sons, Ted, of Jerseyville and Fred, of Bellingham, Wash., and a daughter, Mrs. Mabel Rominger of Lawrenceville, will join in a celebration Sunday at Toledo.

Election Planned

ATHENS, Greece (U.P.)—Greece's King Paul today signed a decree dissolving Parliament and paving the way for a general election May 11.

Florence Stove To Be Known As Roper Corp.

The name of Florence Stove Co. has been changed to the George D. Roper Corp. It was announced in Kankakee today by John P. Florence, president. He said the name change was in accordance with a vote of the stockholders of the Florence Stove Co.

Florence merged with the former Rockford gas range manufacturer last Oct. 31. Wright said that the Kankakee company will continue to produce Florence ranges but the major portion of its brand name production will be the Roper range. He stated that it shared with the company's Gardner, Mass., and Lewisburg, Tenn. plants and one which dates back to 1912 when the company was founded.

Since 1929 the plant has been engaged in building gas ranges and oil heaters under the Kenmore label of Sears, Roebuck and Co., as well as under the Florence label. In 1941 it undertook production of armor plate, shells, etc., for the armed forces and continued in this work until 1945.

WRIGHT said the change in name was the first for the Kankakee company. It was christened as the Foley-Williams Sewing Machine Co. back in 1929, changed in the manufacture of sewing machines and

The Journal's Page Of Opinion

Earth's Orbit In Jeopardy?

Our planet, Earth, is doomed to death by fire or water, in snow or ice, so says Dr. Gerard Kuiper, famed astronomer of the Yerkes Observatory at the University of Chicago.

But there's no need to fret about the imminence of this possibility. It won't happen for several billion years.

The earth is a pretty old place and Kuiper thinks it faces destruction in a habitable planet in one of several ways. Here's how and when this could come about:

About the best our descendants can hope for is that the sun continues to shine at the same brilliance at the same distance from the earth. Trouble is ahead, though, even if that happens, elements in the earth's crust and upper layer disappeared.

These radioactive elements are splitting apart and producing heat which in turn creates molten material that pushes up to create new mountains and volcanoes. When this natural heat dies out, there will be no new upliftings of land. The existing mountains and continents would be flattened by erosion from rain and weathering until more and more of the existing land surface would be inundated by water.

According to Dr. Kuiper, there is real danger that the entire earth would ultimately become one vast ocean. In

order to survive, humans would have to follow the pattern of the Dutch and build dikes.

That the sun will burn up the world is the most likely fate. That could happen in a mere three to four billion years.

The sun, which is probably about six billion years old, is slowly increasing in brightness. It is now about 25 per cent brighter than when it first went into business.

Three to four billion years hence, the sun may have become big enough to extend to the present orbit of Mercury. That would make its total radiation about 100 times stronger than at present.

Then the earth would heat up and all life as we know it would be destroyed. Our atmosphere would be filled by boiling oceans and steam — a phase that could last about one billion years while the sun was a gigantic star.

What would happen next? Dr. Kuiper says the sun probably would shrink again, become a white-dwarf star, increasingly faint and cool. The steam and water vapor would condense, forming oceans again. The seas would freeze over as the earth's temperature fell and millions of years later the entire earth would be covered with snow and ice.

Sounding Of Home Sentiment

Beginning Good Friday, Congress will take a vacation over Easter and return Monday, April 14, the day after Jefferson's birthday anniversary. It will be perhaps the last 10 days of sounding of home sentiment, before the summer brings to an end the Congressional session.

This will be an important legislative holiday. The members of Congress will

hear some doleful complaints and radical remedies. The Administration, too, will be making some soundings. They will be less emotional, perhaps, and will be inclined toward the statistics of business and the economy.

The end of this legislative holiday may be the real beginning of the fall election campaign, with all of the legislative and elective risks involved.

A Statistic That Isn't New

Unemployment figures shouldn't be minimized nor exaggerated as the nation develops a continuing picture of the economy in 1958.

But a good many people who today are urging all kinds of drastic action to clear the current economic roadblock talk as if there were no people at all unemployed even at times when business was at boom levels.

They talk as if it is required that five million jobs be found for the unemployed in the immediate future.

Even in the times of highest economic

pace we have had from two to three million unemployed in the postwar era.

That shifting but ever-present figure represents people who for one reason or another are unemployable—the ill, the disabled, the hopelessly indigent; people who are changing from job to job or city to city, and part-time or seasonal workers.

These unemployed shouldn't be part of the current statistics. It is regrettable, but the two-three million represent a total which may be with us at all times.

By John B. Crane

German Strike May Cause Recession

BONN, Germany—Over 80 per cent of all organized German steel workers in the Ruhr voted on March 27 to strike for a 10 per cent increase in wages.

The strike vote has just followed several weeks of unsuccessful negotiations with the employers. During a compromise was proposed, but the union leaders, for example, finally agreed to cut John B. Crane's demands from a 10 per cent wage increase per hour to 5 per cent, while the steel employers agreed to increase wages by 3.7 per cent instead of by the original offer of 2 per cent.

The unions have finally rejected the employers' latest offer, claiming that the cost of living has increased nearly 5 per cent during the past year and is still rising. They want a wage increase of more than this amount.

THE EMPLOYERS, however, maintain firm in their conviction that an increase in wages of 5 per cent is impractical at this time because of the steady decline in orders and the tendency for steel prices to decline.

They are also worried over the effects that an increase in wages for steel workers might have on wages for coal miners. There is a traditional differential between coal and steel wage rates and they

fear the coal miners would immediately demand a comparable wage increase to maintain the old differential.

With labor costs rising in coal, this would mean higher coal prices for steel producers and would be a second factor increasing the cost of steel at the very time when steel prices are falling.

In Britain, a cut of one per cent in steel prices has just been announced while Luxembourg's largest steel producer, ARBED, which is, incidentally, one of the largest steel producers in Europe, has submitted a new price list on steel products to the High Authority of the European Coal and Steel Community, which calls for reductions in steel prices from 2 to 7 per cent.

GERMAN STEEL producers fear that if they gave wage increases under such unfavorable business conditions their resulting increased unit costs would handicap them in the competition for foreign orders.

Such a development, in my opinion, might well spark an economic recession in all of Germany because of the key importance of steel to so many other industries. With many industries, however, having backlog orders which will keep them busy for another four or five months, the beginnings of the recession might not be felt before autumn.

Another factor supporting the employers' stand against an increase of 5 or 10 per cent in steel wages this year is the fact that during the past year or two wages in Germany have been increasing

WILLIAM TICEHURST of England (left) and Edgar L. Patch, general manager of Armour Laboratories, Kankakee, look over a piece of machinery being prepared for shipment to the Armour Laboratories, Eastbourne, England. (Journal photo)

British, U. S. Armour Managers Confer Here

William Frederick Ticehurst, general manager of the Armour Laboratories in Eastbourne, England, is spending a few days at the Kankakee Armour Laboratories discussing plant operations with Edgar L. Patch, general manager of the Kankakee plant. Ticehurst and Patch met periodically to discuss operations and exchange ideas.

The Armour company has three laboratories in addition to the Kankakee and Eastbourne plants there is one located in South America.

The England and United States plants are about the same age. The plant in Eastbourne was completed in June, 1954. It is considered a sister to the Kankakee plant and the two are based architecturally on similar lines.

Ticehurst has had an interesting life. He was born in Roorkee, India, where his father was an officer in the British army. When the latter was killed Ticehurst was unexpectedly forced into trade at the age of 18.

He applied for service to Mr. Bradshaw of the Armour Laboratories.

Probers Unhappy Over Fast End To Indiana Strike Investigation

WASHINGTON (AP)—Two Republican senators voiced disappointment today that the Senate Rackets Committee was not delving deeper into Indiana's violence-ridden Perfect Circle Corp. strike in 1955.

Sens. Mundt (SD) and Goldwater (AR) said the committee should have devoted more than the two days it used to an inquiry into the United Auto Workers strike against the piston ring manufacturer.

The committee wound up the investigation Tuesday when it ran out of witnesses.

Mundt said the committee probably had spent too much time on its probe of the UAW's strike against the Perfect Circle Corp. in the Perfect Circle strike. Caldwell, a UAW international representative, characterized as perhaps "the villain" in the Perfect Circle strike. Caldwell had been excused by the committee Monday.

The hearings consisted largely of statements of position from Perfect Circle President William B. Prosser and UAW international representative Raymond H. Berndt.

Each accused the other side of the strike. Caldwell, who was picked Nov. 5, 1955, that wounded eight persons, in New Castle, Ind.

But SEN. LIVES (R-NY) told the committee that the investigation, however, because each patient has to pay the equivalent of 14 cents in American money to the chemist for the prescription.

He said that the professional service man does not, therefore, get orders from the doctor and must work closely with the chemist who draws supplies either from Armour directly, or through wholesalers.

Ticehurst explained the Ministry of Health still governs closely the distribution of corticosteroid products and takes over Eastbourne's entire output which it distributes to 199 hospitals throughout the United Kingdom.

He pointed out that the general practitioner can obtain the medication he uses from one of the recognized hospitals.

Beecher, Studies Education Board, Suburban Schools

BEACHER (JNS) — James Franks and Arnold Brands, members of the board of education of Community Unit School District 200-11, along with Sup. John H. French, spent Thursday visiting new school buildings in the Chicago south suburban area.

They found that where buildings had been built at a low figure, important details had been left out. Some had cement floors. One provided no storage space for teaching materials. Another was found to be damp, with a poor heating system.

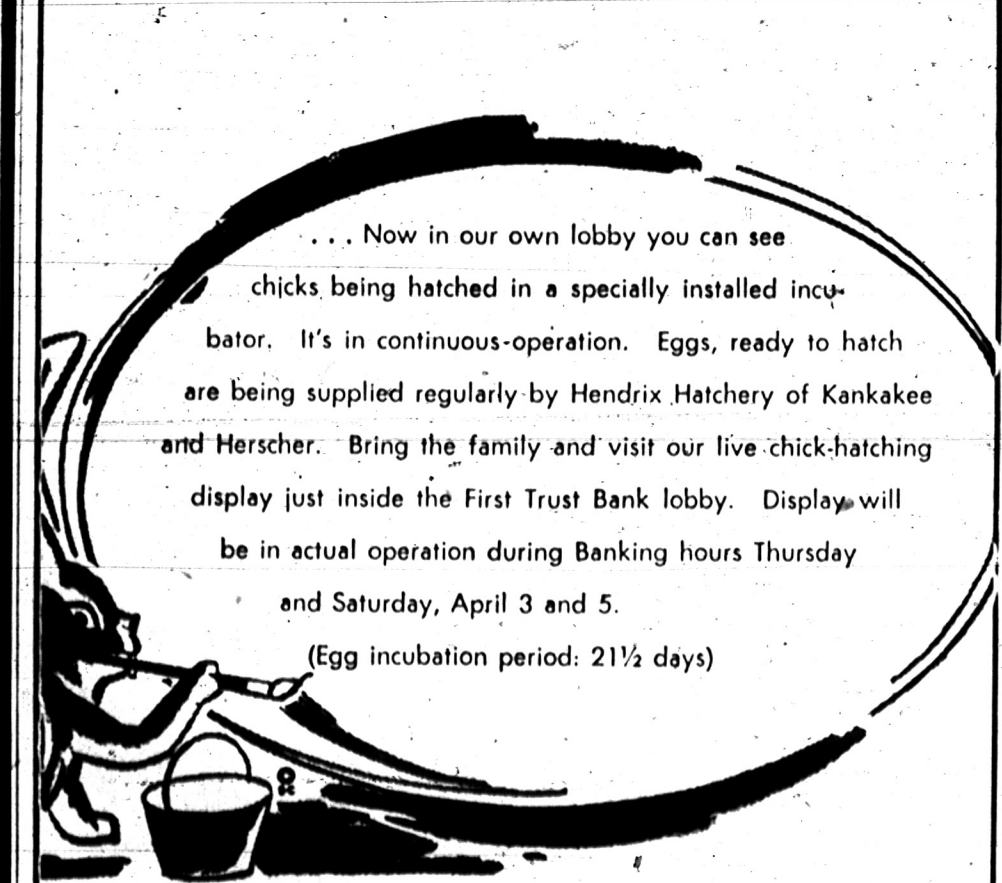

Some features, which may be cost saving and the same practical, were observed. An investigation will be made of the practicability of such features.

Capt. Bartholomew Gosnell was the first white man in New England. He landed near New Bedford in 1602.

Attempts to introduce the salmon from the cold waters of the north into Australian waters have been unsuccessful.

3 Homes In Kankakee Burglarized

Three Kankakee homes were burglarized Tuesday night, according to reports filed at the police station.

About \$100 worth of property was stolen from Charles E. Ladley residence, 1440 E. Oak St., between 7 and 9 p. m. while the family was gone.

Taken were a piece of silverware, new set of luggage and a man's overcoat.

Entrance was gained by breaking a glass in the door, and unhooking it from the inside.

Mrs. Gertrude Adams, 1256 E. Chestnut St., reported that some \$25 to \$30 was taken from her home between 5:30 and 9 p. m. while she was out of the house. A door lock was broken to enter the house.

The third burglary was reported at 8:07 a. m. today, when a cleaning woman went to the home of Ed Moeff, 1521 E. Court St., and found that the house had been broken into.

She notified Moeff's son, Edward Jr., Aroma Park, who called police. The son said his parents went out of town for a few days. He said a report on what was missing would have to wait until his parents returned, because he could not tell for sure.

Football: Gerald Ashman, Darwin Bayston, Tom Feely, Wayne Haskerhorn, Willard Huel, John Hubby, Kurt Shaffer, Carl Schade, Kenneth Sharp, Dick Whittenberger, Tom Whittenberger, Stan Anderson, Mike Albrecht, Dale Bennett, Carl Ford, Larry Neuzel, Warren Schade, Jerry Teeter, Gerald Bayston, Mark Monahan and Norman Kerber, manager.

Track: Glen Pearson, Dick Whittenberger, Tom Whittenberger, Willard Huel, Tom Feely, Darwin Bayston, Carl Ford, Dale Bennett, Mike Albrecht and Stan Anderson. Basketball award winners were Tom Feely, Darwin Bayston, John Hubby, Carl Schade, Willard Huel, Carl Ford, Mark Monahan, Jack Wilson, Stan Anderson and Larry Neuzel. Carl Schade was also awarded the free-throw trophy.

The Rev. John F. Dale of the Methodist church gave the invocation and the Rev. Charles Fick of the EUB church gave the benediction.

Woman Becomes Alcoholic At 80

NEW YORK (AP)—A woman became an alcoholic after downing her first drink at the age of 80—because of the economic impact of alcoholism was told Tuesday.

Dr. Harold W. Lovell, a psychiatrist, said the woman's case is proof that many persons are potential alcoholics.

Spends Nights Watching Over Multi-Million Dollar Factory

Keeping watch over a multi-million dollar factory at night is one of the most responsible jobs anyone could hope to have.

Joseph Kirsch, 320 N. Greenwood Ave., has been doing just that for the past five years at the General Foods corn mill plant and distribution center.

Kirsch has been at the plant for 6 1/2 years, five years as night watchman. He alternates between the 4 p. m. to midnight, and midnight to 8 a. m. shifts.

He makes considerable mileage each night performing his duties. Punching his watchman's clock at the plant's 27 stations each hour accounts for about 8 miles in itself.

One of his principal duties while making his rounds is to watch for fires.

Checking doors and windows and turning lights on and off at dusk and dawn are also part of his work.

3 Major Items For Bourbonnais Board

Talk was plentiful but action was limited as the Bourbonnais Village Board held its regular meeting Tuesday night in a regular board session. The session lasted over four hours.

The board in order heard A. L. Diesterlin, district traffic engineer of the Illinois Division of Highways from Ottawa; Howard Schwark, village consulting engineer for sewer and water projects; Richard Tyson, who was hired to make an engineering survey of surface drainage in the village; and A. J. Brensley, consulting engineer for the village water, sewer and sewage plant projects.

Principal item of business consummated at the session was approval of a proposal by Tyson for the Tyson Engineering Service to make a survey of the storm water drainage problem in the village. A cost of \$1,500 to be completed within 120 days.

Tyson is to make a topography map of approximately 1,250 acres contributing to the Bourbonnais sewer system, locate the existing basic storm sewer outlets and layout and determine size of necessary interceptors to provide adequate drainage for the future.

HE IS ALSO TO MAKE an estimate of cost of the project and methods of financing and to prepare a phase development recommendation for construction of interceptors and mains so that areas being developed will install proper storm sewers to provide adequate drainage.

Prior to Tyson's report, Schwark discussed with the board what the village might do to make the present open storm water ditches more adequate. He suggested that present drainage ditches be cleaned out with village labor. Schwark noted that funds were not available at present to do extensive work.

Brensley appeared before the board to report on progress on the sewer, water and sewage plant project and to answer questions with regard to the project. He noted a change in the location of the connection water line along Armour Road to Route 54, as being required so that the water line would not be under pavement in any proposed improvement of the Armour road.

HE SAID RESIDENTS of the Bon Aire subdivision would be able to connect on to the sanitary sewer as soon as the sewer was completed, cleaned and tested. He said this might be within two weeks.

Brensley also answered a series of questions submitted by the Bon Aire Improvement Association which were read by Trustee Albert Strong.

STRONG STOMACH: STELLBY, N. C. (AP)—A cow of the Ora Mill farm died recently. The pill dump is near the pasture.

Farm Superintendent Velva Queen said a post-mortem disclosed the following in the cow's stomach:

Three razor blades, four nails one to five inches long, a 14-inch chain from a pocket watch, a clothes pin spring, two large pieces of glass, a wrist and part of a gear from a fishing reel, pieces of wire of various lengths and thicknesses, plugs and several tins, which are metal objects off machine.

Pella Township Adopts Town Fund Levy Of \$4,775

PIPER CITY (JNS) — Pella Township adopted a town fund tax levy of \$4,775, an increase of \$800 at the annual township meeting.

This levy includes the general assistance fund. A \$350 library levy was also adopted.

A discussion was held on the road and bridge fund tax limit, which are to be voted on April 8.

John Gallahue was named moderator. Wilfred McKee, township clerk, served as clerk. Estel Jeffrey was named trustee commissioner. Nine persons were present for the meeting.

IN BRENTON, Township, a town fund tax levy of \$5,400 was voted, an increase of \$75. A general assistance fund of \$1,000 was approved. There was no levy for this fund last year.

The balance in the town fund at the end of the year was \$1,000. The balance in the general assistance fund was \$1,000. The balance in the library fund was \$1,000.

Cherry Blossoms To Miss Easter

Cherry blossoms, which were in full bloom at the beginning of the week, will be missed by the "Easter Bunny" as he visits the town.

The Cherry Blossom Festival, which is being held in Bloomington on July 12 and 13. The latter date is July 5 and 6. It was reported that the general assistance fund was \$1,000.

Cherry blossoms, which were in full bloom at the beginning of the week, will be missed by the "Easter Bunny" as he visits the town.

The Cherry Blossom Festival, which is being held in Bloomington on July 12 and 13. The latter date is July 5 and 6. It was reported that the general assistance fund was \$1,000.

Fire Calls

Kankakee firemen answered three calls Tuesday afternoon and evening, for two minor fires and one inhalator request.

A chimney fire was extinguished about 6:28 p. m. at the home of LeRoy Bellows, 746 E. Court St. No damage was reported.

Earlier a grass fire was put out in the 500 block of N. Hobbs avenue. The fire was reported at 5:06 p. m.

At 7:44 p. m. the inhalator squad administered one tank of oxygen to Mrs. Mae Mook, 972 S. Schuyler Ave., when she experienced difficulty breathing. She became ill at the corner of Schuyler Ave. and Bourbonnais St. Firemen took her home.

Cherry blossoms, which were in full bloom at the beginning of the week, will be missed by the "Easter Bunny" as he visits the town.

The Cherry Blossom Festival, which is being held in Bloomington on July 12 and 13. The latter date is July 5 and 6. It was reported that the general assistance fund was \$1,000.

Present Scout Awards At Piper Cub Pack Event

PIPER CITY (JNS) — The Cub Scouts held their March pack meeting on Saturday evening in the Legion Hall.

Den 2 was host for the evening. Skits on "Alaska" were presented by each den.

Awards went to the following: Charles Bargman, wolf badge, gold arrow and bear book; Jerry Foster, silver arrow; Billy Hancock, wolf badge, gold arrow; Bill Keefe, silver arrow, one-year service star; Steve Lane, silver arrow; Tom Wilson, silver arrow; Hugh McIntosh, silver arrow; David Dickerson, bear badge, gold arrow; Lennie Jackson, silver arrow; Steve Boma, gold arrow; Steve Lovell, gold arrow; silver arrow; Dick Elbert, gold arrow; silver arrow; Jimmy Johnson, bear badge; Roger Yacret, silver arrow.

Cherry blossoms, which were in full bloom at the beginning of the week, will be missed by the "Easter Bunny" as he visits the town.

The Cherry Blossom Festival, which is being held in Bloomington on July 12 and 13. The latter date is July 5 and 6. It was reported that the general assistance fund was \$1,000.

Manteno Township Increases Aid Fund

Manteno Township voted Monday to increase its general assistance fund from \$1,000 to \$3,000. The increase was approved following the recommendation of Supervisor Eugene A. Smith.

Smith explained to the board that the additional funds will not necessarily be used but, that in view of present economic conditions, they should be available.

The township general fund levy will remain the same as for the 1957-58 fiscal year, \$1,000.

One more than the required seven persons for a quorum attended the meeting at which Smith reported that an indebtedness of only \$14,000 remains in the special road and bridge bond interest fund. This is being paid off at the rate of \$7,000 a year and will be cleared in two years, Smith said.

Reports of drainage districts No. 1 and No. 2 indicated between \$1,000 and \$2,000 in arrears. The balance of the township fund showed a total balance at the beginning of the fiscal year of \$5,516.20. The breakdown is \$1,184.41 in the general fund balance; \$799.99 in the road and bridge fund; \$2,972.84 in the general assistance fund; and \$683.74 in the bond interest fund.

A REPORT OF THE Highway and Interest fund.

Seas May Become Powerhouse Of Future

(Editor's Note—Long feared by a man as a destroyer of ships, the sea at the dawn of the nuclear age promises to repay for past deceptions. This article on the ocean frontier tells about this promise of the not-too-distant future—vast power for humanity's workshops.)

By EVERETT S. ALLEN
Written for The Associated Press
Three-fourths of the ocean is hydrogen, and a large proportion of the energy of the hydrogen bomb, and the formula for an incalculable boon for mankind—cheap, virtually inexhaustible power.

HERE'S WHAT the British success amounts to:
The process involves the fusing of four nuclei of hydrogen into one nucleus of helium. This is the process responsible in nature for the enormous amount of energy in the sun, which derives its name from the fact that it is twice the weight of normal hydrogen—“heavy” hydrogen.

The key problems arise in attempting to fuse nuclei of deuterium to generate electricity in quantity. A very high temperature is required, and some type of special “container” is needed to hold the gas after it has been raised to the temperature called for.

It has been estimated that temperatures of 370 million degrees centigrade would be required to establish a “fire” of deuterium that would be self-sustaining and give off more energy than was required to keep it going. This is more than 20 times the temperature of the sun's interior.

American experiments reportedly have reached temperatures as high as six million degrees. Sir John Cockcroft, Nobel prize winning director of the British atomic

research establishment, has said Britain's efforts soon would surpass the sun's core temperature which he estimated at 15 million degrees.

The main problem, of course, is to find a suitable “container” for these tremendous temperatures. But it seems only a matter of time, until vast energy from the seas will power humanity's workshops.

REJECTED, ELECTED!

SUPERIOR, Neb., — Mrs. Arabella Hanna, closing out her first two year term as mayor, was rejected by her party—the Conservatives—at its nominating caucus to select candidates.

Her name wasn't on the ballot in the city election Tuesday but she got 989 write-in votes to handily defeat two men candidates.

Tom Hannagan, the Conservative candidate, got 138 and Floyd Bryan of the People's party got 222.

Joliet Soldier Killed In Panama

PANAMA — A Joliet, Ill., soldier, Specialist 2, C. Donald J. Bell, was killed in a car accident Monday, the day after he arrived in the Canal Zone.

Bell, 29, was killed when a car he was riding in skidded into a bridge, the Army said. A bridge railing smashed through the windshield. The driver escaped serious injury.

Bell arrived in Panama from Ft. Leonard Wood, Mo., with his wife and six children. He was the son of Mr. and Mrs. Ralph Bell of RFD 1, Mokena, Ill. His body will be flown to Joliet for burial.

Overdoing Praise Or Criticism

By DOROTHY V. WHIPPLE, M.D.

When children reach their teens, they begin to take a pretty realistic view of themselves. They are fully aware of their own faults and nothing more important for the truly mature persons than to be able to evaluate himself honestly, and further to be able to accept that evaluation without fears, doubts and recriminations.

It's the job of the wise parent to tread that narrow path between praising and urging on the one hand, and accepting real limitations on the other.

Kurt had always been a good student in the lower grades, but as he went on into senior high school the going was harder. One day he was told his grades were poor.

He was shocked and he began with some remarks to the effect that of course he could do it, but there was something in the boy's face and manner that gave his dad up short. The boy wasn't asking for encouragement, he was stating a fact.

"I'm sorry, Dad," he said, "but I know I can't do it."

"Well, son," replied dad thoughtfully, "nobody can do everything, and maybe it is better you get off the team gracefully."

Relief dropped from the boy's face. He said, "You understand, Dad," he said.

Kurt felt better because his dad had accepted him even if he wasn't the ball of fire he would like to be. But if dad had brushed off the boy's worries, given him a glub pat on the back and told him of course he could do it, the boy would not have been convinced.

He would have felt resentful and guilty and a good bit more inadequate than he had needed to be.

Anne was talking to her younger brother.

"All right, Dick," she said, "you and I are bright. Let's face it without beating around the bush. We are probably above average but neither one of us is the genius Dad is, nor the genius he thinks we are. Dad's a genius at engineering but he's a dumbbell when it comes to knowing anything about

Civil War Topic Of Lyric, Travel Club Meeting

The program for the Friday

lunch meeting of Lyric and Travel Club was based on the Civil War. Hostess was Mrs. E. N. Greenman of 1151 E. Court St.

Mrs. Greenman told of her father's service in the Union Army during the Civil War, of his experience as provost marshal of the state of Georgia at the close of the war and of his term as a representative in Congress.

Members of the club took family mementoes of the war for display and discussion at the meeting. These included 11 items from a service fraternity, the son of Mr. and Mrs. William H. Hemminger of RR 1, Redick.

Miss Ardis Peterson, a sophomore student at Northern Illinois University, DeKalb, was recently initiated into the chapter of Sigma Xi.

Her father, Mr. Peterson, is the son of Mr. and Mrs. William H. Hemminger of RR 1, Redick.

Keep In Trim Cull Hidden Calories For Easy Reducing

By IVA JEAN KAIN

You can have your favorite foods and still slim down, too, when you learn the technique of culling hidden calories. Calories can be hidden in unexpected fat or vegetables, smothered in creamy sauces, or lurking in gravy. Actually, you may be getting little taste satisfaction out of these added calories and couldn't tell the difference if they were omitted. Leave them out and you will soon see a pleasing difference on the scales.

If you will cook vegetables quickly and make sure they are not overcooked, you will enjoy the natural flavor without added sauce. Or compress and "sauté" the butter by adding lemon juice to melted butter.

How much butter do you usually use on a baked potato? A fat pat? Get the slimming habit of having a half pat, 1/4 inch thick on a medium-size potato. You can save 100 calories right there.

A calorie-saving trick in making gravy is first to sauté the drippings and allow them to get the fat to congeal on the top. Skim off the fat and use the fat-free remainder to make the gravy. Also, be sure to trim all fat from meat.

Another calorie-culling rule is to include only low-calorie foods in your diet. If you choose a potato, then do not have lima beans, corn or any starchy vegetable, and omit bread at this meal.

What foods are in the habit of frying? First to save calories, choose chicken or fish. Both these foods are low in calories and relatively low in cost. Both these foods are low in calories and relatively low in cost.

The way to slim down without "dieting" is to make it a rule to wait for hidden calories at each meal. Have breakfast eggs poached, soft boiled or scrambled in top of double boiler without added fat. In fixing a sandwich for lunch, use mustard and skip the mayonnaise and butter.

At dinner just leave off fattening trimmings. When ordering dinner out, specify "no gravy" and you'll be saving 200 extra calories. Wouldn't you rather use them in dessert?

Many overweighters write that they couldn't possibly reduce on the amount of food this dieting includes in the menu. Some wonder that they would even gain on such fare. They're lovel! The "magic" is that all hidden calories are carefully culled, and all essential foods are included in abundance—but minus the fattening trimmings!

Available at your favorite dieting store.

Uses for Little BO-PEEP... ONE OF A SERIES

Little Bo-Peep

Grease, mella away and hard deposits loosen easily when you use Little Bo-Peep to clean your stove. Cleaning stove burners and oven is child's play for Little Bo-Peep.

For burners: soak twenty minutes in a 50-50 solution of Little Bo-Peep and hot water to loosen caked-on carbon.

For ovens: put an open source dish of Little Bo-Peep in oven overnight. Crusty deposits will then wipe off easily.

FOLLOW THESE SIMPLE DIRECTIONS

Little Bo-Peep

EASTER BONNET CAKE is a lot of fun and easy to make.

Easter Bonnet Decorates Table

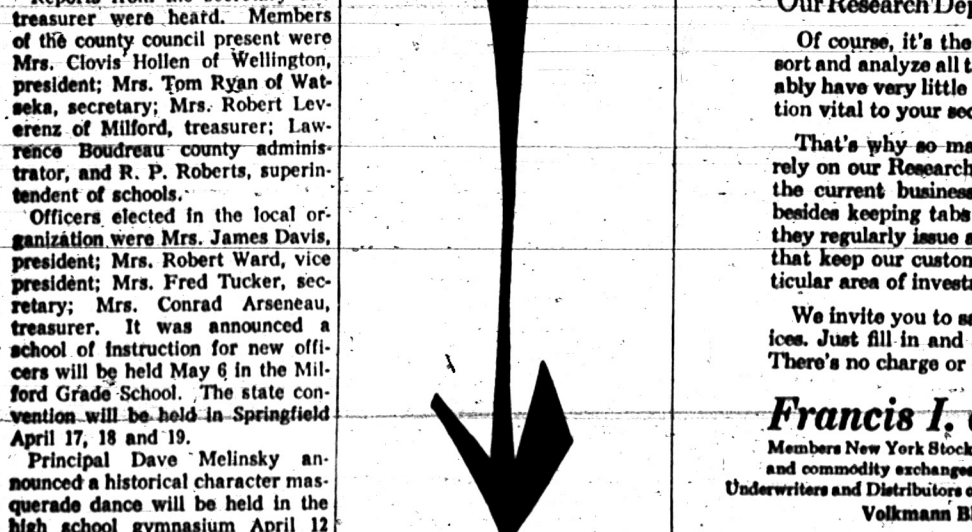

By CECILY BROWNSTONE
Associated Press Food Editor
FRENCH CHEFS have always gone in for decorating food elaborately. Americans have taken over the custom but have adapted it to their own tastes and skills.
So even if you're not a cake-decorating expert, you can prepare this amusing Easter Bonnet dessert. Two white or yellow layer cakes (made from a mix), some chocolate frosting are its foundation, and morsels of semi-sweet chocolate dot the top of the cake in a polka-dot effect. The only skill necessary is forcing some of the chocolate filling through a cake-decorating tube around the base of the hat's crown, and trimming with a bow.
You will need a set of tier cake pans to bake the cake. These are widely available in dime, hardware

Cullom Juniors Will Wash Cars

CULLOM (JNS)—Members of the junior class will wash cars at the Hamilton and Krumwiede service stations on April 5.
The money will go into the Junior Trip Fund.
MARLIN SCHRAMM, who completed a six-week course at Barkdale Air Force Base, Shreveport, La., returned to his duties at Kankakee Community College.

Conduct Election At Meeting Of PTA in Donovan

DONOVAN (JNS)—The Parent Teacher Association met in the high school Thursday evening with President Mrs. James Davis presiding.
Reports from the secretary and treasurer were heard. Members of the county council present were Mrs. Clovis Hollen of Wellington, president; Mrs. Tom Ryan of Watke, secretary; Mrs. Robert Levens of Milford, treasurer; Lawrence Boudreau county administrator, and R. P. Roberts, superintendent of schools.
Officers elected in the local organization were Mrs. James Davis, president; Mrs. Robert Ward, vice president; Mrs. Fred Tucker, secretary; Mrs. Conrad Arsenau, treasurer. It was announced a school of instruction for new officers will be held May 6 in the Milford Grade School. The state convention will be held in Springfield April 17, 18 and 19.
Principal Dave Melinsky announced a historical character study dance will be held in the high school gymnasium April 12 under sponsorship of the History Club.
The guest speaker was Yong Kwan Kong of Olivet Nazarene College, Bourbonnais. During the program, Gene Oberst presented three first place winners in the music contest, Deanna Summers, saxophone soloist; Margaret Hurliman, trumpet soloist; and Linda Dale, saxophone soloist.
During the social hour, the hospitality committee, Mrs. Joe Perbolto and Mrs. Marvin Nourie, served refreshments. The next meeting will be held April 24 at 8 p.m. High school pupils will participate in a discussion.

What's new with your investments?

Our Research Department knows, do you? Of course, it's the job of our research staff to sort and analyze all the financial news. You probably have very little time to dig out the information vital to your securities.
That's why so many investors have come to rely on our Research Department's reporting of the current business news and opinions. And, besides keeping tabs on thousands of securities, they regularly issue a wide range of publications that keep our customers up-to-date on the particular area of investment that interests them.
We invite you to sample our information service. Just fill in and send us the coupon below. There's no charge or obligation, of course.

Forrest Lions Sponsor 14th Athletic Banquet

FORREST (JNS)—The Lions Club sponsored its 14th annual athletic banquet on Thursday night in Meadowbrook School with approximately 250 present.
Wilman Davis was toastmaster. The Rev. Lyman Moore gave the invocation. The welcome was given by the presidents of the Lions Club, William Folmer.
Two spirituals were sung by the boys quartet, Bob Caughey, David Farney, Keith Rieger and Chuck Merritt.
Roy Hanson, director of physical education and athletics at Western Illinois University, Macomb, was the guest speaker. He originated the "ten second rule" in basketball.
Donald Van Ormer, unit superintendent, introduced the coaches, Arnold Stahl and Cyril Allen. They presented awards to the athletes and cheerleaders of their squads.
Sport presented awards to 42 high school athletes. The cheerleaders and basketball players received awards to the grade school squads.
Twenty-five athletes, four managers and three cheerleaders from Forrest Grade School received letters. In the Strawn Grade School there were 21 letters presented to squad members, eight to cheerleaders and one to the manager.
The Rev. Louis Arzema offered the benediction to close the program.

Cullom Church Announces Holy Week Services

CULLOM (JNS)—Holy Week services at St. John's Catholic Church will begin with mass at 7:30 p.m. Holy Thursday.
There will be a procession of the Blessed Sacrament from the main altar to the Altar of Repose at 8 p.m. Good Friday, there will be Stations of the Cross. Mass of the pre-sanctified will be at 7:30 p.m.
On Holy Saturday, services begin at 11 p.m., with the blessing of the new fire, and the blessing of the Easter Candle. There will be an Easter mass at midnight. There also will be a mass at 8 a.m. Easter Sunday.

Cullom Boy Chokes On Bone Particles

CULLOM (JNS)—Jimmy Remmers, 22-month-old son of Mr. and Mrs. Leroy Remmers, was returned home Monday afternoon from Brokaw Hospital, Bloomington, after having two particles of bone removed from his lung.
Jimmy choked on the particles Saturday night while eating and was taken to the hospital Sunday. He is reported making a good recovery.

JOHN KOERNER of Marietta Arrived Monday for a Visit in the Joe Koerner and Theodore Rohman Homes.

Mr. and Mrs. Leonard Schramm and Linda spent Saturday in Bloomington.

Norway Sardines Acquire Latin Flair In Creole Dish

By GAYNOR MADDOX, NEA Food and Markets Editor

When you combine the secrets of French and Spanish cookery with sardines from cold Norwegian waters, you get an international treat. In this Creole main dish recipe from the deluxe Hotel Monotel at Montego Bay, Jamaica, that's exactly what you have.

Youths Ignore Prison Tour, Now Inmates

WAUKESHA, Wis.—Three youths who in 1955 were sent on a tour of Joliet Penitentiary by a judge who sought to dissuade them from a life of crime, will meet again in the prison—all serving sentences.

The last of the three to be imprisoned for violating probation granted three years ago by Circuit Judge Bernard M. Decker is Donald W. McDaniel, 19.

McDaniel, together with Robert Brenner, 19, and Robert W. Ebel, 18, had toured the prison after appearing before Judge Decker on charges of burglary. He ordered the tour in granting probation.

McDaniel, Tuesday was sentenced to one to four years in prison, the same sentence given his two companions earlier. Brenner's probation was revoked April 16, 1956, and Ebel was sentenced on July 17, 1957, after breaking his probation.

Award Certificate Of Merit To Dwight Senior

DWIGHT (JNS)—Sonia Hurwich, senior at Dwight, has been awarded a certificate of merit as a result of her performance in the 1957-58 National Merit Scholarship Program.

She received the certificate, which attests to high academic promise. High scores on two college aptitude tests led to the nationally recognized academic honor. Less than a half of one per cent of the seniors in each state receive the award.

Miss Hurwich is among 7,300 finalists in the current National Merit Scholarship competition, which began last October, with the testing of 256,000 of the nation's most able high school seniors. More than 1,000 of the finalists will be awarded \$5,000,000 in merit scholarships as a result of the final judging. Winners will be announced in May. The names of the students will be sent to more than 1,500 colleges, universities and other scholarship-granting agencies for consideration.

Baptize Infants In Crescent City

CRESCENT CITY (JNS)—Leslie Richard and Larry Robert, infant twin sons of Mr. and Mrs. Clyde Seefeldt of Crescent City, were baptized Palm Sunday during services in St. Peter's Lutheran Church.

The Rev. Robert Spenn officiated. Sponsors for Leslie were Wayne Brunigs and Richard Goken. Sponsors for Larry were Robert Rosaluis and Mrs. Harvey Zahrt, Wausau, Wis.

HAPPY EASTER

PASSOVER Cheese Cake combines American taste with Jewish dietary regulations for a fine dessert with universal appeal.

Passover Cheese Cake, A Treat In Any Household

By GAYNOR MADDOX, NEA Food and Markets Editor

Passover, celebrating the liberation of the Jewish people begins at sundown April 4th and lasts until sundown April 12th.

Today Jewish cookery is the result of "sampling" in each country where the Jewish people settled. Each country's dishes were adopted to conform to their dietary regulations, according to Edith Stoffer, informed director of Home Service of the B. Manichewitz Co.

Passover restrictions forbid use of products not packaged under authorized supervision. However, modern mass production and distribution enable today's Jewish housewife to serve her family a wide variety of Passover foods—many ready-to-serve—all conforming to dietary regulations.

Miss Stoffer gave us this recipe for Passover cheese cake, which conforms both to traditional American and Jewish dietary regulations.

PERACHIDDI CHEESE CAKE
(Makes 10-12 servings)

Two cups matzo meal, 1/2 cup granulated sugar, 1/2 teaspoon cinnamon, 1/4 cup (6-ounce) soft-butter, 3 cups (1 1/2 pounds) cream-style cottage cheese, 1 cup granulated sugar, 2 tablespoons potato starch, 1 1/2 tablespoons lemon juice, 2 teaspoons grated lemon rind, 1/4 teaspoon salt, 4 whole eggs, 2 egg yolks, 1/4 cup light cream.

Mix matzo meal with sugar and cinnamon; with pastry blender or wooden spoon mix in butter. Press mixture into bottom and sides of a well-greased 8 or 9-inch spring pan; press hard with back of spoon to form a firm crust. Chill for 15 minutes.

With electric mixer or spoon, mix cheese until fluffy. Blend sugar with potato starch, lemon juice, rind and salt; add slowly to cheese, beat until smooth. Add eggs and egg yolks, one at a time, blending after each addition. Stir in cream. Pour cheese mixture into crumb-crust pan. Bake in a very hot (500 degrees F.) oven for 10 minutes or until crust is golden brown. Reduce oven temperature to 200 degrees F. (slow oven) and bake for 1 hour. Turn off heat; open oven door slightly and allow cake to cool for 1/2 hour. Cool on rack. Remove sides of pan. Refrigerate until cold. Garnish with toasted almonds and strawberries.

PASSOVER HOLIDAY DINNER MENU: Sweet wine and matzo, fresh fruit cup, chicken soup with matzo balls, roast capon with matzo stuffing, oven-roasted potatoes, cranberry sauce, steamed fresh asparagus with lemon juice, tossed green salad, cider vinegar and peanut oil dressing, assorted matzo, sponge cake, tea with lemon or black coffee.

Forrest Seniors Add To Annual Class Trip Fund

FORREST (JNS)—The talent and stunt show, sponsored by the senior class of Forrest-Stewart-Wing High School, will provide the class with more funds for its trip to New York on April 4.

Keith Rieger was master of ceremonies for the show, which included 10 different stunts and talent entries. The winners were selected by ballots filled out by the audience.

A stunt by the sophomore class rated first. A stunt by the high school faculty won second prize and Tommy Crouch, with his impersonations and ventriloquist act, received third.

THE 197 GIRLS in the Brownie troop, wearing their new uniforms, were the stars of the show. The boxes of Girl Scout cookies in the campaign. The value of the cookies sold is \$436.20.

Fire Association Holds Meeting In Cabery Station

CABERY (JNS)—The Vermilion Mutual Aid Fire Association met in the Cabery Fire Station Thursday evening with approximately 24 members present.

A short business meeting was held and two movies, "Extinguishing Oil Fires" and "Send and Flame," were shown by Robert Kroner.

Following the movies, oyster stew was served by Orman Olson. MR. AND MRS. Glenn Sargent returned after spending the winter in Tombstone, Ariz.

Mrs. Stella Crawford, Mrs. Matt Smicker, Mrs. Carl Hummel, Mrs. Leslie Hummel, Wayne Sargent, Kay and Roger visited Mrs. Glenn Sargent Friday in observance of her birthday.

Mr. and Mrs. Francis Sadler Sr. were weekend guests in the Durwood Wright home, Campaign.

Miss Ida Stoffer and Mr. and Mrs. E. C. McPhoe of Riverside were Sunday dinner guests in the home of Mr. and Mrs. Wilbur Vial. The group later visited the Richard Vial home at Blackstone.

Ronald Sader visited during the weekend with Mr. and Mrs. Ed Stickler and family, Cincinnati, Ohio.

Community Club, Chebanse, Plans Easter Egg Hunt

CHEBANSE (JNS)—The Community Club met in the Community Center on Thursday evening with 17 members present.

Mrs. George Will, president, presided. The club made plans to buy drapes or curtains for the Community Building. Mrs. Walter Bridges and Mrs. George Fortin were appointed to determine the cost.

Members also voted to let the men of the club buy necessary material for the installation of fans for the Community Building.

It was decided family and guest night will be observed in April. A potluck supper will be held at 8 p. m. in the Community Building.

There will be an Easter egg hunt on Saturday from 1:30 to 2 p. m. in the Legion Park, weather permitting. If the weather is bad, it will be in the Community Building.

This is for pre-school children. They are to bring their own baskets.

A prize, donated by Mr. and Mrs. Edward Brenneisen, was won by Mrs. Brenneisen. Refreshments were served by Mr. and Mrs. George Fortin.

Original plans for a joint street were begun and authorized several years ago, according to attorneys for both municipalities, but action was delayed until now because of other pressing business.

KANKAKEE, ILL. — Recently annexed W. Brookmont boulevard, and has been using it as a private road to get to its treatment plant, according to Victor Cardoni, city attorney. The road has been given a hard surface, but does not have

curbs and gutters.

The village of Bradley owns an 18-foot-wide strip of land adjacent to W. Brookmont boulevard, and is carrying through, and the time comes for surfacing the new street, the city and village will accept bids jointly and accept the one most satisfactory to both.

No estimated cost for the project was made Wednesday.

Present at the meeting for the discussion were: Mayor Ed P. Madison, Kankakee; William B. Wagoner, Bradley board president; Victor Cardoni, city attorney; Edward Drolet, village attorney; Philip Schirmer, Kankakee treatment plant engineer; and Charles Greig, Kankakee city engineer.

Also present as an interested party because he owns land along W. Brookmont boulevard was David P. Priest, subdivider. Present with him was his attorney, Samuel Sha-

piro.

Ike Asks McElroy Be Given Added Powers

Floods Force 5,000 To Flee In California

State Declared Disaster Area; 200 Marooned By Snow

SAN FRANCISCO (U.P.) — Gov. Goodwin J. Knight declared California a disaster area today as rains and snow stranded trains, marooned 200 in the Sierra Nevada and sent rivers flooding over their banks.

Four persons died — two by drowning and two others in accidents attributed to the storm.

An estimated 1,000 persons evacuated their homes.

The Southern Pacific Railroad's steamline City of San Francisco was stalled in the Sierra 165 miles northeast of San Francisco.

Two avalanches of snow buried a 22-car mail train on the track ahead, stalling the crack west-bound passenger train which followed. All 25 on the mail train got out but two trainmen were injured.

The "CITY" on route from Chicago to San Francisco, was stalled in the Sierra Nevada, 165 miles northeast of San Francisco, today.

Some 200 persons were stranded in the mountain chain, which runs along the state's eastern boundary — 150 of them at Donner Summit Lodge. Many of them were skiers.

The Governor alerted National Guardsmen in Santa Clara County to be ready to move to the area.

Huge Plane Sprays Sheldon Area

Pigs and cattle scurry and people watch in amazement when this twin engine B-18 flies low over the Sheldon area today, spraying a cloud of DDT against the Japanese beetle. About half of the 8,500 acres in the area have been dusted by the big plane that can spread 3,000 pounds of DDT in one hour. The plane is a B-18 bomber, modified for pest control.

Outlines 6-Point Reorganization For Pentagon

Defense Secretary Needs Authority For Unification

WASHINGTON (U.P.) — President Eisenhower asked Congress today to give the secretary of defense full control over all military money and power to force truly unified fighting forces if war breaks out.

In a sweeping plan to reorganize the vast Pentagon setup, Eisenhower also proposed that the secretary of defense:

1. Have final say, short of a presidential order, over which officers shall be picked for top ranks, and
2. Be able to transfer officers between the services without regard to their basic uniform — so long as the officer himself consents.

Eisenhower said he had neither the intent nor the desire to merge or abolish the traditional services — the Army, Navy, Marine Corps and Air Force.

But, he said, separate ground, sea, air and space forces is gone forever and operational commands must be unified.

Eisenhower set out six major points in a 7,000-word message keyed to the proposition that "We must remove all doubt as to the full authority of the secretary of defense."

He proposed that the Joint Chiefs of Staff be continued, but said that in the future they should serve as a staff assisting the secretary of defense in his exercise of direction over unified commands.

"Strategic and tactical planning must be completely unified, combat forces organized into unified commands, each equipped with the most efficient weapons system that science can develop, singly and in combination, and prepared to fight as one, regardless of service," the message said.

Eisenhower's program would strip the civilian heads of the Army, Navy and Air Force of their authority over military operations. In effect, they would be left as merely executive agents.

Even before the message reached Congress, there had been considerable speculation that the secretary of defense should have greatly increased power.

Republican leaders opposed the measure's big spending features. But rank-and-file members of the House — many of them with bags already packed — apparently didn't mind looking good to the voters back home to block passage of the measure just before starting their Easter vacation.

THERE WAS LITTLE objection to the main purpose of the bill, authorizing the expenditure of \$1,000,000,000 in federal and state road-building funds in the next two years.

The House had met two hours earlier than usual to reach a decision on the bill before starting on an Easter recess which lasts until April 14.

The bill is one of the principal measures of the administration.

Newly-Hatched Chicks At Lincoln School

Newly-hatched chicks in a Lincoln School second grade classroom bring to a climax the science experiment the pupils have been studying for 21 days. The chicks hatching project is one of many in the science training of Kankakee elementary school pupils. Story and other pictures on page 2. (Journal photo).

Good Friday Services At First Presbyterian Church

Traditional three-hour union service sponsored by the Kankakee County Ministerial Association will highlight Good Friday observance in Greater Kankakee Protestant churches.

The services, to be from noon to 3 p.m., will be held in First Presbyterian Church. They're open to the public and are so arranged that persons may attend portions of the services if they are unable to remain for the entire three hours.

Ministers and singers from 13 Protestant churches will be participating in this commemoration of the crucifixion of Jesus Christ. "The Seven Words from the Cross" will be the subject of the meditations presented by the ministers.

The Rev. O. J. Hensley Jr., pastor of Wesley Methodist Church, Bradley and president of the association, and the Rev. Louis Swartz, pastor of the First Presbyterian Church, will preside over the services. Organist will be Mrs. Carlos Morrow of the Presbyterian Church.

THE FIRST WORDS, "Father, forgive them; for they know not what they do," will be presented by the Rev. Dorel M. Farnham, First Congregational Church.

The six other words and the ministers who will present them are as follows: "Today shalt thou be with me in paradise," the Rev. B. H. Bruner, Central Christian Church; "Woman, behold thy son!" the Rev. David Gustafson, First Methodist Church; "My God, my God, why hast thou forsaken me?" the Rev. Bennett Dodney, First Church of the Nazarene; "I thirst," the Rev. John T. Frazier, Caldwell Chapel, AME Zion Church; "It is finished," the Rev. Fred Gross, Bradley Evangelical United Brethren Church; "Father, into thy hands I commend my spirit," Prof. Carl Bangs, Oliver College.

Soloists will include James P. Carlson, First EUB Church; Mrs. Robert Holmstrom, Trinity Lutheran Church; Mrs. Lorraine Rogers, Trinity Methodist Church; and Beth Hatcher, College Church of the Nazarene.

OFFERINGS AT THE service will go to Church World Service for needy in other lands and to the Illinois Council of Churches.

The Kankakee County Ministerial Association is also cooperating in union services in Bradley-Bourbonnais, Mokena and Reddick.

The service for Bradley and Bourbonnais Protestant churches is scheduled for 7:30 p.m. Friday in Continued on Page 6 Column 2

Easter Masses Culminate Lent

Culminating the penitential season of Lent with Easter weekend services, Roman Catholic churches of Greater Kankakee will be having evening mass today and the traditional Mass of the Pre-Sanctified on Friday. The services will be climaxed by the Easter vigil Saturday night followed by the first mass of Easter at midnight.

Included in this evening's masses will be the solemn procession from the main altar to the repository. Consecration of the Host will be included in the service with the Blessed Sacrament to be left on the altar for public adoration.

Friday the Catholic churches will assume the appearance of a tomb. The main altars will be stripped, all flowers will be removed and the sanctuary lamps on the main altars will be extinguished. The three-day period of mourning will end with the arrival of Easter and the joyous celebration of the resurrection of Christ.

Also included in Friday's observance in many of the churches will be the stations of the cross. During this observance the priests will present meditations at the 14 stations, each of which symbolizes an episode which occurred to Christ on the way to Calvary.

The hours of the services in the various Catholic churches in the community are as follows:

St. Rose: Low mass was at 6:30 a.m. today and again is scheduled for 5 p.m. A solemn high mass and procession will be at 7:30 p.m. with part of the service including the Stations of the Cross.

Solons Hear Civilian Space Agency Plans

WASHINGTON (U.P.) — Non-military space projects can be transferred quickly to the new civilian agency proposed by President Eisenhower once the organization is set up, Secretary of Defense McElroy said today.

McElroy, testifying on the military measures to meet problems of the missile-space age, told a watchdog Senate Defense subcommittee the services will go ahead with four or five scout-rocket shots to or near the moon which the White House has authorized. The job is being directed by the Advanced Research Projects Agency which McElroy set up in the Defense Department.

But the defense secretary quickly added that as soon as the new Aeronautics and Space Agency proposed to Congress Wednesday by the President is in operation, it will take over non-military projects.

"If it is decided to handle space matters in a different organizational fashion the transfer of purely scientific projects can be accomplished expeditiously," he added.

Congressional spokesmen gave general approval today to the presidential proposal, but some wondered if the Atomic Energy Commission would get as prominent a place in the set-up as they would like to see.

There have been suggestions that space development work should be turned over to the AEC on the theory that nuclear engines are likely to power fast-traveling rockets of the future.

Compromise \$1.8 Billion Road Bill Passes Congress

WASHINGTON (U.P.) — Congress today passed a compromise \$1.8-billion highway bill, ending a long fight over a controversial anti-billboard provision.

House passage came on a roll call vote of 300-28.

Opposition to the bill collapsed after members rejected, 222-109, a motion to send the measure back to committee.

Beckman Campaign In Spotlight Saturday

Kankakee will take the spotlight in the current state political campaign Saturday morning when Louis E. Beckman of Kankakee, candidate for the Republican nomination for state treasurer, will greet his community neighbors at a coffee hour reception at the Hotel Kankakee.

Last minute arrangements were being completed today for the reception, which will begin at 8:30 a.m. and continue until 11 a.m. in the Wedgewood room of the hotel.

Immediately after the Kankakee reception, Beckman will leave here for Peoria for an afternoon rally of central Illinois Republicans from the 18th congressional district.

The Saturday morning event in Kankakee, and the later meeting to follow at Peoria, will wind up Beckman's whirlwind campaign throughout Illinois' 102 counties for the GOP nomination for treasurer.

Beckman, who has been state representative from this district since 1956 and is making his first bid for major state office, was in Cook County today completing a round of ward and township meetings arranged in his behalf by the Cook County Republican Committee.

"The brakes didn't hold," Burt said.

Most of some 200 passengers were in Pullman cars, and many of them were children, including a group from the Iowa School for the Deaf.

The detailed passenger cars remained upright, and the locomotive and first two cars were not derailed, Marshall M. Chapman said.

AT LODI Hospital, eight persons were brought in and six received emergency treatment and were released, a hospital spokesman said. The other two were reported in fair condition.

Marshall Chapman said the loaded coal truck, pulling a loaded trailer, was on a downgrade northbound on Ohio 76 when it struck the locomotive. He said that when he arrived, the truck driver and his helper were walking along the tracks, bleeding severely.

Runaway Coal Truck Rams Train, 8 Hurt

MEDINA, Ohio (U.P.) — A runaway loaded coal truck smashed into a diesel engine of the Baltimore & Ohio's Chicago-bound Capitol Limited near Medina early today, derailed 15 cars and injuring at least eight persons.

Only persons hospitalized were James Burt, 21, of LaGrange, Ohio, the truck driver, and his passenger, Herbert Borman, 21, of Elvira.

"The brakes didn't hold," Burt said.

Kankakee And Bradley Officials Confer On Building Plant Road

Officials of the city of Kankakee and village of Bradley are conferring today on a proposed joint public thoroughfare project in Kankakee.

The project is a proposed joint public thoroughfare project in Kankakee, near the intersection of W. Brookmont boulevard and the Illinois River.

The two municipalities hope to work out an agreement whereby they will jointly make W. Brookmont boulevard and the Illinois River a public thoroughfare.
