N. Y. CENTRAL BRAKEMAN HAS "CLOSE SHAVE"

HANGS TO BRAKE STAFF AFTER BEING THROWN BETWEEN FREIGHT CARS

WAS UNCONSCIOUS

Hit By Street Car Trolley While On Top Of Car; Caboose Runs Amuck On I. C.

Presence of mind and a tenacious grip saved the life of Wayne J. "Lit" Harrington, 328 North Dearborn avenue at midnight Saturday evening.

Harrington, a New York Central brakeman was standing on top of an exceptionally high box car and was struck in the face by a "basket" of protecting wire around a street car trolley wire. He was in the act of stepping from the top of one car to another when he was struck and fell downward between the cars.

To Hospital

As he fell Harrington grabbed a brake staff and hung on, although unconscious. He was found still clinging to the iron staff when the train stopped at the round house. He was taken to St. Mary's hospital and was discharged from that institution on Sunday. His face was badly scratched and bruised by the wire mesh.

Harrington was unconscious from the time he was struck in the face and remembers only that he grabbed the brake staff and held on tightly.

He was unable to state whether the accident happened at the street car crossings of Harrison or Schuyler avenues and an investigation was under way to day to determine whether or not the trolley wire are suspended too low at either of those crossings.

Dodge Caboose

Several motorists and pedestrians narrowly escaped death Saturday evening at the Station street crossing of the Illinois Central railroad when a string of freight cars were shunted too fast on a siding track and crashed into a caboose "parked" only a few feet from the crossing.

The force of the impact of the string of cars pushed the caboose over the bumper at the terminus of the track. The caboose rolled across the Station street pavement as several motorists managed to evade being struck and then came to a stop against the brick wall of the I. C. freight house. A telegraph pole in front of the freight house was snapped off when hit by the caboose. A small section of the freight house wall was damaged and the flanged wheels of the caboose cut into the brick pavement. Traffic in the vicinity was delayed for some time and the spectacle of a caboose in the middle of a street drew scores of curiosity seekers.

SUNDAY SERVICES AT STATE HOSPITAL

Religious services were conducted at the Kankakee State Hospital Sunday afternoon by the Rev. Frank H. Fox, pastor of the First Evangelical church. Community singing was directed with Mrs. M. T. Vanoskey as organist and director. A solo, "Hear Us O Father" was rendered by Mrs. H. Drieska.

Catholic services were conducted at 8 a. m. by Father Rice who delivered an appropriate May sermon. Mrs. Vanoskey and Mrs. Drieska also aided in furnishing the music for the Catholic services.

Abe Martin

Lester Hanger has a charge account at the Monarch 5 and 10, an' now when a mouse trap don't work, or a piece o' jewelry turns green, he kin return it without a lot o' quibblin'. I'd like to see a prison census showin' among other things such as schoolin' an' environment, how much money each criminal had when he wuz convicted.

STOVE IN FLAMES

When an oil stove burst into flames at 832 North East avenue at 4:50 o'clock Saturday afternoon, fire companies one and two answered the call, carried out the stove, and smothered the flames before any damage was done to the house or its contents.

DRUNK ARREST

Charged with drunkenness Herbert Girard, Manteno, was arrested yesterday morning on North Dearborn avenue by Chief of Police Riley and Officer Frank Neuman. He was ordred out of town this morning by Judge Bert L. Fitzgerald.

TRAFFIC VIOLATORS

E. C. Corkins, Milford, was arrested yesterday afternoon for failing to stop for the through street at Lincoln and River. He left a $5.00 bond for his appearance in the police court. Louis Boudreau, Manteno, was fined $1.00 and costs for running the traffic signal at Indiana and Court. Both arrests were made by Officer Gene LaFontaine.

MARRIAGE LICENSES

Marriage licenses were issued at the office of the county clerk over the week end for: Clarence Golding, 22, and Viola Paraday, 17, both of Kankakee; Leslie Gardner, 28, Manteno, and Marie Guertin, 21, Beaverville; Roy Tank, 28, Manteno, and Hazel Craig, 18, Bradley; John W. Daly, 30, and Victoria Stenawich, 27, both of Chicago.

ACTION ON 3 STATIONS IS DROPPED

ON RULING BY ATTORNEY GENERAL CARLSTROM TO FIRE MARSHAL

CITY ORDINANCE

State Laws Are Inoperative In Cities Which Have Ordinances

Action against three Kankakee oil and gasoline stations, one of which is already doing business, another of which is under construction, and the third of which will soon be erected, on the grounds that the sites are located in territory restricted against them, has been dropped upon a ruling given in the matter by Attorney General Carlstrom to the State Fire Marshall's office.

A letter from S. L. Legris, State Fire Marshall, to the city authorities states that Mr. Carlstrom has ruled that the Fire Marshall's ordinances in regard to the location of oil stations are inoperative if the city in which the station is to be built had laws in force governing the construction of such buildings prior to July 1, 1919. The city of Kankakee has such an ordinance in force.

It was charged that the new Firestone Tire and Company station, to be built on the property recently purchased at the southeast corner of Indiana and Merchant, was within 300 feet of the Central school, and a building permit would not be issued by the state for the construction of the building. It was further charged that the station on the southeast corner of Merchant and Bearborn, on the T. E. Caron property, was within 300 feet of the Lutheran parochial school, and that the new station just across the street off the Potter property was within 300 feet of the same school.

Although the city ordinance makes certain restrictions as to the location and construction of oil stations with tanks for the storage of volatile oils, it does not make any specifications as to their location in respect to public buildings.

A. O. Poff, deputy of the Fire Marshall's office, has been working on the case. It is said that the laws upon which the action was based are not strictly state laws, but rulings made by the State Fire Marshalls under powers given them by the state legislature.

EIGHT TAKE EXAMS

Eight foreign-born residents of Kankakee county took examinations for citizenship papers before Judge DeSelm in circuit court this afternoon. The applicants were examined by E. A. McWhorter of Chicago.

The applicants were: Otto Wiese, German, Grant Park; Dios P. Lopez, Cuban, 170 East Court street; John Offenbecker, Jugo-Slavian, 756 West Jeffery street; Esther Jensen, Dane, Reddick; Otto Prussart, German, Momence; Antoni Kurcwab, Polish, 554 North Adams avenue; Emile Fournier, French, 494 North Adams avenue; August K. Schneider, German, 730 South Greenwood avenue.

PAINT FOUNTAIN

The drinking fountain and statue at the court house square, Indiana avenue and Court street, was given a coat of paint today.

GRAND JURY CONVENES TO PROBE CRIME

CRIMINAL TRIALS FOR MAY TERM OF COURT TO START NEXT MONDAY

JURIES INSTRUCTED

Chicago Labor Leaders Accused Of Manteno Shooting Released On Bonds

The May term of circuit court opened at 9 o'clock this morning when Judge A. W. DeSelm and members of the county bar gathered for the reading of the common law docket at which the cases were listed for trial. The petit jury for the first two weeks of the term was instructed at 10 o'clock and several of the jurors, chiefly farmers, were excused upon request of the pressure of farm work. The grand jury was instructed at noon and convened with States Attorney T. R. Johnston at 1:30 this afternoon.

The grand jury will probably report Wednesday afternoon as the number of criminal matters for investigation at this term of court is unusually low. The criminal trial calendar will begin next Monday, May 12.

Bailiffs Back

Jess Hendrickson, Manteno, and Cecil Duguay, Momence, were on duty as court bailiffs today. The pair had resigned several months ago and, it is understood, they were reinstated today by Sheriff Hoennicke upon the order of Judge DeSelm.

The first common law case listed for trial tomorrow is a trespass suit brought by H. H. McMullen and others against Kankakee county. H. H. Whittemore is one of the plaintiff's attorneys while L. B. Bratton and Charles W. Kurtz will appear for the county. The second case for trial is brought by Joseph Fortin against Napoleon Landry. E. A. Marcotte will appear for Fortin while Bratton and Kurtz will defend Landry.

Civil Cases

The third common law trial is the suit of Carl Kannberg against the Curtis Trust company. Bratton and Kurtz appear for the defendant. The fourth case is the suit of William Brassard against William W. Parish and others. The fifth suit is brought by the Momence State and Savings bank against Albert Ohm. C. D. Henry is attorney for the plaintiff.

The case of Eugene O'Neil against Louis Salzman is listed sixth on the trial calendar with L. B. Bratton representing O'Neil. The seventh trial is brought by Alvina Dasey against the estate of William Blood, deceased. T. R. Johnston will appear for the plaintiff.

Ask Indictments

The grand jury will probably be asked to return indictments charging assault with intent to kill against five Chicago labor leaders arrested last week and charged with shooting John Testo and his companion who were employed at the new Manteno state hospital for the insane. The shooting was the outgrowth of a labor dispute between Chicago and Peoria unions.

John Taddee and Frank Giupmeto were released from the county jail Saturday night on bonds of $3,000 each by Justice C. H. Edison. The other three of the labor quintet, Giordono Sinich, Dominick Dalsanto and Angelo Gassardo, were released on $2,000 bond each.

Johnston stated that five witnesses, including the two wounded men, have consented to appear against the Chicago racketeers before the grand jury. Their cases were continued by Justice Edison until Thursday awaiting action on the part of the grand jury. Authorities have expressed a doubt as to whether or not the witnesses will appear against the Chicago gunmen because of fear of being "taken for a ride." The defendants have admitted the shooting episode.

ACTIVITY IS EXPECTED AT COUNCIL MEET

The regular meeting of the city council to be held tonight promises to be a busy affair. Besides making his appointments to various city offices, Mayor Louis E. Beckman will receive a report from the building committee on the new west side fire station, will hear a discussion on the proposed ordinance for daylight saving time, and will organize the council for the new fiscal year.

Tonight, four new faces will be seen in the city council: Fred Maisoneuve, first ward; Alex O. Goetzler, third ward; George Wulff, fifth ward; and George Cooley, sixth ward. Mayor Beckman will also appoint the city council committees tonight.

American Married Life Is Long Chain Of Triangles!

Faith Baldwin

Mrs. Wife, what goes on in your husband's office besides business? is a question asked by Faith Baldwin, author of the much discussed novel, "The Office Wife."

"It's impossible to estimate correctly just what percentage of American marriages are not at some time or other menaced by a third person, but I would be willing to wager that not more than five percent of the total of American marriages avoid an experience of this nature," Miss Baldwin asserts.

"Most trinagles peter out, however, because all affairs ultimately progress to a point when definite action is inevitable. And then comes the question that stumps and stops nine-tenths of these little domestic dramas—WHAT ARE WE GOING TO DO NOW?

"Rather than face scandal and divorce and the tawdry necessity of court action, the two kiss each other goodbye, while faithful wifey or hubby remain in blissful ignorance of all the've missed and wonder at the renewed and solicitous attention of their spouse!"

According to Miss Baldwin, wives, husbands, and secretaries form the most perplexing and dramatic triangles in modern life—which is full of them!

"The Office Wife" is a revealing drama of the relations that inevitably grow between an executive and his beautiful secretary. Faith Baldwin has conceived the most human and entertaining triangle of contemporary fiction in this gripping story of love at home and in the office that has been the storm center of controversy all over the country.

Begin "The Office Wife" tomorrow in The Daily Republican.

WOOF! WOOF! ERNEST RADEKE HAS SOME MORE PUPPIES

It is regrettable that the labors of Ernest Radeke's pedigreed Springer Spaniel, June, do not contribute in any way to the census figures of Kankakee county.

Last October this dog gave birth to twelve puppies, eleven of which survived. Mr. Radeke gained considerable publicity on this occasion as this was a record litter for the breed of Springer Spaniels.

Last week June gave birth to a litter of fifteen puppies, 14 of which are still alive and in apparently good health. June is entitled to some sort of recognition in the annals of dogdom for she has given birth to a total of 27 puppies in two litters the only two she ever had. The puppies net the owner about $50 each.

The mother is also in good health, although when her first litter was born she was unable to feed all of her offsprings and the services of another female canine were employed to assist in feeding.

STOCKS RALLY VIOLENTLY ON N. Y. EXCHANGE

New York, May 5.—(AP)—Stocks rallied violently in the last half hour of trading on the New York stock exchange today, as powerful supporting orders were thrown into the market and bears scampered to cover their short commitments.

Closing quotations showed a fairly even distribution of gains and losses, with several leading issues closing higher, after having recorded new low levels for the movement in a bear drive during the middle of the afternoon.

Trading was in huge volume, total sales running close to 8,300,00 shares, the largest day's turnover since last November. The stock ticker ran an hour behind the market in recording closing quotations.

Wall Street rumors that some of the leading bankers who acted to stabilize the market last fall were planning to offer support were regarded as a factor in the rush to cover but these rumors lacked confirmation.

Price movements in some of the more volatile issues were spectacular. Vanadium, after tumbling more than $17 a share, regained its loss and closed at $104, up $2. American & Foreign Power, after dropping more than $11 to a new low for the year, regained all but $3 of its loss.

U. S. Steel was a leader of the late rally. After selling down to close to its low of the year at $166, it rebounded to $174, and closed at $17.75, up $1.50. Radio, after touching a new low for the current decline below $42, closed at $47.75, up $1.50. Such shares as standard of N. J., Consolidated gas, Atchison and American Telephone ended the day with gains of $2 to $4, while Westinghouse was up $6.75.

NOT JOHN GOLDEN

The Republican erroneously stated Saturday that John Golden was the complainant in a divorce case in circuit court. The Mr. Golden mentioned had no connection with the case. The complainant in the suit was Charles O. Golden.

SPEEDING ARREST

Charged with speeding on East Court street, L. Therien, Momence, was arrested last night by Traffic Officer Gene LaFontaine.

ARREST 2 ON BOOZE CHARGES

SAM CACHILLE, KANKAKEE, AND STUMP NICHOLS OF TUCKER, TAKEN

THREE BURGLARIES

Two Stores And Dental Office Are Entered, Little Loot Is Taken Away

Charged with the sale and possession of intoxicating liquors, Sam Cachille, 279 North Eighth avenue, and "Stump" Nichols, Tucker, were arrested by police Saturday night. Cachille gave bond and his case was continued in the police court, while Nichols is a prisoner in the county jail.

The two raids were made by Chief of Police Riley and Officers Immings, Endres and Mazuzan, accompanied by Sheriff Ed Hoennicke on the visit to Tucker. The raid on the Cachille place was made at 9:00 o'clock Saturday night, while 45 minutes later the officers were in Tucker.

Considerable evidence was found at both places, the officers said, especially at the Cachille home, which the police describe as a "regular brewery."

Investigate Burglary

This morning the police were investigating the burglary, apparently by small boys in two of the cases, of three Kankakee places of business: the Koehler drug store on East Court street, the office of Dr. F. W. Bevans in the Arcade building, and the Edward Boule grocery and market, 662 West Station street, all of which occurred some time during Sunday night or early this morning.

At the Koehler drug store, the thieves entered through the basement door of the building next door, formerly occupied by the Daugherty Candy company, passed through a door connecting the basements of the two buildings, then by means of a brace and bit and a saw, cut a hole through the trap door of the stairway leading from the basement into the drug store.

About four dollars in silver which had been left in the cash register for early morning business was taken but nothing else in the store was touched. This is regarded as unusual as the store contains many articles desirable to the small boy, but the thieves apparently did not want to take any merchandise which might be identified if they were caught. They left by the same way they entered.

Gold Stolen

The office of Dr. Bevan, dentist, apparently was entered by someone who had a key to fit the lock as the door shows no mark of a jimmy or other violent effort. Gold used in dental work, valued at about $40, was taken.

The Boule store was entered by way of a basement door, after which the thieves broke through two wooden doors by means of long iron bars to ascend from the basement. The safe, which was left unlocked and which contained no valuables, was searched through and other spots in the store showed evidence of a search. The cash register, which contained a $10 bill, was opened but the money was overlooked.

NON-SUPPORT

Charged with non-support of his wife, Theodore Fritz, Kankakee, was arrested yesterday afternoon by Chief of Police Riley and Officer Frank Neuman. He will probably be given a hearing in the county court.

RURAL CARRIER EXAMINATION

The United States Civil Service Commission has announced an examination to fill the position of rural carrier at Buckingham, Ill. The examination will be held at Kankakee, Ill. Receipt of applications will close on May 31, 1930.

UNDERGOES OPERATION

Mrs. Ben Jaffe underwent an operation for appendicitis at St. Mary's hospital this morning.

AUTOS CROWD HIGHWAYS TO SPRING CALL

TRAFFIC PROBLEM MADE PLAIN AS THOUSANDS VISIT KANKAKEE

PRAISE GOV. SMALL

New Administration Neglects Completion Of Splendid Highway System

With Old Sol blazing forth in all his glory yesterday, after two Sundays of characteristic April showers, thousands of automobiles found happiness in traveling the highways surrounding Kankakee. The green meadows and odorous flowers were, as advertised by the spring poets, but a tour of the highways in this area showed slight evidence of the improvements promised by the Emmerson administration for the relief of the constantly growing problem of traffi congestion.

It is pointed out by students of traffic conditions that in the southern part of the state, where the territory is less thickly settled and where there are not so many cities of any size, the traffic situation is not a pressing one. Yet in southern Illinois is where the Emmerson administration is putting forth its greatest efforts in roadbuilding, an effort which at best is only mediocre whereas where needed the most it is being neglected.

For instance on route 51, near Frankfort there is still a gap in the pavement, although the Emmerson administration has had over a year in which to complete this highway. The detour is not even in good shape, and yesterday numerous autos were having trouble in getting through.

Kankakee motorists are deeply concerned also with the condition of route 49, the Governors Highway. Between Kankakee and Matteson, where most local travelers to the city leave their cars to take the electric railway to the loop, there are five gaps yet remaining after months of neglect by the Emmerson administration—truly a deplorable condition upon a highway which was originally intended to be the greatest of the nation. Numerous accidents have occurred during the last year and a half because of the neglect of this important traffic aretery by the present state administration.

Some traffic official have expressed the opinion that the neglect of the Chicago area's need for highway improvement is shameful and are bitterly critizing the Emmerson administration for its concentration of action dawnstate.

In Will county, Routes 60, 4A, and 22, the latter the Lincoln Highway, all have been sorely neglected by the Emmerson administration and their condition has aroused much criticism.

It is estimated that between $15,000,000 and $30,000,000 is available to the state highway department this year from the gas tax revenue, yet so far only a few minor contracts have been let, regardless of the claim of the Emmerson administration that the gas tax was imposed for a hard road program.

Traffic experts, after a survey of conditions under the present administration in Springfield, have openly praised Former Governor Len Small for his farsightedness and his understanding of conditions in planning and carrying out hard road projects in ALL PARTS of the state while he was in office.

It was also pointed out that if Governor Emmerson would "get on his toes" and see to the carrying out of these projects that unemployment of thousands would be relieved insofar as there would be much demand for labor in road construction work.

$65 IS TAKEN FROM SALESMAN BY HIGHWAYMEN

Homer C. Lacy, 429 South Dearborn avenue, a salesman for the Henneberger garage, was held up and robbed early this morning, the three highwaymen taking about $65 in cash and some valuables from him.

According to the report which Mr. Lacy made to police headquarters he was putting his car into the Henneberger garage by the front door when he was accosted by the two men. The third remained in their car, a model T Ford sedan. He was unable to see the license number on the car.

One of the men who effected the holdup was dressed in dark clothing and was about 5 feet 11 inches tall. The other man was shorter. Both wore hats.

In his pocketbook, which the thieves took, were two notes, one for $100 and the other for $150. Mr. Lacy is offering a reward for the return of these notes.

Mrs. V. T. Brassard of Momence was a Kankakee caller today.

MILLION WALL-EYE PIKE FOR PLANTING IN KANKAKEE RIVER

Through the efforts of the local chapter of the Izaak Walton League of America, the state department of conservation is preparing to restock the bass hatchery in the local hospital grounds. A large number of black bass can be hatched here each year and placed in the river when of proper size.

A million baby wall-eyed pike will soon be received from the hatchery at Lincoln Park and placed in the river at different spots within a few miles of the city. This is being done annually by local Waltonians, and in connection with the spring closed season will help very much to increase the fish population of the river.

Fifty new members at least will be added to the roll of the local chapter during a membership drive which is going on the balance of this month. All sportsmen as well as any others who are interested in the great out of doors are urged to join this worthy organization during this membership campaign. C. H. Bergman is secretary and Howard C. Moore president of the local chapter.

KIWANIS CLUB VOTE FAVORS SAVING LIGHT

CIVIC GROUP WANTS DAYLIGHT LENGTHENED AS IN LARGE CITIES

OUTDOOR PROGRAM

Ferris Raps Method Of Polluting River And Destroying Game Fishing

By a vote of 42 to 1, the Kiwanis club today went on record as favoring the daylight-saving plan, as effected in the larger cities, for Kankakee. The proposal was submitted to the club today by President Ralph Francis as the weekly meeting of the club in McBroom's cafe.

B. B. Ferris stated that Kankakee needs an awakening and needs it badly. He said that other cities, particularly Decatur, are spending millions of dollars to obtain an artificial river or lake for recreation purposes while Kankakee is ruining its God-given river by poluting its waters with sewage.

Mr. Ferris had been called upon to give a talk on fishing as a recreation. He said that today it is dangerous to eat a fish caught in the Kankakee river. He recalled fond memories among most of the members when the river was teeming with huge catfish, wall-eye pike, bullheads, calico bass and other fine game fish which are now extinct in the river.

Recreation talks were given by the following members: Dr. E. S. Hamilton, recreation for health; Rev. John F. Norman, nature study as a recreation; Charles Holt, golf; Earl Phillips, hunting; Rev W. H. Craine was the program chairman and the speakers were limited to eight minutes by Fred Burkett who acted as timer.

President Francis appointed the following committee to work on the community chest proposal: G. W. Boyd, chairman, W. C. Babst and Charles Mueller. The club is considering the matter of paying $25 in order to retain a Boy Scout charter for Kankakee. The sports committee announced that a district Kiwanis golf tournament will be held at the McHie club on June 9th.

J. A. Ennis, president of the Y. M. C. A. board of directors, gave a short talk in which he asked the cooperation of the Kiwanis club and other civic organizations in aiding the local Y. M. C. A. to establish a summer camp for Kankakee boys in Wisconsin. He said that the plan is to furnish a ten-day outing for about 100 local boys in scenic Wisconsin for a cost of only $15, including transportation. The camp, if sponsored, will be open to all boys of the city and not merely members of the Y. M. C. A.

TOM KIRBY FALLS OFF WATER WAGON

Tom Kirby, well known character of Kankakee and Momence, is "off the wagon again."

With Buck Gardner, whose history on the police blotter is getting to be about as long as his own, he was arrested this morning in the 300 block South East avenue by Officers Neuman and Andrews, and the old familiar charge of drunkenness was entered on the books.

It has been a long time since Tom tumbled off the wagon, but as he said when he greeted Chief Riley, "the good boy has become a bad boy."

Mr. and Mrs. Ed Seehausen of Hammond, Ind., visited Sunday with Mr. and Mrs. R. Mannel.

Mr. and Mrs. R. Lovejoy of Staunton have been visiting the former's two sisters, Mrs. Fred DuPratt, and Mrs. E. Ryan.

Huge ostrich fans are becoming popular in London.

DWIGHT

The members of the Past Chief club of Goldor, Keys Temple No. 59 Pythian Sisters of Dwight held their May meeting Friday evening at the country home of Mrs. Florence Hoffman who resides about six miles west of Dwight on route 17. The business part of the meeting was presided over by Mrs. Marie Metaka, vice president. During the evening plans were completed for the observance of their second anniversary which will be observed at their June meeting which will be held at the home of Mrs. Mabel Young. Twelve members responded to roll call. During the evening their president, Mrs. Florence Hoffman was most pleasantly surprised by being presented by Miss Emma Metaka with a beautiful glass basket as a birthday gift from the members of the club. Following the business meeting a social hour was enjoyed, euchre and flinch offering the diversion. Mrs. Marietta Short and Miss Almira McParlen and the husbands of the members were invited guests of the club on that evening. At a late hour a delicious luncheon was served by Mrs. Hoffman.

Friends of Shirley Giles, youngest daughter of Mr. and Mrs. Harry Giles of Dwight will be sorry to learn that she is quite ill at her home on West South street.

Mr. and Mrs. John Metaka and children, Anna Louise and Junior of Dwight spent the week end in Wilmington as guests of the latter's mother.

The members of the Independent Order of Odd Fellows of Dwight entertained the Rebekahs and their families Friday evening at their hall on East Main street at their annual anniversary party. A short program was given in the early evening consisting of music by a double quartet and a male quartet. Reading by Mrs. C. A. Brothers. Song by Elizabeth Roemdahl, after which dancing featured to music from an orchestra of Pontiac. At a late hour a dainty lunch was served in the basement dining room. About two hundred attended the anniversary.

Dr. and Mrs. James H. Oughton and son Richard of Dwight spent Sunday in Chicago on a combined business and pleasure trip. The trip to Chicago was made by automobile.

Mrs. Pearl King of Chicago arrived in Dwight Saturday and spent the week end here as a guest of her mother, Mrs. Bertha Patterson. Mrs. King has only recently submitted to an appendicitis operation and her friends will be pleased to learn that she is slowly recovering from her illness.

ASHKUM

To Hospital

Dean Madison was taken to St. Mary's hospital in Kankakee Monday evening, where he underwent an appendicitis operation. Dean's many friends hope for his rapid recovery.

Resigns Position

A. L. Esmo, who for the past few years, has been teacher at the Green school west of Ashkum, has resigned his position, to take effect at the closing of this term. Albert has accepted a position as teacher at the Leggottville school near Chebanse at an increase in salary.

Euchre Games Are Resumed.

Following the Lenten season, the euchre parties were resumed Monday evening at the Ashkum town hall, with a very large crowd in attendance.

The prize winners were as follows: Ladies first, Mrs. Wauthier; Gents' first, John Gagnon. Consolation, Wm. Patnaude. Following the games, a delicious luncheon was served by the following committee: Mrs. A. DaCosse, Mrs. L. Thiel, Mrs. Trudeau, Mrs. J. Sparenberg, Mrs. J. Roach and Miss Freda Lanoue.

CHRISTIAN SCIENCE CHURCHES

"Everlasting Punishment" was the subject of the Lesson-Sermon in the Churches of Christ, Scientist, on Sunday, May 4.

The Golden Text was: Wherefore doth a living man complain, a man for the punishment of his sins? Let us search and try our ways, and turn again to the Lord" (Lamentations 3:39, 40).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Cast away from you all your transgressions, whereby ye have transgressed; and make you a new heart and a new spirit: for why will ye die, O house of Israel? For I have no pleasure in the death of him that dieth, saith the Lord God: wherefore turn yourselves, and live ye" (Ezekiel 18:31, 32).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Justice requires reformation of the sinner. Mercy cares for the dear only when justice approves it" (p. 22).

WHAT INTEGRITY is to a public official, taste is to a cigarette—the one quality that wins and holds public confidence and esteem.

ON TASTE AND TASTE ALONE, Chesterfield continues to gain smokers, both men and women. Chesterfields are mild — not strong or harsh — yet they have richness of flavor and aroma. They are not insipid or tasteless.

WITNESS THE STEADY GROWTH in the popularity of Chesterfield — a popularity which proves that with smokers, as with us, it's "TASTE above everything".

WEST AND SOUTH HIT BY COLD AND SNOW IN WEEK-END

Los Angeles, May 5.—(AP)—Rising temperatures and clearing skies were promised throughout the Pacific southwest today. Week-end snow and rain storms caused one death in the Los Angeles area and disrupted transportation and communication systems in southern California and Arizona.

Heavy snows and cold weather in the San Antonio mountains near Ontario, Cal., east of here yesterday claimed the life of Mrs. Mildred Percy, 35, former head of the Chicago Child Welfare League. The woman, who has been spending the winter in Pasadena, died of exposure after struggling in four-foot snowdrifts while on a hiking trip.

Los Angeles and adjacent territory experienced the heaviest May rain since 1921, with a total of 1.04 inches reported.

Snow fell steadily throughout Saturday night and Sunday in the mountain districts. Mount Wilson near Los Angeles is covered with snow half way down the mountainside. Seven inches of snow fell at Big Pines north of San Bernardino and heavy falls were reported in the San Jacinto range.

The highest temperature reported here yesterday was 56 degrees, and the lowest 48.

HAMPTON ROADS PIER DESTROYED

Norfolk Va., May 5.—(AP)—Pier seven at the Hampton Roads naval operating base, reconditioned at a cost of $210,000 to house the airplane carrier Lexington, was destroyed today by a spectacular fire.

The flames, fanned by a southeast wind, spread to the 1,300 foot structure to the tugs Catawba and Kewaydin and oil barges six and fifty-six, moored alongside damaging them. The barges were fadened with 100,000 gallons of oil but the flames were extinguished before they reached the cargo.

The flames spread rapidly and the pier was enveloped almost before fighters arrived.

Crews of the Catawba and the Kewaydin cut loose from the burning pier and soon had their own flames under control. Little damage was done to the tugs.

The barges also were cut loose and the fire aboard them was extinguished by fighters from tugs which raced to their assistance.

Naval base firemen reinforced by four companies from Norfolk and the fire boat Culpan, brought the pier under control after more than three hours fighting.

Burgess' Bedtime Stories

THE HOME OF MR. AND MRS. KILLY

In wasted time is something lost,
Of which we ne'er can count the cost.
—Killy the Sparrow Hawk.

It was true that Killy the Sparrow Hawk and Mrs. Killy were living in a hollow in a tree. The tree was beside the Long Lane. A large branch high up had died and this was hollow. Yellow Wing the Flicker had hollowed it out. Peter could remember when Yellow Wing had been at work there. He used to hear the rat-tat-tat of Yellow Wing when he had used another limb nearby for a drum.

So when Danny Meadow Mouse told Peter that the Killys had a nest in a hollow in a tree, Peter remembered what old home of Yellow Wing's. He hopped out in the Long Lane, where he could look up at that dead limb. Sure enough, right on the top of it sat Killy the Sparrow Hawk. He was sitting very straight, as is his way. A little way below him Peter could see a round hole. That was the entrance that had been cut by Yellow Wing the Flicker long ago. Mrs. Killy was looking out.

"I thought as much," said Peter to himself. "They have taken possession of Yellow Wing's old home and I suppose that by now they have eggs there. I wonder if they built a nest inside. I know Yellow Wing didn't. I have talked with Mrs. Flicker and she says that building a nest in a hollow like that is a waste of time. She says that when she makes the hollow she leaves some tiny chips at the bottom, and these make the best kind of a bed. She says all the Woodpecker family do this way. But Winsome Bluebird and Sister Mee the Swallow and Jenny Wren and Tommy Tit the Chickadee and Cresty the Tyrannt and Speckles the Starling and Bully the English Sparrow all build nests inside the hollows in trees or the houses they use. I wonder if Mrs. Killy does. I wish she would come down here where I could talk to her."

As if in answer, Mrs. Killy came out and circled overhead, while Killy left his perch and disappeared through the round doorway—of the home. A moment later she came down and caught a big beetle just a little way from where Peter was. She flew over to a post to eat this beetle and Peter hopped over to the foot of the post. You see, although Mrs. Killy was a hawk, Peter wasn't afraid of her. She was too small for Peter to fear.

"How do you do, Mrs. Killy?" said Peter in his most polite manner.

"Hello, Peter," said Mrs. Killy. "What are you doing here?"

"I was on my way home," replied Peter, "but thought I had better say over in the bushes along the Long Lane until I can be sure that none of the big members of your family is around. I didn't know that you were living over here until just now."

"There are many things you don't know, Peter Rabbit," replied Mrs. Killy.

"I know it," replied Peter humbly. "I know it and that is why I am always trying to learn more. For instance, I know where your home is. I know when that home of yours was made, and by whom. But there is one thing about it I don't know and that I want to know."

"What is that?" inquired Mrs. Killy.

"Have you built a nest inside there?" Peter inquired.

"Here I built a nest!" exclaimed Mrs. Killy scornfully. "Of course I haven't. Why should I? Why should I go to all that trouble? That house was good enough for the Flickers and it is good enough for Killy and me, too. No, sir, I wasted no time building a nest. There is a nice bed of chips in there for my eggs and that is all I want."

"How many eggs are there?" asked Peter.

"What business is that of yours, Peter Rabbit?" demande dMrs. Killy rather sharply.

"None, whatever," replied Peter rather meekly. "I am just curious."

Talks To Parents

IN BAD

By Alice Judson Peale

Eight-year-old Jack seems to be in bad with his luck. He is in bad with everybody.

He fights with all the children in the neighborhood and is in daily disrepute with all their mothers. Even his own mother can't find a good word to say for him.

He has, apparently, not a virtue to his name. He is contrary, stubborn, pugnacious, selfish. Likewise to pick upon smaller children and though it all, very sorry for himself. He says that nobody likes him and that he never has any fun.

Jack has been subjected on all hands to a variegated course of bribery, punishment and ostracism.

He is considered by everyone, children and adults, at home and abroad as an affliction and a nuisance which, since it can't be cured, must be endured.

Certainly there is no hope for him as long as the general attitude towards him remains what it is.

The children who is in bad with everyone is likely to deserve his evil reputation until someone makes an effort to like him and to bring out the good in him by finding socially approved outlets for his unfortunately disposed energies.

Children such as Jack need continent, unemotional but emphatic friendly handling, at home and supplemental play with others in the nursery school. The mother of such a child can frequently gain a new lease on her patience by giving him a membership in some local boy's club.

The outdoor activities, the skilled leadership which is found in such a group and above all, the fact that he has a fresh start, with no old reputation to live down, may frequently work in him a change which rapidly and effectively will cause him to be accepted in the proper spirit which thus go for naught. We are sorry that things turned out as they have but the whole matter was beyond our control and fate seemed to be against the successful presentation from the start. Better luck to you the next season.

Word from District Commander Yates asks that the post be 100% of last years. We are now short 115 members of our 1929 total and it is up to some of us to get busy and get in the members in order to comply with his request.

Baseball opened with a bang Wednesday when the 6th ward juniors took the third warders into camp. Looks like we would have a better season than last year in the Junior League. All managers are urged to get their teams in readiness for the official opening of the schedule early this month.

Sick members should notify the adjutant of their sickness so that the proper fraternal courtesies may be rendered.

They tell us that Al Stearman was at one of those Full-all ifan-nelli parties against last, And How! And the Sire looked the part the next day.

Did you notice the new benches that are placed on the porch at the home. Good place to sit in these warm evenings and talk over old times. Or fight the war over with Wild Bill. It is up to us to make use of them fellows now that the House Committee has furnished them. Thanks Jakie.

Next Wednesday evening, May 7 is the 40-8 meeting for May. Special attraction on the program is an address by Merritt C. Johnson. It is understood that his subject will be: "Do not throw snow-balls when on the way to a 40-8 wreck. It does not pay.

It is with great regret that Kankapee Post has heard the news of the resignation of—our esteemed friend and co-worker, Guy Ware. He has always been a hard worker for the post of which he has been a member ever since he came to Kankakee. He is a member of the board of directors and of the membership committee and conducted a very successful drive for members in 1929. He is on the boy scout committee, the Junior baseball board, 18th district Athletic Chairman and a member of the local Y. M. C. A. All in all your place will be hard to fill Guy, and we hate to see you leave. Kankakee post needs more fellows like you.

Silence is golded but frequently the gold is due to those who have brass enough to speak up—if you know of a prospective member, go see him and sell him the Legion. Or tell the commander or adjutant and a member of the membership committee will call on him.

The Universal Draft law about which so much has been said in the last few years does not mean universal service or conscription in time of peace. It simply intends to foster Child Welfare. The term Child Welfare covers a wide range of activity. It includes better schools, better books and better playgrounds. It also includes purer food for children, physical and mental education, dental clinics and summer outings. It includes too, motherless persons laws, child labor protection, creation of Juvenile Courts and probation laws. There are all kinds of additional laws for care, maintenance, education and supervision in its broadest sense. It is a careless people of the most part feeling the life of a child. This paragraph is a message of good cheer to all America. It is a story of cure for ailing bodies and tired souls, of American homes for helpless children, of protection of the little ones left by our comrades who answered the last call. It is joy and music unselfish service to our unfortunate comrades. Child welfare is an appeal to what is best in all of us. We believe it appeals to you. You can do your part to further this work in connection with the other major objectives of the Legion by becoming a member. Every ex-service man should belong to the Legion. In peace as in War we serve.

Any organization without co-operation is like a fiddle with one string. It can't play much music. Think it over non-Legionaires.

Tomorrow: Why We Have Neurons

WHY WE DO IT

Why We Are Tempted To Swear

It is commonly conceded that we swear to relieve our feelings. The feelings have a way of expressing themselves. When we feel fit and fine we are likely to sing and hum tunes or whistle. When we feel bad we are tempted to use bad language. The action is suited to the mood and so is the vocabulary.

Of course the type of swearing depends upon personal habits and environment—all the way from "O, dear," to the vilest of oaths. Though couched in different terms the sentiment is identical. Swearing is emotiona llaxative,—katharsis," the Greeks called it.

A person who knows no other language besides his mother tongue can usually swear in at least three, and there are those who boast of the ability to swear in seven or more languages. Swear words of foreign languages are easy to learn because they express emotions and the language of the emotions is easily communicated.

I know a woman of refinement who loved her family as well as her neighbors by using the worst oaths known to the vocabulary when she became temporarily insane after a severe illness. We all wondered where she learned such words. All of which goes to show that cuss words have a way of getting around and of coming out quite unconsciously at the psychological moments.

As a habit swearing is uncalled for and confined to ill-bred and careless people of the most part. Some know so few adjectives that they habitually fall back on some cuss word which serves the same purpose as slang. Those who use it mean nothing by it. It has ceased to be an emotional expression with them and has become incorporated into their vocabulary. It is just a bad habit.

There are others who swear for emphasis. Swear words are admittedly strong and colorful. But some so over-work these attention drawing words that they attract more attention when they don't swear.

There are those who think it is "manly" to swear. Lots are usually young boys and grown up shrimps who want to appear tough because their extreme youth or smallness of stature makes them conscious of immaturity or weakness. They are eager to convince themselves and others that they are grown up and are as brave and strong as the next fellow.

Kankakee History

MAY 5, 1904

The Odd Fellows gave a celebration at their new hall in the Brasher building in honor of the 85th anniversary of the order. An interesting and appropriate address by E. B. Gower was followed by dancing and refreshments.

The alley back of the Arcade is being bricked, being the first one to get this kind of improvement.

Even the automobile fad is dying out with the rich. A wealthy New Yorker has contracted with Monsieur Dumont, the famous Parisian aeronaut, for the construction of a flying machine, in which he will take his family and friends on a little trip around the upper country. The new wrinkle has not yet reached Kankakee, however, but it is safe to say that Frank Holmes will have a sample as soon as he disposes of his stock of automobiles.

HOW'S your HEALTH

SQUINT

Squint, or as it is technically known, strabismus, is a condition of eye muscles. Not only is it unsightly, but usually it points to one of several serious conditions. There are a number of different types of squinting, the life of a child. This paragraph is a message of good cheer to all America. It is a story of cure for ailing bodies and tired souls, of American homes for helpless children, of protection of the little ones left by our comrades who answered the last call. It is joy and music unselfish service to our unfortunate comrades. Child welfare is an appeal to what is best in all of us. We believe it appeals to you. You can do your part to further this work in connection with the other major objectives of the Legion by becoming a member. Every ex-service man should belong to the Legion. In peace as in War we serve.

The infant is not born with the capacity to focus its eyes. Hence during the first six months of life squinting is natural and of no significance. Thereafter, however, any malposition (squinting) of the eyes is to be looked on with suspicion.

It is not uncommon for normal children to begin with normal eyes and, say at the age of three, to develop a squint. Usually this follows an attack of measles, or whooping cough, and points to a weakening of the muscle nerve-system of the eye brought on by the illness. Children with a squint may see double. Later on even if the squint is corrected, the double vision may disappear. But in the vast majority of cases this does not mean a cure. On the contrary, it merely means that rather than see double the child has learned to look through only one eye. The picture being suppressed.

Because there is a tendency for the child in the squinting eye to become progressively worse, it is important to begin treatment of the condition as soon as it is discovered. In many of the cases of so-called self cured squint, the alleged cure was gained at the expense of the sight of one eye.

The younger the child, the easier it usually is to cure the condition.

Resistance Campaign Of Mahatma Gandhi Ended

BULLETIN:

Bombay, May 5.—(AP)—More than 100,000 followers of Mahatma Gandhi, including Mrs. Naidu, assembled in a mass demonstration this evening.

Speakers addressed the multitude from seven platforms, congratulating Gandhi upon his arrest.

There were five Americans among them.

Abbas Tyabji, who had been selected by the Mahatma to lead volunteers in the civil disobedience movement in the event of his arrest, had taken over his post. The speakers declared that the arrest of their leader would not end the struggle for a setback to their cause but would give impetus to the movement for Indian independence.

Bombay, India, May 5.—(AP)—The arrest of Mahatma Gandhi, that Mahatma Gandhi, that apostle of nonresistance, left India's resistance movement halting the civil resistance campaign which for months it had looked to as the supreme test of the power of the holy one's doctrine of passive resistance.

Gandhi himself made early today, as was a custom, a complete confession of his own shortcomings as a leader. His followers no intense as an indication of what their attitude would be in the future. Minute. Whirled away to Poona to serve for the third time in prison. Gandhi proceeded to the cell which would confine him, he made no statement, refused no threat. Mrs. Naidu spoke for him. Gandhi's hope India will show her resistance, she said, and give a warning to the government's unwarranted action.

Months being Gandhi's today of action he had just given the last caution in a letter to the viceroy when the climax took place. The letter said that unless the British government released the thousands of armed policemen led by the district magistrate, the superintendent of police and the commissioner of Gandhi's quarters at Karadi from Jaipur. They went to his bed where he had been sleeping.

"Do you want me?" he asked.

When he orders to place you under arrest" the magistrate replied.

Gandhi asked only to be permitted to gather his teeth before leaving for confinement. A custom to which the Indians attach much importance.

At daybreak the news began to travel swiftly throughout all India. A government communique announced the arrest, depicting the necessity for such action. The arrest was made under the terms of article 27 of act number 25 of 1827, which is to the effect that the Mahatma will be interned rather than imprisoned. The period he may be held for trial for an indefinite time without a hearing.

These civil disobedience acts are in perfect accordance for sale act violation which is taking part in the civil disobedience campaign. Mrs. Gandhi is actively leading aggressively the civil disobedience movement. Nothing has been molested.

The Mahatma's previous arrests occurred in 1907, at which time he served two months, and again in 1922 when he served two years in prison and was set free because of failure of his health.

Enters Prison

Poona, Bombay, India, May 5.—(AP)—Mahatma Gandhi, leader of the entered the Yervada prison at 11 a. m., three motor cars carrying him and his police escort.

He seemed in good health and spirits and told the correspondent he was pleased with arrangements which had been made for the journey and that every comfort had been provided for. It was understood the government shortly would issue an order, providing a definite allowance for him of 100 rupees, about $35, monthly for food, with a food allowance for his subordinates.

The situation was quiet here, police having taken all precautions.

Bombay, India, May 5.—(AP)—Shops owned by Hindus and most muslim-owned shops throughout Bombay closed today in protest against Mahatma Gandhi, leader of the civil disobedience campaign, who was taken into custody last night at Jalalpur by a magistrate and police detachment. The cotton and seed exchanges suspended business.

SEVERAL POINTS IN TARIFF BILL STILL UNDECIDED

Washington, May 5.—(AP)—With another fortnight, congressional leaders hope to reach the end of their long tariff controversy over the Smoot-Hawley tariff bill and send that much disputed measure to the White House.

Six points of disagreement remain to be settled and the senate is to take them up this week after voting final action Tuesday on the flexible clause and the tariff commission reorganization provision. The amendments of the senate affecting those points were rejected late last week by the house which at the same time adopted amendments fixing the Cuban sugar duty at two cents a pound and placing embargoes upon the entry of goods arriving against the export debenture plan and the senate's flexible provisions authorizing the president to raise or lower duties within a limit of fifty per cent by executive action.

Then various stacks upon the tariff bill were forthcoming over the week-end, one a letter signed by Democrats of the committee, the other, from Representative Collier, Democrat, Mississippi, a member of the conference committee.

The economists who included Frank W. Taussig of Harvard, Irving Fisher of Yale, Emory R. Johnson of Pennsylvania, and Wesley C. Mitchell of Columbia, expressed opinion that increased protective duties would be a mistake and would increase the cost of living unless there was a majority of our citizens.

They also contended that the bill would not alleviate unemployment, would result in losses for most of the farmers, and harm American export trade.

Collier said that while tariff revision was undertaken especially to assist the farmer, all rate schedules had been increased and that the substantial raises are on manufactures of steel, cotton, wool, flax hemp, jute and rayon.

MONTE VISTA, COLORADO, SCENE A BAD FIRE

Monte Vista, Colo., May 5.—(AP)—A fire that ravaged the principal business block of Monte Vista, causing estimated damage of $300,000, was placed under control today, but not until a company of Colorado National guardsmen was called out to patrol the streets and prevent looting.

A violent wind storm whipped the flames and for hours the blaze defied the efforts of fire departments from more than 200 volunteer firemen.

Residents of neighboring villages attracted by the blaze, swarmed into town in such numbers that it was necessary to call out the guard.

The fire started in the furniture room of a hardware store in the center of the business district, and quickly spread to adjoining buildings. It was barely under control when another blaze in the lumber yard was discovered. Eigh business houses and the lumber yard were destroyed.

VETERAN OF PEORIA POLICE KONJOLA "FAN"

Well-Known Officer Praised Powers of New and Different Medicine

MR. FRANK E. COBB

"Konjola did for me what no other medicine I tried could do," said Mr. Frank E. Cobb, Police Officer, 2220 East Wilcox Avenue, Peoria, Ill. "For a long time my liver and kidneys were below par and I decided to rise every night several times, and my general health suffered greatly as a result. Constipation caused me much misery that headache was no longer a pleasure, and I kept getting worse instead of better.

"I had just about lost confidence in any medicine when I decided to buy so much about Konjola, that I decided to try a treatment. I certainly was surprised at the results Konjola gave me. The constipation disappeared right away and it was not long until I was free from my liver and kidney trouble. My appetite is fine and today I feel healthier than I have in years. If more sufferers knew about Konjola it would have a billion friends instead of a million.

"Konjola has become the most talked of medicine in America because it makes good. And Konjola makes good even in those most stubborn cases when given a fair trial. Six to eight bottles are recommended as a fair test.

Konjola is sold in Kankakee, Ill., at the I. C. Pharmacy, 204 E. Court Ave, and by all the best druggists in all towns throughout this entire section. adv.

HEARING FOR CHICAGO HOTS. MEN WEDNESDAY

Edward Olson and Jack Fearon, Chicago Heights men who are held in the county jail on the charge of contributing to the delinquency of Fern Watson, 15, of 191 West Chestnut street, are scheduled to be given a hearing in the police court before Judge Bert L. FitzGerald at 9:30 o'clock Wednesday morning.

Meanwhile, the Watson girl, who is said to have disappeared from her home a week ago last Wednesday, remains missing. She was in Chicago Heights for a time, it is reported, but has been seen in this city since.

Olson and Jack Pearon were arrested on a warrant issued on the complaint of Violet White, 14 year old Kankakee girl.

Arthur P. Pardy, 381 South Schuyler avenue, who was arrested last Friday night in connection with the case, has been allowed to return home but probably will be recalled for questioning soon.

MADRID POLICE FIRE ON STUDENTS

Madrid, May 5.—(AP)—A battle between rioting students of the San Carlos Medical college and police today resulted in casualties unofficially reported as one-dead—a workman—and 17 injured. The authorities would give no official information regarding casualties or arrests.

Premier Berenguer and cabinet members hurriedly met to discuss the situation caused by the presence in Madrid of Professor Miguel De Unamuno and the resulting student demonstrations.

They decided to call a special cabinet meeting tonight.

The students had hoisted a red flag over San Carlos Medical college this morning, deserted their classrooms and flocked on the campus, still protesting their treatment Thursday night when police broke up a demonstration of students who had greeted Professor Miguel De Unamuno at the Norte railway station.

Then they returned to the building, barricaded themselves in, and stoned the police from his roof.

The same students had rioted in front of the college Saturday, hearing Socialistorators at the police and endangering passing street-cars. Street-car traffic past the school was suspended today as a result.

The battle was coblestones against firearms. After students had raised the red flag over the college and had headed for the street to parade, they were driven back by police.

They picked up and retreated to the college roof and showered stones upon the police, who fired shots in the air to frighten them.

By mid-afternoon the melee had ended and most of the students, out of ammunition, had left the campus, but the police maintained a heavy guard about the building.

All traffic in the region was suspended.

The collegians were rioting over the manner in which police halted a demonstration for Professor Unamuno Thursday night, when the officers charged with sabers and injured 50 persons.

FAT BOYS OF AUTO RACING IN SEARCH OF TINY RIDING MATES FOR 500-MILE HOOSIER CLASSIC

CHESTER GARDNER DEACON LITZ PHIL SHAFER PETER KREIS JR. NEWBERGER

INDIANAPOLIS, IND., May. —The fat boys of automobile racing are wishing they had gone on an eighteen day diet as time for the International 500-mile race at the Indianapolis Motor Speedway, May 30, approaches.

It is the heavy set men of speed who assimilate the major portion of body punishment in the 500-mile ride over tantalizing bricks that constantly cause vibrations and jostle drivers in their seats.

Always these years the specifications for the 500-mile race demanding two men in each car—a driver and a mechanic—as the driver—the large sized pilots are casting about for midgets as riding mates. They want to equalize the weight but more particularly the space consumed by the two riders. Some amusing combinations should result from their choice.

DOZEN OIL TANKS ARE SWEPT BY FIRE

Chicago, May 5.—(AP)—A dozen oil tanks of the Interocean Sales Corporation were swept by fire today after a gasoline truck burst into flames as it was being loaded. Thirty employees of the firm, located at McCook, a suburb, escaped unhurt.

Flames from the truck spread rapidly to a nearby warehouse in which many oil and grease barrels were stored. Soon the oil tanks caught fire and exploded.

The barrel house and its contents, millions of gasoline, 10,000 gallons of paraffin, 600 barrels of oil and 150 barrels of grease, were destroyed. Two buildings were razed and a third partly burned, and four automobiles went up in the blaze. The damage was estimated at $250,000.

CHAPTER 57

The man and the woman seemed to be quite unaware that the game was ended for them. Both had sprawled themselves by the table on which were the remains of a meal. Even then the sergeant with considerable apprehension. The sergeant's greatest fear was that they might get up and dance.

You see are the most inhuman beings the ever met up with! he confided to them as he strode across the room.

And now? he went on, his voice trailing trembling with the enormity of I'm going to give you a taste of the stuff you've been regarding this good woman and insulting her dream in that cellar, and be glad it's only for ten or twelve hours! I'm not going to be kept there for the next ten years! I only wish I had told Maxwell here to keep you company. Some one now more deserving than you want me to help you!

He turned to Pat and Margery. The former had taken off her coat, and was a warm seal, and wrapped around Madame Leclerc. Rex had removed his coat and was sitting in his shirt sleeves, helping the shivering Bouchard to get into the sergeant's.

It would be better, he was saying to Pat, to take these people free tonight. For they would surely call Maxwell of our coming, and as a result they have no doubt sent him to get any warning to the ship I'm looking them up where they had this poor woman and man. I'll send someone out tomorrow with a couple of motor-trucks to take them to town. We'll want them as witnesses against that old Maxwell.

The two offered no protest. They realized probably the futility of it. When the sergeant had finished, Pat and Margery had accompanied her to the door, where she had given several cablegrams and letters. Then, after registering axes and being assigned to the two unoccupied cabins came to remain him of his birthday.

The party was played with Mrs S. Stolarski and I. G. Pietrzaeswski scoring high. Mrs. J. Pawloski and M. Mroz second high, third high Mrs. A. Grabowski and B. Klonoski with consolation favors being awarded to Mr. and Mrs. W. Koza.

After the games a delicious lunch was served the feature being the lighted birthday cake. Mr. Stolarski was the recipient of many handsome gifts and good wishes in honor of the occasion.

IS YOUR husband's secretary like Anne Murdock? Once she had admitted to herself that she loved her employer, Anne found that she could not visualize the job without the man. An ambitious young woman from a small suburban home, she had thought when she got her job that she could remain more worker than woman, even with so dangerously irresistible a man as Lawrence Eaton. Later, becoming aware of their mutual attraction, she had planned to use it for the advancement of her ambitions, but she had not counted on the consuming, uncontrollable flame of a genuine love! Anne Murdock is the heroine of a story that starts many a discussion on love and that will be talked about in many a business office . . . and home . . . a story of people who might be in your office . . . or your husband's.

Only Copy of Statue Remains

The celebrated statue of Athena which was in the Parthenon is no longer extant. A statuette not quite 3½ feet high, evidently a copy of this great statue, was found in Athens in 1880. So far as we know, it remains in the National museum at Athens. Dr. Kalkani was mortally wounded on this occasion.

INTERESTING NEWS EVENTS IN THE SPORTING WORLD

KANKAKEE WILL HAVE FAST BASEBALL TEAM THIS YEAR

By JACK GUTSTADT

Kankakee's baseball team for this year is practically complete with the possible exception of a shortstop, and Manager Leon White is combing the entire county for a dependable man to fill Orville Menard's shoes. Menard is lost to the team this year having been signed by the Burlington team of the Three Eye league.

The players engaged in extensive batting practice at Electric Park Friday night. Numerous healthy socks came off the bats of Jack McCarthy, LaFleur, Vickery, Freeman, Johnson and White. Within another week all the men should be in mid-season form judging from their work at the park Friday. "Chink" Johnson is making a bid for an outfield position. His work in practice in pulling down flies has made a good impression.

Definite announcement was made by Business Manager Ralph Menard of the signing of Jack McCormick as the club's first string pitcher. McCormick is popular with the fans, and his presence on the mound is sure to greet with the hearty approval of local fans.

Bill Seibert who was seen in right field last year will very likely be on the club again according to Manager White. The Chicago Heights lad is quite a hell player and very well liked by his fellow teammates and fans.

Wonderful improvement has been made on the infield at Electric park, where the games are to be played this season, by Bruno Mathews, park superintendent. Men have been busily at work on the diamond for some time preparatory to the opening game which probably be staged May 18. It is planned to have some attractive doings for the opener.

THREE CLUBS FURNISHING THE THRILLS

By HUGH S. FULLERTON
(Associated Press Sports Writer)

Three clubs which have been thrilling the fans by scoring runs in big bunches and at the last possible moment in the games have been accomplishing surprising feats in the major leagues during the past few days. These three are the Brooklyn Robins, St. Louis Cardinals and Cleveland Indians.

Brooklyn an d the Cardinals have staged a series of slugging battles as St. Louis that never were decided until the final putout was made, but on each occasion, the Robins came out ahead by a run or two to sweep the four game series and to carry their winning streak to seven games. A double victory yesterday put the Robins in fourth place in the National League standing.

On Saturday, St. Louis tied the score in the ninth and barely missed again in the tenth when Brooklyn scored five runs and St. Louis four. Yesterday, Hal Phelps, Robin rookie, outpitched Will Hallahan to win the first game, 2 to 1, without any Cardinal rallies but in the second the Cards repeated their act of getting four runs in the ninth and carried the battle to 13 innings before the Robins scored three runs to win, 11 to 10.

Three times in succession, Cleveland put on late rallies against the Boston Red Sox and won by doing it. They came from far behind yesterday, scoring five runs in the ninth inning and one in the tenth for an 8 to 7 victory. This sixth successive triumph put the Indians in first place in the American league as the St. Louis Browns won their second game in succession from Washington by an 8 to 6 score. The Browns bunched their hits off Thomas effectively in the second inning for seven of their runs.

The New York Yankees brought another change in the American league standing, moving into sixth place ahead of Boston by beating the Chicago White Sox, 7 to 4. Babe Ruth's third home run of the year helped the Yanks considerably. It came in the eighth inning, just as Chicago was threatening.

In the fourth American league game, Bi Shores of the Athletics and Frank Ulsh of Detroit staged a battle that remained a 1-1 tie for six innings, then the Philadelphia sluggers pounded out six runs and a 7 to 1 victory in the last three frames.

The Cincinnati Reds altered the National League standing considerably by turning the New York Giants, 8 to 4, behind the good pitching of Jake May. The Giants dropped into second place behind the idle Pittsburgh Pirates through the defeat while the Reds jumped from last place to sixth.

The Chicago Cubs won another close home from Philadelphia 4 to 3 when Lou Koupal made a costly wild pitch in the ninth inning and let Don Hurst cross the plate with the deciding run. The Phillies had just completed an uphill struggle to tie the score with two runs in the first half of the ninth.

BONFIELD NINE WINS 6 TO 2 OVER JOLIET

The Bonfield Speed Boys defeated the Joliet Senators at Joliet Sunday, 6 to 2. Whipprecht, Bonfield twirler, was too much for Joliet, allowing only seven hits and striking out 13 batters.

Next Sunday the Bonfield team will open their home season in a clash with the strong Herscher team on the Bonfield diamond. A good game and a large crowd is in prospect.

BADGERS HAVE ONLY UNDEFEATED CONFERENCE TEAM

Chicago, May 5.—(AP)—Wisconsin today was the proprietor of the only undefeated baseball team in the Western Conference, three clubs having toppled out of the select circle last week-end.

The Badgers made the previously undefeated Minnesota team its third straight victim Saturday, 5 to 4, while Illinois bounced Ohio State out of the unbeaten class by the same score. Michigan played raggedly and was defeated, 8 to 5, by Northwestern which gained a tie for second place with Illinois by the victory.

Chicago definitely joined Purdue as hopelessly out of the running by suffering its fourth straight defeat and its second to Indiana by a 9 to 1 score.

Wisconsin will meet Northwestern twice this week, playing at Evanston Wednesday and at Madison on Saturday. Ohio State today entered a three-game schedule for the week, meeting Purdue at Lafayette, Ind. Tomorrow Michigan will play the first game of another three game series, meeting Chicago at Chicago the two games are down for Friday. Ohio State will meet Indiana at Bloomington, while Purdue will invade Michigan.

The games Saturday will finish the fight-game setup of the week. Ohio State will play at Chicago, and Illinois will tackle Michigan at Ann Arbor, with the second northwestern-Wisconsin dual to round out the list.

FROM TEE TO GREEN

By ROY GROVE
Central Press Golf Writer-Artist

THE best golf shots are those where you have a sense of feeling that you are well balanced at the top of your backswing.

An awkward, jerky, forward leaning motion is sure to send the ball into a world of trouble.

To avoid that cramped feeling, and a sure method to keep from overswinging, is to take the club-head back on an arc inside the ball. This can be obtained by keeping the right elbow fairly close to the body and holding the weight back on the right heel.

In the illustration of Jones, you see all that, with a slight rise of the left heel, the stiff left arm starts the wrists action.

At the top of Jones' swing there is not the slightest indication of a strained muscle nor do we see any extra effort made on his part to hit the ball 300 yards down the fairway.

The weight is upon the right heel.

It is important to remember that in starting the backswing the club-head starts before the hands and, to get this notion, press a bit on the ball of the left foot to begin the action.

ST. GEORGE TRIMS FLORENCE STOVE COMPANY 8 TO 7

The Florence Stove Co. and the St. George baseball teams engaged in a game of baseball at the Electric park yesterday afternoon and the St. George team came off the field victorious.

Although the game had its thrills numerous errors were committed but owing to the little practice the boys had, these can be over-looked. The team winning took advantage of the breaks which decided the battle. Lesotte and Johnson both pitched very good games.

Next Saturday, the Florence Stove company's team plays the Paramount and Sunday they travel to Ashkum. Both of these games promise to be real battles.

SONNENBERG AND MARSHALL WILL WRESTLE TONIGHT

Los Angeles, May 5.—(AP)—Gus Sonnenberg and Everett Marshall tonight will settle to their own satisfaction as best the much discussed and frequently claimed championship "world's heavyweight wrestling champion."

Sonnenberg's claim to the throne dates back to a victory over Ed "Strangler" Lewis in Boston, some one hundred fifty bouts past, which occured on the twelve months a year extra effort made on his part to hit the ball 300 yards down the fairway.

Marshall hails from La Junta, Colo., and has been crushing bones professionally for only a year and a half.

Tonights exhibition is expected by Promoter Lou Daro to exceed the generally recognized record gate for such affairs, set at $87,559 in Chicago September 4, 1911, when the Cloth-Hackenschmeit set-to occurred.

VIATOR ACS SMOTHER ST. PATS, 16-1

By LOUIS VALADE

Every team will have its off day and St. Pat's had that certain kind yesterday. An as every team will have its nemesis, so will every pitcher have Providence favoring him. Such a pitcher was found in Whalen of the St. Viator Academists. This high spot, had everything in his favor, the Irish being included. He struck out 16 men, and walked only 3, yielding but 3 hits St. Viator won 16 to 1.

In the first two frames Viator scored 15 of the 16 runs. Chouinard pitched in those hectic innings, and he replaced by Allain in the 3rd who held them down for the rest of the game. The blame cannot be placed only on Chouinard, for those runs being scored. Errors were numerous in those 3 innings, which did not help matters much. Whalen gave 3 hitse. Chouinard gave 9 in 2 innings, and Allain gave 4 in 6.

Riberdy made two of the 3 hits, made by the Irish. He batted .500 yesterday. O'Conner had the other safe bingle marked up to his credit. Everyone in the Ac team made at least one hit except Hickey, but that does not take away from the credit he earned on the defensive. Gabel and Bradley connected for 3 hits out of 4 times up for the highest batting average of the day.

Now, with the opening of a new day, the hopes of the "Irish" are revived and they are awaiting with eager anxiety for the next game with the St. Viator Academics, for they are sure that they will make up for this defeat.

So far as known the next game for the Patrickmen will be next Friday with Chebanse.

SCHMELING IN AMERICA FOR BATTLES

BY EDWARD J. NEIL
(Associated Press Sports Writer)

New York, May 5.—The well-dressed young man from Germany, Herr Max Schmeling is back in America today, in happy quest of fortune's richest prize, the heavyweight championship.

Looking more than ever like the Jack Dempsey of ten years ago, the smiling young Teuton bowed his way into the United States yesterday, through lanes of shouting countrymen, solid German citizens and their frau, who gathered 4000 strong on the pier of the liner New York.

The suave, posed youth who chose deliberately to mix with the crowd rather rather than sneak across and avoid the cheering countrymen who must have come to the dock to greet the early boat, was a strange contrast to the shy, frightened gunsel who left Hamburg a month ago on New York for the first time two years ago.

With his German manager, $10 and 10 words of English between them, Schmeling then set out quietly to win a place among the top ranking heavyweights. He knocked out Joe Monte, and Joe Sekyra and became an overnight sensation by toppling rurred Johnny Risko. Then he whipped Paulino Uzcudun, came entangled in controversies with managers and promoters and sailed disgustedly for home.

Now he is back to fight Jack Sharkey in the Yankee stadium June 12 for the heavyweight title that has been vacant since Gene Tunney retired two years ago. He carried 19 pieces of baggage with him this trip, several companions, including a dachshund pup, and a half dozen Kodaks, clicks that caught his eye one day in a shop in Berlin.

It is the personal impression in Schmeling, however, that is so much in evidence. He is a man who is as with all the aplomb and self-assurance of Dempsey, most popular of champions. Quiet spoken and excitedly in fairly good English, and a interested in everyone and everything.

Schmeling appeared to be in perfect condition, healthy, dark brown, and weighing 190 pounds as compared with his fighting weight, 187. He will leave Tuesday for his training camp at Johnson City, near Binghamton, N. Y., to start light training with half a dozen sparring partners.

Max says he will beat Sharkey—how he won't say—and then go after the ring. A year's layoff won't hurt him because he is only 24 and has lasted 10st rounds in battles since whipping Paulino here last June. If he whips Sharkey he wants to defend his title against Dempsey here in September and if the old man leader stays in retirement, he will tackle the best man available.

Max is not enthusiastic about fighting in Germany and does not believe that Europe is ready for the heavyweight championship. America is accustomed to stage. He is very serious about the fact that he is the first German ever to fight for the big prize and only the second European—Georges Carpentier was the first—to challenge for the heavyweight crown in modern ring times.

With his managerial troubles a thing of the past, Schmeling is an affable, friendly person, and promises to be a popular fighter. He will be 25 years old on September 28.

"Put the date in," he said. "Maybe I get some presents from someone."

Reputation's Test

There are two modes of establishing our reputation: to be praised by honest men, and to be abused by rogues.—Colton.

JACK THOMPSON AND FIELDS WILL MEET FRIDAY NITE

New York, May 5.—Young Jack Thompson, ban champion heavyweight already has dropped two decisions to Jackie Fields but he will have a real incentive when they meet for the third time at Detroit on Friday night. Fields' welterweight championship will be at stake.

Although Fields is certain to be a slight favorite to win, Thompson should give the champion a real battle all the way.

In his most recent battle the San Francisco negro barely dropped a decision to Jimmy McLarnin, clouting cleft from Vancouver, in a ten rounder at Madison Square Garden.

Two other champions will swing into action during the week but neither will risk his crown. Sammy Mandell, lightweight king, takes on Tommy Grogan, Omaha puncher, at Omaha on Friday, and Bat Battalino, of Hartford, Conn. featherweight titleholder, meets Ewa Maseyo of Philadelphia, at the Philadelphia arena tonight.

HARVEY HIGH ATHLETES WIN MEET HERE SATURDAY

BY LEONARD KLAFTA

Harvey took a majority of firsts while Kankakee and Calumet City were splitting the seconds and thirds and as a result, the Thorntonites won with 68 5-6 points. Kankakee had 31 1-6 while Thornton Fractional finished with 32. The Harvey juniors also took their half of the meet scoring 43 points. Thornton Fractional was second with 26 while Kankakee made only 11 points.

Shaw made Kankakee's only first place in the low hurdles. He was second in the 50 and dropped to third in the century. Kurtz managed to get fourth in the 50 and tied for third in the 220.

Bob Schienz allowed Deakin, Fractional miler, to get too far away from him at the finish but couldn't do so fast enough. The time was fast, 4:48.

Beckman and Lane battled with Lawrence in the high jump. They stopped at a mark they tie at 5 feet 10 inches.

Peebles again beat Peterson in the pole vault. In the half mile run, Schienz was the only Kankakee man to finish near the front. Bob took fourth.

CUB TWIRLER ON THE INJURED LIST

Chicago, May 5 — (AP) — National league clubs will not look at the pitching of Guy Bush, Chicago Cub righthander, except possibly in relief roles, for another two weeks.

The Mississippian suffered an injury to his pitching arm during the home opening series with St. Louis, and the member was failed to show rapid improvement.

Bob Osborn today was to be given a chance as a starting pitcher.

N. Y. STOCKS

New York, May 5.—(AP)—Price trends were highly irregular at the opening of today's stock market, as liquidation of impaired marginal accounts went forward, together with renewed buying by bargain hunters, and the placing of large supporting orders. Several, blocks of 5,000 and 10,000 shares changed hands Union Pacific and Southern California Edison each lost more than 2 points, and Pennsylvania Railroad and Standard brands about a point each. Westinghouse rallied 1¾, St. Louis Southwestern a point, and Radio ¾. U. S. Steel and Standard of N. J. opened unchanged.

After early selling orders had been absorbed in the first half hour the market turned upward under renewed buying of several pivotal industrials. Advances attracted further liquidation, however, and price trends continued highly irregular.

Among the more volatile shares, J. I. Case dropped $10, then rallied $8. Worthington Pump dropped $7, and rebounded $5. Among the leading shares, such issues as U. S. Steel, American and General Electric sold up a point or more, but ran into renewed selling. Westinghouse Electrig mounted 3 and Eastman Kodak 6 points.

Several of the Copper and Automotive issues reached new low ground for the year. Du Pont, Pacific Lighting, North American, Texas Gulf, American International and Adams Express lost from 2 to more than 3 points.

Foreign Exchanges opened firm, with Sterling Cables at $4.86 3-16 up 3-32.

Renewed selling in the final hour, with the ticker 45 minutes behind the market, drove leading industrials from 1 to 6 points below the Saturday lows. Utilities were particularly hard hit. American Foreign Power slumping 11 5-8 to 65; American Can and United Aircraft yielded 6, American Telephone, Radio, U. S. Steel, Johns Manville, American Water Works, Warner Brothers Pictures, Allied Chemical, and International Telegraph 3 to 5 points. The close was weak. Sales approximated 8,000,000 shares.

Editor's Note:—The New York Stock ticker is still running at news press time and closing quotations will not be available until after 5 o'clock C. T. In lieu of this we are publishing the prices at 2:30 p. m. (E. S. T.)

Just a Shriek Then

An eminent philologist tells us that English is undergoing a process of monosyllabification. There is scarcely time for even one syllable when the car hits the telegraph pole.—Milwaukee Journal.

Each His Own Master

You may have to suffer, you may have to die, but no power on the earth can make a man do wrong without his own consent. —Isaac Sharpless.

Scott's Famous Verses

"Lochinvar" was a part of the metrical romance, "Marmion." For this romance in verse Scott was offered £1000 before it was begun.

The Saccharine Taste

Often "the sweetest story ever told" merely has a thin layer of sugar.—Des Moines Tribune-Capital.

Bolivia's production of tin last year was one of the greatest in any twelve-month.

GRAIN MARKET

By JOHN P. BOUGHAN
Associated Press Market Editor

Chicago, May 5.—(AP)—Both late July and the May deliveries of wheat slid down today to new lows for the season. Auspicious virtual completion of the seeding of domestic spring wheat, together with retirement of winter crop prospects were bearish-factors. A liberal decrease of 3,332,000 bu in the United States wheat visible supply, though helped to steady the market on setbacks.

Kansas dispatches today reported wheat crops improving steadily, and particular emphasis was given to rains over the week-end all throughout the southwest section of the state. Meanwhile, Nebraska reports said wheat was showing a good stand and color, with the plants nearly all Jointing, and expected to be heading soon. On scaling off sharply, however, the Chicago market appeared to be receiving considerable buying support, and sellers showed themselves disinclined to become aggressive with the market hovering close to a dollar level.

News that locust infestation in southern Europe had spread to Roumania also failed to notice here, but failed to act as a check on the price declines. There were also advices that the amount of wheat on ocean passage had decreased 400,000 bu. on the other hand, world shipments were much larger than a week ago.

Affected by weakness of the stock market, May wheat reached as low as $100 a bushel in the final dealings. Wheat prices as a whole closed unsettled, 1-4 a 1 1-8c under Saturday's finish.

Corn closed 1 1-4c off to 3-8c up. Oats 1-8c a 1c down, and provisions unchanged to 7c decline.

16 ATTEND MUSIC TRAINING SCHOOL

Sixteen Home Bureau unit music chairman and 4-H club leaders attended a music training school at the Home Bureau office Saturday. Mrs Robert Wright, county music chairman and Miss Florence Kimmelshue, Assistant Club Leader conducted the school.

The afternoon was devoted to an explanation of the music and recreation project as outlined by Miss Fannie Buchanan for the coming year.

Composed music, folk songs and folk games were explained through the use of literature and records. Each one participated in the folk games which will be taken back to the units and clubs and also be used for the anniversary celebration June 4th.

Those in attendance were: Mrs Howard Mann and Mrs. Carl R. Smith, Kankakee; Mrs John Schoel, Mrs. E. J. Baker, and Miss Anna Vos, Town of Union Hill, Mrs. Howard Patchett and Mrs. Henry Schott of Reddick; Mrs Henry Davis and Mrs. F. E. Shuette of Salina; Mrs Chas Ward of Rockville; Mrs. Pobert Worrell of Exline; Miss Helen Peterson of Sumner; Mrs. Richard Lane of Herscher; Miss Hilda Nelson Mrs. Robert Wright and Miss Florence Kimmelshue of Manteno.

TOURNEY CONTESTS START ON FRIDAY

The first of the preliminary contests for the county music and drama tournament under the auspices of the Home Bureau will be held Friday evening, May 9, at the Reddick High school. This contest will be for the groups from Union Hill, Sumner and Reddick.

The preliminary for the Manteno and Rockville groups will be held in the Manteno High school, Monday, May 12. The two Limestone groups will compete at the Limestone town hall Tuesday, May 13. The winners of these preliminary contests will compete May 15 at the Kankakee High school at which time the county champion will be selected and sent to the state tournament at Urbana, May 23.

O. A. Towns, Reddick, is chairman of the county contests. The only counties in the state pioneering in these tournaments are Kankakee, Champaign and LaSalle. The music competition includes instrumental, solos, quartets, choruses, etc.

Telephones for the Blind

The city of Paris has special telephones for the blind subscribers which are proving satisfactory. As France has a great number of blind ex-veterans the telephone service perfected an instrument with the Braille system which has been placed in the veterans' hospitals and also in the homes of blinded soldiers.

CURB REVIEW

By CARL JOHN L. COOLEY
(Associated Press Financial Writer)

New York, May 5.—(AP)—The curb market regained its balance today as the liquidating movement of last Friday and Saturday lost its force. Prices fluctuated erratically, however. Trading was in large volume and the ticker was about 45 minutes behind the floor by early afternoon.

The initial transactions saw losses of 1 to 2 points in numerous leaders. Electric Bond and Share opening 1¾ lower at 94¾, recovered part of its loss and then broke well below 94. Before it met resistance and worked upward again. American Superpower had turned a small fraction decline into a net gain of more than a point as the market went into the afternoon hours. Cities Service, met prompt support and was marked up a point or so. Niagara Hudson Power firmed after early weakness. Such shares as United Light, United Gas and Middle West Utilities also hardened.

Oil stocks were mixed. Gulf made an early advance of two points and Humble and Missouri Kansas Pipe of one. Cosden, Houston and the Standards were steady around the Saturday close. U. S. Dairy B sagged about 2 points. Investment company stocks displayed heaviness, but participated in the rallies.

Conditions in the money market remained favorable. Call loans renewed at 3½ and then dropped half of one percent to the accompaniment of reports that 2½ per cent money might reappear in view of the slow demand for funds. Time accommodations again eased.

Renewing Spark Plugs Is Actual Economy

Champion Chief Engineer Tells Why Company Advocates National Change Week

By C. [illegible] Engineer, Champion Spark Plug Co.

Despite the improved construction of spark plugs in recent years, the strain imposed on them by modern high compression engines is more severe than automotive experts will admit, at least once a year, actually saves advice motorists to thoroughly clean and more than their cost in gasoline and new sets of plugs at least once a oil consumption, besides increasing year. May 5 to 11 has been selected its enjoyment of his car's improved as Champion National Change Week performance and saving repairs for 1930.

caused by deterioration of his engine

Almost every automobile owner knows how much a thorough cleaning of his spark plug adds to satisfactory operation. Motorists who spark plugs must fire its charge have tried annual replacement of with sufficient intensity to produce their entire set have learned that a definite increase in power. Many results in even greater difference in performance.

Millions of motor car owners have proved that changing spark plugs annually as a routine matter is good engine economy as periodical wear in from May 5 to 11 the cost of these new spark plugs is more than overcome by the savings in oil and gasoline alone.

Thousands of tests by Champion engineers have proved that the average motor car who changes spark plugs after 10,000 miles of driving, or at least once a year, actually saves more than their cost in gasoline and oil consumption, besides increasing performance and saving repairs caused by deterioration of his engine.

Few mechanisms rival the spark plug in the strains imposed on it. Every time a charge of gas is exploded in the engine cylinder more than the temperature of a thousand times as hot as boiling water, and the pressure of a thousand pounds per square

Hundreds Homeless And Fire Damage On Eastern Seaboard Is Very Heavy

New York, May 5.—(AP)—Hundreds were homeless today and scores of communities contend losses mounting into millions of dollars as the result of fires in eastern seaboard states.

The most disastrous fire destroyed the southeastern section of Nashua, N. H., where more than 500 persons were made homeless when flames consumed more than 225 houses, two churches, a school and four large industrial plants yesterday. Estimates of the loss ran from $2,500,000 up.

New York was encircled by brush fires.

On Staten Island brush fires destroyed 82 summer bungalows, damaged 200 others and threatened a colony of 3,500 cottages until 20 fire companies, ferried over from Manhattan, brought the flames under control.

An area 100 miles square on Long Island was dotted with brush and grass fires which spread a cloud of smoke over the island that blotted out the sunlight.

In southern New Jersey brush fires swept through thousands of acres and destroyed more than a score of buildings.

At Forked river 19 homes and the Presbyterian church were destroyed.

Part of the village of Bassville was destroyed in a fire which burned a 12-mile path from Smithburg to Lakehurst. The naval station at Lakehurst was not damaged.

In the vicinity of Worcester, Mass., a score of forest and brush fires defied the efforts of firemen, state troopers and volunteers.

A force of 100 men extinguished a forest fire between Glens Falls and Saratoga Springs, N. Y., after it had damaged several farm buildings and burned over 3,500 acres.

A serious fire raged over Mt. Riga between Millerton, N. Y., and Sharon, Conn., threatening to denude the mountain of woods.

Valuable timber was destroyed in a fire which burned over a large area three miles south of Millsboro, Pa.

Several houses and mills were destroyed in a forest fire within a few miles of Richmond, Va.

The town of Hope Valley, R. I., was threatened by a fire which burned along a 10-mile front through the woods in the southern part of the state.

Nashua, N. H., May 5.—(AP)—More than 225 homes were in ruins today from a Sunday conflagration. Seven hundred persons were homeless. Estimates of the loss run from $2,500,000 up.

An area, three miles in length, from the Nashua river to the Nashua Country club, was fanned by the flames. Two churches, a convent, a school, four large industrial plants and a shoddy settled Crown Hill residential district were destroyed.

The fire started early yesterday afternoon on a Boston and Maine wooden railroad bridge and was borne by a 40-miles-an-hour gale through the city. The flames burned themselves out late last night. The principal business section was not in their path.

Firemen from a dozen cities and towns brought apparatus to the city.

Several companies of National Guardsmen patrolled the stricken area today.

The homeless gathered at the Armory and the Red Cross provided food and bedding.

Mayor William Sullivan estimated the loss at between $2,500,000 and $3,000,000 and city engineer Fred L. Clark said that between 225 and 250 homes and buildings were burned.

"Pilgrims' Plain People"

The librarian of the Peabody institute says: "The records of the Mayflower conquest are silent as to the place of origin of most of the immigrants, and, in fact, I have found but one in which a definite place name is given. It would appear that nearly all of the immigrants were plain people, i. e., artisans, who would be unlikely to have left estates."

Michigan's Iron-Mining Area

The iron mines of Michigan are in the Upper Peninsula, near the shores of Lake Superior and near the Menominee river, particularly in Marquette, Baraga, Gogebic, Ontonagon, Iron, Dickinson and Menominee counties. Some of the chief mining towns are Iron Mountain, Ishpeming, Negaunee, Crystal Falls, Bessemer, Iron River, Ironwood, Michigamme, Republic etc.

Christmas Clubs

The first Christmas club that operated in any banking institution in the United States was installed in the Carlisle Trust company of Carlisle, Pa., by Merkle Landis, treasurer of that company. Shortly afterward an organization was formed, with headquarters in Harrisburg, Pa., known as the Landis Christmas Savings Club company, which was consolidated with the Christmas club, National Bank service corporation.

Breaks Glider Mark

Exceeding all the official and unofficial world records for glider endurance flights, Jack Barstow, 24-year-old glider pilot of San Diego, Cal., remained aloft over Loma Point, Cal., for 15 hours and 13 minutes. As there was no official record made of his flight, Barstow may not be credited with the new world mark.

YOUR PERMANENT DECISION

Dear ladies of Kankakee and nearby towns and country, a mighty economic trend has swept America. Do not spend money for a permanent wave as you would for a dress. It not satisfactory you cannot change it as you can the dress. You already had permanent waves each year and surely have realized that it is wasted expense to invest in a permanent wave. A weekly visit to the shop where curls is necessary. You are again charged for a finger wave or water wave. Adding time to and from shop you are continuously spending time and money. Pearl Meadow Shannon has kept in advance of this economic trend, perfecting her work whereby no combs or finger waving is necessary. Your first cost is final. My waves carry a binding guarantee. Mass production in waving hair shall never cause me to lose firmness in my desire to please. Soft water shampoo and set included and wave complete in 2½ hours. Your emancipation for a perfect wave—avoid raving.

DOROTHY JORDAN and RAMON NOVARRO in "DEVIL-MAY-CARE"

At the MAJESTIC Now

THEATRES

Where to Go Tonight

Majestic—Devil May Care—Ramon Novarro, the screen star with the operatic voice in his first all-talking and singing picture with Marion Harris and Dorothy Jordan.

Luna—Those Who Dance—All-talking-Movietone picture with William Boyd, Betty Compson and many others.

Majestic—Devil May Care. Ramon Novarro's first all-talking musical romance with a score by Herbert Stothart and lyrics by Clifford Grey, and elaborate technicolor sequence opened at the Majestic theatre this afternoon.

The picture adapted to the screen by Richard Schayer from the French drama "La Bataille Des Dames" is laid in the historic period of Napoleon's reign and concerns the adventures of one Armand, played by Mr. Novarro, who is a lieutenant of the Imperial emperor. He has an exciting time keeping out of the hands of the Royalists, and at the same time, falls in love with the most beautiful feminine members of the group.

The songs in Devil May Care are unusually beautiful, having a semi-classical air but a catchy swing. It is predicted that "Charming," the principal song will be one of the most popular numbers of the year. The supporting cast includes Dorothy Jordan, Marion Harris, John Miljan, William Humphrey, George Davis and Clifford Dunstan.

Luna—Those Who Dance"

Monte Blue, Lila Lee, Betty Compson and William Boyd, the all-star quartette of talent that heads the cast of "Those Who Dance" the all-talking picture which opened a three day engagement at the Luna this afternoon, are all noted separately for crook roles.

Not one of them, however, ever played a part remotely similar to one or the portrays in "Those Who Dance." William Beaudine who directed this novel and powerful crook tale so that in his selection of the cast.

Blue has a punchy role as a policeman who disguises himself to pose as a gangster "Mollie" sweetheart in order to play a desperate game for big stakes, a game in which his life is forfeit. Miss Lee is a waterfront dive keeper under the compulsion of unfortunate circumstances.

Boyd the famous stage actor and Broadway favorite, has an especially sinister villain and Betty Compson, lovely girl. As many crook characterizations as even Miss Compson has played her role in this picture is entirely different from the category of any in which she has appeared before.

Secession Not Threatened

Speaking of the assertion that the New England states threatened secession during the War of 1812, Andrew McLaughlin says: "It was commonly supposed that if the Hartford convention would post a Boston guard on Bunker Hill it simply closed up its transactions, and proposed amendments to the Constitution which neither a majority of the states against unWestern feeling.

Chic Sale Explains Business Conditions

PHILADELPHIA, PENNA.

Even if he is an engineer Hoover is mighty, mighty impractical at times. You take Coolidge. Instead of making speeches about business conditions; he would just get a postal card one that was furnished him free or at least at cost, and write on it: "Business better. Hope you are the same."

But you take Hoover. His newest speech on business conditions is over three newspaper columns long. Why Coolidge could tell many words to a magazine at a dollar each and then he never would be bothered about business conditions again.

Hoover's speech was mighty pretty but I know you business fellers ain't going to ignore your golf too long enough to read it. So I'll tell you just about what he said. "Well sir, says Hoover, this country is standin' on the brink of new prosperity. Everybody get together now and push.

SLAYS SON-IN-LAW OF BUT A FEW DAYS

Rockford, Ill., May 5—(AP)—The five-day honeymoon of Gordon L. Saaf, 24 was ended yesteday. He was shot and killed and his father-in-law, John Pokosa, police said, confessed the crime.

Saaf married 21-year-old Estelle Pokosa last Tuesday. Her father opposed the match, so the couple elopde to Oregon, Ill. Four days were spent in Chicago and yesterday, the couple returned to Rockford and went to the Pokosa home to affect a reconciliation.

Police said the father opposed the marriage because his daughter was a Catholic and Saaf a Protestant.

Mrs. Saaf told police that when they reached her father's home, she left her husband in the living room with the fatheh and went into a bedroom to rest. She was aroused, she said, by two shots. Running into the hallway, she saw her father dragging her husband's body in from the porch. She jumped from a window, she said an notified neighbors, who called the police.

Saaf's body was found in the hallway, two bullet wounds in the back; a revolver was found in a chair, nearby.

Several hours later, Pokosa was picked up walking near his home. He was questioned and admitted the shooting, police said, but declared he only "shot to scare" Saff.

It was expected that the April grand jury would be reconvened to hear the charges against Pokosa.

Saaf operated a radio shop here. Pokosa is a tailor who was divorced by his wife two weeks ago on grounds of cruelty.

SOUGHT TO EXPLAIN TO WIFE BUT TOO LATE

Chicago, May 5— (AP) —Unnatural death has been the fate of Boris Polen's two wives.

The first Mrs. Polen went down when the excursion boat Favorite tipped over in Lake Michigan in 1927. The second swallowed poison yesterday.

Since the first tragedy, Polen has had many moments of depression, for he lost not only his wife but his young daughter. Even since his second marriage these moments have occurred, and on such occasions he seeks solitude, remaining away from home several hours so as not to let the second Mrs. Polen suffer because of his grief.

Yesterday, such a mood overcame him. He left home and walked for many hours. Returning, he was asked by his wife where he had been. He answered curtly, and retiredo.

Later, awakening, he regretted the harshness of his reply, and went to his wife's room to tell her he was sorry. It was too late. She was dead.

YOUNG AVIATRIX OFF ON FLIGHT OF 22,000 MILES

Croydon, England, May 5—(AP)—Amy Johnson, 23 year old English aviatrix, whose longest flight has been only 299 mils, started at 8:40 a. m. today in a tiny Moth plane on a lone flight of 22,000 miles to Australia and return.

Her plane is named the "Jason" after the Grecian hero who sought the Golden Fleece. In it the golden-haired Miss, who is a member of the London Aeroplane club, hopes to best the record of Bert Hinkler, who flew to Australia in fifteen days.

Her plane carries no radio.

Gossip as Flattery

According to Richard Le Gallienne, who wrote on the fascinating subject, it is an exceedingly flattering thing to be chosen as a subject of gossip, and one of the most gratifying forms of success. For, says Le Gallienne: "Gossip neither means that you are very great nor very beautiful, nor even very bad; all that it means is that you are very—interesting."

Patriots Honored

An interesting historical stamp issued by Brazil in 1900 to celebrate the Pan-American congress had on it six portraits of men who had struggled for the liberty of their countries, Washington being one of them.

FOREIGN RELATIONS COMMITTEE TO TAKE UP THE NAVAL PACT

Washington, May 5 — (AP) — The senate foreign relations committee will begin its study of the London naval treaty on Wednesday and after Secretary Stimson has had an opportunity to explain the pact to the group, the naval committee will initiate its hearings.

Chairman Hale of the latter committee, had planned to begin hearings today with Secretary Adams as the first witness but decided to postpone the session because he felt that Stimson, as head of the American delegation, should be first in giving the senate his views on the treaty.

The foreign relations committee has not yet decided as to what witnesses will be called, leaving that for its meeting Wednesday. Two of the American delegates, Senators Reed, Republican, Pennsylvania, and Robinson, Democrat, Arkansas, are members of the committee.

As soon as the foreign relations committee acts on the treaty, it is to be brought before the senate. The belief is current in the senate that the committee can complete its consideration of the treaty in two weeks and that the senate will require approximately [illegible] period of time to reach a vote on ratification.

She's through in a jiffy!

Her housework is done in almost no time. When her friends ask, "Does a telephone in the kitchen *really* help," she tells them, "Of course it does. Friends call me when I'm in the kitchen but it only takes a minute to answer. I order my groceries and other supplies from the kitchen telephone . . . it saves my time and steps."

Extension telephones, wisely placed in your home, will save lots of your time and innumerable steps. When you attend to your household tasks in the kitchen, it's a real convenience to have a telephone at hand. You never waste time and energy running elsewhere to use your telephone. The cost of this additional comfort is small.

SONG BOOK FREE!

This Song Book contains 80 favorite melodies. A copy will be presented to every contestant whether or not he or she wins a cash prize.

Follow These Simple Rules

1.—Everyone is eligible to participate in the "Old and New Song Hits" contest except employes of the Chicago Herald and Examiner and members of their families. It does not matter where you live.

2.—Every week day for 42 consecutive days from May 5 to June 21, inclusive, the Chicago Herald and Examiner will publish a picture representing some well-known song.

3.—All that is necessary for you to do to participate in this contest is to cut out the 42 pictures and write in the names of the songs represented in the space provided.

4.—Hold all of these pictures until you have the entire 42. Then send them in to the "Old and New Song Hits" Editor, Lock Box "F," Chicago, Illinois. All entries must be postmarked not later than midnight, Monday, June 30. No entries will be returned to the sender.

5.—The Chicago Herald and Examiner will pay $5,000.00 in cash prizes in accordance with the complete prize list published herewith to the persons sending in the nearest correctly named and neatest complete sets of pictures.

6.—Entries will be accepted only in complete sets of 42 pictures. There is no limit to the number of sets any one contestant may send in, but no one contestant can win more than one prize.

7.—A committee of judges will be appointed by the Chicago Herald and Examiner. Their decisions will be final. In case of ties, a duplicate award will be paid to each tying contestant.

8.—It is not necessary to purchase the Chicago Herald and Examiner to compete in this contest. You may copy or trace pictures from the originals and submit those copies. This newspaper may be examined at any of its offices or at the public libraries without charge.

9.—Every contestant submitting an entry in the "Old and New Song Hits" contest will receive a Song Book containing 80 favorite melodies, regardless of whether he or she wins a cash prize.

"How Can You Be So Charming?"

A great story of a girl who hates a man because the man makes her love him! When he's a servant and she's a lovable little aristocrat!

The joke is, he's not really a servant! and that's why stolen meetings, moonlight romance, lovers quarrels are sweeter, more delightful!
