BRADLEY MEN WANT 10,000 POPULATION

VILLAGE BOOSTERS SEE UNUSUAL GROWTH WITHIN NEXT DECADE

Appeal Will Be Made As Ideal Location for Industries; Now Over 3,000

A drive for 10,000 population for Bradley by the end of the present ten year period was launched by J. D. Ullom, real estate broker, and other prominent residents of the community who predicted the village would reach that figure within the next decade. Arrangements for the drive were made at the office of the Ullom Real Estate company located at Wabash avenue and Broadway.

One of the features of the drive is an offer of three prizes to the three persons guessing the nearest population of the village when the federal government takes the next census in 1940. A cash award of \$100 is offered for the best guess and \$15 and \$10 is offered for the second and third best. The prizes are being posted directly by Mr. Ullom and will be paid by a committee to be named later.

The population of the village has increased nearly 1,000 during the past ten years and is now well over the 3,000 mark. With the completion of various civic improvements now under consideration, Mr. Ullom says the village will easily pass the 10,000 mark goal.

Discuss Advantages

The advantages of living in Bradley were discussed at the meeting and it was pointed out that the village is in a good position to induce numerous factories to locate there within the next few years. The community already boasts of several factories which do a nation-wide business and others are expected to locate there in the near future.

The village, Mr. Ullom says, is destined to surprise all Illinois in its growth as it represents an ideal site for factories. More factories, he said, are certain to locate there because of the fact it is close to Chicago and with the coming of more factories, more persons are sure to choose it as a location for their homes.

The details of the population drive were left to a committee which will make a complete survey of the industrial possibilities of the community and strive to induce factories to locate there. The drive will feature a series of rally meetings and an official slogan—Bradley—10,000 in 1940—will be given wide distribution.

NEW THEORY IS ADVANCED IN THE SWIFT SHOOTING

ASK JUDGE ABOUT ZUTA CHECKS

New York, Aug. 19.—(AP)—The possibility that William E. Swift, son of Louis-Bruno Swift, was shot in a struggle for possession of a pistol in the restaurant where he was said to have committed suicide Sunday night, was under investigation today by Dr. Charles Norris, chief medical examiner.

Dr. Edward B. Connelley, owner of the restaurant, and others were subpoenaed to appear at a hearing before Dr. Norris in the Municipal building this afternoon at which the medical examiner hopes to clear up all facts in connection with Swift's death.

Shortly before the body was taken to Chicago in charge of Alden Swift, a brother, yesterday, Dr. Norris performed a second and more complete autopsy. Later he expressed surprise that the examination had failed to reveal traces of alcohol. When Swift's death was reported, police said they had been told he had suffered from alcoholism.

A section of the report of Dr. Robert C. Fisher, an assistant medical examiner who had charge of the case, caused Dr. Norris to believe that some facts concerning the death had not been fully explained. This sentence was:

"While the body was being removed from the restaurant, a man named Swift, 38, called Connelley, the male nurse who was with Swift at the time of his death, is quoted by police as having reported that Swift shot himself with his pistol, drew from under his covers while Heintzmann was sitting in a chair nearby."

HE FIGURES OUT THE DEFICIENCY IN U. S. RAINFALL

Washington, Aug. 19.—(AP)—Illinois has lost about 9,000,000 bushels of corn because of drought, according to a report of the U. S. Weather Bureau.

For all the states, the deficit of the crop is 10,000,000 bushels, the bureau said. The deficit for Illinois alone is 9,000,000 bushels, or 10 percent of the normal crop.

An inch of rain over an acre of ground totals 360,000 bushels of corn. The deficit for Illinois alone is 9,000,000 bushels, or 10 percent of the normal crop.

CHICHESTER'S PILLS

Various methods are used for preserving eggs, such materials as bran, salt, oil, lard, paraffin, wax, etc., are used. These materials are not only harmful to the health of the person who takes them, but they also destroy the vitality of the eggs. Chichester's Pills are a safe and reliable method of preserving eggs.

PERMIT CONDEMNED MURDERERS TO END THEIR OWN LIVES

London, Aug. 19.—(AP)—George Bernard Shaw today characterized the permit to end the lives of condemned murderers as a "gloomy dean's suggestion of yesterday" that it might be a good thing to permit condemned murderers to commit suicide. Their opportunities for self-destruction should, in fact, be facilitated, the Irish writer and commentator declared.

"Every condemned man," said the dramatist without flicking an eyelash, "should have a collection of poisons and chemicals put in his way and if he chooses to use them,—he left the sentence suggestively unfinished, but went on: "I think a condemned man should be told that on a certain day he would be hanged and if by that day he was not dead, having been provided with every possible convenience for committing suicide, he would have to suffer execution."

Shaw declared that he always felt deeply obliged to a condemned killer who committed suicide, "because he saves a great deal of trouble and expense."

Among those from here that were Kankakee callers Friday were Mr. and Mrs. Eileen Swanson and children, Mr. Dan H. O'Connor, Mrs. Anna Cavender and family, Mr. and Mrs. Ed Offerman and children, Mr. and Mrs. Thomas Sheehan and family, Mrs. Hattie Sheehan and family, Mr. and Mrs. Martin Devine and children, Miss Marie O'Connor, Mr. Donald O'Connor, Mrs. Frank Lang, Miss Alice Offerman, Mr. and Mrs. Isidore Miller, Mrs. Gar Donovan.

Miss Helen Casey daughter of Mr. and Mrs. John Casey underwent an operation at St. Mary's hospital Thursday for removal of her tonsils and returned home Friday feeling as well as could be expected.

Mr. and Mrs. Earl O'Connor and children of Detroit, Mich., are visiting relatives in Kankakee this vicinity for a few days.

Miss Frances Devine spent Sunday with home folks.

Rev. Father Granger motored to Kankakee Friday morning where he said the 10 o'clock mass at St. Rose church.

Mrs. Thomas Sheehan spent the week end in Chicago with relatives.

Miss Evelyn O'Connor spent Sunday with her parents Mr. and Mrs. Thomas O'Connor.

Miss Evedene Rose is visiting relatives in Bradley and Kankakee the past week.

We had a nice rain Sunday which was welcomed by all. It will be a great help for the late gardens and pastures and also help out the corn some.

BATTLE FOR CONTROL OF CONGRESS ON

Washington, Aug. 19.—(AP)—The battle for control of congress was on in earnest today with leading spokesmen of the Republican and Democratic parties recording their views on the general issues on which the contests are to be decided at the November elections.

Joett Shouse, chairman of the Democratic National Executive committee, placed the democratic side before the country in a radio address last night, in which the administration was charged with errors both of omission and commission. An immediate defense and counterattack was issued in a statement to the press by John Q. Tilson of Connecticut, republican floor leader in the house of representatives. Robert H. Lucas, executive director of the republican national committee already was on record with condemnation of the democratic position.

Shouse's attack centered on the tariff bill, farm relief and business depression. President Hoover, in his speech, was made to share responsibility with congress for the form taken by the tariff bill. He was sing-

led out also for individual criticism in connection with the farm relief legislation adopted and for failure to check in advance the depression which set in last fall.

Tilson termed the democratic speech "An amazing collection of half truths, misstatements, abuse and criticism."

Shouse, said Tilson, "failed to suggest a cure for a single thing which he criticized. Instead of offering a constructive program as his listeners had every right to expect him to do at this time, he presented the regrettable spectacle of the at least cerebral leader of a political party literally gloating over the economic distress of the country."

The democratic leader asserted the people of the country "are asking to a political overthrow that may assure the proportions of a cataclysm."

Tilson replied that overthrow of the republican party would be a "cataclysm" because the party had a definite well considered administrative and legislative program which it is carrying forward to completion despite the determined obstructive tactics of the democrats.

Pointing to Shouse's assertion that the democrats would endeavor to "speak to the people's cries of desperation" for relief from present conditions, Tilson challenged the opposition leaders to show how they would endeavor to respond.

"Will a sympathetic and understanding ear cure the ills of which Mr. Shouse complains," he asked, "if so, how?"

"These are pertinent questions to which the voters certainly have the right to an answer in this campaign."

BAIANCE POINT OF POPULATION IN UNITED STATES

Washington, Aug. 19.—(AP)—A prophecy made 58 years ago concerning the spot at which the 1930 center of population of the United States would be found was pointed to today by Clarence E. Batschelet, census geographer, as the most accurate estimate available at this state of the computations.

Undertaking on the basis of announced returns for the entire country, to trace the movement of that mythical balance point from its 1920 resting place, Batschelet said at this point of the calculations he could not improve on the old figure.

In 1872, he said, a brilliant but little known mathematician, Julius Erasmus Hilgard, estimated the center of population would cling close to the thirty-ninth parallel of latitude, and would move 126 miles westward between 1870 and 1900 and add 88 miles between 1900 and 1930.

Hilgard further prophesied that this hypothetical point will be about 30 miles east of St. Louis in the year 2000. This, he forecast, would be just about its ultimate and the country could thereafter be depended on to maintain an approximation of equilibrium, with St. Louis as pivotal point.

In the 1872 population prophecy, published in Scribner's Monthly, Hilgard made the first reliable computation of the center of population of the United States. The census bureau followed two years later with official computations for all census years up to that time and each succeeding census has been tabulated as to population center with scientific accuracy.

The actual distance moved from 1900 to 1920 was 49 miles, leaving 31 to go in the present census bureau calculations. Until complete check is made, the bureau expects are content to let this estimate stand as probably within a few miles, possibly five or six, of correctness.

OTHERS HAD DEALINGS WITH SLAIN GANGSTER

Chicago, Aug. 19.—(AP)—William O. Freeman, furloughed Chicago police lieutenant now serving a chief of police in Evanston, was added today to the list of persons in official life who have accepted financial aid from the murdered gang lord, Jack Zuta.

A letter on Evanston police department stationery and signed "Bill Freeman" was found in the Zuta strong box by the state's attorney and was acknowledged by Chief Freeman as his own late last night. The letter asked Zuta for the loan of "four C's"—\$400.

Chief Freeman told the investigators last night that Zuta had made him the loan and that it had never been repaid.

"Once I phoned him that I had \$175 to pay back on the loan," Chief Freeman said, "and Zuta said he would call me back. But he never did."

The Zuta strong box, with its carefully kept record of transactions involving the names of politicians, policemen and gangsters, today had become an erratic volcano, with none knowing when or how violently it might erupt—or who might be scarred by the lava of its suspicions.

Previous to the revelation of the Zuta-Freeman transaction, the state's attorney's office has disclosed papers involving the names of Judge Joseph W. Schulman, of Municipal court, Emanuel Eller, former judge of the municipal superior and criminal courts, Richard J. Williams, sergeant of police, George Van Lent, former state senator, and Louis I. Fisher, attorney for various dog track interests.

John Craig, city editor of the Chicago Daily News, was questioned last night concerning a check for \$50 signed by him and made payable to "cash." The check was found in the Zuta papers. Craig explained that Zuta had offered to cash the check at a time when both were present at the Liberty Inn, Ashland avenue and West Madison street. Later, Craig said, he asked Zuta why the check never had been presented for payment, and Zuta said he had torn it up. Craig said he then handed Zuta \$50 in cash.

She has, however, been regarded as dry.

The Cook county (Chicago) Republican committee, under the leadership of its chairman, Bernard Snow, has championed the wet-dry issue and has filed with the secretary of state petitions calling for a referendum on the liquor question. The Snow-Thompson-Galpin faction supported Mrs. McCormick in her fight against Deneen.

Cook county Republicans, it was pointed out, needed the referendum to pull through their county ticket. While Mrs. McCormick's anti-world court platform was effective against Deneen, county leaders argued, it could be useless against Lewis, as the democratic candidate, too, has declared against American entrance into the world court.

Downstate delegates, however, will control the Republican convention and downstate leaders, including Gov. Louis I. Emmerson, have not disclosed what stand they will take on the prohibition question.

Cook county Democrats control their party's convention and this, leaders agreed, means an anti-prohibition plank.

Recalling Lewis' stand while in the senate, Democratic banners have made their appearance, reading:

DELEGATES LEAVE FOR CAMP SEYMOUR

The boys who are to be delegates from the Kankakee Hi-Y club of the Kankakee Y. M. C. A. left this morning for the Older Boys Leadership Training Period at Camp Seymour.

The cars rolled away from the Y building at 7 o'clock in time to reach Decatur for the first meal. People who so generously are furnishing transportation for the boys are Mrs. L. C. Poyer, Mr. P. O. Rueckert and Mr. Fred Burkett. Through their splendid spirit and interest in the movement a fine means of transportation is provided.

The boys in the group are led by Harleigh B. Trecker of the Y. M. C. A. staff, and will occupy one complete cabin for this period of training and development. Those

who are making the trip and will enjoy the period, are Francis Michels, Joe Green, Edward Johnson, Fritz Rueckert, Dorman Poyer, Dick Ennis, Dick Burger and Joe Spielberger. This period extends from today, August 19 to August 29. It is the first time in the history of the local Hi-Y that such a project has been carried out, and it is indeed a record for the local Y to have a full cabin at Seymour, for very few Y's in the state have accomplished this.

Because of the local interest that has been shown in this trip, arrangements have been made with this paper to print a daily column on "Kankakee at Seymour." The writeups will be sent back daily, the first one appearing tomorrow night. In these little accounts, the folks back home will be told what the boys are doing the high points in the meetings, and all interesting happenings.

In preparation for their camping experience, this group has held two meetings to discuss the purpose of the trip, and the spirit of Seymour. At the meeting last evening, the boys organized themselves into a form of Hi-Y club and elected fellows to act as a council of officers with Harleigh Trecker, the leading boys are Francis Michels and Fritz Rueckert, who will be a part of the cabin management.
