Benton, Ill., Aug. 28.—(P)—The temporary restraining order which enjoined Harry Fishwick, Adolph Germer, John E. Walker and other officials of the reorganized United Mine Workers of America from attempting to usurp the powers and functions of the parent organization, will be heard in the troquois county circuit court at Watseka, Ill. Decision to hear the injunction suit in the purely agricultural community was regarded as a victory for the Fishwick group. Judges from the mining territory would not preside at the hearing after a change of venue had been granted from Judges Kern, Miller and Pearce of the second judicial circuit.

Judge Kern granted the original temporary order at request of some of the thousand miners of this county. Counsel for the Fishwick group includes Floyd E. Thompson, Springfield, A. C. Lewis, Chicago; Joseph Lindgren, Springfield, and Roy C. Martin, Benton. Attorneys for the miners are Moses Pulverman, Benton; Charles Feinich, Carbondale, and Edmund Burke, Springfield.

SUPREME COURT ASKED TO RULE ON PROHIBITION

Washington, Aug. 28.—(P)—The Supreme Court was asked today to rule on how far federal prohibition agents lawfully can go in halting automobiles without a search warrant to look for illicit liquor.

Near Sturgis, Mich., last February, Edwin C. Kudy and Byron Langley were stopped by two warrantless federal agents. They were convicted of violating the prohibition law, but the lower federal courts refused to take that view and declined to prohibit the use of the seized liquor as evidence.

Asserting the action was illegal, the two men insisted they were being deprived of their constitutional rights. The federal circuit court of appeals sustained the stopping of the automobile, and declared that the agents had received information which warranted their action, as was disclosed by sagging automobile springs and the 192 quarts of liquor found in the car.

HOMEcoming CROWD AT HERSCHER SETS ALL - TIME RECORD

Several thousand visitors the largest number in the history of the village, attended the annual homecoming celebration held at Herscher yesterday. There was entertainment all day and evening of a varied nature.

The plowing match for farmers was won by Charles Schultz, living southeast of the village. There were 20 farmers who competed in the event. Schultz plowed a field of an acre and a half using a Deering tractor. There was also a contest for implement manufacture.

In the afternoon a baseball game was played between the Herscher-Kempton team and the Kankakee All-Stars. The Chatsworth band furnished several concerts throughout the day and special numbers were presented by the girls of the Herscher high school.

The outstanding events in the evening were a drill by the famous Kankakee American Legion drum and bugle corps and a public dance. Professional entertainment was furnished by eight vaudeville stars from the Radio Keith Orpheum circuit. Meals were served by the ladies of the Buckingham M. E. church. There were a number of fine mercantile exhibits.

UNCLE BOB OF K Y W COMES TO KANKAKEE

TELLS ROTARY CLUB OF
SAFETY PROGRAMS AMONG
THE CHILDREN

A RADIO PIONEER

Also Gives Radio Address This
Evening About His Visit
Here Today

The man who has done more to spread sunshine and happiness into the lives of thousands of American homes than any other single individual in this era, Walter Wilson, universally known as "Uncle Bob" of Station KYW, Chicago, was the speaker at today's meeting of the Rotary Club in the Gold room of the Hotel Kankakee.

"Uncle Bob" gave a history of his radio career, stating that up until 1923 he was employed by the S. S. Kresge company and also by a music publishing house. He started singing on the radio without any financial remuneration. In March of 1922 he accepted the regular position vacated by Bob Campbell at KYW on Jan. 25, 1923. Radio at that time was in its infancy and only ten minutes a day was allotted for the children's program. This was later increased to 20 minutes and now 30 minutes.

Now 482,000

"Uncle Bob's" famous safety club for children was organized in October of 1923, the organizer setting a goal of 100,000 members which was reached the first year. It soon reached 200,000 and on Aug. 1st of this year there were 482,000—nearly half a million—boys and girls of America enrolled in the safety club. The suggestion for the "club" is the "limit" organization came from a radio listener at Milwaukee and the club received its greatest impetus in Wisconsin cities.

"Uncle Bob" receives on an average of 800 letters a day from children. The record day was 2,021. He has refused an offer of \$20,000 for the membership list of the safety club which was organized for the protection of kiddies and in which Mr. Wilson derives his greatest pleasure in life. He receives no salary whatever from Station KYW for his noble work.

Reads Letters

The famous radio entertainer, who has visited Kankakee upon numerous occasions and who has a very extensive circle of personal friends here, read excerpts of letters from his young listeners which were highly amusing and entertaining. He also sang the songs for which the kiddies listen every night and concluded with his admonition to the Rotarians: "Good night, sleep tight and don't let the little bugs bite."

On his 5:30 o'clock program this evening, "Uncle Bob" told his radio audience all about Kankakee and the people he saw here today. He was introduced at the meeting by C. B. Davidson, the program chairman.

LOCAL GIRL BREAKS TOM THUMB RECORD

By BENNY

Just a few nights ago it was announced by the B and B Amusement company that Mrs. Woods of New York City broke the Tom Thumb record for ladies when she turned in a card of 39. Since that announcement it has been found in the records that a young one of the fair sex from Chicago shot the little playground in the same score about a month ago. This lass was Miss Adelaide Jaffe.

But no, it is time to hold your breath. Both of these girls or ladies, maybe we should say, must sit back and look up to Miss Mae Miller of Kankakee. On August 10 she played the miniature amusement grounds in the miraculous score of 38. This is a wonderful achievement and we think that this record will stand for a while, but don't put your money on it. Her card cannot be found so we are sorry that the details cannot be given to you. This score is only four strokes short of the course record held by Jack Jericho. Miss Miller frequents the course quite often and she averages 41 and 42 almost every round.

GRAPE THIEVES

Lindberghs Arrive For Air Races

Curtiss-Reynolds Airport, Chicago, Aug. 28.—(P)—Col. Charles A. Lindbergh arrived at the national air races at 3:01 p. m. today in their Lockheed Berrus monoplane.

Col. Lindbergh taxied the plane to the far southeast corner of the field where he was met by a large group of race officials. Few people knew the Lindberghs were arriving until he settled his plane on the field. He approached from the south and made a wide circle high in the west before landing. There was no disorder.

The largest crowd of the races since last Sunday was on hand to see the colonel and his famous wife.

The couple was brought across the field in an automobile escorted by several other cars and motorcycles. Employees of the airport formed a cordon about the colonel's machine to prevent the rush of the crowd. Nevertheless the crowd closed in, enveloping the machine and Lindbergh had considerable difficulty getting out.

They were taken into the grandstand. Mrs. Lindbergh was smiling, the colonel appeared tired and serious. They were seated in the box of honor in the center of the grandstand.

The Lindberghs immediately became the show, although the other events went on schedule. Several thousands of people left their seats in the grandstand and crowded the space in front of the Lindbergh's box in order to catch a glimpse of them.

This did not spoil the show for the Lindberghs, for their box was high enough for them to see over the heads of the crowd.

Mrs. Lindbergh wore her flying togs, helmet and goggles. The colonel came in hatless.

Camera men, both professional and amateur, climbed over all parts of the grandstand to photograph the couple. Radio men handed microphones to them, but they were refused. One Boy Scout sat on a railing immediately in front of Mrs. Lindbergh and took a whole row of film snapshots of her. She seemed not to mind although the camera which he pointed at her was not more than 3 feet away.

While Jimmy Doolittle was making stunts in his Doodle Bug plane about the only persons with their heads turned up skyward were Colonel Lindbergh and Mrs. Lindbergh. Nearly all other heads were turned toward them.

To relieve them of the gaze of the crowd, Colonel and Mrs. Lindbergh were taken out of the box and into the judge's coup high above the grandstand. There they could see the races without being themselves seen.

ATTEMPTING TO "MUSCLE IN" ON ST. LOUIS GANG

St. Louis, Aug. 28.—(P)—The St. Louis Post-Dispatch today says Al Capone, powerful boss of the Chicago underworld is attempting to "muscle in" on the St. Louis gang situation by offering to furnish large bail bonds and lawyers for five Sicilian gangsters now in jail in the Scorfina kidnapping case.

The paper says the report is being investigated by State Attorney Lindauer at Belleville, Ill., where the gangsters are held, and where the kidnapping occurred.

"According to reports Capone sees in the plight of the five Sicilians a potent opportunity to place them under obligation to him and thereby gain control of the extortion machinery operated here by a Sicilian gang known to the police as the Mafia," says the Post-Dispatch.

The prisoners held are Frank Agrusa, Vito Impastato, Mike Lombardo, Sora Mantia, and Baptista Bommarito. Al has been named by Sam Scorfina, grocer, as the man who seized him in East St. Louis on July 12, took him to an abandoned farm near St. Genevieve, Mo., robbed him of \$400 and held him for \$10,000 ransom.

Scorfina escaped after four days imprisonment. He now is under a police guard night and day in his St. Louis home.

Bommarito, Mantia and Lombardo are held under charges of kidnapping for ransom, a capital offense. Their bonds have been set at \$57,500 each. The cases of Agrusa and Impastato have not been submitted to the grand jury.

ROLPH WINS IN WEST

San Francisco Mayor Gets Nomination For Governor In California

Columbia, S. C., Aug. 28.—(P)—Political history repeats itself in South Carolina with Senator Cole L. Blease and James F. Byrnes, former congressmen, thrown into a run-off primary for the democratic nomination to the United States senate.

Six years ago Blease and Byrnes went into a second primary and the nomination went to the state's junior senator by slightly more than 2,000 votes. Democratic nomination in this state is equivalent to election.

Byrnes in returns from 1924 as the state's 1,528 precincts in Tuesday's balloting, had a total of 95,812 and held a commanding lead over Byrnes and Leon W. Harris, the third candidate.

Byrnes had a total of 81,272 while the 34,311 votes that went to Harris are expected to decide the nomination in the second primary. Harris, a World war veteran, conducted a vigorous campaign against Blease's record.

San Francisco, Aug. 28.—(P)—Mayor James Rolph, Jr., of San Francisco, emerged victorious in the race for the republican nomination for governor—a victory that has led to the governorship of California for every nominee of that party in the last 36 years.

The latest unofficial tabulation of Tuesday's primary vote, with only 453 scattered precincts missing out of the state's 10,283, gave Rolph 364,695; Governor C. C. Young 339,910; and Burton Pitts, district attorney of Los Angeles, 283,880. Both Young and Pitts conceded victory to Rolph and sent their congratulations.

San Francisco, Aug. 28.—(P)—The St. Louis Post-Dispatch today says Al Capone, powerful boss of the Chicago underworld is attempting to "muscle in" on the St. Louis gang situation by offering to furnish large bail bonds and lawyers for five Sicilian gangsters now in jail in the Scorfina kidnapping case.

Jewell migrated from Ohio to Iowa and joined the 27th Iowa Infantry at the outset of the Civil War. He later became a well known lawyer, farmer and stockman of Colorado. He joined the G. A. R. in 1879 and was chosen senior vice commander at the Denver encampment last year.

Jacob Secrist, Cincinnati, was elected senior vice commander to succeed Jewell.

Mrs. Margaret Grandie, Pittsburg, Kansas, was elected national president of the ladies of the G. A. R. succeeding Cora M. Rowling. She had been national champion.

MYSTERIOUS BLASTS WRECK A LAKE BOAT

Waukegan, Ill., Aug. 28.—(P)—Three mysterious explosions at ten minute intervals early today totally destroyed the "Island Queen" a \$15,000 forty-ton boat anchored in the Waukegan harbor. It was owned by Frank Recke of Chicago.

The first explosion was witnessed at 4 o'clock by a watchman on a coal boat across the bay, who reported that ten minutes later there was a second blast which almost demolished the vessel and blew away the superstructure. The third explosion was followed by a fire which burned to the water line.

The "Island Queen" was docked last night and left without a watchman. It was powered by fuel oil motors, but the explosions occurred on the opposite side from the storage tanks. Far O'Farrell, fire chief, said after an investigation.

BOOTH TARKINGTON HOSPITAL PATIENT

Baltimore, Md., Aug. 28.—(P)—Booth Tarkington, Indianapolis novelist, was a patient today at the Wilmer Eye Institute at Johns Hopkins hospital, but officials declined to confirm a report that he was seriously threatened with total blindness.

Mr. Tarkington underwent an operation in March 1929, designed to save the sight of his right eye, and the operation was described afterwards by Dr. William H. Wilmer as "a remarkable success."

Since then the novelist has come here for observation several times. In May he visited the hospital before going for the summer to Kennebunkport, Maine.

Nearly two years ago he abandoned his practice of writing manuscripts in long hand and began dictating to a secretary.

GIRL DENIES ANY KNOWLEDGE OF BANK HOLDUP

Harrisburg, Ill., Aug. 28.—(P)—Mabel Curry, held in Saline county jail here on charges of being an accomplice in the robbery of the State Bank of Omaha, at Omaha, Ill., yesterday in which Barney Caldwell, 35, was slain, today said she knew nothing of the holdup until informed by officers.

Miss Curry, whose home is in Mt. Vernon, Ind., said she thought Caldwell fled from officers because of a filing station robbery at Carmi, Ill. She said they were on their way from East St. Louis to Mt. Carmel, Ill., where Caldwell lived, when the holdup occurred.

The \$775 obtained in the robbery has not been recovered.

Caldwell, on parole from the Penitentiary, Ind., was found dead in a wooded section three miles from Omaha, where he was surrounded by a posse shortly after the bank robbery. A bullet hole between his eyes led officers to believe he shot himself.

PLAN TO EXTEND CREDIT TO FARMER IN DROUGHT AREAS

Washington, Aug. 28.—(P)—President Hoover went over the plans for extending credit to the drought stricken farmers at a White House breakfast party today and put his support behind the program.

It was agreed upon by banking representatives on various state relief committees, the major aid will be rendered by local banks and credit organizations. Steps are under way to get the machinery functioning.

The White House conferees included Senator Watson, the republican floor leader; Henry M. Robinson, of Los Angeles, chairman of the special committee of bankers which met yesterday; and Joseph R. Nutt, of Cleveland, a banker and treasurer of the republican national committee.

Watson advised against a special session of congress unless it were absolutely necessary. It was agreed no call was warranted.

Reports from the drought areas were studied. These showed again the harm wrought was confined principally to 300 widely scattered counties.

Extension of credit to the farmers and Red Cross relief to the suffering is the problem receiving immediate attention. The conferees noted that feed was being sent into the drought areas for cattle and that cattle were being moved when necessary to places where feed is available.

There are no immediate plans for legislation to meet the drought emergency and it is understood at the capitol that national and state authorities hope to counter the problem without any legislation.

Magnesium Long Known
Magnesium metal has been known to science 100 years. Though known in 122 years it appeared in its pure form only a century ago and has been available commercially since more than 65 years, says Dr. John A. Gann, metallurgist, in a report to the American Chemical Society on the development of the magnesium industry.

Since the date of its discovery it has been found that the metal is about seventy times as plentiful as nickel and 200 times as abundant as copper. Magnesium salts are also found in natural deposits in the form of brines. The important raw materials for magnesium production in the United States at the present time is Michigan salt brines.

"BACK SEAT DRIVING" is not a jest. Too often it is the direct cause of serious accident. Instructions from the back seat are intended to be helpful — and occasionally they are, especially if the driver is negligent. But in most cases back seat driving only confuses the one at the wheel.

Other occupants of the car seldom see things as the driver sees them. He knows the speed, power and pickup of his car, as well as the action of the brakes. In an emergency, therefore, his judgment is superior to that of the one who excitedly issues instructions from the back seat. Emergencies require cool heads, strong hearts — and tight lips. DON'T BE A BACK SEAT DRIVER.

AGED RECLUSE

MAY HAVE BEEN
CONVICTED SLAYER

Superior, Nebraska, Aug. 28.—(AP)—The possibility that Frank Johnson, aged recluse farmer, who died here in 1927, may have been Columbus Hayes, convicted murderer who escaped from a St. Joseph, Mo., jail in 1900 after having been sentenced to hang, has been suggested to authorities here by persons claiming to be relatives of Hayes.

Mrs. Alice Pauline, California, who said she came here two weeks ago on a secret visit to "Johnson," has advised officials he was her uncle and his real name was Hayes, the escaped murderer.

She brought with her pictures of Hayes which were readily identified by old residents here as a likeness of Johnson when he first settled near here in 1885. Johnson was always a man of mystery to local residents.

Mrs. Pauline said relatives have decided to reveal Johnson's true identity in order that they may legally claim the \$20,000 estate which he acquired here.

MEN WANTED FOR
BOMBING SURRENDER

Murphysboro, Ill., Aug. 28.—(AP)—Ray Edmondson and Ed Hecklebeck, two Zeigler Illinois miners sought for nearly two weeks as key men in connection with the bombing by airplane of the Providence, Ky., coal fields, surrendered to Murphysboro authorities shortly before noon today states attorney Fletcher Lewis announced.

States Attorney Lewis said that Paul Montgomery confessed pilot of the bombing plane identified the two men as the two with whom he had a conference in DuQuoin shortly before the raid at which time plans were made as to the hour they would leave the Murphysboro Airport to fly to Providence to drop the bombs. Montgomery also said according to Lewis that it was at this conference that arrangements were made to obtain the explosives with which to make the bombs.

Both Edmondson and Hecklebeck were placed under \$5,000 bond here and taken immediately to Benton in the custody of a deputy U. S. marshal to answer to federal charges there.

States Attorney Lewis said that District Attorney Harold Baker of East St. Louis intimated that an effort would be made to try both of the Zeigler miners. Paul Montgomery, Murphysboro aviator, and James "Spoke" Malone DuQuoin aviator who is also said to be linked with the bombing on federal charges providing it proved satisfactory to Murphysboro authorities.

Montgomery and Malone are being held in the county jail at Murphysboro.

According to States Attorney Lewis, Malone acted as a go-between for Montgomery and the investigators of the air raid. Lewis said that Malone also identified the two Zeigler men as being connected with the plot.

Murphysboro officials stated that it was their opinion the two Zeigler men and Montgomery and Malone were the only Illinois men connected with the bombing of the mine properties in Kentucky. Aug. 21.

GRASS FIRE

The fire department was called to Duane avenue late yesterday afternoon to extinguish a grass fire.

Actors Without Jealousy
The performers in the Oberam circus number about 700 persons, and it is said to be the only band of its kind where there is no professional jealousy and no exhibition of artistic temperament. The actors receive only a very small sum for their efforts, the main proceeds going to charity. And as taking part in the play is looked upon as an act of natural devotion, none of the 700 rises in the slightest way to outshine the rest.
