# UNITED STATES AND RUSSIA AGREE TO CREATE A 2ND EUROPEAN FRONT

## Understanding Reached At The White House

During Recent Visit Of Soviet Foreign Commissar, Molotov

Washington, June 11—(AP)—President Roosevelt and Soviet Foreign Commissar V. M. Molotov, the White House announced today, have reached a "full understanding" in conversations in Washington "with regard to the urgent tasks of creating a second front in Europe in 1942."

The White House, in a formal statement disclosing that Molotov had visited this country, gave no additional details on a second front. Nor did the statement say whether the agreement was to open such a front or not to do so.

Another momentous development announced today, in London, was that Russia and Britain had signed a 20 year mutual assistance treaty.

The American president and the Russian commissar, the White House said, also attained a "unity" of views on two other vital questions pertaining to their war efforts:

"Measures for increasing and speeding up the supplies of planes, tanks and other kinds of war materials" from the United States to Russia, and the "fundamental problems of cooperation of the Soviet union and the United States in safeguarding peace and security to the freedom-loving peoples after the war."

"Both sides state with satisfaction," the statement declared, "the unity of their views on all these questions."

Molotov, bespectacled, 52 year old right hand man of Premier Joseph Stalin, arrived in Washington on May 29 and left on June 4. He now is safely back home, the White House said.

Secret Guest

The statement released today was approved by both Molotov and Mr. Roosevelt and withheld until the former had returned. The discussions entered into while the foreign commissar was a secret guest at the White House apparently ranged over the whole field of military and economic problems of mutual concern to the two nations.

Mr. Roosevelt, at their conclusion, asked Molotov to inform Stalin that the chief executive "feels these conversations have been most useful in establishing a basis for fruitful and closer relationship between the two

## Elks' Annual Fish Fry Will Be June 24

The annual fish fry and picnic of the Kankakee lodge of Elks will be held Wednesday, June 24 at Cooper's grove on highway 113-N. It was announced today.

Sponsored for benefit of the lodge's crippled children's fund, the picnic will be held rain or shine. Elks and their guests will be served fried fish with all the trimmings. They are welcome to eat whenever hungry and the committee in charge promises plenty of amusement all day and evening.

## Civic Band To Hold First Rehearsal This Evening

First rehearsal of the Kankakee civic band will be held at 8 o'clock this evening in Kankakee high school auditorium. It was announced today by Director George Pierol. This is in preparation for the first summer concert at 8 o'clock Sunday evening in Riverview park.

Through the cooperation of the park board, ample seating accommodations will be available and a bandstand will be provided at the park. The concert this week is being sponsored by the Kankakee County Dairy council, according to Ralph Francis, chairman of the band committee, and Fred Ziesler, treasurer.

Play For Fun

The instrumentalists are being recruited from high school bandmen and graduates as well as other local musicians and college and university students home for summer vacation.

## Subway Under Big 4 Tracks For New Road Is Approved

The Illinois commerce commission has authorized the construction of a subway under the Big Four railroad tracks on federal aid route 26, a half mile northeast of Kankakee, at a cost of \$350,000.

The subway is part of a program calling for the proposed belt route circling Kankakee on the east as a part of state highway 54.

The Illinois department of public works at Springfield said the major share of the cost will be borne by the state.

## Local Dentist Tells Of Army Life In Texas

Dr. M. L. Baker, Now A Captain, Talks To Exchange Club

Dr. Miles L. Baker, 1063 South Lincoln avenue, dental surgeon with the rank of captain at Camp Hulen, Tex., described life along the sun-baked Gulf of Mexico at the Exchange club meeting Wednesday noon in McBroom's cafe.

Capt. Baker, who arrived home Monday on furlough, is located in the former Texas National Guard camp in the center of rice and cotton plantations and adjacent to the shrimp fishing fleets.

The highest spot in the camp is only seven feet above sea level and the humidity is so high that green mold starts growing on shoes overnight, clothes are always damp and, if placed in tight closets, they become mildewed. Women must keep their spare hose sealed in fruit jars in that semi-tropical spot.

Mosquitoes, too

The camp is located near Palacios, and is about 85 miles from Corpus Christi, the huge naval air station. A large crew spends full time on mosquito control. The coldest temperature last winter was 23 degrees above zero but sent the "hothouse" natives scurrying for fur-lined apparel.

There is a constant wind from the bay except for two or three weeks in the summer. Without that breeze at night, life is almost stifling. The camp, a coast artillery anti-aircraft training center, at present has only 5,000 men but has facilities for handling many more.

It has a 500-bed hospital with 21 dental operating units and the finest dental equipment in the United States, according to Capt. Baker who is one of 17 dental officers attached to this post. There are nine medical officers.

The Fish Are Big

The men have some time for fishing. Capt. Baker told a story of a civilian who spent 17 hours playing a 500-pound jewfish in the gulf. Seven times he reeled it in for fishing off with harpoons but each

Supreme Court Denies Appeal In Case Tried Here

The Illinois supreme court has denied a petition for an appeal in the case of Campbell vs. Fred LaRoque and others, already heard by the circuit court here and the appellate court.

Pleasant Whipple Campbell of Dallas, Tex., and Charles Campbell of Indianapolis were winners in the suit against LaRoque and Frank M. Wright, both of Manteno, trustees under the will of Winfield S. Campbell, father of the plaintiffs.

The Campbells, represented by Attorney Wayne H. Dyer, asked an accounting and charged misuse of the trust. The defendants were represented by Attorney C. M. Granger and the receiver of the former Manteno bank, who was also a defendant, by Attorney Frank J. Burns.

Red Cross Training Useful In Time Of Peace, Too

While Kankakee county must prepare for efficient treatment of war-time injuries, it also needs to do its share in helping train millions to be ready to render first aid in industrial, home and farm accidents.

This was pointed out today by Max Jaffe, secretary of the county Red Cross chapter, in showing the importance of the first aid lay instructor course now being given some 24 centers of this county by Orville M. Cox and James Garahan of St. Louis, first aid field representatives of the national Red Cross, in collaboration with Dr. C. A. Perrodin, local physician.

To Teach Others

The instructors being trained now will be qualified to organize and conduct standard and advanced first aid classes in this area on completion of their courses this week-end at the Y. M. C. A.

Secretary Jaffe said that throughout the bombing raids in England, auto accidents took a greater toll

### Thousands Of Japs Perished During Flight

Enemy Armadas Belated Stories Tell Of Smashing Of Two

By ROGER D. GREENE  
Associated Press War Editor  
(Further details pages 3 and 6)

Dramatic new accounts of the battle of Midway revealed today that American flying fortresses and other U. S. forces broke up two huge Japanese fleets, beat off an attack by 180 enemy planes and saved the Hawaiian islands from invasion.

Admiral Chester W. Nimitz, commander in chief of the U. S. Pacific fleet, said perhaps half of the enemy ships were sunk or damaged in the three-day battle which saw Japan suffer her greatest naval disaster in history.

Admiral Nimitz said thousands of Japanese must have perished—left to drown by their shipmates in flight before the Americans.

The battle ended Saturday when pursuing U. S. forces lost contact with the enemy in the darkness. "A better show than the world series," jubilant crew members of one of the army's big B-17 bombers summed up the battle.

Coincidentally, Japan's reputation for victory appeared to have slumped even in Berlin as the German radio broadcast Stockholm reports discounting the Japanese boasts of victory in the battle of Midway and Tokyo hints that Japanese troops had landed in the Aleutian islands off Alaska.

American Reports Correct

The broadcast cited American viewpoints that "after the naval battle in the Coral sea and heavy losses in the attacks on Midway Island, the Japanese had lost so much of their combined military fighting power that they could not attempt a successful invasion."

At the same time, Japan's leading civilian naval expert, Masanori Ito, gave the first authoritative suggestion from Tokyo that two Japanese aircraft carriers had been sunk, as claimed by the United States. Instead of one sunk and one heavily damaged.

Two big enemy armadas approached Midway on June 3, with a train of transports striking from the west while a powerful battle squadron

### Britain And Russia Sign 20-Year Pact

Mutual Assistance Treaty Announced In London Today

By THE ASSOCIATED PRESS

On the same day that Germany invaded Russia—June 22, 1941—Britain and Russia signed a 20-year mutual assistance pact and a trade agreement last sealed the prime minister's verbal alliance.

Churchill declared that Britain "will give whatever help we can to Russia" and will appeal "to all our friends and allies" to take the same course. "Any man or state that fights against Hitler will have our aid."

It was a dramatic reversal of one of Britain's main foreign policies since the Bolshevik revolution of 1917.

Britain and Russia lost little time in reaching an agreement for on last July 13 a compact pledging joint action in the war against Germany was announced.

The London and Moscow governments pledged to neither negotiate nor conclude an armistice or a treaty of peace except by mutual agreement.

### Nun Who Taught At Momenoe Dies

Sister St. Michael, 38, the former Cecile Soule of St. Anne, died at 10:20 o'clock this morning in Champlain after an extended illness. She was a member of the Sister Servants of the Holy Heart of Mary.

Funeral services will be held at 10 o'clock Saturday morning from St. Mary church in Beaverville with burial in the community plot there.

She was born Nov. 4, 1903 in St. Anne, the daughter of David and Cornelia Beaupre Soule, and took the vows of a nun in 1922. She was assigned to Villa Marie at Momenoe for many years before going to Champlain.

Surviving are her mother who resided in Kankakee and a large number of other relatives. The body will lie in state at Holy Family academy in Beaverville for visits of friends on Friday.

### Businessmen Of Many Towns Here Friday

Seven Kankakee businessmen will participate in a panel discussion on "Solving the Wartime Problems of the Average Merchant" to be held in connection with the war problems clinic for retailers Friday afternoon and evening at the Hotel Kankakee.

The panel will be led by Kenneth Lawyer, of Springfield, chairman of the sub-committee on wholesale and retail distribution, beginning at 2:45 p. m. Local men on the panel are: Paul Branch, Elmer Underwood, Paul Strasma, L. G. Richert and Howard McCracken. Others on the panel will include Charles B. Hoffman, secretary of the Mattoon chamber of commerce, and Joe T. Meek, executive secretary of the Illinois Federation of Retail associations.

Mr. Meek will also open the program at 2 p. m. Friday with a talk on "Retailing's Battle on the Home Front."

At a dinner meeting at 6:30 p. m. Dean Charles M. Thompson of the University of Illinois college of commerce, will speak on the subject, "The Merchant Keeps His Chin Up."

Dean Thompson is chairman of the committee on Businessmen's Adjustment to Wartime Conditions, in the Illinois Council for National Defense.

Local merchants, wholesalers, manufacturers are invited, whether or not they are members of the chamber of commerce. Price control, delivery problems, credit control and priorities are among the subjects to be discussed.

Invitations have been extended to all merchants in the Kankakee area, including Manteno, Peotone, Watseka, Gilman, Onarga, Mokena, St. Anne, Reddick, Coal City, Braidwood, Wilmington and others.

### Police Uniforms Resemble Those Of Civil War

Houston, Tex., June 11.—(AP)—If Houston officers now wearing uniforms looking suspiciously like those of the Civil War during the war between the States, they can blame it on their former police chief.

The color scheme calls for powder blue trousers and darker blue shirts. They were designed by ex-Police Chief Ashworth, recently resigned. Ashworth is a product of Wichita, Kas., and Evansville, Ind.

Now to see if any Houstonian will be as rash as the legendary Philadelphian who shot the postman because he was wearing a Confederate uniform!

### Cabinet Members Honored At Harvard

Cambridge, Mass., June 11.—(UP)—Secretary of Navy Frank Knox and Secretary of War Henry L. Stimson were today honored at Harvard by being named to the War and Navy cabinets.

Stimson, who was named to the War cabinet, and Knox, who was named to the Navy cabinet, were the only members of the War and Navy cabinets to be named to the War and Navy cabinets.

We must never for a moment forget that we can win the victory and still lose the war—lose the very things which give the struggle its meaning and its purpose. Knox told Harvard University's 20th commencement.

Stimson, who with Knox received honorary degrees from the university, told the graduates that we never again must allow narrowness, selfishness or selfishness to drive away the fruits of great national effort and a great victory for freedom and for justice and for peace among the nations.

We can be successful in the past, but we can only win the future if we put into it "all the wisdom, all the courage and all the affirmative effort and perseverance of this mighty nation."

Knox said the United States can lead other nations to post-war economic security by:

1. By opening the channels of international trade to promote world prosperity without destroying our own.
2. Helping others to learn cheap mass production methods to better their standards of living.
3. Making available to other people some of our skills in invention, in production and in distribution.

The United States mistakenly has been called the "land of the dollar." Knox said that because of this, we have been called the "land of the dollar." Knox said that because of this, we have been called the "land of the dollar."

### Research May Find Hope For High Blood Pressure Cases

By LOGAN CLENDENING, M. D.  
I am in receipt of a little book, "Your Doctor Can Help You When You Have High Blood Pressure." It discusses in a helpful and scientific way such subjects as what causes high blood pressure, the symptoms of high blood pressure, and treatment. Under causes of high blood pressure, a great emphasis is put on heredity, although this operates in quite a hit and may be permanent.

One causing hypertension begins keeping from doctor to doctor, until the pressure down that will knock the pressure down, but it is doubtful if they ever get much benefit from the doctor's treatment, because even when the pressure is lowered for a while, it usually soon goes back up to its original level. The point to be remembered is that if one has high blood pressure, the essential type one is likely to have it for all one's days.

In reviewing the subject of high blood pressure recently, I found that surprisingly enough, nobody knew the incidence of high blood pressure. I mean, nobody has ever recorded how many people at the age of 50, for instance, have a blood pressure of over 160. There was plenty of work to show what the average blood pressure of a group of people at the age of 50 was, but not the incidence of hypertension.

The only information we have is the report of the insurance companies which did not represent a cross section of the entire population, but because insurance applicants obviously are people who think themselves in good health. In order to supplement this, with the help of some of my doctor friends, I gathered together about 2,000 records of people at all ages, most of whom were sick enough to consult a doctor.

We took the figure of 150-systolic blood pressure—as being the upper limit of normal. We found that over 40 per cent of people aged from 50 to 74 had a blood pressure of 150 or over. This would indicate that high blood pressure is a physiological rather than a diseased condition—simply a part of the aging process.

This would also indicate that drastic measures to reduce blood pressure are not likely to have much success. The treatment recommended in this little book consists of general measures for reducing the pressure of life, particularly getting plenty of rest and plenty of sleep. The diet recommended is liberal, in-

cluding everything from meat to starches. Drugs are not advised except in special cases.

**Future Prospects**  
The last paragraph is called "Is There Any Hope on the Horizon for Persons with Hypertension?" The belief is expressed that from the amount of research work which is now being done, in the near future some method will be found effective in lowering pressure and preventing the high blood pressure of middle age. "Sufferers with hypertension must not, then, get too discouraged, but must cling to hope."

**QUESTIONS AND ANSWERS**  
P. R. G.: A 17-year-old girl wants to have her nose remodeled. Is such an operation dangerous? Are pills or tablets given to one who lacks thyroid? I was under the impression that the hormone taken orally would be destroyed by the digestive juices before the drug entered the blood stream.

Answer: There is no reason why a remodeling operation on the nose should cause any permanent trouble. The proportion of success in such operations is very high among skillful operators. Thyroid is one of the few hormones that can be taken by mouth and is not destroyed by the digestive juices.

### Eleven Inmates At St. Charles Escape In Bus

Plano, Ill., June 11.—(AP)—Eleven inmates of the Illinois State Training school for boys near St. Charles escaped today after slugging the driver of a bus in which they had been taken on a swimming party for good behavior, and driving off in the bus with ten other boys who were later seized here.

Russell W. Ballard, managing officer of the school, said the slugging occurred at the Exposition park near Aurora as the boys were being taken back to the school after an outing given as an award for 30 days of good behavior.

Ballard said Albert Handwork, recreation director of the school, who was in the bus, was slugged by one of the boys with an iron pipe as the busload of 25 boys started back toward St. Charles.

Ballard said the bus was driven to Plano, Ill., where authorities stopped it and the eleven fled. The other ten of the 21 boys in the bus were taken into custody by Kendall county authorities. Ballard said they apparently were passive participants in the break.

Four boys who were members of the original party numbering 25 left the bus at the scene of the slugging and remained with the injured recreation director.

State police and sheriff's officers from Kane and Kendall counties immediately began a search for the boys who fled on foot after the bus was stopped.

The school's managing officer said that House Father at St. Charles was the rear of the bus at the time of the slugging and was unable to aid Armstrong.

Apparently the attack was instigated by three or four boys who had not been in the school long, he said. "They pushed Armstrong from the bus, and four of the boys managed to leave the vehicle before the door was locked from within."

"Armstrong and the boys who remained with him said the slugging was done by Santo Sartorio, 16."

He said Sartorio was a "recent arrival" at the school and had been assigned to Van Buren college.

The swimming party, he said, was given in commemoration with the policy of rewarding the inmates of cottages whose entire membership maintained good conduct for a three-month period.

There are 80 boys assigned to the cottages. Twenty-five remained on the grounds and went fishing this morning, Ballard said.

### Military Wage Adjustment Bill To White House

Washington, June 11.—(AP)—The Senate completed consideration today of a bill to adjust military pay to the cost of living, effective as of June 1, 1942.

Small adoption of a concurrent resolution, approved yesterday by the House, ends the congressional measure to President Roosevelt's consideration.

Estimates were made that the bill would increase to \$50 a month the pay of army and navy privates, and to \$60 a month for privates first class, and to \$70 a month for privates second class.

Increases would be granted to guards, ranks up to and including second lieutenant and captain. Sergeants would get a minimum of \$1 a month.

Senior and subordinate allowances of higher ranking officers also would be increased.

Final action ended a month of controversy which twice saw the measure sent to conference as senators stood behind it.

The minimum pay \$42 a month. The measure passed that position early this week.

### Torpedoes Ship Then Helps Crew In Safe Getaway

An East Coast Port, June 11.—(AP)—The sinking of a medium sized United States merchant vessel in the Atlantic by a German submarine whose commander helped the American lifeline was a safe getaway was announced today by the navy.

The navy said that the entire crew, excepting the captain who was killed, had been landed safely at east coast ports.

The sinking by the submarine of the ship's shell fire occurred "about 10 days ago," the navy said.

### U. S. Keeps An Eye On Waters Around French Guiana

Washington, June 11.—(AP)—The United States is continuing vigilant watch over developments around French Guiana, Secretary of State Cordell Hull said today, and is taking no chances with regard to possible Axis intrigues in that area.

Hull was asked if any new steps had been taken or were being taken to forestall use of the French colony's coast as a haven or source of supply for Axis submarines operating in the Caribbean.

He replied that both the state department and the navy were taking every precaution against possible use of French Guiana for such aid or comfort to the enemy.

Hull declined to comment on Soviet Foreign Minister Molotov's negotiations in Washington. He said the White House announcement on that subject was self explanatory.

### Silver Dollar Has Lost Considerable Of Its Popularity

San Francisco, Cal., June 11.—The war is causing the worst coast popular silver dollar to be sold today on a slow, hasty and storekeepers complain, the paper dollar bill is forcing the heavy "cartelists" from circulation.

Two causes for this monetary phenomenon is given.

One is the heavy influx of east coast residents to Pacific coast war industries, bringing with them their hoards of silver dollars.

Another reason is the soldier and sailor. For the sailor especially, with his slaved pockets, paper money is more convenient to stow away.

The soldier, too, likes paper money because it is less likely to roll out of his pockets.

Still rare on the west coast, however, is the paper money from the freighter at the time of the fire, and police said no one was injured.

### "Safe And Sane" Fourth Of July Is In Prospect

Springfield, Ill., June 11.—(UP)—A "safe and sane" Fourth of July will be observed by Illinois citizens this year, with fireworks limited to sparklers, toy pistols and other harmless devices, State Fire Marshal John H. Craig announced today.

The sale and use of fireworks generally is prohibited, Craig said. He said that the state department and the navy were taking every precaution against possible use of French Guiana for such aid or comfort to the enemy.

Hull declined to comment on Soviet Foreign Minister Molotov's negotiations in Washington. He said the White House announcement on that subject was self explanatory.

### Cargo Ship Afire At Brooklyn Pier; Suspicious Origin

New York, June 11.—(AP)—A fire of suspicious origin broke out today on the S. S. Irene Dupont, which the fire department reported was being loaded with a cargo of rubber tires, aviation oil and cartridges at its Brooklyn pier.

The fire department dispatched two fireboats to fight the blaze, which it said was discovered at 6:54 a.m. in the No. 2 hatchway of the ship and was raging between decks.

Those clouds of dense smoke were pouring from the stricken vessel, tied up at pier 2 at the foot of Columbia street in Brooklyn.

The third ward district public relations officer authorized use of the ship's name, including the ship's name.

The fire was brought under control within an hour, and fire officials said that it had been confined to a section of the ship's general cargo.

No one was working on the freighter at the time of the fire, and police said no one was injured.

### Appeal Judgment Given To Realtor

A suit by J. T. Look real estate broker, 1010 N. 1st St., was filed today for the county court. The suit, now to be heard by County Judge D. Henry, is an appeal from Edward H. Dempsie, justice of the peace, who on May 20 gave a judgment for \$30. The "Oakes" have made the appeal.

The Office of Defense Transportation recently inspected a giant trailer bus designed to solve the wartime home-to-factory transportation problem. The bus, which uses practically no war material, seats 141 persons, and is almost twice the size of the largest street car.

# MOOSE COCHRANE WHIPS STATE

## Jones Pitches Four-Hitter In His Final Game

Assistant Coach Earl Jones of Kankakee high school sang his swan song Wednesday evening at Waterman park. On the mound for the Kankakee Moose, he defeated the State Hospital nine to the tune of 6 to 1, letting them down with but four hits. Then he hung up his baseball shoes, and traded off his baseball uniform for that of Uncle Sam's coast guard. He will be inducted into service in Chicago next Tuesday.

Jones' pitching performance was undoubtedly inspired. It was his opportunity to defeat the club he formerly played with at third base. The single run he allowed was unearned, coming as the result of a Moose error in the third inning. With one out, Toombs singled, and went to second when Benchoe fanned. Dominick's grounder at third, Ryan forced Toombs at third, and Borgialli's double scored Dominick for the Moose's lone run of the six-inning twilight game.

The Moose scored all of their runs in a big fourth inning rally that sent Toombs to the showers. Lemaster relieving, Jones started the inning by walking, Burns singled, and Helio walked off base with bags with none out. Horen hit the first ball pitched for a double to center, scoring Jones. Burns Schipper bounced to Shely at third, and was safe on a fielder's choice. Then Shely dropped the throw, and the plate in an effort to put out Helio, who scored. Harvard struck out, Benchoe lined out, Shely to Martin, and Adams tripled to center to score Horen and Schipper, and Jones scored on Grant's single to center.

Grant, a newcomer on the Moose line, was introduced as a hitter, with two singles in four trips. The former Illinois Wesleyan catcher, who played last season with Decatur in the Three-I League, and with Union City in the Kitty League, was introduced for the Moose behind the plate.

Chuck Fowler, Illinois basketball player and former Waterloo high school star, will coach the St. Mary basketball team in the Illinois state as part of his training in the Illinois coaching school.

Bliss—Came a card from Frank J. Clary, former St. Vialor coach and Illinois Wesleyan star, who is in officers' training school at Ft. Warren, Chesapeake, Wyo., and who was a member of that basketball team last season and played in games. The University of Northwestern sports public department was in error in releasing a statement that Phil that Donald Kuekas, of Kankakee, received a freshman number for baseball. Kuekas is a Kewanee boy. "We don't like to be too stern, but unless baseball and basketball are the only sports, the positions of their players in the summaries submitted to this department, we shall be forced to omit the summaries and carry only a story of the games."

Sam McAllister, former St. Vialor college coach and until recently on the coaching staff of the University of Florida, has enlisted in the navy athletic program and reported to Annapolis several weeks ago for training. After completion of his training, McAllister becomes an athletic instructor in the navy with the ranking of first lieutenant. Lou Zaza, another former St. Vialor college coach, completes his course at Annapolis next week.

In another interrupted third round, third-seeded Jimmy Ivor, Notre Dame, national junior league champion, had a one set advantage in 6-4 over Chuck Cunningham of Los Angeles, who is carrying over in today's resumption.

Two more seeded players entered the quarter-finals before the intercollegiate tennis tournament. No. 7, defeated Charles H. Blomquist, Chicago, 6-4, 6-4, and Illinois high school singles champion, Benny Mitchell of Crane Tech, No. 8, defeated Jerry Ivor, Chicago, 3-6, 6-3, 6-2.
