## Blast Operation, Arrest Man

Sheriff, Federal Agents  
Raid Still Near Mommence

A 400-gallon still for making illegal liquor, estimated to have been in operation from 1½ to 2 years, was destroyed Sunday by Kankakee County sheriff's department and federal alcohol and tobacco tax agents from the Internal Revenue Service.

Taken into custody on a federal warrant as custodian of the operation was William Tate, 38, RR 1, Mommence. Tate, who was taken to Danville Sunday night by federal authorities, said he couldn't remember the name of the person who set up the operation and owned it. Tate said he got \$25 a month and free rent for being custodian.

The still was housed in a two-car garage near Tate's small house in a densely wooded area along the Kankakee River, 3½ miles east of Mommence.

"WHOEVER SET UP this operation knew what he was doing. It was a very professional job," Sheriff Carl McNutt said.

The sheriff said there were rumors of a still in the county for some time, but no one was able to locate it.

Then about 11 a.m. Saturday an anonymous phone call was received from a woman, who gave the sheriff's office the general location of the still.

By 3 p.m. Saturday two federal alcohol and tobacco tax agents came to assist the sheriff's department in the search. At 10:30 a.m. Sunday the warrant was served on Tate.

The custodian said the still had not been in operation for more than a month, but authorities found 400 gallons of mash fermenting in 13 barrels. There were 45 fifty-gallon drums in the garage, as well as 120 pounds of sugar and two electric pumps to take water from the river for the cooling and condensing apparatus.

A 20-GALLON thumper keg was also found suspended from the ceiling, and is reported to be a device used in Tennessee and further south as part of the illegal still set up. It supposedly takes impurities out of the liquid before it reaches the condenser. Before high water in the Kankakee River flooded the area this winter a large number of pigs were kept on the property, to cover the odor of alcohol, authorities believe.

Tate, his wife and their five children were not living on the property now, but were staying with friends a short distance away.

Dynamite was used to destroy the apparatus, but it took two charges to do it. The first charge only shook the brick coat off the one-quarter inch steel tank used to cook the liquid. A second charge, under the tank itself blew it across the garage.

BARRELS OF fermenting mash and other materials were broken up by the federal agents. The mash usually contains corn, sugar and yeast.

Tate told investigators that the liquor was carted out in five-gallon cans. No supply of bottles

## Radioactive Soil

WASHINGTON (AP) — Radioactive material scattered by atomic explosions tends to accumulate in the soils of lowlands, the Agriculture Department reported today.

The department reported, however, that the present levels of radioactivity from fallout from atomic explosions are still several hundredfold below the levels of radioactivity naturally occurring in soils.

Reject Castro's  
Ideas On Meeting

WASHINGTON (AP)—The United States told Cuba today it is willing to talk over differences between the two nations but not under conditions proposed by Prime Minister Fidel Castro.

In a formal note again expressing friendship for the Cuban people, the United States invited Castro's regime to discuss through diplomatic channels, the time, place of such talks and the subject to be discussed.

The State Department note, delivered to the Cuban Foreign Office at Havana today, specifically rejected Cuba's insistence that the United States promise no one-sided action against Cuba pending conclusion of the talks.

As set forth in President Eisenhower's statement of Jan. 28, the note said, "the government of the

West Will Ignore  
Soviet Air Rules

WASHINGTON (AP)—The United States, Britain and France have decided to resume flying the air corridors between West Berlin and West Germany at altitudes above 10,000 feet. This is a practice with which Soviet fighter planes have interfered in the past.

The Soviet Union is being notified of the decision, it was reported here today, so there can be no misunderstanding on Moscow's part of what is involved.

The three Western powers, with about 111,000 troops to maintain as a protective force in West Berlin, have long insisted that there is no limitation on the altitude at which their supply and transport aircraft can fly into and out of West Berlin. The air corridors traverse the territory of communist East Germany.

THE SOVIET Union, by contrast, has claimed a 10,000-foot ceiling was established by agreement between Soviet and Allied authorities years ago. Moscow, contends that any flight above that limit is a violation which can subject the high-altitude aircraft to the attention of Soviet fighter planes.

The issue was sharply drawn last March 27 and April 15 when several U.S. turboprop planes flew above 10,000 feet in the assigned corridors over East Germany. Soviet fighter planes made passes around the U.S. aircraft. After an exchange of accusations between Moscow and the Western capitals, the practice of flying above 10,000 feet was halted although the right to do so was firmly asserted by the U.S., British and French governments.

The Western nations called off the flights as a precaution lest it look like the West was deliberately seeking an incident.

The turboprop aircraft now commonly used for heavy cargo hauling operate much more efficiently in the higher altitude ranges around 15,000 to 20,000 feet. The older piston-driven planes could operate easily at 8,000 or 10,000 feet. Thus technical development has had a direct bearing on the altitude issue in the air corridors.

Beyond this consideration, however, lies the fundamental fact that the Soviet Union and the Western powers are developing a contest of strength over Berlin in the months leading up to the May summit conference at Paris. The Western powers reportedly want to show their determination to preserve their position in West Berlin as well as to keep alive by use their asserted right to fly above 10,000 feet.

George T. Davis, chief attorney for the Los Angeles sex kidnaper, has suggested the Legislature submit the question of capital punishment to the electorate as a referendum on the November ballot.

Gov. Edmund G. Brown granted Chessman a 60-day reprieve Feb. 20 on the eve of the eighth execution date faced by Chessman who was condemned 11½ years ago. The governor said he did so to allow the Legislature again to consider doing away with capital punishment.

Since then the governor has said that tying the question of Chessman's fate to the proposal has hardened the opponents of abolition of capital punishment and that there is little chance of the death penalty being repealed.

United States must remain free in the exercise of its own sovereignty to take whatever steps it deems necessary, fully consistent with its international obligations in the defense of the legitimate rights and interests of its people.

## RC Drive Opens Tuesday

Set Goal Of  
\$45,508 By  
March 15

Workers Getting  
Supplies Today At  
Series Of Meetings

(Another picture on page 5)

The 1960 fund campaign of the Kankakee County chapter of Red Cross opens Tuesday. The goal—\$45,508; time allotted—Tuesday through March 15.

Today the workers are securing their supplies for the drive through a series of meetings being held at the Kankakee Civic Auditorium.

Scheduled to meet from 9:30 to 11 a.m. were workers in the business division and those in Bradley and Bourbonnais.

The 11:30 a.m. to 1 p.m. meeting was for workers in the industrial division and the major gifts division.

Four groups are to report in this afternoon between 1:30 and 3 o'clock. They include Kankakee Township, residential, governmental and educational divisions.

THIS EVENING a 7:30 to 9 o'clock meeting is for workers in the area divisions.

General campaign chairman is Ted Flood.

William Mitchell is Industrial chairman with Milo Miller and John Crossen as his co-chairmen.

Mr. and Mrs. Edward McBroom are chairmen of major gifts and Don Baird is chairman of the business division. District chairmen working under Baird are Jerry Marshall, Donald Turner, Richard Witt, Jerome Price, Donald Moyer and Walter Volkman.

Area chairman is Albert Keller and publicity chairman is Oliver Johnson.

Chairmen working under the direction of Keller include the following by townships: Aroma — Clyde Green; Essex — Mrs. John Atten; Ganee — Mrs. Melvin Johnston; Limestone — Mrs. Paul Mullikin; Manteno — Wayne Rich; Mommence — Ed Soucie; Norton — Floyd Weseman; Otto — Mrs. Ray Weindler; Pembroke — Bobbie Allen; St. Anne — Mrs. William Amberg (city); and Mrs. Irving DeYoung (Wichert); Sumner — Vincent LaMore, chairman, and Robert Temme, Henry Krohn and Raymond Rademaker, vice chairmen; Yellowhead — Eugene Graves.

In addition John Woodzell is chairman of Kankakee township. Mrs. Henry Wulfe is residential chairman with Mrs. William Haberkorn, Mrs. Herbert Crawley, Mrs. Lloyd Owen and Mrs. Robert Johnson as territory chairmen. Clubs and organizations with Dale Templeton as chairman is also under the Kankakee township group.

Area chairman Keller said chairmen for Rockville and Pilot Townships are yet to be named.

Minor Red Incident: Mars  
Chilean Welcome For Ike

SANTIAGO, Chile (AP) — Hundreds of thousands of Chileans showered President Eisenhower with cheers and flowers today as he rolled triumphantly into Santiago on his South American tour. The welcome burst out beyond expectations as he reached the third stop on his tour.

Only one minor incident marred his welcome to this economically troubled country on South America's Pacific Coast. Communist union workers shouted "Down with the United States!" as Eisenhower and President Jorge Alessandri of Chile passed the union's headquarters.

The workers had pushed up a

Nik Threatens Separate  
E. German Berlin Treaty

JAKARTA, Indonesia (AP)—Soviet Premier Nikita Khrushchev today said the Soviet Union will sign a separate peace treaty giving East Germany control of West Berlin if the Big Four summit talks in May fail to reach agreement on an over-all German settlement.

Khrushchev spoke at a news conference following his return from Bogor, where he agreed to lend Indonesia a 250-million-dollar credit in an effort to check this Southeast Asian nation's slow drift Westward.

The Soviet threat to sign a separate peace treaty with East Germany never has been abandoned, and in recent weeks has been repeated at intervals. But this was the first time Khrushchev had tied it to the outcome of the May summit conference.

"THE QUESTION of Berlin is one of eliminating vestiges of World War II," the Soviet leader declared. "We cannot talk about peace without eliminating, these vestiges."

Khrushchev said the Soviet Union is trying to convince the West of the need for a peace treaty on all Germany. If this is not concluded, he said, the Soviet Union will sign a separate agreement with East Germany.

If that happens, he said, all post-war agreements affecting Germany "would cease to be valid," and West Berlin would come under the authority of Communist East Germany "because West Berlin stands on territory belonging to East Germany."

Sudden End  
To Defense  
Of Van Rie

BOSTON (AP) — The defense rested today in the murder trial of Willem van Rie, 31, Dutch radio operator accused of beating a pretty, 23-year-old divorcee and tossing her to her death in Boston Harbor Sept. 18.

The action came suddenly as the 15th trial day got under way in Suffolk Superior Court before Judge Frank J. Murray and an all-male jury.

Vivacious Lynn Kauffman died by drowning on the last leg of a 44-day voyage from Singapore. The daughter of a Chicago industrialist, she was a passenger on the Dutch freighter Utrecht. Van Rie was radio operator on the vessel.

The state charges they engaged in a shipboard romance that ended in a violent quarrel in her cabin as the Utrecht steamed out of Boston for New York.

Lynn's bruised body, clad only in Bermuda shorts and slippers, was found the next day on a harbor island.

The state contends the injuries to face, head and brain were caused by a beating. The defense offered medical testimony to show the injuries could have been suffered in a 40-foot fall from the deck of the freighter.

Say Ike Appears  
In Good Health

BARILOCHE, Argentina (AP)—President Eisenhower appeared in good health today as he wound up the first half of his South American tour.

The pace appeared to be telling on the 69-year-old President. A morning of fishing Sunday in a mountain stream had left him looking worn and weary. He appeared perked up after a nap. This morning, ruddy-faced and untanned, he looked to be in good shape as he bade goodbye to Argentine President Arturo Frondizi.

Key Sections  
Of 1957 Act  
Are Now Valid

Supreme Justices  
Overturn Georgia  
Judge's Decision

WASHINGTON (AP)—The Supreme Court today upheld validity of key sections of the 1957 Civil Rights Act.

The sections had come under attack in relation to the Justice Department's efforts to enforce Negro voting rights in Georgia.

In a unanimous decision, the Supreme Court overturned a ruling by U.S. Dist. Judge T. Hoyt Davis in Macon, Ga., that the sections were unconstitutional.

Davis said they were invalid because they gave the attorney general authority to seek injunctions against private citizens as well as state officials. He held Congress could not extend federal authority into that field.

JUSTICE BRENNAN delivered the high court's decision.

Justice Frankfurter wrote a separate concurring opinion, joined by Justice Harlan.

The court's ruling came almost at the hour that the Senate was meeting for what may be several days of around-the-clock sessions in a battle over new civil rights legislation.

The Justice Department's appeal from Judge Davis' ruling was argued Jan. 12.

At that time the department asked the high court for a quick reversal of the Davis decision as being "clearly wrong."

Atty. Gen. William P. Rogers, in personal argument, said the Davis decision "has delayed and hampered the United States in its efforts to make the 15th Amendment fully effective for citizens of the Negro race."

The 15th Amendment says states may not interfere with voting rights.

In the first case filed by the Justice Department under the 1957 act, the government complained to Davis that voting registrars in Terrell County, Ga., had discriminated against qualified Negro voters who wished to get on voting rolls.

Rogers argued the government's request for an injunction was against state officials—the voting registrars—and not private individuals.

CHARLES J. BLOCH, Macon attorney, argued for affirmation of Davis' decision. Bloch said ample judicial remedy was provided under the 15th Amendment.

Senate Launches  
Effort To Break  
South Filibuster

WASHINGTON (AP)—The Senate launched at noon today its heretofore nonstop effort to break a Southern filibuster and pass an election-year civil rights bill. Immediately the Southerners unleashed their delaying tactics.

Senate Democratic Leader Lyndon B. Johnson of Texas was not optimistic about the success of efforts to wear out Dixie opponents of the measure.

Johnson told reporters it has been true in the past that a substantial band of objectors could prevent the Senate from voting on an issue, at least until two-thirds of the members were willing to clamp on a debate limitation.

Under the circumstances, Johnson said around-the-clock sessions offer "the only answer immediately before us."

The galleries were filled with spectators, and Vice President Richard M. Nixon was presiding as the session began. Sen. Richard B. Russell (D-Ga.), captain of the 18 die-hard Southern opponents, began filibustering tactics immediately.

Russell objected to giving unanimous consent to dispense with the reading of the journal, a traditional move by those engaged in delaying tactics.

## Annual Red Cross Fund Drive

The annual campaign for money to finance the services of the American Red Cross, which begins this week, can't be written off as "just another fund drive."

Ever since 1934 when President's Birthday Bells evolved into the March of Dimes and the Mothers' March, the crusades for funds have multiplied. No one is sure just how many different groups are soliciting funds across the country for how many different diseases.

Many of these diseases—or health—agency deserve the full support of the American people.

But distinctly different and of greater importance to everyone is the annual appeal of the American Red Cross.

It is required by congressional charter to administer to the armed forces and their families and to provide emergency relief and post-emergency rehabilitation to victims of disaster.

Saddled with this responsibility, the agency must get along entirely on voluntary contributions. Congress votes no money for these activities.

Right here in our area the Red Cross provides for the collection and distribution of free blood for the ill and the injured.

Just in the past year residents of Kankakee County were provided 2,775 pints of blood, even though donors con-

tributed only 2,083. Consider the costs to all of us if there had been a charge for that blood at anything from \$35 to \$40 a pint.

It really shouldn't be necessary to point to the many valuable services of the Red Cross as an argument in favor of all-out financial support for the organization. Its record of service in a thousand ways needs no recalling.

In disaster and distress, the Red Cross is always there. At times of floods, tornadoes and fires in our own community, the Red Cross has mustered trained personnel, provided housing, clothes and money to help the victims.

It has offered home nursing courses, water safety training, first aid courses, and various other programs that have helped save lives and lessen the suffering for countless people.

And yet, last year the per capita gift of Kankakee County residents amounted to only 44.62 cents. This can be compared to a nation-wide spending of \$3.20 per capita for cosmetics and perfumes, or \$1.80 for chewing gum.

The Red Cross this year must raise \$45,508 in Kankakee County, \$23,830 in Iroquois County.

The work of the Red Cross must continue. It will need the generous support of all of us.

## Debates Don't Prove Anything

This is the season when some politicians rise to challenge others to debate on the hustings. The challenge usually carries with it the clear implication that the other fellow doesn't dare do it.

Actually, such challenges are accepted fairly often, but they seldom prove very much. Since most of the political debates don't really stick to a common ground of issues, the results are usually pretty inconclusive.

Politicians by nature are given to answering each other at tangents and with glancing blows. Their defense normally is a new offense. There's no

reason to imagine they will abandon this habit merely because they're speaking from the same platform the same day—and they don't.

On rare occasions public debates have really had impact on the voters. Back in 1948, Thomas E. Dewey just about did Harold Stassen in on a national radio hookup. He swept the Oregon primary and killed Stassen's presidential hopes.

But don't look for too much of that. Most of the time the debates are dull and of little worth in deciding on the qualifications of the candidates.

## Growth Of Latin America

President Eisenhower's tour of Latin America calls attention to the fact that for the first time since colonial days the balance of people in the Western Hemisphere has tilted toward South America. By mid-1960, the population of Latin America is expected to reach 206 million, the United States and Canada combined only 200 million.

Of the four countries the President is visiting, only Brazil is in the grip of a population explosion, with growth at nearly 3 per cent. As the largest South

American country, this has not yet become acute.

Chile is growing at the rate of 2.2 per cent, Uruguay at the rate of 2.7 per cent and Argentina 1.9 per cent. The world rate and that of the United States is 1.7 per cent and Europe less than 1 per cent.

Social and economic difficulties growing out of population growth are basic to the problems the President will encounter for which American guidance will be asked.

## Oddities Sorted Out Of The Mailbag

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

As apple a day helps keep the dentist—as well as the doctor—away. A two-year study of children who are apples daily showed they had only half the tooth decay

and a third as many gum diseases as nonapple eaters.

Incidentally, the most fashionable dogs today are: the poodle the Cocker Spaniel, the Beagle and the Dachshund.

The Bourbon Institute claims George Washington was one of the founding fathers of the U. S. distilling industry. It says he made a profit of \$3 pounds in 1789—about \$2,000 in today's currency—of the sale of rye whiskey. And still retained 150 gallons of storage.

Roof thatching is still practiced by some 750 farmers in merrie England. A roof thatched with wheat straw may last for 60 years, one thatched with heather may endure a century without being repaired.

WE'RE A YOUNG nation growing older. Out of a population of nearly 180 million, we have 16 million over 65 and 49 million over 45. Almost 60 per cent of our senior citizens have an annual income of less than \$1,000.

## Should Congress Probe Olympic Gap?

WASHINGTON—Something will have to be done about the Olympic "gap." America isn't showing up well in the Winter Olympics. Again the Russians are "ahead of us." The latest score available as this is written shows Russia way out in front, with Germany second, while the United States lags behind in third place.

How did it happen? Was there something wrong with our intelligence? The fault probably lies with our own people.

David Lawrence usually could find something the other day to his presidential hopes. He swept the Oregon primary and killed Stassen's presidential hopes.

But don't look for too much of that. Most of the time the debates are dull and of little worth in deciding on the qualifications of the candidates.

Anytime, the whole thing calls for a congressional investigation. It ought to be ascertained, for example, whether under a Democratic administration the weather was colder and whether the United States then had better skiers and skiers than today.

REALLY WHAT'S wrong, of course, is that we in America are inferior to the Russians in "winter considerations" or football ideas of amateurism, as against the Russian "professionalism" and "team." For the Soviet government pays and trains its athletes in the year round, while we don't even have enough funds available to us through popular subscription to hire good coaches.

Also, as usual, there's something wrong with the climate. The Russians have the Arctic Ocean conveniently nearby, so the Arctic blasts keep the Russians well supplied with a stockpile of ice. What will have to be done doubtless is to move our teams into northern Canada for a "ski-borne alert."

As for hockey, we are making a good showing in the championship rounds in that branch of sports, which only goes to show that you can't just emphasize one category, like skiing. Geographically speaking, we are doing well in it, "over-all sense"—at least we're getting more points than the few snow countries like Sweden, Switzerland, Finland and Norway, respectively.

As usual, the winners have won the day. Carol Heist won an

## The Chessman Case

The most astonishing item in the Chessman case is the general avoidance of mention of the crimes that Caryl Chessman committed. In all that is said about this man, little comment is upon the fact that he committed rape, was a sex pervert, a robber, a kidnaper, a sadist and was arrested for these crimes.

Mrs. Ruth Shaw, mother of one of the girls he raped, had this to say:

"My daughter, Mary Alice, was only 17 when he kidnapped her, tore her clothes off of her and for four endless hours terrified her, hurt her, sadistically abused her and caused her to lose her mind and life among normal human beings."

Chessman's CRIMINAL RECORD started in 1937 and ended with his apprehension in 1946. Why the State Department should violate the U. S. Constitution of the United States to seek a reprieve from the judgment of the courts for such a person can only be explained by a total negation of the sanction of law in our civilization.

The excuse that the rapist, Chessman, has been a "sex pervert" or not is a matter of private conscience. If the governor said that it is against his conscience to permit anyone, even a murderer or a rapist, or a kidnaper, to be given the death penalty, that would be a California conviction. He, the governor, will pardon or reprieve such persons, that is his privilege and he must accept the consequences of his decision. But Gov. Brown did not say that.

What he did say was:

"It was informed that there could be concern in this matter in view of President Eisenhower's trip. That moved me more than anything else."

The HISTORY OF THE REPRIEVE seems to be that Richard R. Rogan, chief deputy attorney general of California, solicited support of the federal government for aid for a reprieve for Chessman. This was done despite the fact that Chessman was in California courts and he is a California convict. Roy R. Rubottom Jr., in charge of the inter-American desk of the State Department, sent a telegram to Gov. Brown suggesting the reprieve.

It is not usual in State Department procedure for a man on Rubottom's level to send such a message, with its political connotations, without the approval of the State Department's secretary himself. It is to be presumed that Rubottom submitted his telegram to his superiors and that they approved. Lincoln

White, press officer of the State Department, is reported to have said that Under Secretary Douglas Dillon approved the Rubottom telegram and that a copy was sent to the White House.

The Constitution of the United States in place authorizes the President or the State Department to dictate the course of judicial procedure of any state. On the contrary, the Constitution specifies in the 10th amendment:

"The powers not delegated to the United States by the Constitution, nor prohibited by it to the states, are reserved to the states respectively."

IN KANSAS, COLORADO, The Supreme Court held that the national government, under the pressure of a supposed emergency, attempt to exercise powers which had not been granted. With equal determination the framers intended that no such assumption of power be made by the federal government.

The Constitution is flexible but it is not so flexible that it abolishes itself by executive judgment. In fact, in the sick chicken case (Schecter Poultry Corporation v. United States), the court held:

"This amendment...disclosed the widespread fear that the national government, under the pressure of a supposed emergency, attempt to exercise powers which had not been granted. With equal determination the framers intended that no such assumption of power be made by the federal government."

## MPs Pick Up AWOL Soldier Here

Military police from Fort Sheridan were due in Kankakee this afternoon to pick up Donald L. Scott, 23, RR 2, Urbana, charged with being absent without leave from Fort Leonard Wood, Mo.

Scott was arrested at a road-block on Route 45 near the Mantua road, following a state police message that he was holding a young woman and her 14-month-old child.

He was picked up by Mrs. Nancy J. Runkel, 25, Urbana, who was driving home from work. Although he was reported to have held a gun to the head of her infant son no gun was found in the car by police. They did find a knife.

The state police message is assumed to have gone out after Mrs. Runkel persuaded Scott to let her make a telephone call at a service station. The attendant and an industrial plant guard, who were in the station, reported by police. They did find a knife.

State troopers James Hall and James Ashbrook spotted the car and radioed ahead to Deputy Sheriff William Kraus, who set up the roadblock.

The woman and her son were not harmed.

**Keep In Trim**

Take a healthy approach to the problem of keeping slim. Be assured on scores. You will not have to diet forever and a day in order to control your weight. The most triumphant letters that come to your dietitian are from the reducers who have established their new weight level and held it there for years.

Now examine the other side of the coin. There is no use kidding yourself that the day of 125 is over you can go right back to your old eating habits. You cannot. But friends, if you enjoy feeling slim and fit and light on your feet, and you have retained your food habits while you were reducing, you will not want to overeat.

**Can You Make Brownie Pie?**

IN ORDER TO live happily all year after you must first lick your weight to a standstill. The time to exercise caution is in the weeks immediately following a reducing diet. Calories should be increased gradually. It is important to realize that at the finish of a prolonged reducing period, your metabolic rate is lower and for this reason you will be predisposed to gain weight. Experiment. Have another 50 calories of lean meat a day, or a favorite fruit.

During the transition period, it is wise to stay fairly close to the protective pattern. In keeping slim the character of your daily meals is more important than counting calories. The foods which furnish good quality protein and all the protective nutrients are emphasized for reducing. Bear in mind that these same

## Newlyweds Reside In Kankakee

Mrs. Carl Ann Kanoski became the bride of Joseph Fritz Saturday, Feb. 26, in St. Patrick's Church, Kankakee. The double ring ceremony was performed at 10 a.m. by the Rev. John Beatty.

The bride is the daughter of Edward B. Kanoski of 1142 N. Schuyler Ave. and the late Mrs. Mary Kanoski. Parents of the bride are Mr. and Mrs. Aloysius Fritz of Bonfield.

Mrs. A. J. Worby, organist, accompanied the bride and groom. The bride wore a gown of blue and white, and the groom wore a tuxedo. The ceremony was a simple one, with the bride and groom exchanging vows and the priest pronouncing them man and wife.

The bride's bridesmaids were Mrs. Mary Kanoski, Mrs. Mary Kanoski, and Mrs. Mary Kanoski. The groom's best man was Mr. Joseph Fritz. The reception was held at the home of the bride's parents.

# Gilman High Seniors To Present Play March 25

A comedy, "You Can't Take It With You," has been chosen by seniors of Gilman High School for their annual play. It is set for 8 p.m. March 25 in the high school.

Members of the cast include Charlotte Bell, Betty Borchers, Bill Conrad, Joy Lee Strough, Dee Harrison, Marlin Parbs, Karen Cox, John Juergens, Basil Hamilton, Vivian Vachbaker, John Price, John Wilken, Dave Zachgo, Sharon Gerdes, Jack Monk, Larry Nims, Marvin Saxama and Paul Wilken.

The plot centers around the Syracuse household where more strange things happen than don't. There's the old retired gentleman who makes firecrackers in the basement. There's the Russian ballet instructor who vainly attempts to teach ballet to some of the girls. There are odd people and quaint customs. And then there is Grampa who raises pet snakes in the living room—and incidentally, keeps the whole school hopping.

Miss Jimmie Meese, head of the English department at Gilman, is director of the play.
