## Stewards Propose To Build 100-Bed Hospital

The Stewards Foundation has proposed construction of a 100-bed hospital in Kankakee with the plan of adding to it when occupancy reaches 75 to 80 per cent.

The proposal was announced at the annual meeting of the Kankakee County Hospital Committee Thursday night in Hotel Kankakee by James Humphrey, chairman of the board of trustees of the foundation, and touched off a storm of objections from many of

## Larger Hospital Urged By Board

The board of the Kankakee County Hospital Committee today issued a statement relative to the proposal of Stewards Foundation.

"The board of Kankakee County Hospital Committee is deeply concerned with the report of Mr. Humphrey to build only for 100 beds at the start. The board feels a need—just as the community felt the need—for a larger hospital.

"The hospital committee has been charged by the community with the task of providing needed additional hospital facilities as soon as possible and the board intends to fulfill this obligation by whatever means are necessary."

the 40 persons who attended the public meeting.

AT THE TIME THE fund drive for a new hospital was launched plans called for a 125-bed hospital. When the drive for \$500,000 soared to nearly \$800,000 in pledges last summer the Stewards Foundation sent a telegram to the jubilant workers announcing that in the light of the tremendous success of the campaign the foundation would erect a 150-bed hospital.

Following the 2½-hour public meeting Thursday the hospital committee board met in special session and announced it will await the preliminary plans being finished by the Stewards Foundation, study them and the foundation proposal, and then decide its course. Humphrey said the foundation had hoped the preliminary plans, for a 150-bed hospital, would be ready for the Thursday meeting. He said, however, that the architects didn't get them completed but have promised them within a week. A meeting of

QUESTION-ANSWER period following Stewards Foundation report at annual meeting of Kankakee County Hospital Committee Thursday night was a lively affair as group questioned Stewards proposal to build 100-bed hospital instead of a larger institution. the hospital board and foundation representatives will be held at that time.

Humphrey announced the proposal in a Stewards Foundation report he made prior to a question-answer period. He said the foundation board of directors spent two days analyzing the Kankakee situation before it made its decision.

"WE FEEL THE NEW hospital should be started with 100 beds—to give it a fair start and also not to hurt St. Mary's Hospital," he said. "This is a conservative approach we know but we would rather be adding to it than to have

vacant beds. When occupancy reaches 75 to 80 per cent the Stewards Foundation would construct an addition to meet the needs."

The board chairman discussed the importance of good public relations in any project and called for "a broad understanding to enable the entire operation to proceed in an orderly fashion."

"We are here to get the job done of building a hospital for Kankakee," he said. "We are not above criticism. We are not above mistakes. We welcome criticism."

Humphrey quoted from a national magazine in pointing out

## Diplomats Seek To Solve Crisis Over Eichmann

## Argentina Wants Neutral Country To Mediate Seizure

UNITED NATIONS, N. Y. (AP)—Western diplomats are trying to work out a face-saving compromise to avert a showdown between Argentina and Israel in the United Nations over Adolf Eichmann.

Argentina charged the seizure of Eichmann by Jewish commandos in Buenos Aires violated her sovereignty and said she would appeal to the U. N. unless Israel returned him. The former Nazi is accused of helping direct Hitler's extermination of the Jews.

Informed sources in Israel said Prime Minister David Ben-Gurion would not comply with the Argentine demand. But he was reported to have sent a conciliatory letter to Argentine President Arturo Frondizi.

Official sources in Buenos Aires said Argentina would sympathetically consider mediation of the dispute by some foreign country or a suggestion that the case be taken up by the International Court in The Hague.

DIPLOMATS IN the South American capital speculated that a European country—perhaps France—might be asked to mediate. Frondizi and Ben-Gurion will both be touring Europe next week and their paths may cross in Paris.

Western authorities in London were reported behind the move to let the World Court—organ of the United Nations—rule whether Eichmann was kidnapped or, as Israel claims, agreed to go with

## \$5.7 Million Budget OKed By Lutherans

ROCK ISLAND (AP)—Delegates of the Augustana Lutheran Church have approved a record 1962 budget of \$5,781,000, nearly one million dollars larger than that fixed for 1961.

The budget, which reflects expansion of church activities in almost every category, was approved Thursday night at the 600,000-member church's centennial synod, or convention.

The synod prepared to discuss a resolution by its commission on social action dealing with religion and the presidency of the United States.

The proposed resolution asserts that ideological beliefs and affiliations are valid grounds for judging fitness of candidates for public office and proposes "conscientious and prayerful study of these factors before voting for any candidate for public office."

A 3,500-word memorandum submitted with the resolution says "there are grounds for reasonable doubt that a Roman Catholic president would be free of institutional control and from desires to promote in special ways the ends of the Roman church."

The report was expected to evoke debate.

## Research Balloon Now Over Ocean

SAN DIEGO, Calif. (UPI)—The Navy's runaway research balloon drifted over the Pacific today with 50 rounds of cannon fired into it by a fighter jet which had sought to bring it down.

The balloon, 40 stories tall, was 250 miles off shore at an altitude of 70,000 feet. It was drifting north and gave no indication when it would descend to the sea.

The balloon was carrying valuable scientific data gathered since its launching Sunday at Glyco Naval Air Station at Brunswick, Ga. It had been expected to be retrieved Tuesday at Houston, Tex.

## Nixon, Rocky All Smiles At Show

NEW YORK (AP)—Vice President Richard M. Nixon and Gov. Nelson A. Rockefeller greeted each other with smiles and great cordiality as they met today at a British trade exhibition in the New York Coliseum.

The two men shook hands warmly and exchanged greetings in a small, closed-to-the-public anteroom off the main lobby.

Also at the Coliseum was Prince Philip of Britain, who was on hand to officially open the 200-million-dollar British exposition.

PHILIP RODE TO the Coliseum in a car with Nixon.

The press and public were barred from the small room in which the Nixon-Rockefeller meeting took place but about 40 specially invited guests were present.

A bank of glass doors was covered with curtains. Nevertheless, it could be seen from outside that Nixon, after exchanging greetings with several persons, walked toward the rear of the room, farthest from the entrance.

A few minutes later, Rockefeller arrived. When Nixon saw the governor, he immediately strode toward him with his right hand extended.

The governor accepted the handshake and vigorously placed his left hand on Nixon's right shoulder in friendly fashion. They smiled and exchanged greetings.

Earlier, Prince Philip declared that people of both the United States and Great Britain have a never-ending job to do in preserving friendly Anglo-American relations.

"THIS BUSINESS is like a garden," said Prince Philip, duke of

## Seek Property For Extension Of Post Office

A petition has been filed in Federal District Court at Danville to condemn the property at 169 N. Harrison Ave. for extension of the Kankakee Post Office. Acquisition of the property will give the post office 300 feet of frontage on Harrison avenue, 100 feet more than at present.

A spokesman for the General Services Administration in Chicago said plans for the extension may be announced in mid-July. But the project is not expected to be started before next spring.

## But President Still Plans Visit June 19

TOKYO (AP)—Five thousand screaming Japanese besieged White House press secretary James C. Hagerty's car for an hour and 20 minutes today, but both Hagerty and the White House announced the demonstration would not change President Eisenhower's plans to visit Japan June 19.

Hagerty told a news conference tonight:

"We are sure that the demonstrations in no way reflect the feeling and the attitude of the great majority of the Japanese people for whom America has the warmest friendship."

In Washington, associate press secretary Anne Wheaton said the President had "expressed gratification" that Hagerty and White House appointment secretary Thomas E. Stephens, who was with him, were not hurt by the demonstrators.

ASKED WHETHER the President would still go to Japan, Mrs. Wheaton said, "I know of no change in plans."

Hagerty, here to complete arrangements for Eisenhower's visit, said the demonstration was obviously carefully planned. He said the fact that the demonstrators were singing the "Internationale"—the song of international communism—raised doubts whether they even had allegiance to Japan.

The demonstrators, out to convince Hagerty that Eisenhower should postpone his trip, claim their real target is Prime Minister Nobusuke Kishi because his Liberal Democratic party pushed the new U.S.-Japan security alliance through the lower house of Parliament in a violent session May 20.

At his news conference Hagerty was asked whether it would not be risking Eisenhower's safety to bring him to Japan in the present turmoil.

"I wouldn't think so," Hagerty replied. "He will be a guest of Japan. I would think that the necessity for protection would be adequately handled by the capable forces of the Japanese government."

THE DEMONSTRATIONS had

## Damage Cemetery At Momenca

Vandals Thursday night entered Momenca Cemetery and knocked over 25 headstones and uprooted many flower pots, it was reported today.

Twenty-five stones were tipped over and broken. Ten of the broken stones were 75 to 80 years old. Flowers were torn out and thrown about.

Police officer William Dobberphul said it was a plain case of vandalism.

## Demonstration By Japanese May Backfire

Leftists Could Be Destroyed If Ike, Emperor Are Hurt

(Nate Polowetzky of the Tokyo bureau of The Associated Press assesses in the following article the student demonstrations in Tokyo today and the possible reaction to President Eisenhower's visit.)

By NATE POLOWETZKY  
TOKYO (AP)—Fanatical university students showed today they could put President Eisenhower in physical danger if he visits here next week. The question is: Do they want to commit violence on him?

Screaming and shouting anti-American slogans, thousands of students and left-wing unionists besieged White House press secretary James C. Hagerty in a car outside the airport as he tried to drive into town.

THEY BEAT and battered the car—and obviously could have done worse if they had wanted to—as Hagerty sat inside with U. S. Ambassador Douglas MacArthur II and White House appointment secretary Thomas E. Stephens.

The students, members of the ultra-left-wing organization Zenakuren, had advertised their airport demonstration as a "dry run," to show Hagerty what they could do when the President comes and to convince him to call off the trip.

Admittedly, there will be more police—acting a lot more aggressively—at the airport and along his route into Tokyo on June 19 when Eisenhower arrives than there were when Hagerty and Stephens arrived.

But no number of policemen can keep thousands of determined students—not without plenty of blood, anyhow—from blocking the streets.

There is a body of opinion among Japanese, even those opposed to the visit, that there won't

## U. S. Protests Again To Cuba

WASHINGTON (AP)—The United States has sent another stern protest to Cuba accusing the Fidel Castro regime of making baseless and offensive charges against the Washington government.

The new protest—second in less than six days—grew out of what the United States said was "continued dissemination" of what it termed fallacious, baseless and of serious implications that the United States was somehow implicated in the explosion of a munitions ship in Havana harbor.

The ship, La Coubre, blew up March 4. Prime Minister Castro, at the funeral for some of the victims, indicated he blamed the disaster on a U. S. plot.

The State Department said today the U. S. representatives in the Organization of American States have received "with the compliments of the Cuban OAS delegation," a copy of a pamphlet reproducing Castro's speech.

The four children were sleeping in one bedroom of the five-room apartment when the fire started in the kitchen.

The parents were led to safety with their youngest child, Kathy, 1.

# Nixon's Dare Puts Rocky On Defensive

WASHINGTON (UPI)—Vice President Richard M. Nixon projected himself before the Republican party today as a presidential candidate who knows he has the votes to win.

Supporters of the vice president said his reply to New York Gov. Nelson A. Rockefeller's biting attack on him accomplished these results:  
—Put the late-running Rockefeller on the defensive by inviting him to engage in a television debate which Rockefeller promptly declined.  
—Demonstrated again that Nixon is a master of the "free-for-all" political exchange.

Nixon delivered his return fire at a news conference in Camden, N.J., taking issue with Rockefeller's point-by-point on such issues as the defense budget, aid to education, and labor-management matters.

President Eisenhower and other Republican leaders in Washington rallied behind the vice president in his counter-attack against Rockefeller's criticism of administration policies.

Sen. Barry Goldwater (R-Ariz.) said he could find "no difference" between Rockefeller's approach to current issues and that espoused by the Democratic presidential candidates.

The latest upheaval among the Republicans brought little comment from the Democrats. But former President Harry S. Truman told reporters in New York: "The more the Republicans quarrel the better satisfied I am."

Sen. Fred M. Mitter (D-Ill.) said that Eisenhower joined them in challenging the New York governor's assertion that the nation's defenses are inadequate.

### Nab Warehouseman For Many Thefts

VERNON, Calif. (AP) — At first, said police, warehouseman Joseph Gruber helped himself to employees' wares "to help friends."

Then he took home a truckload of toys, and gave them away to children in his neighborhood, detectives said.

"Soon stealing became a challenge with him," said officers. They said Gruber, a 29-year-old bachelor took a company truck to take items home from the discount house where he worked. Among the items, said police, were these:

Television sets, radios, tape recorders, power tools, blouses, rifles, silverware, household appliances, cameras, typewriters, luggage, air conditioners, a diamond ring, a complete hi-fi set, a mahjong set and a portable cement mixer.

"WHEN WE ARRESTED him Wednesday," said Det. Sgt. Jim Morrison, "he told us he was planning the high point of his career—winning a set with a wall refrigerator."

"He would probably have given that away, too, because he has a brand-new refrigerator in his kitchen—one he paid for."

Morrison said the \$350-month warehouseman stole goods totaling a value of \$900. He gave most of them away. Police undercover men traced the thefts to Gruber, who, they said, admitted the Robin Hood escape.

He was booked on a suspicion of grand theft.

## 'Mr. Anonymous' Granted Permanent Fame

GALESBURG (NEA) — "Mr. Anonymous" throws his money, but not his weight, around at Knox College.

The unknown donor, who has never seen the school, has poured \$85,000 into the school treasury in jumps ranging from \$2,500 to \$41,000 in the last nine years. His latest came as a \$41,000 jump in the last nine years.

Who is "Mr. Anonymous"? Three school officials know his name. Others know only that he is a business executive in a metropolitan area who has no direct connection with Knox other than several friendships with alumni.

President Sherry G. Umbeck has invited him to campus several times but other commitments have kept Mr. Anonymous from seeing the results of his generosity to science and interest in students, salary raises to faculty his name: "Anonymous."

## No Hope For E, H Boost On Returns

BY FAYE HEINLE

I recently wrote a column urging Secretary of the Treasury Robert B. Anderson to raise the interest rate on Series E and H bonds.

Back from Anderson's office, via William H. Neal, national director of the Treasury's Savings Bonds Division, comes a reply that holds no promise of our earning more interest on these bonds.

But Neal's answer is filled with information you should have. He writes:

"It should be emphasized that savings bonds are savings instruments, not Treasury securities subject to fluctuation on the open market."

"Their rate should be compared with that offered by savings institutions, commercial banks, savings banks and saving and loan associations."

"Hence we believe the savings bond rate of 2 1/2 per cent, when held to maturity is fair."

"In fact, the average rate of interest paid on the \$10 billion dollars of savings in financial institutions the country over is actually less than 2 1/2 per cent."

"Furthermore, in the case of savings bonds, the investment return is guaranteed for the full term of the bond, whereas the savings account interest or dividend rate may be revised downward at the option of the savings institution."

In his letter, Neal underscores "average rate of interest" in quoting the bank figure.

Commercial banks pay 3 per cent on their savings accounts, mutual savings banks 3 1/2 per cent but will up this to 3 3/4 per cent if you leave your money with them two years or more. Savings and loan associations pay 4 per cent on the average.

Neal lists the advantage of savings bonds over other savings media by citing the guaranteed rate of interest. Of course, he notes this is less than 3 1/2 per cent if the bond is redeemed before it matures.

It is as easy to buy a savings bond as it is to make a bank savings deposit and savings bonds, he says, are readily replaceable when lost, stolen or damaged.

Important to you should be the fact that taxes need not be paid on Series E bonds until the bonds are cashed.

Thus, with the permitted extensions of maturity, many holders can postpone redemption until a time in life when they may be in a lower bracket or subject to no tax at all.

You should note that the Treasury calls its Series E and H bonds "instruments of savings" as opposed to investments. This instrument of savings, they cite, has been especially designed for the ordinary saver.

I'd suggest you think about your savings from a number of different angles.

The most important thing is to save regularly.

I spoke with the young head of a family recently who told me that when he gets his weekly pay check, he first takes out a sum that he allocates to savings; and then worries about meeting bills for shelter, food, clothing and so forth.

Set short term savings goals and use the various types of bank savings accounts for this money. Then set longer term goals and use such media as savings bonds.

Then, begin to think of investing your savings. Remember that the government offers investors marketable securities in the form of bills, notes, certificates and bonds similar, in some respects, to corporate, rail or utility bonds, common or preferred stocks or mutual funds.

When you invest seek the maximum opportunity for the growth of your money with the least possible risk.

For the present, you evidently must be satisfied with a smaller return on capital from the various savings instruments.

## Japan's Floral Art Told At Cultivators' Open Meeting

The delicate art of Japanese floral arranging was presented before approximately 400 women Thursday afternoon in a special program, sponsored by the Kankakee Cultivators, local garden club at the Civic Auditorium. Arrangements, representative of the three Japanese styles, traditional, contemporary and informal, brought the art of Japanese flower arranging to the women.

Each member of the family received a gift as a remembrance. Games were played and prizes awarded to the winners.

The oldest member present was Mrs. Lena Cosh and the youngest was Larry Jacobsen, 10, a grandson of Mrs. Robert Ziems.

Lionel Boudreau of Essex received the farthest.

"Gift Wrappings" was the subject for the timely topic presented by Mrs. Dominic Frigo at a meeting of West Kankakee Home Bureau unit Tuesday. Hostess for the meeting was Mrs. William Richards of 103 W. Yankette St.

Mrs. Thomas Hemstreet, home adviser, gave the major lesson, "You're an Important Person."

Among the 16 women present were guests Mrs. Lee Call, Mrs. Mary Adam, Mrs. Lucy Thompson of Fort Dodge, Iowa, and Mrs. Pauline Whitney of Lonsdale.

Guests at the next meeting on July 5 will be 41 girls. The meeting will begin at 12:30 p.m. at the home of Mrs. Elmer Kleg in Arapark.

be used because it is thorny; materials must not be used which can also be used for foodstuffs, or materials which cannot be recognized must never be used.

And the giver certainly does not want to wish fire on the recipient.

Predominant colors Madame Arakawa used in her arrangement were reds, oranges and whites. Materials included peonies, roses, lilies, daisies, gladioli, carnations and dried materials.

Mrs. Arakawa explained how her mother has branched out into modern and abstract arrangements.

Games were played and prizes were won by Mrs. Cyrus Barlett, Mrs. Raymond Bode and Mrs. Edgar Raymon. The next that in Japan, flower arranging is required of every girl before her marriage. The Japanese feel that the art will teach her everything required to run a good home.

This Japanese art got its beginnings with the Buddhist movement into Japan. Flowers were originally used as offerings in the temples.

### How To Make Wolves Keep Their Distance

By DR. PAUL POPENOE  
In old-fashioned melodramas the lady would cry out, "Unhand me, villain!" I don't suppose any lady has actually said that to any villain in the past hundred years—any but Mrs. L., that is.  
"Two years ago I suddenly became a widow. I had a happy marriage; my children are grown; I'm still attractive, look much younger than my age, enjoy life and have a friendly disposition. I work in an organization with many men, and a number of them have dated me," she writes. "They all have one bad habit in common—unmanageable hands. How does a person manage them and still keep on good terms with their owners?"  
"Their excuse is that they just can't help it. They say they don't have the will-power to resist, or that it is one of the quickest ways to become acquainted. I doubt both of those claims. Men are such wonderful creatures—just wish they could be gentle men, too!"  
I PUT YOUR question up to some of our women counselors at the American Institute of Family Relations, Mrs. L. They suggested I ask women readers to write one of their own experiences and their successful tactics—the female usually has a tremendous amount of experience on this point. Write—L. I won't use your name in any way. Meanwhile, for Mrs. L., here are these suggestions:  
1. Use the time-honored technique of many teenagers—keep the male off-balance by changing the subject, moving on to another activity, keeping out of parked cars, and just distracting him.  
2. Ordinarily a girl seeking popularity follows the advice printed on the mayonnaise jar: "Keep cool but do not freeze." If your date becomes obstreperous, however, simply freeze. There's nothing less romantic to a man than to sit beside a cigar store wooden Indian—or her present-day successor!  
3. Start at the beginning of the evening by tactfully making your position clear. Any man worth cultivating will respect that—he doesn't want to be rebuffed. Others aren't worth cultivating.  
4. Follow another traditional line by saying to him, "I thought you were different. Don't disappoint me—that would really hurt my feelings. Be different."  
5. If he really needs shock treatment, tell him "jeally but firmly" that you enjoy his company and it was a delicious dinner but you don't expect to say for it by indulging in intimacies; you'd rather return his hospitality by inviting him out to dinner somewhere yourself.  
FINALLY, REMEMBER that many men fall too often they are books anyway when it comes to social intelligence) make passes because they think it is expected

### Overweight Mother Can Jeopardize Happiness

By IDA JEAN KAIN  
Overweight young mothers, today's column is for you. With all you have to do, it is natural to rationalize that you couldn't possibly get through your day if you had to be involved with a diet. You may even think that carrying the extra weight helps you to be more patient and a better-natured mother.  
The attitude that you would be irritable while reducing is totally false. In fact, it is a healthy and a better-natured mother.  
Overweights, recognize that the greatest favor you can do yourself and your family is to change your food habits and get on the healthy road to fewer pounds. Look upon this venture as a new beginning... then eating to reduce becomes a stimulating challenge.

## Even Banks' Slugging Can't Make Cubs Win

### Fords Lose 2nd Time In JC Little League

CHICAGO (AP)—Ernie Banks hit the biggest stick in the National League Thursday, but the Chicago Cubs took a 1-13 licking from the first-place Pittsburgh Pirates.

Banks hit a two-run homer in the sixth, the team's 14th, tied him with Ken Boyer of St. Louis for the National League lead. His two RBIs gave him the league lead in that department with 44.

Timely hitting and a shaky Chicago defense allowed the Cubs to win their series with the Cubs Hospital after Thursday, three games after he was knocked out by a line drive in the last round of a 10-round bout in New York state.

The Puerto Rican-born left-hander, who pitched in Roosevelt Stadium last night, was hit in the right arm by a line drive in the 10th inning. He was taken to the hospital and is expected to be out for several weeks.

ALTHOUGH they didn't need them, the Cubs pushed across five runs in the ninth to win the game. Banks hit a home run in the ninth, his 14th, to give the Cubs a 1-0 lead. The Cubs won the game 1-0.

It was the Cubs' second loss in a row. They had lost to the Pirates in their first game.

Smith pitched well in his first game, but he was hit by a line drive in the ninth inning. He was taken to the hospital and is expected to be out for several weeks.

Smith's game was a 1-0 loss to the Cubs. He pitched for the Cubs in his first game.

## U. S. Outlook Bright Despite Sober Reports

NEW YORK (AP) — Businessmen have had a fair share of sobering reports and statistics to swallow in the last two months. But today they have some pleasant ones for a change.

And they add up to a fairly healthy outlook for the weeks ahead. The new and more pleasant reports are:

1. The best rally in the stock market for some time — and sparked by investors turning to old-line and stable industries.

2. Evidence that the business slowdown has had but little effect on long-range business planning for plant and equipment spending.

3. Continuing spending by consumers without either a spurge set off by inflation fears or a purse tightening prompted by recession doubts.

4. A STRONG revival in U. S. exports after two years of world trade problems that could have threatened the dollar's position.

This export surplus pleases both the countless companies that sell abroad and the nation's money managers who have been disturbed by the loss of gold due to a two-year deficit in our balance payments.

In the first four months of the year our merchandise exports ran 22 per cent ahead of the like 1959 period. Imports went up by only 6 per cent, in contrast to their steeper climb a year ago.

The change has given this country a surplus of exports over imports so far this year of 1 1/4 billion dollars, more than three times that of a year ago. The big surplus is needed to offset the other U. S. payments abroad other than for imports—that is, for foreign aid; for travel; for maintaining military bases; for private investments.

AS A BOOSTER for the economy at home, the government still counts heavily on business capital spending. At the first of the year the Securities and Exchange Commission and the Department of Commerce estimated such spending as reaching 37 billion dollars.

Since then the slide in total industrial output, and the trend of customers to hold down inventories rather than build them up, have put a damper on some business expansion plans. But not much of one.

The pleasant pronouncements also extend to one of the industries hit by the spring slowdown.

Roger M. Blough, chairman of U. S. Steel, thinks steel output won't fall much lower than at present and will turn up again in August.

## Lucy, Hope Working On Feature Movie

BY BOB THOMAS  
HOLLYWOOD (AP)—Lucille Ball is breaking in her first new leading man in nine years. Fellow from Cleveland named Bob Hope. The famed pair is making a movie—the real, big-screen kind for theaters, not the living room box. The provocative title is "The Facts of Life."

The facts of Lucille's life are that she is as happy as could be expected, that she is plunging into work following her marital and professional divorce from Desi Arnaz.

WE SHARED LUNCH in her dressing room at the Desilu-Chaueng lot, where she toiled her years in "I Love Lucy." She and Desi still won the studio, along with two others.

Lucille seemed restrained and contemplative as she talked of the present and future. She appeared less willing to glance at the past.

"I love working with Bob," she said. "He's always such fun and such a professional. It's sounds funny, but I always feel like a real part of show business when I'm working with him."

"Doing a feature again after all these years is kind of hard. I had forgotten what pains they take to make movies."

"Another thing I had forgotten is how much time they take with your personal appearance. In TV, it didn't matter so much how I looked, so I never worried about

it. But with the big screen, they're very careful. I guess it wouldn't hurt me to look good for a change."

She looks very good. She has taken off several pounds and seems as pretty and perky as in her glamor days at MGM.

AS SOON AS she finishes the film in mid-summer, she takes off for New York to begin work on a stage musical, "Wildcat."

"It's the story of a gal who works in the pillfields in the 1930s."

"We'll open in New York around Thanksgiving. If it's a hit, I'll stay in it a year and a half. It's a rough role, with lots of rough stuff and singing and some dancing. I'm not worried that it will be too strenuous. I always wanted to be a stage actress and I never made it because I always had contracts in Hollywood. Now I can realize my ambition."

Is all this work to fill the void left in her personal life?

"No," she replied. "I was all set to do the show before it happened. I had signed the contracts and enrolled the kids in school in
