FUEHRER BLAMES BRITAIN FOR WAR

APPROPRIATION ESTIMATES FOR FARMS SLASHED

20 Per Cent Cut Is Recommended by Committee

Washington, Jan. 30.—A 20 per cent cut in President Roosevelt's farm appropriation estimates was recommended today by the committee on appropriations, raising one of the session's touchiest political issues.

For the fiscal year beginning July 1, Mr. Roosevelt asked an appropriation of \$788,929,519, for the agriculture department. The committee trimmed this by \$154,530,263, chiefly by slashing \$72,678,812 from the surplus commodity disposal item, \$47,575,000 asked for the 1937 sugar act, and \$35,000 asked for farm tenant loans.

These and various small cuts added up to the largest reduction made in any single major appropriation measure by the committee this session—despite the fact that sentiment for farm spending frequently is stronger than that for any other type of expenditure. Congressional leaders characterize a farm appropriation as the touchiest test of an economy movement in congress.

Retrenchment Necessary

Asserting that no appropriation can ever be said to be wholly adequate, the committee said in its report to the house:

"The current status of federal finances has imposed a necessity for retrenchment and the committee has endeavored to apply the cuts in this bill where they would be the least harmful to the public interest."

The committee said it had been advised that the regular fund for disposal of surplus commodities—30 per cent of all tariff receipts—would amount to about \$100,000,000 in 1941, or about \$75,000,000 more than was available this year.

It further explained that it felt it was inadvisable to ask the house to increase this automatic fund, which the senate last year boosted by \$113,000,000.

The committee eliminated the \$25,000,000 farm tenant loan provision for the last minute when Rep. Woodrum (D-Va.) contended that if retained it would mean less than one project for each of the 3,000 counties in the country.

Parity Payment Shouted Down

Members reported that Rep. Mahon (D-Tex.) proposed that the committee write a \$250,000,000 parity payment item into the bill but it was shouted down.

The committee also made a \$25,000 reduction in the item for salaries of rural electrification officials, primarily on the ground that administrative promotions had been too frequent.

As for the sugar act money, the subcommittee which prepared the bill made no comment, but Rep. Dicken (R-Ill.), who initiated the move to eliminate the \$47,575,000 altogether gave two reasons.

In the first place, he said, the act expires at the end of this year. In

His father's will provides Major Fraser must marry to claim his inheritance. So long as he remains a bachelor he can have only the income from the fortune, not the principal.

RUSSIA AGAIN ATTACKS SOUTH FINLAND TOWNS

Designed To Offset Reverses in Other Sectors

By THE ASSOCIATED PRESS

A Finnish air raid on a Russian harbor, possibly the Kronstadt naval base, and a further aerial sweep into Soviet territory was described by Finland today as German planes renewed fierce attacks on British shipping.

The Finnish high command said 21 Russian planes were downed during air fighting yesterday in which the Finns, carrying air warfare to Soviet soil, bombed troop quarters and railway stations as well as the Russian port.

Russian land attacks northeast of Lake Ladoga, focus of the principal land fighting, were repulsed, the Finns said.

Britain reported one Nazi raider had been shot down during the second consecutive day of German assaults on shipping off the east coast of the British Isles.

Japan Makes Demands

Meanwhile, the Japanese foreign office announced that Foreign Minister Arita told British Ambassador Craigie that the return to Japan of 21 Germans seized by the British from the Japanese liner Asama Maru was "essential."

Russian warplanes ranged over southern Finland again today but early reports did not show what, if any, damage they inflicted.

Finns viewed the Soviet attacks far behind the battle lines as designed to offset Soviet reverses on the land fronts. The raiders caused fires in half a dozen cities.

A Finnish announcement said 33 planes were killed and 38 wounded yesterday but unofficial reports indicated a steeper casualty list.

Russia reported seven Finnish planes were downed during the day's fighting. Finns said they downed 21 Russian planes.

Orders 30 Jurors to Report Feb. 26

Circuit Judge James V. Bartley yesterday ordered Albert Tetrauli, clerk of the court, to draw the names of 30 jurors to report Feb. 26 for two weeks duty.

The judge said a number of civil cases have been set for that period.

FDR Asks Millions For Hospitals; Poor Areas

Washington, Jan. 30.—(P)—President Roosevelt asked congress today to approve a \$7,500,000 to \$10,000,000 experimental program for federal construction of approximately 50 hospitals in areas needing such facilities but unable to pay for them.

Setting forth the request in a "birthday message"—this being his 63rd birthday anniversary—Mr. Roosevelt said of his recommendations:

"I am confident that even this limited undertaking will bring substantial return in the saving of lives, rehabilitation of workers, and increased health and vigor of the people."

The plan, he declared, does not constitute a renewal of any past federal public works program using the "grants-in-aid" method of financing.

In Poor Areas

"The areas which I have in mind," he explained, "are areas so poor that they cannot raise their share of the cost of building and equipping a hospital."

The \$7,500,000 to \$10,000,000 appropriation which the President asked would be made to the public health service which, with the advice of an advisory council of medical and scientific authorities, would select locations for the hospitals and set local standards of operation.

The federal works agency would plan and execute the construction, title to the institutions would be held by the federal government, but operation would be a local financial responsibility.

The program would be put into effect during the next fiscal year.

ONLY THE JUDGE CAN PRONOUNCE GLADIOLI RIGHT

Spelling Lesson Is Part of Kinked Nose Suit

Several times in circuit court yesterday Judge James V. Bartley explained the correct pronunciation for the name of the lily-like flowers grown so extensively at Wichert, St. Anne and Mommence.

"The plural is gladioli-o-li with the accent on the second syllable," he said, and you could see the lips of attorneys moving as they tried manfully to memorize.

All in vain. After a few feeble attempts at the fancy pronunciation everyone concerned, except the judge, slipped back to the familiar gladioli with an accent on the first syllable.

Florist, Too!

This was true even of William E. Mitchell of Chicago, who sells the blossoms in his floral shop, and Arthur B. Schaafsma of Wichert, who grows them.

There were several interesting stories in this trial which began yesterday and continued today before a jury of four women and eight men.

For instance, there was Mr. Mitchell's nose. So much had been said about it that when he took the witness stand everyone in the courtroom, as one man, leaned forward to look.

It used to be long, narrow and straight, it was said. But since last Aug. 10 when Mr. Schaafsma punched it—

Kinked Proboscis

Well, anyone can see there's a kink in it. It's still pretty long.

The point is—did Mr. Schaafsma put the kink in it? And if so, how much had he ought to pay? That's for the jury to decide. Mitchell asks \$5,000 damages.

Mr. Mitchell said Mr. Schaafsma punched him because he cut a bunch of gladioli—five lavender and four pink—from the latter's field as samples, intending to buy some.

Mr. Schaafsma says the Chicagoan took a good many more than that, and that he was just defending his property.

The jury consists of Albert Rosenburg of Cabery, Myrtle Johnson of Herscher, Elmer Stearnman of Mommence, Eva LeBeau, Herbert Borge, Leo Bertrand, Lawrence Yonke, Stanley Magiera, Fred Sesens, Elta Olson, Mabel-Craft and Henry Sthay of Kankakee.

Admits 3 Blows

In his defense Schaafsma denied ever striking the florist on the nose. Admitting three blows, he said the first "brushed" off the child's glasses, the second struck his ear and the third his chest.

The flower grower sought to impeach the florist's story about cutting "samples" for the purpose of making a purchase later by testifying that the latter drove by his farm while he (Schaafsma) was in the yard but did not stop.

Schaafsma said he had been missing a lot of flowers previous to this incident and that he had been warned to look out for a man named Mitchell.

May Adopt Community Chest Plan

A movement to establish the community chest plan in Kankakee has started, it was learned today. A special chamber of commerce committee will be appointed soon to make an exhaustive study of this system for supplying necessary funds to all worthy charity and character building organizations of the community.

Used by nearly every large city in the state, the community chest system substitutes one annual drive for the numerous individual money-raising campaigns occurring every month or two during the year.

Workers who now help on several drives could put all effort behind one campaign, thus reducing expense of numerous campaigns, it is said.

He succeeds Henry H. Hackett who has been elected national president of the society with offices in Detroit.

A member of the society 31 years, Mr. Fortin became field representative in 1916, district manager in 1932. He was local secretary of the Beaverville arboretum for 21 years and ranking personal producer in the field department, leading it the past four years. He is a life member of the \$100,000 club and a former president of that club.

Seek Improvement in Relations of U. S.-Gt. Britain

Washington, Jan. 30.—(P)—Lord Lothian, the British ambassador, discussed with Secretary Hull today the possibility of relaxing British restrictions on American shipping, which had led to diplomatic exchanges.

After his conference, the ambassador told reporters he had discussed the possibility of guaranteeing not to take American ships into British control ports within the combat area forbidden to American ships by the neutrality act.

"This matter is still under discussion," he said, "and no decisions have yet been reached."

The ambassador said he also discussed with Hull the prospect of establishing a British control port in Canada, with the thought of obviating examination of American ships within the combat area.

Frozen Cable Puts Phone Service Out

More than 100 telephone subscribers in West Kankakee were without service Monday because of a cable failure. Linemen went out early yesterday but it was not until mid-afternoon that they were able to locate the trouble.

At a point west of the Station street bridge on highway 17 the feeder cable, encased in a three-inch metal pipe, dips underground to avoid interference with nearby electric power lines. In unearthing it yesterday, workmen found that water had seeped in around the cable sheaf, then froze and cracked the cable.

Manager A. J. LaBarre of the local exchange said that crews worked all night and hoped to have repairs completed by this afternoon. A special section of new cable had to be ordered out of Chicago and spliced in.

Character Can Be Easily Analyzed, Kiwanians Learn

The importance of character analysis in modern big business was told at last night's annual stag party of the Kiwanis club at the Elks club.

Lee Bond, sales manager of the Public Service company, has made a study of this science as a hobby. He told the Kiwanians a number of large corporations have character analysis experts in their employment and placement departments.

He said characters may be judged by features, shape of head, color of eyes, complexion and hands.

After hearing Mr. Bond's talk the clubmen played bingo and card games. The program was under the direction of the sports and games committee headed by Lawrence McCabe.

Quintuplets Have Rivals, Cairo, Egypt

Cairo, Egypt, Jan. 30.—(P)—Unconfirmed reports were received today that quintuplets, all girls, were born yesterday to Sayeda Gebassa, wife of an Egyptian clerk. The mother has seven other children, six of them sons.

The Cairo report of quintuplets lacks authoritative confirmation. Since the birth of the Dionne quintuplets in May, 1934, there have been many reports of such births.

200 American-Made Warplanes Landed Abroad for Finns

Bergen, Norway, Jan. 30.—(P)—Two hundred American-made warplanes for the Finnish air force were landed here from United States steamers today and started immediately by rail for Finland.

The planes arrived on the steamers Mormacsun and Mormacslide. There were reports here that the former had been held 30 days at the British contraband control station at Kirkwall, in the Orkney Islands.

Britain has denied that war supplies for Finland were being held up by her contraband control.

It was impossible to tell what type the planes were as they were kept in packing cases with no revealing marks.

The Mormacslide arrived Saturday and the Mormacsun a day later.

(With Washington's approval Finland was given prior right to purchase planes in the United States originally intended for the United States navy.)

Rumania on the Spot as Germany and Allies Seek Oil

Rumanian oil, now a life or death matter to Germany, is threatening to bring trouble to Bucharest. The Allies threaten economic reprisals if the oil is delivered, but Russian and German troops already are on the northern border to guard the shipments. Hungary, friendly for a time, has resumed demands for Transylvania. And, to complicate matters, most of the oil is owned by French, British and American companies.

HITLER TELLS OF 7 YEARS AS NAZI DICTATOR

Anniversary of His Chancellorship Observed

Berlin, Jan. 30.—(P)—(Via Radio)—Adolf Hitler declared tonight that Germany's struggle for existence under the weight of the Versailles treaty had made her so strong that "nothing any longer will be able to defeat us."

Holding England responsible for the present conflict, the Fuehrer declared that the true aims of "old Mr. Chamberlain" were the "complete destruction of the German Reich."

Hitler, making his first public address since November 8, when he narrowly escaped death in the Munich beer hall bombing, reviewed the fruits of the Versailles treaty, and said:

"We are today a nation of have-nots. We are surrounded by those who have all and who refuse to surrender what is vital to us."

The dismemberment of Poland, he said, was the excuse that England had been waiting for.

Poland Forced Into War

"Poland was forced into war by England," he declared. "But now it will also be England's turn to see what war is like."

Hitler, whose speech came as a surprise on the seventh anniversary of his accession to power, declared Germany's relations with Italy had "not changed."

"Close friendship binds us together," he said.

Turning to Russia, Hitler said he had succeeded in forming an alliance where Prime Minister Chamberlain had failed.

"Chamberlain the pious, Chamberlain the righteous, tried to come to an understanding with the atheistic state of Stalin," he said. "I can easily understand why the English are wild at the fact that I have succeeded where they failed."

As a result, he said, he no longer has anything to worry about from that direction.

He was introduced amid thunderous "heils" by Paul Joseph Goebbels, the propaganda minister, as "the one voice" of Germany.

"On January 30, it is the sign of the union of the German nation," said Goebbels, "and our thanks will not be empty words but battle."

Head of Reich 7 Years

Hitler's first remark, as unofficially translated into English, was a reference to his seven years at the head of the reich and a declaration that they had "seemed longer than many decades of the past."

"This is a great historic event," Hitler went on.

"We hear much today about democratic ideals . . . England has waged most of the wars of this world . . . A new Europe is supposed to arise and there should be general disarmament, and this disarmament is then supposed to begin the economic prosperity of Europe, especially free trade."

"Under this free trade, civilization is to flourish," he went on, still ap-

NAZIS RENEW BOMBINGS OF BRITISH SHIPS

London, Jan. 30.—(P)—Germany today renewed widespread air attacks on shipping along the east coast of the British Isles and Britain reported one of the Nazi raiders had been shot down.

Shore watchers saw one British patrol vessel attacked and escape unharm. Jets of water rose from either side as she zig-zagged to dodge two bombs dropped from a low-flying Nazi plane.

British fighters then chased the invader into the clouds, where the pursuit continued. Fighters were in action against other German planes over several east coast towns.

One plane flew over a Kentish coastal town, but no warning was sounded.

Another was chased out to sea from an east coast town by British fighter craft, and the sound of machine guns was heard.

Hand Traffic Paralyzed

The British found proud comfort in reports that yesterday in the worst winter storm of nearly a half-century the flying guardians of the coast still could fight when land traffic was almost paralyzed.

British sources estimated that 15 to 20 German planes took part in yesterday's onslaught—the broadest of the war—extending over 700 miles from the Shetland Islands south to the Kentish coast.

None of the attackers was reported to have penetrated inland and of 13 British merchant ships and one Latvian vessel bombed and machine-gunned not one was reported sunk, although there were several casualties among crewmen. The Germans also were said to have struck at two lightships.

(Berlin announced that seven "enemy-convoyed armed merchant ships and two patrol boats" were destroyed.)
