PEOTONE BOY KILLED BY TRAIN

CHIEF WARNS OF FIRE HAZARDS ON SPRING DAYS

All Rubbish Fires
Should Have
Attendants.

NEEDLESS LOSS

Flowers aren't the only things that bloom in the spring. Often times this season is the busiest of the year for the fire department, according to Fire Chief Roy Marquardt who offered several suggestions today on how to prevent many needless losses.

While citizens are starting their spring house cleaning, they don't want to overlook the rubbish that accumulates in attics and cellars during the winter months, said the chief. "When the rubbish is buried, someone should stand by to watch it. A large percentage of fires start in this manner."

Sparks from such fires may carry to nearby lots or land on a dry wood shingle roof and nestle there for an hour or more before a blaze is noticed, according to Chief Marquardt. Trivial causes have started some of the nation's greatest conflagrations.

Each Alarm Costs

"While the fire company spends half an hour putting out such a bonfire, a big blaze might break out in a house or factory on the other side of town and an entire district may be left without protection for several minutes, and the first five minutes are the most important ones in any blaze," he continued.

Every time a fire alarm leaves the fire house, it costs the taxpayers real money. Even a grass fire is not trivial.

Lake Rainy Days

Firemen are one class of people who like rainy days. Because fires are much less likely to start in damp weather, especially in the case of roof blazes. The local fire department answered the greatest number of calls in one month in history during the driest last summer. A total of 52 alarms were recorded during July 1936.

Most of the big conflagrations have started after stretches of dry weather. A chimney spark that is too small to affect a fire-resistant roof will often set a wooden roof on fire, and combustible roofs give off flying embers that spread like the wind.

Foolish Stunts

Smoking in bed is always foolhardy, the chief pointed out. Putting hot ashes in wooden containers is also poor practice. Smoke pipes ought to be cleaned each spring and every fireplace should be provided with a screen to prevent sparks from jumping out onto rugs and furniture.

Leaving paint or oil-soaked rags around near heat or hot sun causes spontaneous combustion.

The chief offers 10 points to remember about the prevention of fires.

Eight Are Drowned When Tugboat Capsizes

MYSTERY

Oakland, Calif. police have been asked to investigate the death of Miss Edna Sherman, above, 25, found in the garage of her parents' home, apparently the victim of monoxide poisoning.

Appeals To Suspect To Surrender

New York, April 10.—P. John A. Lyons, assistant chief police inspector, in effect issued this appeal today to Robert Irwin, suspect in the Beckman Hill triple murders.

"An insane man cannot be prosecuted for murder. Give yourself up."

Two weeks ago tonight Veronica Gordon, artist's model, her mother and a roomer in their home were killed by an unidentified assailant in the fortnight that has elapsed a half dozen possible suspects have been named with police finally concentrating on Irwin, the eccentric sculptor and divinity student.

"The man is stark mad," commented Lyons. "In my opinion he will be judged insane and placed in an institution."

A 100,000 dollar voluntary inmate of a hospital for the insane Irwin may be headed for the west coast, Lyons said.

Reports were received at police headquarters that a motorist had identified a photograph of Irwin as that of a hitch-hiker enroute to Indianapolis or Terre Haute. The man was seen near Collinsville, Ill.

Pennsylvania Man Hurt Near Ashkum

Ashkum, April 10.—(RN Special)—Robert Saus, Erie, Pa., salesman, lay unconscious in Paxton community hospital today, seriously injured as a result of an automobile accident at 6:30 o'clock Friday evening at the intersection of highways 49 and 116, four miles east of Ashkum.

Saus has a broken leg and determined internal injuries. His car was struck squarely in the middle by a cheese truck in which two men were riding. They received only minor abrasions and their names were not learned.

The injured man, identified as Saus through papers in his pocket, was driving alone, headed west on route 116. It was said that he did not stop for the stop sign and shot across in front of the cheese truck, traveling south on highway 49.

Saus' vehicle turned over several times and the load of salad dressing and cheese in the truck was scattered all over the intersection. Both cars were wrecked.

Police Receive 3 Theft Reports

Henry Dunham, 320 North Rosewood avenue, reported to police this morning that someone stole a chevrolet coat, vest, jacket and wrenches from his auto while it was parked near East Avenue and Oak streets last evening.

VESSEL SINKS WHILE TOWING AN OIL BARGE

Without Warning It
Lurches, Turns
on Its Side.

DELAWARE RIVER

Chesler, Pa., April 10.—Seven men and a girl aboard the tugboat Radiant were missing today after the vessel sank in the Delaware river near Edington. Two of the crew were saved.

Alfred Robinson, first engineer, Camden, N. J., and his 15-year-old daughter, Mrs. Robinson, brother of Alfred, Woodie Owen, deck hand, Emory Ralph, deck hand, L. Mitchell, fireman, Philadelphia, John Hurley, fireman, Camden, N. J., R. Calles, Cook, Philadelphia, Captain Reuben S. Daisey, 57, and Anthony Clark, first mate, escaped by swimming to a barge the tug had in tow.

Captain Daisey, fleeing from exposure, was taken to his home. His son, Dewitt Daisey, said his father told him "the water was very cold and we don't think the others had a chance."

The son related that his father told him "all were on deck about midnight, enjoying the ride. The tug left Glard Point between 7 and 8 o'clock (last night) towing a barge of the Gulf Refining company to Bridgeton, N. J."

"When they got opposite Edington, near Thimble Island, the tug without any warning whatever, turned over on its side with a sudden lurch. Father and Clark were thrown into the water."

He said his father believed the others also were plunged overboard.

Divers descended to the river bottom seeking the bodies of the eight persons who were missing. Their efforts were not rewarded immediately.

The Radiant went down before the barges could be cut loose but both had long connecting lines and they were not dragged down. The lines were severed and the barge towed ashore later.

Driver Ends Up in Ditch; is Fined \$10

Lester Keen, 535 East River street, was fined \$10 and costs by Justice Leonard Swedoff this morning when he pled guilty to a charge of reckless driving. The fine was suspended on his promise of future good behavior.

The complainant was Mrs. Frances Lamontagne, 1055 South Elm avenue, who charged that Keen was weaving all over highway 49 with his vehicle at 11 o'clock Friday evening. When he passed her auto, she said, he cut in sharply and nearly forced her off the pavement.

Both cars were headed south. At the cemetery curve, Keen failed to make the turn and skidded off the pavement into the ditch near the railroad tracks. It was there that Police Officers Edmund Klatta and Percy LaGesse picked him up. He had been drinking, it was said.

JUDGE ORDERS ANNEXATION OF SCHOOL LAND

Momence Will Get
Exline-Ganeer
Territory.

FOR TEST CASE

A writ of mandamus directing County Superintendent of Schools Clarence J. Kennedy to annex to Momence community high school four sections of non-high school territory in Ganeer township at and adjoining Exline was ordered today by Circuit Judge W. R. Hunter.

Judge Hunter's action is the result of a hearing before him on Tuesday in which Superintendent Kennedy, although nominally one of the parties to a contest, was in that position in order to be directed by the court as to what to do.

The court's order is based on an opinion as to state school law which is in direct conflict with an opinion on the law recently quoted to Kennedy by T. A. Reynolds, assistant superintendent of the state department of education.

The whole matter arises out of the fact that three high schools, Bradley, St. George and Momence, are contesting for non-high school territory in Ganeer and Bourbonnais townships.

The first move in this contest was made recently in behalf of the Bradley school when a petition was filed in Kennedy's office asking that an election be held in the non-high school territory on the proposition of whether that territory would be joined to Bradley's high school district to form a new community high school district.

Next, a petition was filed signed by voters of the four sections of land at Exline, which was included in the Bradley petition, asking that these four sections be added by outright annexation to the Momence community high school district.

This request was based on a provision of the school law which provides that if there are sufficient signers in the territory to be annexed, and if there are no objections from voters in the existing district, the superintendent of schools is to issue an order of annexation.

Finally, a third petition was filed in behalf of St. George high school asking that an election be held in the non-high school territory as to whether that territory would be added to the St. George district to form a new community district.

Faced with these three petitions, the county superintendent of schools asked advice from the state educational department and was advised that the school law providing annexation outright is unconstitutional because one section of it has been so decreed by the supreme court.

The superintendent also advised that in case of two similar petitions for the same object, such as those in behalf of the Bradley and St. George schools, he had no recourse except to act on the one filed first.

Accordingly, the superintendent of schools "pleaded" the Exline petition for outright annexation and began preparations for the election asked for in the Bradley petition.

A Test Case

Then Harry Yonka, one of the signers to the Exline petition, asked the circuit court for a writ of mandamus directing the county superintendent to issue the annexation order, and a test case was filed.

Accordingly, the superintendent of schools "pleaded" the Exline petition for outright annexation and began preparations for the election asked for in the Bradley petition.

Dynamite is Useless In Body Search

Workmen today were still dragging the Kankakee river at the Garden of Eden resort east of Momence in an effort to recover the body of Mrs. Elizabeth Bellmore, 43, of Chicago, who jumped into the water Tuesday afternoon.

Yesterday, through arrangements made by members of the family, several charges of dynamite were set off by Coroner A. E. Kerger advised against any additional blasts, pointing out that the explosive may result in the body being covered with debris so that it would never be recovered.

Yesterday one of the boatmen dragging the river hooked a piece of cloth which was identified by members of the family as a portion of Mrs. Bellmore's dress.

Six men are dragging the water which at this point is deep and swift. The Cleary brothers of Momence are under the employ of Coroner Kerger while four members of the Harvey fire department are working under arrangements made by the family.

Finally, a third petition was filed in behalf of St. George high school asking that an election be held in the non-high school territory as to whether that territory would be added to the St. George district to form a new community district.

Faced with these three petitions, the county superintendent of schools asked advice from the state educational department and was advised that the school law providing annexation outright is unconstitutional because one section of it has been so decreed by the supreme court.

VICTIM IS SON OF POSTMASTER HUGH GORMAN

Boy, 10 Years Old,
Playing Ball
on Tracks.

DIES INSTANTLY

Peotone, April 10.—(RN Special)—Dennis Gorman, 10-year old son of Postmaster and Mrs. Hugh Gorman of Peotone was instantly killed shortly after 10 o'clock this morning by an Illinois Central passenger train.

The boy was playing ball with other youngsters near the railroad tracks and was struck when he ran onto the tracks to retrieve the ball, according to authorities who attempted to piece together an account of the tragedy from his hysterical playmates, apparently the only witnesses.

Freight Passes

Another train, a freight, was passing through the village at the same time and Dennis became confused when he stepped onto the tracks. The freight was headed north on the east tracks. Dennis followed the ball as it bounded across the west rails.

He was about to pick it up when the passenger train, southbound No. 1, New Orleans special, passed over his body, grinding it to pieces under the heavy wheels. The train is due in Kankakee at 10:17 a. m.

Body Mangled

His mangled body was removed to the Harry Pedde funeral home. Funeral arrangements and the time of the inquest by Dr. Landon Brannon, Will county coroner, have not been set.

Besides his parents, the boy leaves three brothers, Jack, Patrick and Hugh Jr. He was a student in the fifth grade in Peotone public schools.

NEED EXTRA POTASH**

leaves of the young corn plants turn yellow between the veins and show a brown marginal firing or "leaf scorch". The yellowish streaking may extend to the upper leaves later in the season. The plants are stunted, and the stalks may

● All farmers know that manure applied to their soils will produce good-quality corn, but it requires 10 tons of good manure to supply the quantity of potash contained in 200 pounds of muriate of potash. It is a waste of the manure to apply it to areas where the soil is already "alkali," since just to get the benefit of the potash, this nitrogen would be more effective if used on the upland areas of the farm which need more nitrogen and organic matter. The potash can be supplied profitably in fertilizers since it is now the cheapest of the three chief plant foods in fertilizers. ● See your fertilizer manufacturer or dealer about high-potash fertilizers.

 Apply for seedlings at half price of \$60 a set at the rate of 100,000 pounds per acre. The extra potash will not only increase total yields but will also give a greater percentage of marketable corn and more feed per acre. Write us for further information and corn literature.

DICK POWELL IN MUSICAL SHOW AT PARAMOUNT

"On The Avenue" Is Full of Irving Berlin Hits.

Swinging merrily along to the tune of the best songs ever written by the greatest writer of songs in the world, "On The Avenue," opening Sunday at the Paramount theater, represents Irving Berlin at his melodious best, in a musical that is full of pep and luring good spirits.

With Dick Powell and Madeleine Carroll making a new and romantic twosome of musical comedy, the lively musical presents a real-life romance of New York, in a show that's as big as the town. Alice Faye, the Ritz Brothers and George Barbier add both melody and mirth to the production.

Madeleine Carroll, noted hitherto for straight dramatic roles, makes a charming sweetheart for Dick Powell. The beginning of "On The Avenue," finds her as a wealthy debutante, entering a theater with her father, George Barbier, and an ex-actor, Alan Mowbray, at the moment that Dick Powell, Alice Faye and the Ritz Brothers are engaged in a hilarious take-off on the home life of "the richest girl in the world."

Infuriated Madeleine stalks from the theater, threatens the manager with suit, and brushes past a stage doorman to snatch Alice's wig from her and to break the window of Dick's dressing room before she is forcibly ejected.

Reluctant later, Madeleine apologizes for being a poor sport, and invites Dick to dinner. Falling in love with her, Dick promises to revise the script, and invites her to the next performance. At this, however, Alice, Dick's partner, horrifies him by adding even more caustic lines to the script.

Madeleine takes her revenge on Dick for the public humiliation, but, in a surprising scene, in which the music of Irving Berlin plays a novel part, Dick finds a way to clear up the misunderstandings that have parted them and to bring a thrilling conclusion to the film.

Swank in its songs, in its romantic stars, and in its lovely chor-

STARS OF "ON THE AVENUE"

Alice Faye, Dick Powell and Madeleine Carroll are definitely on the avenue in "On The Avenue," which starts Sunday at the Paramount. Supporting the three principals pictured above are the Ritz Brothers.

"LOVE IS NEWS" COMING TO PARAMOUNT NEXT THURSDAY

The romance of a thrilling three-some whose kisses crash the headlines and whose escapades sell extras, Tyfone Power, Loretta Young and Don Ameche provides hilarious excitement in the Twentieth Century-Fox streamline hit "Love Is News," opening Thursday at the Paramount theater.

With Loretta in the role of a beautiful heiress heckled and pestered by sensation-seeking newspapers, the enjoyable pace is set at "Love Is News," which is a comedy against Tyfone Power, ace newshawk who has just tracked her hawk into the headlines, without, however, reckoning with his dynamic, hard-driving managing editor, Don Ameche (radio star of "The First Nighter").

To give newsmen Tyfone a dose of his own medicine, Loretta determines to make him a public figure, and not only announces her engagement to him but also states that she has presented him with a million dollars.

By every hand, Tyfone strives to expose the hoax but his efforts serve only to increase his notoriety, as well as his unpopularity with the managing editor. On a wild chase into the country, both the newshawk and his quarry are arrested for speeding and jailed by county Judge Slim Summerville, an incident which results in some of the most hilarious moments in the film.

Loretta's revenge works itself up to a bewildering and amusing climax in which the tables are suddenly turned and the pair find themselves. "On The Avenue" has the added virtue of presenting some merrily madcap performances by reliable Hollywood funmakers.

Worthy of a separate note are the distinctive and lovely melodies Irving Berlin composed for the film. "This Year's Kisses," "You're Laughing at Me," "Slumming on Park Avenue," "I've Got My Love to Keep Me Warm," "The Girl on the Police Gazette," and a novelty number written for the Ritz Brothers, called "He Ain't Got Rhythm."

LUNA THEATER HAS POWERFUL DRAMA SUNDAY

"Outcast" Depicts Mob Violence at Worst.

Latest screen drama to discuss such mob movements as teaching that problem peculiar to America is "Outcast," which opens on Sunday at the Luna theater.

Based on Frank R. Adams' novel and magazine serial, "Happiness Preferred," the new drama deals with the effects of small-town gossip, rumor and the undercurrents of hatred and distrust that have often led in real life to outbreaks of violence in more remote sections of the country.

The filming of such a story in which a genuinely serious problem is used as the background of a dramatic romance points to a willingness on the part of producers to create adult, though-provoking pictures so long as the public wishes to see them.

The story deals with the career of a young physician, ascribed of responsibility for the death of his best friend's young and attractive wife. Warren William plays the physician. Sister of William's friend and benefactor is Karen Morley.

Disatisfied with the acquittal verdict rendered by the jury, Miss Morley determines to wreck William's career, and the story hinges on this vengeance motive, which finally leads her to the small town where William "has" taken refuge from her. There she spreads her gospel of hate against the man who has saved her from ruin.

By the time she discovers his innocence and her love for him, it is too late to save him from the storm she has provoked. She too is caught in its fury.

The cast also includes Lewis Stone, who returns to films after an absence of over a year.

Moran, the day "Paul" or "Vahant is the Word for Carrie," John Wray, who played Jackie's father in that film and is again the parent in "Outcast," Christian Rub, Jonathan Hale, Esther Dale, and over two hundred others.

Gutzon, Borah's "Face" of Washington, carried on Rushmore mountain in the Black Hills of South Dakota, is 60 feet long.

Some shrimps have their eyes at the ends of long stalks.

"Sinful" Here Four Days at Majestic

The Majestic theater in cooperation with the current national and state-wide drive against social diseases, announces the showing of "Sinful" at the Majestic on Monday, Tuesday, Wednesday and Thursday.

The program on these days will be shown to segregated audiences of men and women beginning at 2:30 and evening performances for men at 7 and 9 p. m.

The program will consist of a 60-minute Hollywood production of modern youth, a 30-minute lecture and the showing of a series of series shot in hospitals, clinics, and insane asylums by the United States Public Health Service.

The picture is a presentation of facts. It is not shown before mixed audiences. No one under the age of 16 is admitted. Lectures are given accompanying the picture for both men and women.

The pictures recently have been shown in Hockford, Danville, Beloit and Springfield to crowded houses. This show is not to be confused with those that are merely sensational and daring but is strictly of the educational nature.

Vaudeville Revue at Joliet Sunday

Vaudeville revue at the Joliet theater, Joliet, Sunday. One day only, headed by the Three Samuels and Harrier Hayes in "Good to the Last Tap," Bill Anson in "That Clever Young Man," the Frazee Sisters in "Modern Rhythm," Miss Terry Howard with Jack Talley in "What's a Say Miesler?" Joe Fanton and company, a four people act.

On the screen, the clever ringleader of the counterfeiting ring in "Midnight Taxi," Twentieth Century-Fox film, solve one of the toughest problems facing the police money makers when they hit upon the ingenious idea of using taxi drivers to distribute the counterfeit band. They reckon, however, without the art of Brian Donlevy. Cast as a secret government investigator in a romantic role, opposite Frances Drake, Donlevy cracks the taxi business and breaks up the ring.

The Japanese have learned that quality silk can come only from healthy silkworms and under the eggs or the moths must be examined microscopically for disease.

The flightless cormorant of the Galapagos Islands, cannot breathe with its beak closed. The nostrils grow together before the bird is hatched.
