TRAGEDY DEATH TOLL GROWS AT SALEM, ILLINOIS

Many of Bodies Too
Badly Burned For
Identification.

DELAY INQUEST

Salem, Ill., March 25.—(AP)—Grief-stricken relatives and friends sought today to identify victims of one of the worst motor-bus disasters in the history of the nation.

All members of a professional roller skating troupe, twenty of the twenty-three passengers of the privately operated bus which crashed into a bridge abutment near here yesterday were dead today. Eighteen victims were instantly killed when the gasoline tanks exploded and enveloped the vehicle in flames 45 feet high.

Two of the victims died in the Salem hospital early today from burns received in the crash while the three survivors later removed to a St. Louis hospital were reported in a serious condition from first degree burns.

Difficult to Identify
Crowding into the funeral home here, relatives stunned by the score of the disaster found it difficult to identify one charred body from another and only six of the victims had been positively identified 21 hours after the accident.

Coroner S. D. Carrigan, said the bodies would be released as soon as relatives made positive identification. He said the jury had examined the wreckage but that the inquest would not be held for several days, pending further investigation.

State's Attorney Ward Holt, said he had conducted a "partial investigation" which clearly indicated its cause to be the blowout of the right front tire which caused the bus to crash into the bridge abutment.

Three Recently Purchased
The states disclosed the tires on the bus had been recently purchased in Miami, Fla., and that the bus had made only two trips with the new set of tires, one from Miami to Detroit and the other trip from Detroit to St. Louis.

John L. "Schiboy" Greckmore, Miami, Fla., showed improvement, although his condition remains critical, Kaplan said.

Mrs. Thomas' husband, Dick Thomas, Chicago, driver of the bus, and Don Flannery, Kansas City, Kas., skaters also suffered severe burns.

Among those killed were six women and a child.
Only six of the dead had been identified definitely early today.
The others were so badly charred that intimate friends and fellow workers found it impossible to name them.

Vic Boudreau Is Right Type Of Man For Assessor's Post

Each man on the William H. Matland ticket of candidates for the Kankakee township election on April 6 was recommended by the township, as elected representatives of the voters, because of his special qualifications and outstanding ability.

VICTOR BOUDREAU

Victor Boudreau, the candidate for assessor who is known to his friends as "Vic," is deserving of special recognition in that regard and in selecting his assessor, the people of the township should give him due consideration. The office of assessor is an important one to everyone, since that official determines the valuation of property for taxing purposes.

The assessor should have a close knowledge of the community in which he works. He should know property values, he should be a man of sound business judgment and experience and be just and honest with all people.

Vic Boudreau is just such a man. He has resided in Kankakee all his life. He knows the community intimately and has been connected with business affairs in Kankakee

INCREASE IN AIR MAIL HERE IS OVER 300%

The use of air mail service has increased 300 per cent in the Kankakee postoffice during the past year, it was announced today by Postmaster George P. Ravens.

A letter posted as late as 5 o'clock this afternoon at the local office will be delivered in Seattle, Portland, San Francisco, Los Angeles or San Diego by 10 o'clock tomorrow morning if a special delivery stamp is attached, it was pointed out. Without the special fee, a letter destined for one of these cities will be delivered tomorrow afternoon.

On the east coast, such a letter would reach its destination in the morning delivery if sent by ordinary air mail. All of the larger cities of the U. S. now receive relatively the same service, according to Postmaster Ravens.

Besides expediting business transactions, air mail increases social correspondence, since it is first to arrive, first to be opened and first to be answered. All classes of air mail go on a flat rate of six cents an ounce, or three-cents more than railway mail service.

Expressed by W. Scott Hollister, superintendent of mails, "air mail not only speeds up business but also romance, and none is too old to have an eye for one or a heart for the other."

One of the suits is by Irvin Lefever of Kankakee against his wife Ellen whom he married in 1919 and whom he charges with extreme and repeated cruelty. They lived together, the complaint states, until last June 1.

Menace Case
The second suit is by Mrs. Mary Pedigo of Mokena, represented by Attorney Varnum A. Parish, against her husband Harry whom she charges with desertion. They were married on July 29, 1930, the complaint states, and lived together until March 6, 1934. They have a son Harry, 15, whose custody the mother asks, also alimony.

Mrs. Irene Ames Roche of Kankakee asks a divorce from her husband Thomas, charged with desertion, and also the right to resume her maiden name.

Local Contestant Killed in Tragedy

Kay Wilson of Chicago, one of 20 persons killed in a bus accident yesterday at Salem, Ill., was one of the contestants in the marathon contest at Avon resort east of Kankakee in the summer of 1935.

He was teamed with blond Edna Grawacke of Chicago. Neither won the prize in the contest, which was promoted by Leo Selzer of Chicago who later inaugurated a roller skating derbies throughout the country.

After taking part in the marathon here, Wilson continued in Selzer's employ. Passengers in the bus with him were professional skaters also in Selzer's show which recently was operating in Chicago.

STOVE FACTORY WORKERS ALSO GET VACATIONS

1,350 Local Employees
are Affected by
New Boost.

DUE APRIL FIRST

All factory workers of the Florence Stove company will receive another 5 per cent wage increase on April 1, it was reported today. This is the third 5 per cent boost awarded by the firm in little more than half a year.

W. L. Cooper, vice-president and manager of the company, was out of town and could not be reached for a statement. The increase, however, was confirmed by J. W. Pawthrop, office manager, who said about 1,350 employees here will benefit by the raise.

1 Week Vacation
The Florence officials also have voted to award a week's vacation with pay to all employees who have been in the service for one year or more. Approximately 1,200 workers will participate in this benefit.

It was not made known whether the company's other factories at Newark, Ohio, and Gardner, Mass., would also boost their employees' pay. They generally have done so, in the past.

Other Increases
Two 5 per cent increases were granted here on Jan. 1, 1937, and Oct. 15, 1936. The Florence company is now the world's largest stove manufacturer.

Last Christmas the Florence company paid a bonus to 3,000 employees of its three plants totalling \$100,000. The bonus was based on 2 1/2 per cent of wages of employees for the year.

He was found sitting in a chair in the kitchen, the victim of a heart attack, and apparently had been sitting there all night. He was last seen alive at the Aroma Park postoffice yesterday afternoon about 4 o'clock.

The body was found by Miss Alta Case, who resides across the street from the Danforth place. This morning she noticed that no smoke was coming from the chimney of the Danforth home and, surmising something was wrong, peeked in the window.

Seeing the body, she went to the postoffice and reported the death. Coroner A. E. Kerger was notified, and he sent Deputy Edward P. Madison to Aroma Park to make a preliminary investigation.

Of the nine, five are young men and the others girls. Sunday night, on Western avenue near 111th street, as Davis and Eugene Mickell, also of Kankakee, were returning home from Chicago with Mickell driving, one of the young men jumped on the running board of the car.

The bombs fell chiefly in the outskirts, ruins of the capital after the central districts of the city.

The Madrid bombardment was apparently only a part of widespread attacks in other parts of Spain.

WHO THEY ARE AND WHAT THEY STAND FOR

Looking Forward To The Township Election

VOTE THE REPUBLICAN TICKET STRAIGHT

THE CITIZENS VIEW POINT

Two years ago, the voters of Kankakee Township were called upon to decide an important question. This question was whether they would keep their county affairs in the hands of an economical Republican administration, or turn it over to the so-called New Dealers, meaning a spending orgy of the taxpayers' money.

They chose Republican economy.

As a result of this choice, Kankakee County is still out of debt and, better still, the county tax rate was reduced from 60 cents to only 15 cents on the hundred dollars. A part of the big accomplishments during last year were five miles of black topping on secondary roads, thirty-one miles of macadam roads besides many improvements in grading, ditching, graveling, bridges, etc.

This year, the New Dealers are again seeking to gain control of county affairs as well as to retain their hold on township matters which they have possessed for the past four years. Again the line will be sharply drawn between Republican economy on the one hand and New Deal squandering of the taxpayers' money on the other.

The Republican Township ticket consists chiefly of entirely new faces—men who have not heretofore occupied public office, but whose characters, reputations and abilities vouchsafe an honest, safe and dependable administration of township and county affairs.

Take William H. Maitland for instance. He is a World War veteran and has spent practically all his adult life in a factory where he has come face to face with all the problems of a laboring man. He is former commander of the American Legion, commander of the American Legion Drum and Bugle Corps and an officer in the local company of the national guard. He is married and the father of one child, a daughter.

Mr. Maitland is cognizant of the fact that there are hundreds of poor people in Kankakee township who are entitled to relief from their distress, but who have been subject to much discrimination. In other words, quite a few people, who have not been getting their relief, should be taken care of. Mr. Maitland is a man of sympathetic nature and no needy person will be allowed to suffer if he is elected supervisor. He realizes that the whole poor relief setup needs reorganization and that each case should be given its own consideration. Subjects of relief, he feels, should be treated fairly and impartially without regard to politics, race or creed.

As a member of the county board of supervisors, Mr. Maitland is bound to take his place among those progressive members, who believe in keeping abreast with the times and at the same time conserve the county's resources so that taxes will be kept at a minimum commensurate with good government. He is a firm believer in the good roads program, so that the rural dweller can be kept in close touch with the city merchant and business man and vice versa. He completely understands that the city of Kankakee is the trading center for this section of the state, and he intends to lend whatever influence he has toward making it even greater.

As has been often said and is well known, Kankakee county is one of the few counties in the state, and the whole United States for that matter which is entirely free from debt. The county tax rate has been consistently reduced over a period of years and Mr. Maitland pledges himself to continue the policy of reducing the tax burden.

Two candidates for assistant supervisor are both men of intelligence and integrity. They are Attorney Donald Gray and City Detective Daniel Bergan. Neither have ever held public office.

Attorney Gray is well known in this community as an able young lawyer as well as an outstanding civic leader and social worker among the service clubs of the city. He is a member of the law firm of Gower, Gray and Gower and has had a successful career in the practice of law. He is an officer in the Y. M. C. A., where he has been active in boys' work for many years.

He holds one of the highest offices in the Kiwanis Club and has always taken a very active part in the sociology programs promoted by that organization. In addition, he belongs to the Kankakee High School Alumni Association, in which he has held various offices of importance and where his energy and progressiveness have been an important influence. Naturally he has been thrown in close contact with political economy and his friends feel that he is an outstanding candidate for the office he seeks.

Mr. Bergan has long been one of the most popular young men in Kankakee county as well as a public spirited citizen and an efficient workman. As city detective under Mayor Roy D. Taylor he has played an important part in cleaning up crime conditions in Kankakee. Although he entered the police department with very little previous experience, he immediately showed an aptitude for that kind of work and soon took rank among the best Kankakee has had. He is a tireless worker and his advent on the county board will add prestige to that organization.

The candidate for town clerk is Yvon Dandurand, present alderman of the Seventh Ward in the city of Kankakee and representative of the younger political element in this city and township. He, too, is a World War veteran and a factory worker. As Alderman on the city council he has shown exceptional ability and ranks as one of the most influential members of that body. He has always taken a leading and active part in community affairs and can be depended upon to give a good account of himself if elected to the office of town clerk.

Victor Boudreau is the Republican candidate for assessor. This is one of the most important positions to be filled at the coming Township election as the assessor is the official who places a valuation upon your property for tax purposes. Mr. Boudreau has been closely connected with the business affairs of Kankakee for many years having operated a clothing store on East Merchant Street, also a member of the County Board and Board of Review which has consistently each year lowered County taxes and valuations. In the Township election two years ago when he was a candidate for assistant supervisor, he led the entire ticket, which bespeaks for him the popular position he holds with the voters of Kankakee Township. Through his long residence in Kankakee, he undoubtedly understands real estate valuation. In addition, he is a man of good judgment and eminently fair, these two attributes being among the chief requirements of one who seeks the office of assessor. His friends predict that he will again make a wonderful race for the job he seeks.

The other candidates on the Republican Township ticket are all men who are well-known in this community and whose ambitions to serve are based upon desire to be a credit to their Township, their party, their friends and themselves. They are as follows:

For Justices of the Peace: Henry R. Bauer, Edward Nelson, Edward Hanson, Fred Boyd, and Fred A. Clark.

For Constables: Vito Markese, Farrell R. Fox, Thomas J. Balthazor, Joseph P. Boudreau, and Joseph Petit.

The Township election will be Tuesday, April 6, and the candidates on the Republican ticket are urging all their friends to assist them in every way possible from now until they are elected on that date.

On the same date the voters of the Kankakee Park District will fill two vacancies on the Park Board. The two Republican candidates for park commissioners are Joseph Tolson, former Circuit Clerk of Kankakee County, and Armand LeBeau, former alderman of the Third Ward. Both have a wide acquaintance in Kankakee and will make excellent members of the Park Board. They are both union men carrying cards in their respective trades and affiliated with Kankakee Federation of Labor. Their past record for honesty and fair dealing speaks for itself and when elected the interest of taxpayers will be safeguarded. They deserve your support.

FAMED BRITISH NOVELIST DIES; HEART DISEASE

John Drinkwater Is Stricken Suddenly This A. M. POPULAR IN U. S.

London, March 25—(UP)—John Drinkwater, 55, poet, dramatist, and essayist, died in his sleep today at his home in Malda Vale in north London. Heart disease was believed to be the cause of death.

Only yesterday, Drinkwater watched the Oxford-Cambridge boat race and the excitement may have affected a heart never strong. But Mrs. Drinkwater—Daisy Kennedy, violinist—said today:

"He was very happy all day. The last words he wrote in an article he was preparing on the coronation were: 'Happy and Glorious.'"

She said that a physician believed Drinkwater died at about 3 a. m. today.

Suffered Severe Shock
The one time insurance man, whom the theater fascinated—and lured to riches and fame from his prosaic, if successful business life, suffered a severe shock only two weeks ago, March 10.

Miss Kennedy had given a recital. She and Drinkwater were driving home when their motor collided with an omnibus.

Miss Kennedy's face was cut by glass. Drinkwater was uninjured. She was operated on March 12 and soon was able to go home.

"He went to the boat race yesterday," Mrs. Drinkwater said today, "and followed the race in a launch with his brother. When he came home he sat down and wrote his coronation article."

Only recently Drinkwater wrote an ode to the king for the official coronation program, to be published in May. Tuesday his coronation motion picture was shown privately.

Successful Playwright
One of the most successful playwrights of his time, and famous for such historical plays as Abraham Lincoln, Mary Stuart, Oliver Cromwell, and Robert E. Lee, among others, Drinkwater was known as well to scholars as a poet.

His range was wide, in poetry and in his plays. His verse ranged from the serious to such items as in his "all about me," verses for children, with its:

"Ermyntude,
"Was very rude
"To all her friends and neighbors."
His historical plays were many, but he wrote also such light—and successful—comedies as "The Bird in Hand."

Popular in America
To popularity in the theater and among book lovers, Drinkwater with his impressive appearance combined with a homely presence added popularity with lecture audiences particularly in the United States.

He was almost mobbed at the dock when he first visited the

MOVIES BOOM IN SWEDEN
Stockholm—(INS)—More than 43,000,000 kronor were spent on amusements in Sweden's major cities in 1936, or 10.5 per cent more

than the preceding year. The major part of this sum, or 26,000,000 kronor, was taken in by the motion picture theaters. Dramatic and concert performances and sports events

accounted for 9,300,000 kronor, and the balance was collected for other entertainments for which an amusement tax is demanded. Stockholm showed a 13 per cent increase

in the amount of tax collected. Gothenburg, 12.5 per cent, and Malmö, Sweden's third largest city, 12 per cent.
