# ARMISTICE PLEA IS REJECTED

## KANKAKEE HIGH WILL GRADUATE 120 ON JUNE 4TH

Rev. Johnson Will  
Preach Baccalaureate Sunday.  
PRESENT AWARD

Within 10 days another group of students will become alumni of Kankakee high school. Commencement exercises for approximately 120 seniors will be conducted on Friday, June 4, according to school authorities.

Baccalaureate services, sponsored as in past years by the Kankakee Ministers' association, will be conducted Sunday evening in the high school auditorium with the Rev. Melbourne L. Johnson, pastor of Trinity M. E. church, delivering a sermon on "Makers and Destroyers."

The Rev. Theodore Buchmüller, pastor of St. John Evangelical church, will act as chairman. The high school orchestra will play a procession, directed by George Piersol. Two numbers will be sung by the girls' glee club under the baton of Miss Olive Humphrey.

These same musical organizations will also appear on the commencement program. Principal speaker on this occasion will be Superintendent Frank A. Jensen of the LaSalle-Park township high school. Principal R. Y. Allison will present the class and diplomas will be awarded by Superintendent of Schools Irving Munson.

Munson Valedictorian  
The valedictorian of the class of 1937 is Irving Munson Jr., while the winners of the Kiwanis leadership trophies are June Markert and Robert Messier.

No salutatorian is named at Kankakee high, since a little difference seldom exists between the averages of the second and third highest students of the graduating class.

Students ranking in the upper 10 per cent of their class, all with averages of 90 or above for the four years include: June Markert, Ruth Irwin, Joan Simmons, Robert Messier, Franklin Zaring, Juanita Crunk, Elvora Grimes, Edythe Christian, Caryl Wilson, Jean Andrews, Mary Bunker, and Marjorie Kroehler.

Has High Average  
The valedictorian's four-year average was 95.5 per cent. He held regular berths on the football, baseball and track teams this year, is a member of the Quill and Scroll, sports editor of the Kankakee, and a member of the Keynote staff.

Miss Markert is a member of the Student council, Keynote staff and winner of a state essay contest. Messier is active in the Quill and Scroll, Student council, Commercial club, Hi-Y, Quill and Scroll, Latin club and on the Keynote staff.

The big social event of the spring season—the junior-senior prom, will be held Wednesday evening in the high school gym.

### LEGION COMPLETES PLANS

Dr. Edwin Hamilton will address the American Legion at 8 o'clock this evening in the Legion home. All members are requested to attend in order to complete the program for Memorial day and Poppy day.

## Mrs. Sophrina Noble, Member Of Pioneer Family, Is Dead

Mrs. Sophrina Magruder Noble, 80, pioneer resident of Kankakee county and member of a family prominent in civic and business affairs of the community, died at 6 o'clock this morning at her home, 805 South Greenwood, avenue, following an illness of several months of heart ailments and complications. She had been gravely ill the past two weeks. Members of her family were called to her bedside shortly after 4 o'clock this morning and were present when she succumbed. Funeral services will be conducted at 2 o'clock Thursday afternoon from the Phillips and Friday funeral home with the Rev. W. H. Craine, pastor of the First Methodist church, officiating. Burial will be in Mount Grove cemetery.

## Alfred Brady Gang Hold Up Goodland Bank

### D.U.V. Holds Memorial At High School

Memorial services were conducted in the high school and Departmental school auditorium this morning under the auspices of Mary C. Keeble, tent of the Daughters of Union Veterans of the Civil War. Mrs. Alice Delovergne, patriotic instructor, was presented by Principal R. Y. Allison.

The program opened with the high school band playing "Down the Stream," followed by the assembly singing "America." Mrs. Delovergne introduced Mrs. Cora Richards, president, Mrs. Velda Kepner, department patriotic instructor, Mrs. Helen Dillon and Mrs. Stella Mac LeVeque, past presidents. Attorney Harry S. Streeter, world war veteran and grandson of a civil war veteran, was the speaker. His address pertained to patriotism and the responsibility each American citizen should feel toward his flag and country. He was presented by Superintendent of Schools Irving Munson.

### KROEHLER SAYS VICKERY NOT A STRIKE BREAKER

The fourth day of the National Labor Relations board hearing in the case of the upholsterers union against the Kroehler Manufacturing company, charged with violations of the Wagner labor act, opened this morning with Clarence Kroehler, plant manager, again on the stand. His attorney, Harry H. Kahn, sought to show that he had been fair with both union and non-union employees and that as evidence of this he granted all workers a full week for the first week of the strike after they had returned.

Yesterday's session lasted until 6:10 p. m. in order that testimony of Louis J. Disser of Park Ridge, investigator for this district of the NLRB, might be finished. Disser, the third witness to be sworn in by John T. Lindsay, trial examiner.

Disser testified yesterday afternoon to tell of his part to mediate a settlement of the strike.

He told of meeting with Clarence Kroehler, ascertaining from the latter that the first group of men left their jobs on Sept. 14 because "the company wouldn't act as a collection agency for union dues," and informing Mr. Kroehler that he would recommend to union officials that the strike be called off if Kroehler would rehire all men.

Disser testified that at a morning conference on Sept. 29, the manager agreed that everyone would go back to work.

### PATROLMAN AND DEPUTY ENGAGE IN GUN BATTLE

One Believed Critically Wounded;  
Other Slightly.

### SECURE \$2,500

Watska, Ill., May 25—(UP)—All available Kankakee and Iroquois county deputy sheriffs and state police spread a net across the Indiana-Illinois state line today seeking two bandits who robbed the Goodland, Ind., state bank and fled westward.

Goodland, Ind., May 25—(UP)—Two bandits tentatively identified as members of Alfred Brady's "second Dillinger gang" robbed the Goodland State bank of \$2500 today and critically wounded an Indiana State policeman in their getaway.

Patrolman Paul Minneman was wounded near Logansport, about 25 miles east of Goodland, while exchanging shots with the bandit car. Capt. Matt Leach of the Indiana state police clamped down the road blockade system inaugurated during the two year hunt for the late John Dillinger and his gang, whom Brady and his followers had attempted to emulate.

Two airplanes were sent up to search for the bandits. One plane took off from Purdue university, and another from Logansport.

Escaped In Auto  
The bank was held up by two men tentatively identified as Brady and James Doliver. They escaped in an automobile bearing the same license plates as a car which carried three men who took \$1400 from the Fairland State bank April 27.

Brady and Doliver escaped from the Greenfield jail last fall after beating the sheriff. They boasted then that if they ever got out they would "make John Dillinger look like a piker."

Witnesses said the bandit car headed toward the Illinois line immediately after the holdup but apparently it backtracked from the border, across which deputy sheriffs and state police had thrown a blockade.

Probably Fatally Wounded  
Minneman attempted to halt the bandit car west of Logansport. A machine gun was thrust from the car, a blast was fired into the policeman's abdomen, and he roared away.

Sheriff Harry Huff of Newton county and Captain Leach said they were positive the robbery and shooting were committed by the Brady-Doliver team.

The bandits immediately picked up and when firemen arrived, the fumes vaporized and started a series of explosions. The children got out safely, but the entire tonneau of the auto was gutted. Firemen used three charges of foamite and 60 gallons of water to put out the blaze.

### Dickey Bird is in Bad With Law Again

Eddie Shannon, alias "Dickey Bird," colored, of 965 North Rosewood avenue, was arrested yesterday by Sheriff John Stack and Deputy Gene LaFontaine on charges of violating his probation. He was ordered to pay Fred Gibbs, also colored, for the suit he took from the latter's room or else return the suit. He had done neither.

Yesterday the sheriff located the suit at a cleaning firm where Dickey Bird had taken it to be dyed and cleaned. The sheriff also stated that he had not been reporting to the parole officer as he should.

### 8 Chebanse Grade School Graduates

Eight students will receive certificates of graduation at the Chebanse grade school commencement exercises to be held at the school auditorium Wednesday evening at 8 o'clock.

### JOHN D. AT POCANTICO HILLS

Rockefeller recently pictured at his Pocatillo Hills estate at a fountain featuring a classic marble group with a bronze swan in foreground. A vast estate, persons within its walls and fences could sustain themselves, if necessary, for the rest of their lives without contact with the outside world.

### Children in Car Escape as Gas Tank Explodes

Paul, four-year-old son of Harry Patterson, 427 North Wildwood avenue, and his playmate, escaped possible serious injury Monday afternoon when the Patterson car in which they were playing, caught fire from a match thrown into the gasoline tank.

Paul and his companion were sitting in the car which was parked in the alley near the Patterson home. One of them tossed the match into the tank, located in the rear of the automobile.

The explosion immediately picked up and when firemen arrived, the fumes vaporized and started a series of explosions. The children got out safely, but the entire tonneau of the auto was gutted. Firemen used three charges of foamite and 60 gallons of water to put out the blaze.

### Maria Letourneau Estate to Sister

The will of Maria E. Letourneau, Kankakee county resident who died recently, was filed today for probate. It directs that all property be awarded to her sister Corinne, who is named executrix to serve without bond.

The instrument was drawn April 30, 1928.

### THE WEATHER

(Tuesday, May 25, 1937)  
Hourly temperature readings from 1 o'clock Monday to noon today are:  
At noon 86, low at 6 a. m. 60.  
A year ago fair, high 75, low 60.  
1 p. m. 71 1 a. m. 58  
2 p. m. 72 2 a. m. 58  
3 p. m. 73 3 a. m. 59  
4 p. m. 73 4 a. m. 59  
5 p. m. 72 5 a. m. 59  
6 p. m. 70 6 a. m. 60  
7 p. m. 67 7 a. m. 66  
8 p. m. 64 8 a. m. 67  
9 p. m. 62 9 a. m. 74  
10 p. m. 60 10 a. m. 78  
11 p. m. 59 11 a. m. 78  
Midnight 59 Noon 80  
Sunset today at 7:10, sunrise Wednesday at 4:22, sunset at 7:11, moon rises at 9:38 p. m. today.  
Mostly cloudy, occasional showers in central and north portions tonight and Wednesday; not much change in temperature.

### ST. VIATOR TO OPEN SUMMER SCHOOL JUNE 21

College Heads See  
Record Enrollment  
This Year.

### NEW COURSES

The St. Viator college summer session, which opens on the Bourbonnais campus June 21, is being planned to accommodate the largest number of students since the inauguration of the summer term in 1933. During the past four years, enrollment in the June-to-August classes has more than doubled, and the college administration is expecting greater growth this year.

The courses offered in the summer session, organized on the University of Illinois plan, are designed to serve the needs of actual or prospective teachers in elementary or secondary schools, matriculated students who wish to shorten the period of their undergraduate courses, and mature students who wish to follow courses along the lines of special interests.

New Courses  
The number and scope of the courses this year have been increased. Classes are to be open in economics, education, English, mathematics, languages, history, business organization, political science, accounting, psychology, public speaking, and philosophy.

also has been increased in size, will include the Rev. E. V. Cardinal, president; the Rev. Christopher Marzano, treasurer; the Rev. Richard J. French, vice president; the Rev. Leo T. Phillips, dean, and numerous other specialists in their particular fields of study.

The unit of credit offered at the session is the semester hour, which represents a course of study followed for one semester and consisting of an hour lecture or recitation period a week. Two hours of work in the laboratory are considered equivalent to one hour of lecture or recitation. During the session, the usual class meets during 48 periods in a space

### Police Arrest 9 More Violators

Five of the nine motorists arrested by police yesterday on charges of violating city traffic ordinances pertaining to speeding and running red lights were fined by Police Officer H. Hoenke.

Other four are to appear for hearings later. Fined were M. Falkner of Danville and Andy Trammel of Chicago for failing to stop at an arterial street, \$4.25 each; Tom Forestal, 552 South Greenwood avenue, Bert Moody, 329 South Third avenue and Robert Harris of Kankakee, for speeding, \$6.25 each.

Those booked for appearances in court are Edward Baron, 745 East Bourbonnais street, Marvin Kraft, 569 South Osborn avenue and Harry Worrel, 1080 South Evergreen avenue, all charged with failure to stop at a through street; and D. Murphy of Lincoln, charged with speeding. The latter posted \$6.25 bond.

### Wife Says Hubby Drinks Too Much

Watska, May 25—(RN Special)—A bill has been filed with Circuit Clerk Joseph Sever by Mrs. Doris Phillips asking a divorce from her husband William Phillips.

Mrs. Phillips charges her husband has become a habitual drunkard and on several different occasions has beaten her and used profane language. They separated March 14, 1937. She is asking the court to make her husband support her.

### CAVALRY UNIT OF R. O. T. C. AT UNIVERSITY TRAINED

Urbana, Ill., May 25—(UP)—The cavalry unit of the University of Illinois R. O. T. C. is in danger of extinction, the military department announced today, unless a way is found to feed the horses during the summer. Officers said 150 mounts may go hungry because of a shortage of pastureage caused by last year's drought.

### Manteno Man Gets Return of 3 Bovines

Ownership of three blooded cattle, disputed by Dr. R. C. Bubolz of Chicago and Charles Barnes of Manteno township since last spring, was awarded to the latter yesterday when County Judge John H. Becker took the case from the jury and issued a directed verdict on motion of Barnes' attorney, Wayne Dyer.

The case was an appeal from justice court in which the physician was awarded the cows several months ago. The animals were in the latter's possession since he had previously replevined them.

The Chicago man, represented by Attorney Noel Diamond, said the cows were included in the purchase of a farm from Albert Jacobs in Manteno township last spring. Barnes claimed he had purchased the cattle from Delbert Jacobs, son of Albert, in the fall of 1936.

Barnes contended that the cows were merely being held on the Albert Jacobs' farm when the physician bought them and that Albert had no right to sell them to him.

### HOLD MINISTER IN FATAL CRASH ALONG ROUTE 49

Stop Sign at  
Crescent.

Watska, May 25—(RN Special)—Sylvan O. Pinnell, 55, traveling salesman of Peoria, died at 6 o'clock Monday afternoon in Iroquois hospital here of injuries received yesterday afternoon when his car crashed with another at the intersections of highways 8 and 49 near Crescent City.

The driver of the other car, the Rev. Wayne W. White of Nashville, Tenn., was ordered held to the grand jury upon recommendation of the coroner's jury at the inquest conducted last evening by Coroner W. K. Bussert. The minister was cited for driving in a careless and reckless manner.

Pinnell, driving alone and headed east on highway 8, apparently had the right-of-way. The Rev. White, returning from Wisconsin with his wife, two sons and a girl from Paris, Ill., were traveling south on 49 at a speed of 65 miles an hour, according to testimony at the inquest.

The Rev. White, unfamiliar with the road and talking with his wife as he reached the intersection, failed to stop and crashed into the car.

(Continued on page two)

## Funeral Services for Former Governor Dunne Wednesday

Chicago, May 25—(UP)—Funeral services will be held at 10 a. m. tomorrow for Edward Fittsimmons Dunne, former governor of Illinois and one-time mayor of Chicago, who died at the age of 83 after an extended illness.

The services for the Democratic leader, who occupied the mayor's office from 1905 to 1907 and that of the governor's mansion from 1915 to 1917, will be held from St. Mary's of the Lake church, with interment at Calvary cemetery.

The former governor lapsed into a coma 12 hours before he died yesterday. Death resulted from heart and liver ailments. At his bedside were two daughters, Mrs. William Corby with whom he made his home, and Mrs. Arthur Leonard, and a son, Richard.

His death came on the eve of the anniversary of the death of his wife, Mrs. Elizabeth J. Dunne, who died on May 25, 1928.

## SPANISH REBEL GENERALISSIMO OPPOSES PLANS

Proposed By British  
and Demands  
Surrender.

### FIGHTING RAGES

Bayonne, France, May 25—(UP)—Spanish Insurgent Generalissimo Francisco Franco today broadcast a rejection of Great Britain's plan for an armistice in the civil war and withdrawal of foreign volunteers from Spain.

In a note broadcast from insurgent headquarters at Salamanca, Franco instead demanded "unconditional surrender or war without quarter."

"Political Subject"  
Geneva, May 25—(UP)—British circles said today the British and French governments were devoting all their activities toward peace in Spain to bringing about a general agreement for the withdrawal of foreign volunteers from the civil war.

Only then, British sources said, would the question of an armistice between the government and insurgent forces be sought.

(A sub-committee of the "hands off Spain" group yesterday refused to consider an armistice on grounds it was a political subject and should be dealt with by the full committee. The main neutrality body also will consider a technical report by the sub-committee on the withdrawal of foreign troops.)

(Official silence by Italy and Russia, an informed source said, has created an awkward situation for creating a path for the idea.)

Insurgents Advance  
Hendaye, Franco-Spanish Frontier, May 25—(UP)—Gen. Emilio Mola's insurgent army was reported today to have captured the town of Yurre and a wide region to the north, opening the way for a double thrust against Galdacano, strategic highway junction southeast of Bilbao and key to the city's "iron ring" defenses.

Basque commanders declared that Galdacano had been bulwarked successfully to bring Mola's warriors to a definite halt.

The government outpost in the Yurre hills was in a delicate position. One column of Mola's men and guns was being thrust from Amorebieta toward Lemona, which lies between Galdacano and Yurre. This column threatened to cut off the forces in the Yurre sector.

Another insurgent column, protecting the Lemona-bound force from flank onslaught, battered along the main road between Amorebieta and Galdacano, which roughly parallels the route toward Lemona.

Insurgent reports said Mola's forces had taken Yurre as well as the town of Lina and in the same sector.

Prize Spanish Fliers  
Valencia, May 25—(UP)—American pilots fighting for the government in the Spanish civil war.

Springfield, Ill., May 25—(UP)—Governor Horner and members of the general assembly paid tribute today to former Governor Edward F. Dunne, who died yesterday in Chicago.

Both houses adopted resolutions expressing sorrow at his death and adjourning at the close of business today so they may attend funeral services in a body Wednesday. Governor Horner in a statement said he knew of no one in Illinois who had been "more active and more useful in civic leadership for so long a span of years."

## To File Murder Charges Against Two Hitch-Hikers

Yesterda: a coroner's jury declared Westberg, 17, and Christensen, 18, "killed and murdered" Miss Carey, 26-year old Blunt, S. D., school teacher, "while engaged in commis-

# CHILDREN ARE 3 YEARS OLD

Cecile Marie Annette Emilie Yvonne  
(Copyright, 1937, NEA Service, Inc.)

This is the second of five articles, written by Dr. Alan Dafeo, on the Dionne quintuplets as they approach their third birthday, telling of their progress mentally and physically.

By ALAN ROY DAFEO, D. R., M.D.  
(Copyright, 1937, NEA Service, Inc.)

Calander, Ont., May 25.—(Copyright, 1937, NEA Service, Inc.) I am told, are made constantly aware of the fact for collecting autographs. But the Dionne quintuplets are certainly the first to be flooded with requests for autographs before they could write at all.

Perhaps that wants a little explanation. As soon as the word went out that the quins were a listening and painting as part of the "creative play" plans for their development, we began to be flooded with requests for autographs. The quins have been painting ever since.

Apparently many people wanted to add an "early Dionne" to two to their art or autograph collections.

Normally it was impossible to comply with these requests, for two reasons. First, there were too many requests. To all them, we would have had the children scribbling and painting eight hours a day. And second, the quins were not yet old enough to draw in sweeping circles and why Marie prefer straight vertical lines? The records of these embryo art performances must be carefully and systematically studied by those who are interested in child psychology to determine their significance.

It is that the pleasure of drawing and modeling with plasticine is a beneficial thing for them, though it would be premature to deduce immediately that all or any of them are destined to become artists.

Why should one of the girls usually choose green among the range of colors, and why should another choose pink? Why should Annette draw in sweeping circles and why Marie prefer straight vertical lines? The records of these embryo art performances must be carefully and systematically studied by those who are interested in child psychology to determine their significance.

## TRADE AREA People of Kankakee What Is Your Opinion?

After the Illinois Central Railway's viaduct on Court Street collapsed on April 19 the railway announced plans for rebuilding the structure.

A great many people have since expressed the opinion the railway should take this opportunity of building a new one, and several civic organizations have passed resolutions to that effect.

## This Is The Chance for You to Express Yourself On This Vital Question!

Vote the ballot printed below by marking in the squares, write a comment if you like, not over 50 words, then send or mail it to the Republican-News office.

This is merely a chance for the people of Kankakee to express themselves as a unit. The manner in which you vote will be kept strictly confidential unless you give your permission to publish your name. Your name and address is required merely to avoid possible duplication.

Safety, Convenience and  
Prosperity of The Public!!

The People Should Vote!

## LITIGATION OF GOVERNMENT IS OVER FOR TERM

Litigation Headed  
for Review at the  
Next Session.  
IN LOWER COURT

LYLE C. WILSON, United Press Staff Correspondent  
Washington, May 25.—(UP)—President Roosevelt failed a 14-to-6 supreme court vote in favor of New Deal legislation today and pushed another round of constitutional tests in an expansion of his social and economic program.

Government litigation is headed for this court term. But headed for high judicial review next session are:

1. Further determination of Tennessee Valley authority rights in transmission and sale of electrical power.

2. Test of the registration provisions of the public utilities holding company act.

3. Determination of public works administration authority to make loans and grants for municipal ownership of electrical power system.

These cases already are in lower court judicial process. And there are others which may be taken to the supreme court.

Mr. Roosevelt sent his wage and hours plan to congress with a direct challenge to the courts to deny its validity. He pronounced it to be within the common sense framework of the constitution and approved by the electorate.

The public will see for the summer one week from today. Associate Justice Willis Van Devanter's retirement will become effective. Then it will remain for Mr. Roosevelt and congress to determine what shall become of the New Deal bill to add five new blood jurists to the high bench.

The capital census is that changes of enacting the judiciary reorganization bill were further diminished by yesterday's decisions in which the court sustained federal unemployment insurance legislation.

2. Federal old age pension legislation.

3. Validated Alabama's unemployment insurance act.

4. Federal revenue and millions of individuals were affected by the court's opinion.

5. The treasury estimated social security tax receipts this year at \$124,600,000 and expects the sum to go to \$174,600,000 in the fiscal year beginning next July 1. Three taxes will meet again for decisions June 1.

6. Then the nine men will separate and at least one of them will be determined that they will propose his candidate for president.

## MENTAL TELEPATHY in Same Category as of Pure Chance

Urbana, Ill. May 25.—(UP)—The results of mental telepathy or clairvoyance, a University of Illinois psychologist said today on the basis of extended experiments, was in the same category as that of pure chance.

Associate Professor G. D. Higgins said the results of tests on 300 university students were charged. One chart showed results of pure chance. The other of tests planned to involve a possible element of mental telepathy or clairvoyance.

These two charts showed such similarity he said, that it was impossible to tell which results were obtained through chance and which through human concentration.

In his research into telepathy and clairvoyance, Higgins conducted 117,600 tests supplemented by 339,100 tests of chance to establish any possible relationship between the two.

In one series of trials he ran a group of 80,000 tests on individuals for clairvoyance by placing face forward slightly a pack of 25 cards inscribed with one of five groups of symbols. The subject was allowed seven minutes' concentration before being tested to identify the hidden symbol.

Completed data revealed the majority of accurate hits in 25 opportunities ranged between four and five in both chance and individual judgments. Higgins said, "The results of these tests are in the normal chance level, he pointed out."

Completed data revealed the majority of accurate hits in 25 opportunities ranged between four and five in both chance and individual judgments. Higgins said, "The results of these tests are in the normal chance level, he pointed out."

## MENTAL TELEPATHY in Same Category as of Pure Chance

Urbana, Ill. May 25.—(UP)—The results of mental telepathy or clairvoyance, a University of Illinois psychologist said today on the basis of extended experiments, was in the same category as that of pure chance.

Associate Professor G. D. Higgins said the results of tests on 300 university students were charged. One chart showed results of pure chance. The other of tests planned to involve a possible element of mental telepathy or clairvoyance.

These two charts showed such similarity he said, that it was impossible to tell which results were obtained through chance and which through human concentration.

In his research into telepathy and clairvoyance, Higgins conducted 117,600 tests supplemented by 339,100 tests of chance to establish any possible relationship between the two.

In one series of trials he ran a group of 80,000 tests on individuals for clairvoyance by placing face forward slightly a pack of 25 cards inscribed with one of five groups of symbols. The subject was allowed seven minutes' concentration before being tested to identify the hidden symbol.

Completed data revealed the majority of accurate hits in 25 opportunities ranged between four and five in both chance and individual judgments. Higgins said, "The results of these tests are in the normal chance level, he pointed out."

IN OUT-OF-TOWN TELEPHONE CALLS

YOU have always known the quick action you can get by an out-of-town telephone call. The profitable results. Now it costs less than ever to get them, because rates have recently been reduced for the eighth time in about ten years.

An inexpensive telephone call can easily close a big sale for you. Straighten out a complaint or misunderstanding. Make an advantageous purchase. Bring payment on an overdue account. Build good will. Adjust a traffic or production difficulty. You'll find it pays to use the telephone frequently in your out-of-town contacts.

Many people take advantage of the still lower night and Sunday rates to keep in touch with friends or family in other cities. Why not have a "telephone visit" with some one tonight? Costs little, means much.

## Dwarf Flowers Fill Many Needs

**LOBELIA**  
Compella.

**TAGETIS**  
Tagetes.

**ALYSSUM**  
Little Gem.

**BELLIS**  
English Daisy.

A variety of Dwarf Flowers and Uses for Them.

Gilia tricolor is another rare and handsome little edging plant. Its tiny cups produced in great profusion are of a brilliant yellow in the center with five purple spots. It grows only 7 inches tall.

A tiny marigold, Tagetes signata, bearing bright orange flowers above fern-like sweet-scented foliage, is a handsome border plant making a solid miniature flowering hedge. It is a fine plant for the most robust edging.

For colored foliage, the Golden Wonder, with its brilliant yellow leaves and stems, is a fine plant for the most robust edging.

The dwarf nasturtium, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf pansy, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf verbena, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf petunia, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf geranium, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf carnation, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf chrysanthemum, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf daisy, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf cosmos, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf zinnia, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf marigold, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf petunia, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf geranium, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf carnation, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf chrysanthemum, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf daisy, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf cosmos, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf zinnia, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

The dwarf marigold, with its bright yellow flowers and green leaves, is a fine plant for the most robust edging.

## ABOUT ROYAL SNOBS

Not since Alice Longworth and Dolly Gann staged their epic struggle for precedence at official dinners in Washington has social life been so interesting as the Wallis Warfield's approaching marriage to the Duke of Windsor.

Consider for a moment the tragic plight of the unhappy English socialite. For nearly a year he (or she) circled dutifully about the royal family, bowing and scraping and Your-Majestying to the limit of the law. The boyish Prince of Wales became a slightly less boyish king, and as such was top dog in the social milieu.

Then, almost overnight, he ceased to be king and became a duke in exile. Immediately the fond allegiance of "society" was diverted from him to his successor. People who had fawned on him for years, and whose little lives were made bright and cheery at a nod from his kindly head, suddenly declared that he was unworthy and of bad repute. So they buzzed about the new king and spent their spare time thinking up derogatory things to say about the American person the king was about to marry.

Now it develops that Mrs. Warfield, at her wedding, is to be a duchess and "her royal highness." As such, she will rate a salute from all socialites of lower rank—which includes practically all of them. Furthermore, it is rumored that the duke and his new duchess may spend a bit of time in London now and then, which automatically will compel the empire's choicest snobs to accept the lady and like her.

Now we have heard a great deal in the last few weeks about the great British democracy. The democracy has just ridden home in the crowning of a new king, who has been assured that, fundamentally, England is as much a democracy as America. The king is only a symbol. Parliament rules the land, and one man is quite as good as another.

But London's gasp of pious horror over Edward's insistence that his wife be given the same rank that he possesses reveals a large-sized flaw in this institution of kingship applied to a democracy.

It is a helpful little reminder that the institution of monarchy, with all its inevitable flummery of rank, precedence and titles, creates and encourages snobbery on a titanic scale. In the heart of democracy it plants a denial of everything that democracy stands for, and compels every citizen to make a choice.

We have known over here, heaven knows—but they have no official standing, and no one takes them seriously. In a monarchy they have to be taken seriously, for the monarchy would collapse if they weren't. And the spectacle of an English society raising pained eyebrows at its reluctantly admitted the knives it had got out for Wallis Warfield is the tip-off. A democracy is not completely democratic as long as it gears its social life to a formal system of titles.

One of the most encouraging signs of the times is the good health and optimism that are returning to America's railroads.

On May 1 of this year the class one railroads had more new freight cars on order than on any corresponding date since 1924, according to an announcement from the Association of American Railroads. The car-building business is coming out of the doldrums with seven-league strides. There are now 47,280 new cars on order; two years ago there were 14,640.

It is the same with locomotives. On May 1 orders had been placed for 345; a year ago the figure was 52, two years ago it was one.

Obviously, this means that the railroads are not only doing a brisk business now but that they expect to go on doing a brisk business for some time to come.

It only means that the country in general is beginning to boom.

## SIDE GLANCES

By George Clark

The buccar life is strong and they live in reverse. They prefer to breathe the charged air of the night rather than the atmosphere of the conventional. They are not submitters, in other words, and to do the same job over and over again becomes agony to them.

He needs Your Help. If by any chance there is such a free spirited boy in your family, that the world calls "bad," you may be able to control his destiny to your own degree, but never will you or anyone else really possess him.

He needs to have an active life with certain independent liberties of his own. He will have no home room. Within reason he must be allowed to carry out his ideas and to experiment. The big thing is to keep him in sympathetic touch with the world and to keep his faith in his people. Very tactfully, his tastes may be influenced, but not by a crowd.

Jack Warner laughs at a quip about his father, the musician, "Bobby in Arms."

Madeline Carroll, accomplished as an income tax expert, is the fifth avenue milliner.

The Million Gaxtons laugh at Joe Lewis' jokes after 24 minutes and 30 seconds of heavy-weight wrestling in New York.

Ten Years Ago Today—Chance Shot won the Withers at Belmont Park.

Grapefruit production of the United States in 1934 has been estimated at 10,000,000 boxes in excess of normal production.

Billwaver, Okla.—The bitcher is the "clearest friend of young brides and women customers." Mrs. Sam McInerney told meat retailers at a recent convention in the Oklahoma A. and M. campus.

Mrs. McInerney, a home demonstrator, advised retailers to "use the way to prepare your meats as well as your wares."

## Well, I'll Tell You

By Bob Burns

Have you a "bad boy" in your house? If so, perhaps you are wondering what to do about him. He does not react favorably to discipline, you say, and seems to have been born with an unusual sense of right and wrong.

No one needs so much consideration or thought as this "bad" boy. Hundreds of volumes have been written about him. Reformers and fortune tellers have tried to tell him to society. Yet out of it all emerges this fact, that almost no children are born without natural inclinations to deliberate wrong.

One day, my handiwork in childhood could have prevented tragedy.

Naturally, our thoughts fly to the slums, and to those reared in an atmosphere of unfortunate home life. But our boy, very frequently come from seemingly normal homes with all the usual advantages.

Flies Get in Best Ointment. This is difficult to understand. The truth remains that a bad boy, one, I mean, who is beyond the average figure of pranks is not a fly in the ointment.

Children are born with certain tendencies. They may be a bit more entirely different from their parents, or brothers or sisters. I am not speaking here of inherited vice, because I feel that most traits of the sort are developed in the personality of the child.

There are many children who cannot conform to the things in life that other people accept quite contentedly. To go by schedule, to know each day what the next is to be like, and to do the same job over and over again becomes agony to them.

The buccar life is strong and they live in reverse. They prefer to breathe the charged air of the night rather than the atmosphere of the conventional. They are not submitters, in other words, and to do the same job over and over again becomes agony to them.

He needs Your Help. If by any chance there is such a free spirited boy in your family, that the world calls "bad," you may be able to control his destiny to your own degree, but never will you or anyone else really possess him.

Naturally, our thoughts fly to the slums, and to those reared in an atmosphere of unfortunate home life. But our boy, very frequently come from seemingly normal homes with all the usual advantages.

Flies Get in Best Ointment. This is difficult to understand. The truth remains that a bad boy, one, I mean, who is beyond the average figure of pranks is not a fly in the ointment.

Children are born with certain tendencies. They may be a bit more entirely different from their parents, or brothers or sisters. I am not speaking here of inherited vice, because I feel that most traits of the sort are developed in the personality of the child.

There are many children who cannot conform to the things in life that other people accept quite contentedly. To go by schedule, to know each day what the next is to be like, and to do the same job over and over again becomes agony to them.

The buccar life is strong and they live in reverse. They prefer to breathe the charged air of the night rather than the atmosphere of the conventional. They are not submitters, in other words, and to do the same job over and over again becomes agony to them.

He needs Your Help. If by any chance there is such a free spirited boy in your family, that the world calls "bad," you may be able to control his destiny to your own degree, but never will you or anyone else really possess him.

He needs to have an active life with certain independent liberties of his own. He will have no home room. Within reason he must be allowed to carry out his ideas and to experiment. The big thing is to keep him in sympathetic touch with the world and to keep his faith in his people. Very tactfully, his tastes may be influenced, but not by a crowd.

Jack Warner laughs at a quip about his father, the musician, "Bobby in Arms."

Madeline Carroll, accomplished as an income tax expert, is the fifth avenue milliner.

The Million Gaxtons laugh at Joe Lewis' jokes after 24 minutes and 30 seconds of heavy-weight wrestling in New York.

Ten Years Ago Today—Chance Shot won the Withers at Belmont Park.

Grapefruit production of the United States in 1934 has been estimated at 10,000,000 boxes in excess of normal production.

Billwaver, Okla.—The bitcher is the "clearest friend of young brides and women customers." Mrs. Sam McInerney told meat retailers at a recent convention in the Oklahoma A. and M. campus.

Mrs. McInerney, a home demonstrator, advised retailers to "use the way to prepare your meats as well as your wares."

## Well, I'll Tell You

By Bob Burns

Have you a "bad boy" in your house? If so, perhaps you are wondering what to do about him. He does not react favorably to discipline, you say, and seems to have been born with an unusual sense of right and wrong.

No one needs so much consideration or thought as this "bad" boy. Hundreds of volumes have been written about him. Reformers and fortune tellers have tried to tell him to society. Yet out of it all emerges this fact, that almost no children are born without natural inclinations to deliberate wrong.

One day, my handiwork in childhood could have prevented tragedy.

Naturally, our thoughts fly to the slums, and to those reared in an atmosphere of unfortunate home life. But our boy, very frequently come from seemingly normal homes with all the usual advantages.

## LEWIS FORCES PUSHING INTO MANY SECTORS

Seek Recognition of  
Independent Steel  
Producers.

## OPEN CONFLICTS

By the Associated Press  
The John L. Lewis labor forces, heartened by two new conquests, pushed their drive for recognition from independent steel producers into new sectors today.

The American Steel Foundries of Chicago, and the Crucible Steel company fell into line yesterday by according the steel workers organizing committee the right to represent its members.

Approximately 3,000 workers of the Sharon Steel company in Sharon, Pa., and Lowellville, O., voted today to determine whether the committee should represent them in collective bargaining.

Van A. Blittner, S. W. O. C. regional director at Chicago, carried the campaign for a contract with the Inland Steel corporation into a conference with company officials at Indiana Harbor, Ind., today.

Strategy for War  
At Cincinnati American Federation of Labor chieftains fashioned strategy for war on the Lewis Committee for Industrial Organization.

Thomas Rickett, president of the United Garment Workers, announced that union's agreements with the Amalgamated Clothing Workers were at an end because of the latter's affiliation with the C. I. O.

The A. F. of L. executive council considered plans to augment the war chest by increasing assessments on member unions, start a coordinated organization drive, expel C. I. O. locals from city and state groups and compel loyal A. F. of L. locals to join these central bodies and state federations.

John P. Frey, president of the metal trades department, charged Communists were active in the C. I. O. and that the Communist party expected to control it eventually. The charges were ridiculed by Charles P. Howard, president of the International Typographical union and the only C. I. O. member at the conference.

Daniel J. Tobin, president of the Teamsters union, tempered the attack on the C. I. O. by declaring that the union would not be able to compromise their differences.

Present Conflicts  
Open conflicts between labor and capital included a strike of 250 lumberjacks of the Cleveland-Cliffs Iron company camps at Munising, Mich., and a sit-down strike of 350 miners who started their fifth day underground at Gillespie, Ill.

Striking auto workers in General Motors corporation plants at Saginaw, Mich., agreed last night to return to work. Officers of the United Automobile Workers of America who termed the strike "unauthorized" called upon the strikers to resume work. More than 2,000 men were affected by the walk-out. The U. A. W. A. announced plans for distributing union literature at gates of the Ford Motor company at Dearborn. One leaflet will demand a six-hour day and a minimum \$8 daily wage.

At Pittsburgh, several hundred men and women picketed the north side plant of the J. J. Helms company.

## OUR BOARDING HOUSE

## Memorial Service at Aroma Church

Aroma Park, May 25—(RN Special)—Memorial day exercises will be held at Aroma Park in the Methodist church on Sunday at 2:30 p. m. At a meeting in the village hall last Friday night the Rev. H. S. Crede presided and appointed committees as follows: Decorations, Mr. and Mrs. Leslie Swan; Invitations, W. E. Kellogg, Charles Herms and Rev. H. S. Crede; program, Harvey Swan, Mrs. Bert Fowler and I. P. Dodge.

Notes  
The Misses Ann and Beulah Sossman accompanied the Charles Crawford family to Kankakee to Chicago on Saturday to bring Miss Bernice Crawford to Kankakee for a week-end visit.

Mrs. Clara Stansberry Legg spent the week-end in Kankakee and St. Anne.

Charles Sittig's auto balked Friday morning at the Big Four depot, after he had put in the usual cargo of mail sacks for the post office. It would not start for a while even after F. S. Boucher, station agent, came to assist. But suddenly it started, jerked and shot backward. It sideswiped a large tree at Sam Hammond's place, taking off large strips of bark from the tree, one door and a fender from the car, then backed into another tree which inflicted more damages to the car. Fortunately, both men stood in front of the car when it started.

Mrs. Wallace Welch, formerly Olive Case of Aroma Park, now of Whiting, was a guest recently of Mr. and Mrs. W. H. Dodge.

Mr. and Mrs. William Thornell of Sheldon were guests of Mr. and Mrs. Elmer Wilken recently.

Arch Brady and T. B. Turner of Sheldon, the latter towerman at the railroad crossing, visited at the Wilken home recently. While here, Mr. Turner received a telegram telling of the death of his mother in Kentucky.

Mr. and Mrs. John Hoskins of Bradley and Mrs. Nellie Dalton of Aroma Park were recent guests of Mr. and Mrs. Elmer Wilken. While they were there, Elmer caught a 7 1/4 pound wall-eyed pike in the river.

Melvin Stirling and Miss Cassel

Masters of Chicago came to Aroma Park on Friday and spent the week-end at the E. W. Stirling home. On Sunday, Miss Rita Kuchenbacker accompanied Mr. Stirling to Tuscola while Miss Masters stayed for a longer visit.

The Aroma Park grade school's graduation exercises were held in the Methodist church Friday night. Miss Mildred Sommer, who carries the Republican-News to its readers here, ranked first in a class of 14 members while Ann Sossman, the youngest in the class, was second. County Superintendent E. E. Kennedy made an address and presented the diplomas.

JURY TAKES A 'RIDE'  
Portland, Ore.—(INS)—The usual course of events was reversed here when the Multnomah county grand jury was loaded into "Black Maria" and hauled to the police station. The occasion was a tour of inspection at the city jail.

## Chairman Connery Asks 30-Hour Week in the Labor Bill

By the Associated Press  
Washington, May 25—(P)—Chairman Connery (D-Mass.) of the house labor committee, arranging for quick consideration of the administration wage and hour bill, expressed preference today for setting the maximum work week at 30 hours.

"Both Chairman Black of the senate labor committee and I are for a 30-hour week," he said. "If necessary, though, I would go as high as 40 hours."

Minimum wage and maximum hour figures were left blank in the bills which the two chairmen introduced yesterday after President Roosevelt recommended enactment

of labor conditions that "meet rudimentary standards of decency." Connery said he would insist on at least a \$16 minimum weekly wage for employees engaged in interstate commerce or producing goods for interstate shipment.

Black said, however, he had no definite agreement with the representative on wage and hour figures. He added there might be many changes in the measure, but Connery predicted congress would approve the bill "just about as it is."

The measure would exclude from interstate commerce goods produced under "oppressive" labor conditions, such as working employees more hours or paying smaller wages than the standards set by congress, using child labor, and hiring labor spies and strike-breakers.

Jenny Lind realized net receipts of \$176,675.09 from her American concert tour under the management of P. T. Barnum.

## Endurance Contest Below the Ground

Gillespie, Ill., May 25—(P)—The sit-down strike of more than 350 miners, 360 feet underground in the Superior Coal company's mine at Wilsonville, became an endurance contest today, with negotiations toward settlement deadlocked over evacuation of the property.

Conferees were abandoned after company officials and representatives of the strikers failed to agree on withdrawal of the strikers from the shaft, which Fred S. Pfahler, president of the company, declared must precede any discussion of division of work and other demands presented by the strikers.

The miners, rejecting Pfahler's request to quit the underground quarters they have occupied since Thursday, said they were ready to "stay indefinitely." "Plenty of food" has

been provided, and the sit-down strikers were "quite comfortable," the men reported. Pfahler, announcing that no further conferences would be held, said he would return to Chicago to await developments. No legal action to eject the strikers was planned, he said.

John Fisher, president of Local No. 1 of the Progressive Miners of America who represented the miners in the unsuccessful two-day discussions, said "it looks like an endurance contest now."

The remora fish will hide in the mouth of a shark in order to escape its enemies.  
A very old and exceptionally large tortoise once lived on the island of Mauritius for so long that it became a national possession, and in 1890, when the French ceded the island to England, the tortoise was specifically mentioned in the treaty.
