# NEW YORK SCULPTOR ARRIVES

## EX-PRESIDENT OF FRANCE IS HEART VICTIM

Gaston Doumergue Dies Suddenly at Age of 73.  
TWICE PREMIER

Aigues-Vives, France, June 18.—Gaston Doumergue, 73, former president and twice premier of France, died today in his native village.

The elderly statesman had lived in retirement since he stepped quietly out of Paris Nov. 15, 1934 at the end of his second term as prime minister.

Papa Doumergue as he was known throughout France was elected to the presidency in 1924, the first President to hold that office under the third republic.

Despite his nickname, Doumergue was a bachelor until he was 67.

He was married to Madame Jeanne Grave a widow just 12 days before he left the Elysee palace at the end of his presidential term in 1931.

In February, 1934, after the bloody "Stavisky" riots, the aging statesman was called to the service of his country once again to weld all parties except Socialists and Communists into a national government.

Resigned Premiership

In November of the same year, however, he resigned the premiership when the cabinet split over his demands for more power.

Doumergue died suddenly shortly before 9 a. m., apparently from a heart attack.

He came to Aigues-Vives from his home at Tournelleville for a week's pilgrimage to the ancient middle-class home of his family in this little village of southern France.

Upon awakening this morning, his widow said Doumergue seemed to be feeling well and showed no sign of illness. A little later, however, he suddenly told his wife he felt ill. He fainted and died without regaining consciousness.

Political Peacemaker

Gaston Doumergue smiled in his way to the heights of government in one of the world's most difficult roles, political peacemaker of France.

Affable and benign "papa" to the French people he had already served them 1924-31 as twelfth president of their third republic when

## SUMMONED

GASTON DOUMERGUE  
Political peacemaker of France, one-time president and twice prime minister, who died suddenly today.

## Soviet Aviators Enroute America?

BULLETIN  
San Francisco, June 18.—William E. Gilmore, head of a committee to check the instructions of a Moscow to San Francisco plane, said today he was advised that three aviators had embarked on the daring flight across the north pole.

Gilmore's information was that the three fliers were Pilot Valeri Oshakov, Co-pilot George Baiducov and Navigator Belikov.

Edmonton, Alta., June 18.—(Canadian Press)—Major J. E. Geppert, in charge of the Royal Canadian Corps of Signals station here, said today he had been informed Soviet aviators had taken off on a non-stop flight from Moscow to San Francisco.

It was estimated here the fliers, if all went well, would reach the vicinity of Edmonton in about 36 hours, or about 8 a. m. (est.) tomorrow.

The fliers will have to veer off sharply to the southwest after crossing the pole if they intend to fly over the uninhabited Mackenzie river valley, Edmonton and Spokane.

Should they fly straight south from the pole, their route would lie over the barren lands of the northwest territories, where there are few settlements and where a forced landing would mean they might be lost for months.

## Register Monday for Viator Course

Registration for the summer session courses at St. Viator college will be next Monday, according to announcement today of the Rev. Edward V. Cardinal, president.

The courses offered are designed to serve the needs of actual prospective teachers in elementary or secondary schools, matriculated students who wish to shorten the period of their undergraduate course, and mature students who wish to follow courses along the lines of their special interests.

The range of subjects offered includes economics, education, drama, science, Greek, rhetoric, English, Latin, German, accounting, psychology, history, business organization and public speaking.

Opportunities are offered for special tutoring, as well. Classes begin June 22 and final exams will be on Aug. 13-14.

## OPEN TOO LATE

For violating a section of the Kankakee liquor ordinance which prohibits the consumption of beverages on the premises of any tavern after closing hours, Marc Desmarre, operator of the LaFayette Grill, was fined \$25 in police court this morning.

## Sheldon Has Only One More Election This Year—Maybe

Sheldon, June 18.—(RN Special)—Pending no further technicalities, Robert Sproull, Sheldon oil man, was to be elected mayor of this village today without opposition.

Ever since S. G. Ross was chosen mayor at the regular election here in April, Sheldonites have been having trouble keeping their chief municipal officers.

After that election, it was learned that Ross already held the office of supervisor and therefore would have to resign from one of the posts, since it is contrary to law to hold two public offices. He decided to keep the supervisor's job.

Mayor Pro Tem

A special election was then called and in his place, Robert Sproull, a board member for several years, was installed as mayor pro tem. But a few days later, Sproull re-

signed to file a petition for the mayoralty.

His opposition was to be Glenn Bennett, restaurant and tavern operator who, it is said, was one of those who first raised the question about an official holding two jobs. But two weeks ago, Bennett also withdrew from the race, leaving the field open to Sproull.

Another July 30

After today's election, another special one will be called to elect two members to fill vacancies on the village board, caused by the resignation of Sproull and Scott Mason. The latter quit his post on the board since he was already a member of the board of review.

So back to the polls, Sheldonites will again go on July 30. This, they hope, will be the last plebiscite for village offices until 1941.

## SAYS CHINESE LANGUAGE EASY FOR AMERICANS

Mrs. Irene Wei Tells Rotary Club of the Orient.

## MODERN TREND

Impressions of China were given at the Rotary club luncheon Thursday noon by a Kankakee woman who has spent the past 19 years in that country. The speaker was Mrs. Wei, the former Irene Dunbar who married a prominent Chinese while she was studying law at Harvard university.

Back home on a visit Mrs. Wei brought along an exhibit of Chinese apparel, tapestries, hand-made lace and embroidered household effects, jewelry and pictures to show her audience.

Surprising as it may seem, she said, the Chinese language is one of the simplest and easiest to master. In six months an American can learn to carry on a conversation. The rapidity with which the large cities like Shanghai are modernizing and adopting the western civilization is almost amazing, she averred.

Skyscrapers, double deck buses, "western" dress, modern lighting, night clubs, jazz, traffic lights are common, and at present famous architects and a city commission are planning a greater Shanghai. The present billion dollar skyline of the latter city rests on floating foundations made necessary because of the shifting sands upon which the metropolis is built.

Mrs. Wei explained that Shanghai is called the "gateway to China." She said 48 nationalities mingle in the streets daily, additions in their own customs and traditions. In the Chinese language alone, 42 dialects exist, with some so different that one may not understand another.

China is only one-third larger than the U. S., yet it has a population four times as great as that in this country. Although China is the second largest producer of rice, corn, and a number of other products, the government finds it necessary to import vast quantities of such foods and even then many thousands of the poverty stricken die of hunger.

Mrs. Wei explained how she and her husband had only \$21 after they bought their steamship tickets and left this country for the Orient some 10 years ago. She said his law work there was much different from what he had studied in the U. S., but after further study in China of documents and petitions, he realized that he was the only Chinese attorney specializing in maritime law.

He now holds responsible positions as advisor to several U. S. and British shipping firms and is president of a national shipping company in China. After four years in China, Mrs. Wei drew plans for an American style home which her husband built for her. Two years ago they bought a summer home in the mountains.

## Reinstate 19 Employees of Kroehler

Settlement of the grievances of 19 former employees of the Kroehler Manufacturing company was reached today when the company officials, after a seven hour conference with NLRB authorities and union leaders in Chicago last night, agreed to drop further litigation.

The 19 employees will return to work on Monday with full seniority rights and will receive back pay from Sept. 30, 1936, and the company agrees to bargain collectively with the union when the union represents a majority of the workers in the upholstering departments.

Settlement was effected through the efforts of A. D. Gorrell, secretary of the Chicago Furniture Manufacturers' association who requested that the principals meet with him. Attending the conference were P. E. Kroehler and Delmar Kroehler, Attorney Harry Kahn, defense counsel, John T. Lindsay, trial examiner, Robert R. Rissman, government attorney, Joseph M. Javins, union counsel, Alfred Rota, business agent of the union, Leonard C. Bajork, regional director of NLRB, and Gorrell.

## CHOPPING AWAY GLACIAL SNOW, SEEK 7 BODIES

Victims of Crackup in Wasatch Mountain Range.

Salt Lake City, June 18.—Men with shovels and picks chopped today at glacial snow and ice they believe separate them by but a few feet from the frozen bodies of seven airplane occupants killed in a mountain crackup last Dec. 15.

Inside the crushed cabin of the Western Air Express liner, at the base of a 1,000-foot cliff in the Wasatch mountains, they whittled at snow that had hardened to coarse, opaque ice.

"Some of the bodies may be in that cabin, under the snow," said Search Director Frank Eastman of Western Air Express, the concern which owned the plane.

Other workers chopped outside at the hardened snow that only two days ago melted sufficiently to reveal the presence of the cabin. Several bodies are buried in the 30-foot drift around and beneath the wreckage, diggers said.

In the belief several of the bodies will be recovered not later than tomorrow, searchers lowered half a dozen large sacks in which the dead will be placed on a winch from the top of the cliff.

"It will be necessary to haul the bodies and wreckage to the cliff top in order to get them off the mountain," explained Eastman.

Danger of snowslides and rock avalanches hung over the men as they worked.

## Three Wills Filed in Probate Today

The wills of three former Kankakee county residents whose deaths occurred recently were filed for probate today in the office of County Clerk Walter J. Richert.

The will of John B. Roblin of Kankakee, drawn last April 17, provides that his estate be divided equally among children Charles, Mrs. Mollie Massey, George, Emile, Henry, Mrs. Myrtle Hanscomb, Mrs. Lottie Surprenant and Mrs. Mable Meyers.

Attorney Joseph Tolson, who filed the will, is named executor.

Under the will of Miss Margaret Sullivan of Kankakee, proceeds from the sale of real estate at Pontiac are to be divided equally among brothers and sisters Bernard Sullivan, Mrs. Sarah Koerner, Rose, James and Mary Sullivan and Mrs. Katherine Fruin.

The remainder of the estate goes to the brother Bernard for his lifetime and at his death to the sister Rose. Attorney C. M. Granger filed the will.

To the children and some of the grandchildren of Mrs. Georgiana VadeBonCoeur of St. Anne is to be divided her estate. The heirs are Mrs. Anna Boone, Mrs. Della Chenore, Armand, Meddie, William and Arbellia VadeBonCoeur, also the children of a deceased daughter Mrs. Flora Arsenau. Each of the children is to receive one-seventh and to the grandchildren an equal share is to be divided. C. M. Granger is the attorney.

## BRADDOCK-LOUIS WINNER TO FIGHT BRITISH CHAMP

London, June 18.—(AP)—Sydney Hulls, English promoter, said today he had arranged for the winner of the Jimmy Braddock-Joe Louis fight to meet Tommy Farr, British champion, in a title bout at London's White City, July 30. He said the winner of the Chicago fight would sail for England July 6.

## NORTHEASTERN CALIFORNIA ROCKED BY AN EARTHQUAKE

Alturas, Calif., June 18.—(UP)—A severe earthquake shock was felt early today by residents of this small Modoc county town in northeastern California.

The tremor started at 1:30 a. m. and lasted 30 seconds. No damage was reported.

## CHRISTIENSEN ESTATE VALUED OVER \$100,000

Accident Victim Gives Trust Fund to Family.

## FOR EDUCATION

The estate, valued at more than \$100,000, of Albert J. Christiansen, former auto parts dealer of Kankakee who was killed May 9 in an automobile accident at Joliet, will be converted into a trust fund for the benefit of his heirs.

This was revealed today when his will, drawn on Aug. 21, 1929, was filed for probate by Attorney Harry S. Streeter.

The will provides for the appointment of the widow Marie, Attorney Streeter and the First Trust & Savings bank as trustees to carry out its provisions. It is directed that at some future time his business will be sold under the best possible circumstances, also his real estate and other property.

Creates Trust Fund

From the trust fund so created, the widow is to be paid \$1,800 annually, also \$300 annually for each of the two children Darlene, 15, and June, 10. At the proper time, should they desire college or university education, \$750 a year for four years is to be set aside for each child.

At the death of the widow, the income from the trust is to be divided between the children, who are not to be paid the principal until the youngest reaches the age of 30 years.

## Parsons Case is One of Nation's Great Mysteries

Stony Brook, N. Y., June 18.—(AP)—The "case of the missing heiress" ranked with the nation's leading mysteries as it entered its tenth day today.

If G-men in charge of the case had uncovered a single thing indicating what happened to Mrs. Alice McDonnell Parsons, Long Island heiress, it was their secret, hidden behind a single reply to nearly all pertinent questions: "No comment."

Even state and local police declared they did not know the meaning of the pat reply—whether it hid knowledge or ignorance of questioned points.

Whether 38-year-old Mrs. Parsons left her Yale graduate husband and their trim little farm here of her own will, whether she was murdered in connection with an expected inheritance of up to \$100,000, or whether she was kidnapped for the \$25,000 demanded in a ransom note were puzzling possibilities.

The federal agents ostensibly were working solely on the kidnapping theory. State and local police several times have stated they lean to the murder explanation.

In Chilmart, Mass., police failed to find any trace of Mrs. Parsons in a thorough search of Martha's Vineyard. An anonymous telephone tip received last night was that the "Parsons woman" could be found there. Police suspected a fraud.

## Weather Delays the World Flier

Akyab, Burma, June 18.—(AP)—Amelia Earhart, isolated by a dead wireless, battled a monsoon for two hours today before she brought her round-the-world monoplane back to safety here.

The tropical storm forced her back on leg of her flight to Bangkok, Siam. She had landed here first at 12:34 p. m. (12:04 a. m. est) after a 400-mile flight across the Bay of Bengal from Calcutta.

Taking off again, she was forced back because of a sudden breaking-down of the Akyab direction-finding wireless station at the height of the monsoon.

Her route over vast wastes and virtually uninhabited jungles, is the most treacherous known in monsoon weather.

The flier said she expects to start again for Bangkok early Saturday if the weather is favorable.

Miss Earhart left Durnum airport just outside Calcutta at 7:05 a. m. Calcutta time (7:12 p. m. Thursday est) despite reports of treacherous weather over the bay.

The airplane had been drenched by monsoon rains and for a moment it seemed as though her plane would overturn as she left the waterlogged field.

## NOTED SCULPTOR AT WORK

Above are shown two of the largest individual figures in the collection of plaster originals by George Gray Barnard, famous sculptor and a former Kankakee resident, and now being prepared for a museum in the Central school. The top figure is called "Maidenhood" and the lower one "The Prodigal Son." The workman in the photos is Pietro Ghilioni, expert sent here from New York by Barnard.

## START REPAIRS ON STATUES OF GEO. G. BARNARD

Expert Being Paid \$10 Per Day and Expenses.

## VALUABLE GIFT

When put into condition and properly placed, the collection of statuary recently presented to Kankakee by George Gray Barnard, famous sculptor, will be a beautiful and valuable acquisition to the city.

This was said yesterday by Pietro Ghilioni of New York, expert in statuary repair, hired by the school board to reassemble and rehabilitate the collection, recently brought here from Madison, Ind., and stored in the Central school.

Ghilioni, an "insider" in the employ of Barnard for 20 years, an intimate of the great master and a sculptor in his own right, ought to know the value of the collection from an artistic viewpoint.

In Poor Condition

He was dismayed, however, at the condition of the pieces, many of which had to be dismembered for shipment and which have suffered from time and neglect. He will have to spend more time at the work on them than he first anticipated.

Mr. Ghilioni scorned the furor in metropolitan newspapers over false reports the school board is considering clothing the nude figures and repeated the recently quoted words of his master, "There is no room for prudishness in art."

He enjoyed with gusto a barb at the reporter who persisted in the question whether the figures are suitable for view by school children, saying, "Imagined children don't think the thoughts that you do."

May Cover Males

He said he has no instructions from Barnard to fasten fig leaves on the male figures and no orders to that effect as yet from the school board. He said it will be easy to mold such a covering on the male figures if the school board makes such a request. As to the female statues, they will need no such additions.

Mr. Ghilioni declined to let a value on the collection. "The material value is nothing, just a few cents worth of plaster," he pointed out, "but the creative skill of the artist is worth everything, apart from the sentimental value in Kankakee attached to them by reason of the fact Mr. Barnard used to live here."

Real Art Work

He further pointed out that from an artistic and sentimental standpoint the pieces are especially worth while to Kankakee because they represent the plastic material in which the artist expressed his motive while the marble statues made from them.

(Continued on page eight)

## Married 30 Years Wife Leaves Hubby

Dissolution of a marriage which has been in effect over 30 years is asked in a suit for divorce filed today in the office of Circuit Clerk Albert Tetrault by Attorney C. D. Henry.

The complainant is H. Jay Storrs of Kankakee who was married at Knox, Ind., on April 15, 1906 to the present Maude A. Storrs. He claims she deserted him on July 15, 1933. There are no children.

## THE WEATHER

(Friday, June 18, 1937)  
Hourly temperature readings from 1 o'clock Thursday afternoon to noon today are:  
High at 1 p. m. 69, low at 2 a. m. 58.  
A year ago cloudy, high 67, low 54.  
1 p. m. 69, 1 a. m. 59  
2 p. m. 68, 2 a. m. 58  
3 p. m. 68, 3 a. m. 58  
4 p. m. 67, 4 a. m. 58  
5 p. m. 65, 5 a. m. 59  
6 p. m. 65, 6 a. m. 60  
7 p. m. 64, 7 a. m. 60  
8 p. m. 63, 8 a. m. 60  
9 p. m. 62, 9 a. m. 61  
10 p. m. 62, 10 a. m. 61  
11 p. m. 61, 11 a. m. 62  
Midnight 60, Noon 65  
Sunset today at 7:28, sunrise Saturday at 4:14, sunset at 7:29, moon sets at 1:11 a. m. Sunday.  
Probably local showers and thunderstorms tonight or by Saturday except generally fair in northeast tonight; slightly warmer in central and north tonight and in northeast Saturday.

## Former Kankakee Boy Is Leader in Youth Congress

Joseph Wazeka, former Kankakee who is secretary of the Chicago council of the American Youth Congress, "the legislative clearing house for youth," was in Kankakee yesterday to interest local young men and women in attending the fourth national convention of the group July 2-5 in Milwaukee.

More than 2,000 delegates are expected to attend the sessions, this year which have the endorsement of such agencies as the United Christian Youth Movement, representing all Protestant Christian youth in the U. S.; American student groups; Y.M.C.A. and Y.W.C.A. officials; Emergency Peace Campaign and many others. Endorsements in congress include those of Senators Arthur Capper of Kansas and Gerald P. Nye of North Dakota.

Last year 1,300 young delegates representing 1,600,000 young people under 30 years of age in the U. S. convened at Cleveland. The delegates this year are expected to represent 3,000,000 organized youths located in every state in the union.

Congress Is Model

It is designed as a model congress, according to Wazeka, to coordinate the various youth organizations' efforts, to consider mutual problems and to draft a program of action and urge its adoption by the national congress and various state legislatures.

The present appropriation of \$75,000 by congress to the National Youth administration will expire July 1, it is said, and great danger exists that the next fiscal appropriation may be greatly curtailed. To better the economic conditions of youth and to promote peace (the principal objectives of the congress) the leaders of the movement are of the opinion that the activities of NYA should continue.

Wazeka is the son of Mrs. Priscilla Wazeka of 324 South Evergreen avenue.

line on her clothing and set fire to it. Also she was quoted as saying she struck Jimmy with the hatchet.

# BILBAO'S FALL SEEMS MATTER OF FEW HOURS

## Insurgent Forces In Suburbs of the Basque Capital.

### DEFENSE JUNIA

PARIS, June 18.—The Basque government delegation in Paris charged tonight that General Bolin had withdrawn protection from merchant ships which have been holed by the Basque capital.

The Basques said that all ships of escape from Bilbao were cut off, with 70,000 non-combatants in urgent need of relief and only 20,000 evacuated.

BULLETIN

Gibraltar, June 18.—(UPI)—Eighty-five Basque sailors, captured today, were taken to the Gibraltar naval base, where they were being held in the barracks.

The Gibraltar naval base, which is the only one in the world, is the only one in the world.

## Governors Urged to Maintain Peace During Mediation Work

Washington, June 18—(UP)—Secretary of Labor Frances Perkins today telegraphed Gov. Martin Davey of Ohio asking him to maintain peace in Ohio steel strike areas during the work of the new federal steel mediation board.

She said she expected "that you and other governors will act with wisdom and fairness to this end."

Miss Perkins dispatched two department conciliators to Cleveland to assist the steel board when it begins to function at its first meeting in that city tomorrow.

They were James F. Dewey, who goes back to Ohio from Washington, and Robert F. Plunkington, transferred from Chicago.

Miss Perkins' telegram to Davey was in answer to his request to President Roosevelt yesterday asking federal intervention in the seven-state strike.

Miss Perkins' move was to maintain peace in the strike areas pending mediation efforts came shortly after it was revealed that steel strikers were considered eligible for Works Progress administration aid.

Miss Perkins' telegram to Davey said:

"Your telegram to the President urging federal intervention into steel situation referred to labor department."

"Have appointed federal steel mediation board Charles P. Taft, Lloyd Garrison and Edward F. McGrady."

"Appreciate your promise to do everything within power of the state government to help and ask your full cooperation with this board."

"Very important that peace be maintained at all points during work of board."

"Maintenance of order and of civil rights is of course a primary function of state government and it is anticipated and expected that you and other governors will act with wisdom and fairness to this end."

"Request you to maintain the status quo with regard to operations during mediations."

"Believe under suggested conditions board can act with speed. Please be assured of cooperation from us."

Labor department officials said they did not know whether McGrady would be able to attend the opening meeting of the board tomorrow. The assistant labor secretary is expected to return from Geneva sometime late today. Officials said they were not sure whether he would come to Washington or go directly to Cleveland.

**Tension Mounts**—Cleveland, June 18—(UP)—Tension mounted in steel strike "danger spots" today when violence and back-to-work demands collided with efforts of the newly appointed federal mediation board to end the seven-state labor conflict.

A new outbreak of violence at Canton and intensification of demands that struck plants be reopened increased the difficulties of the mediation board's preparing to start work here Saturday under chairmanship of Charles P. Taft.

A committee of Canton unionists protested to Mayor James Secombe and Sheriff Joseph T. Nist that tear gas and bullets were fired into their ranks, allegedly by railroad police. None was injured in the shooting.

Non-strikers charged that the home of one of their group was wrecked by vandals during the night.

Windows were broken and furniture smashed, they charged.

The mayor then called in a committee of seven representing a back-to-work movement in an effort to prevent new clashes before the mediation board has had an opportunity to act.

"Our men are determined to return to their jobs," J. G. Stewart, leader of the Canton back-to-work move, said. "They will take matters into their own hands if the mayor fails to act."

"We have stood by and quietly submitted to indignities such as no American citizen should be required to bear. But we cannot promise to continue to submit to insult and injury."

Two other factors increased tension at Canton which, with the

Youngstown steel center, appeared to be the most vital points along the strike front.

Sherman H. Dalrymple, president of the United Rubber Workers, and a delegation of rubber workers leaders from nearby Akron, conferred with steel strike leaders and looked over the picket lines at Canton.

"We are not here to scare anyone," Dalrymple said. "We are here to prevent trouble. What happened in Monroe, Mich., and Chicago must not happen here."

In addition, Larry Young, representative of President A. F. Whitney of the Brotherhood of Railway Trainmen, told strike leaders at Canton that there would be no movement of freight in or out of the plants by brotherhood railroad workers.

"Under our contracts," he said, "we don't have to and won't work under unsafe conditions. The presence of 350 thugs makes it pretty clear that it is unsafe to work."

Young said that of 350 railroad guards, only 20 were regular employees.

Other developments included:

At Youngstown, Ray L. Thomas, leader of the back-to-work organization, announced he had telegraphed Sen. H. Styles Bridges a complaint against testimony by Philip Murray, S. W. O. C. chairman, before the senate post office committee. Thomas said Murray's description of strike conditions at Youngstown was "erroneous" and added: "We have these gentlemen licked and now they are yelping. They know they're beaten or they wouldn't have gone to Washington."

At Washington, Bridges presented to the post office committee a telegram from Sheriff Ralph E. Elser of Youngstown, denying charges made by strike leaders that Republic Steel corporation had paid salaries of deputy sheriffs.

The mediation board chairman and city officials in the strike centers appealed to both sides to avoid violence until the board has a chance to act.

Mayor Secombe at Canton, declining to agree to back-to-work demands that the city provide "adequate" protection for non-strikers, said:

"My earnest request is that all parties at this time keep peace for the next 72 hours so that the real issues may be peacefully adjusted across the conference table set up by the government."

"I do not propose to mass any large force of armed men in the strike area to precipitate trouble, nor do I intend to break any picket lines, or have any part in breaking a strike."

He called upon "pickets and strikers, civic and any other interested groups to lay down their clubs and observe the laws which apply to strikes and picketing."

**WOMAN DEVISES WAY TO CAN MILK AT HOME**—Stillwater, Okla., June 18—(AP)—Mrs. B. P. Johnson, Choctaw, Okla., club woman, has devised a method of canning milk to use on the farm when pasture grasses are dead and "Bossy" goes dry.

By thoroughly cooling whole sweet milk, putting it in jars and processing it at 15 pounds pressure for 45 minutes, she obtains canned milk that can be used for cooking. Although the milk turns pink when processed, Mrs. Johnson says the color in no way affects the value of the product.

**IF THE WELL HISSES, LOOK OUT FOR RAIN**—Johnson, Kas.—(AP)—The old town well is City Clerk Elam Hilly's barometer.

If the well cover hisses, Hilly says, it is a sure sign of rain. The clerk explains that the covering has a small hole through which air rushes when atmospheric conditions change.

## OUR BOARDING HOUSE

## TRAINS ARE STRANGER THAN PLANS TO BOYS

San Benito, Texas—(AP)—More San Benito boys have traveled by airplane than passenger train, a survey shows, and a number of high school students about to graduate never have been inside a sleeping car.

## GET OUT YOUR BROOM

Washington—(AP)—The gross floor area of the new Department of Interior building is equivalent to 29 city blocks.

## LIBERTY CHANGES COLOR

New York—(AP)—Fifty years have changed the once lustrous copper surface of the Statue of Liberty to

a light green color Verdigris, caused by wind and rain, not once produced this color scheme but also serves as a protective cover.

## UPS AND DOWNS AT TAHITI

San Francisco—(AP)—A few miles from Tahiti the ocean is more than 10,000 feet deep while a few miles inland the crest of Orohena mountain is more than 7,000 feet above the surf.

## FATHER'S SAFETY DEVICE BRINGS DEATH TO SON

San Francisco—(AP)—When he was director of public works, Timothy A. Reardon had a traffic "island" of concrete erected near the entrance to Golden Gate park. Recently a

car hurtled into the obstruction, killing its two occupants—Reardon's own son Louis and a girl companion.

Reardon later appeared before the traffic advisory board and urged elimination of the "island," calling it a mistake and a traffic hazard.

## EXPLORERS SEARCH FOR MEN WITH TAILS

San Francisco—(AP)—Promised a Chinese military guard, three men have sailed to explore hand-dog-untested Hainan island, off French Indo-China. Among the objectives of Jack Monroe, Nicol Smith and Leonard Clark are:

To investigate a legend of men with tails  
To capture a Hainan bear, never seen by white men  
To record music of the primitive Loi people  
To make the first inland maps of Hainan.

## JUDGES FIRST DUTY IS TO FINE SELF

Pratt, Kas.—(AP)—Charles R. Mawdsley recently appointed police judge, entered the courtroom to hear his first case, the city of Pratt against Charles R. Mawdsley for overparking.

Representing himself, the judge assessed the usual fine of \$1 and assured himself that if it occurred again the fine would be \$2.

The United States contains one dog for every two families.

## ROMY HAMMES USED CAR LOT

The most wonderful exhibit of unused automobile mileage ever displayed in Kankakee . . . a sensational, gorgeous display of the nation's most popular autos . . . and, until July 3 these cars will be sold to the early buyers at radically reduced prices. Prices so low, down payments so small, and terms so low, you must buy to save yourself dollars and dollars of real cash.

# LAST CALL!

\$1 DOWN puts  
Beautyrest Sleep  
into your home

We promised to sell 100 Beautyrests on this plan. We are not far from that figure now, and we are going to definitely close this offer on Saturday. Until that time, you may have a Simmons Beautyrest for \$1 cash, and pay the balance in small weekly amounts. It's a painless way of owning this famous mattress. But the important reason you should have a Beautyrest is—it helps you to get deep, natural slumber. You relax at night . . . you awake in the early morning thoroughly rested. Such sleep gives you more energy, makes you look better, improves your health. If you want that kind of sleep, be sure to select your Beautyrest on or before next Saturday.
