# MURDERS NURSE IN HOSPITAL

## CHICAGO JUDGE AGREES WITH LOCAL JURIST

Holds Crown Point  
Marriages are  
Invalid

### IN RULING TODAY

A ruling decision, ratifying the statement of Circuit Judge William R. Hunter that marriages performed at Crown Point, or other Indiana border towns, for the purpose of evading the Illinois law are invalid, was handed today by Chicago's Circuit Judge Harry M. Fisher.

Judge Fisher declared that children born of such marriages are illegitimate and that all such marriages contracted by Illinois couples across the border in Indiana are invalid.

Judge Hunter was first to remind people last month of the marriage evasion law, an obscure statute which has been part of Illinois law since 1915. That acted as a temporary deterrent to the couples demanding a quick marriage without observance of the new Illinois rules which require anti-venereal disease certificates and a three-day waiting period before the marriage.

Elopements Increase

Marriages in Crown Point have increased sharply since Illinois and Wisconsin passed laws requiring blood tests for freedom from venereal disease before marriage licenses will be issued.

At Crown Point a marriage is as easy to obtain as an ice cream soda. Justices of the peace ballyhoo their services with posters and signboards. Couples may obtain a license and be married within a few minutes. As an added inducement some of the "marrying justices" furnish a "wedding breakfast" with the ceremony.

Judge Fisher said he would continue to hold Crown Point marriages illegal until reversed by a higher court. He said he had ample support in law.

Cousins Too

"For instance," he said, "our law says cousins cannot be married. In Wisconsin the law allows cousins to wed. Therefore in our state these marriages are illegal because cousins going into Wisconsin to evade our statutes naturally violate the Illinois law books."

Judge Fisher has presided over many important cases and rarely has been overruled.

## 1.42 Inches Rain Falls Here Past 24-Hour Period

Three periods of rainfall within the 24-hour period, the total precipitation yesterday and overnight to a total of 1.42 inches, according to records of the Kankakee Water company. This is considered an abnormally heavy rain for the month of August.

Yesterday marked the sixth day this month in which rainfall has been recorded by the water company, bringing the total for August thus far to 3.75 inches and reversing the farmers' hopes for the kind of weather needed to finish maturing the corn crop.

Last week the farmers were praying for rain. Now after getting 3.75 inches of it within the space of nine days they are beginning to wonder when the weather man is going to shut off the spigots.

Rainfall by days has been as follows: Aug. 4-28, Aug. 9-15; Aug. 12-126; Aug. 18-04; Aug. 19-60; Aug. 21-142.

## WAR AND FIRE CONTINUE IN CHINESE CITY

Inquiry Made Into  
Tragedy of U. S.  
Sailor

Shanghai Aug. 21.—(AP)—War and fire continued to "lav" waste in Shanghai today, with foreign police estimates that about 11 square miles of the world's sixth largest port had been destroyed.

Fire leveled most of Chinese Chapel, Japanese Hongkew, Yangtzeop, Industrial Pointing, across the Whangpoo river, and Kiangwan. Only the international settlement, the French concession and parts of Nantao in the Soochow creek area remain intact.

In the absence of firemen, who already had evacuated the burning areas, the flames continued to spread unchecked in all directions. Stifling smoke and fierce heat were driving many Chinese belligerents from the Hongkew battle area.

More Bombs

There Chinese warplanes dropped over the smoking ruins in renewal of warfare today, aiming their bombs at the Japanese consulate. The projectiles fell wide of the mark, but killed one Chinese and one Japanese and wounded 13 others, all believed to be Japanese.

From the United States cruiser Augusta, \$10,000,000 flagship of the American fleet, grim-faced blue jacks carried the shell-tipped body of a 21-year-old Louisiana boy, one of the crew and the fourth American to be killed since the hostilities started.

The mighty Augusta still lay resolutely at anchor on a curve of the Whangpoo near the heart of the international settlement to protect American lives while investigators sought to learn the origin of the one-inch anti-aircraft shell that killed the seaman, Freddie John Falgout of Raceland, La.

Inquiry Made

A routine navy inquiry board headed by Commander E. H. Kincaid of the Augusta heard testimony of persons who witnessed the shellings.

As the Shanghai hostilities entered the second week, foreign authorities estimated Chinese casualties to date as about 5,000 as against 600 Japanese.

Wounded sailors aboard the Augusta included: Charles R. Sims, Milltown, Ind.; Clarence B. Strachan, Clinton, Ia.; Daniel Joseph Petricid, LaCrosse, Wis.

While the battle for Shanghai continued with bitterness and fury, there was combat at two other important points in China.

Hostilities were brought close to China's summer capital, Nanking, when three Japanese planes bombed.

## Drag Quarry But Unable to Find Body

Firemen dragged the southside quarry last evening and this morning in an attempt to recover the body of a person supposedly drowned there last evening. They found nothing, however.

Their search was based on reports made to police headquarters by a girl, Josephine Beniewicz of 368 South Wall street, who said she and her companion heard cries of help at about 5:30 o'clock Friday evening and when they reached the water's edge they saw bubbles rising from the surface.

## KOERNER BUILDS NEW AIRPORT ON SITE OF RUINS

Rush Work on New  
Concrete Hangar  
80x80 Feet

The Kankakee airport will rise again. The cyclone which demolished two hangars and smashed four of the five airplanes at the landing field of Delbert Koerner on Wednesday evening will curtail Koerner's operations only temporarily. It was learned today.

Work on a new hangar near the grove at the north end of the airport, started before the windstorm wrecked the old ones, has been speeded up and will be rushed to completion early in October.

Wind-Proof

Of reinforced concrete blocks, the new hangar will be built with life, modern style of close fitting buttresses which would require more than a windstorm to blow down. Three times the size of Koerner's other hangar, the new one will be 80x80 feet, with a door 18 foot high extending all the way across the south end.

Koerner's machine shop will be moved to one corner of the new structure, also. He said today that the wind did not damage his heavy lathes and drills, but the light tools were scattered all around and some were lost or stolen.

The airport owner has 120 acres in a triangular area which provide half mile runways in either direction. The field, together with the new hangar, will accommodate any ship which frequents this area.

The new manager is a native of Danville and has a background of 10 years' experience in telephone work to qualify him for his new position. He is a graduate of Princeton university and entered the employ of the Illinois Bell Telephone company in 1927.

After holding several supervisory jobs in the commercial department, he was appointed division instructor two years ago. In this position, he has had supervision of employee training activities in the entire commercial department for the state outside of Chicago and suburbs.

## Moral: Don't Ever Wave to Policeman Without Thinking

When John Christopher of 323 West Court street drove his car through a stop street at Washington and Station streets Charles Collis, a deputy of 344 Foley avenue, who pulled up to the intersection at the same time, sounded his horn and pointed to the stop sign.

A passenger in Christopher's car, Roger Petko, of 347 West Oak street, turned and thumbed his nose at the Collis, according to the deputy, who took after them and ordered them to appear in police court.

Yesterday, Christopher was fined \$4.25 for running the through street and Petko was arraigned on a charge of disorderly conduct, with hearing set for Aug. 24, when more witnesses will be present. Petko stoutly denies the charge, saying that he only extended his hand to wave at the man.

On Wednesday evening, the home of Arthur Anderson was entered while occupants were at his service station on highway 45. The entire house was ransacked but nothing was missing, the sources apparently wanting only money.

Last Thursday night, the Michael Holland home was entered and money and a flashlight taken. On the same evening, thieves took money, a valuable watch and part of a cake from the Henry E. Slim residence.

Sheriff John Stack of Kankakee and Sheriff Phil Brown of Watseka have been investigating the cases with the local officer, Charles Brinkman Sr. Fingerprints have

Several months ago a number of homes in the northeast part of Chebanse were robbed in a similar manner.

## BARBERS GET INJUNCTION VS. ART BOUCHARD

Claim Violation of  
Agreement with  
Local Union

### CIRCUIT COURT

A temporary injunction was issued by Circuit Judge Claude N. Saum yesterday against Barber Arthur J. Bouchard of 1119 North Schuyler avenue. The order restrains Bouchard from violating the terms of his agreement signed with the local barbers' union last month.

He has been violating his contract, it was alleged, by keeping his shop open later than 6 o'clock in the evening on weekdays and 9 p. m. on Saturdays and charging 35 cents for haircuts instead of 50 cents as he agreed to do, according to the complaint signed by nine members of the barbers' union and entered yesterday by Attorney Vernon Butz.

File Complaint

The complainants are James Lamb, William Cook, Roy Line, M. D. Beasley, Ed Nelson, H. G. See, Louis Rodgers, Rene Dupuis and Edward Bourgeois.

It was unofficially indicated that this procedure would be followed at any other shops where such violations are noted.

Last month all union barbers closed their shops for two days, aided by union organizers, went to the non-union shops in a body, sat down in their chairs and talked over unionization with their owners.

All Signed Up

At the end of the second day, the union announced it had signed up every shop 100 per cent. Some shops which had been charging as little as 25 cents for a haircut and 15 cents for a shave then were required to boost their prices up to the union scale of 50 and 25 cents.

Recently, a few had dropped the price down to 35 cents. This was the signal for the union's appealing to the court.

## Rebellion is Seen in Ranks of Democrats

Washington, Aug. 21.—(UP)—The first session of the 75th congress will adjourn today leaving behind the wreckage of major New Deal legislation but under threat of a possible special session in November to pick up the pieces.

Politically bruised and defeated in 1936, he considers vital to his plans. Mr. Roosevelt is expected to "go to the people" on one or more speeches of "fireside chats." His Roanoke Island speech this week was judged here to be the keynote of Mr. Roosevelt's campaign against conservatives in and out of his party.

Some Democrats talked party harmony but there was evidence of unrest sufficiently deep-seated to suggest that it may extend into the 1938 congressional elections. Several Democrats who opposed Mr. Roosevelt's supreme court reorganization bill believe they may suffer political reprisals next year. Postmaster General James A. Farley has denied reprisals were contemplated.

## Justice Still in Wedding Business

St. Louis, Aug. 21.—(AP)—Defying a court order revoking his commission, Justice of the Peace George R. Hart was still in the "marrying business" today.

The St. Louis county court declared Hart's appointment null and void because of irregularities in his petition for appointment and condemned his activities as a "marrying justice."

Hart, however, said his lawyer told him the ouster was ineffective. Hart has married more than 3,200 couples since taking office in 1934. He performed more than 300 ceremonies last month, including many for persons who came from Illinois to escape the new Illinois law requiring persons be declared free of disease before they can obtain a marriage license.

## SEX MANIAC IS SEEN LEAVING BATTERED BODY

Chicago Woman Is  
13th Victim in  
Two Years

### KILLER A NEGRO

Chicago, Aug. 21.—(UP)—A 19-year-old student nurse was ravished and slain in the Chicago hospital today—13th victim of sex maniacs in two years.

Police assigned extra squads to hunt for a "long-armed" Negro seen near the hospital.

The victim was Miss Anna Kuchta, red-haired member of a south side Russian immigrant family. She had been a student nurse nine months.

The crime was discovered only a moment after it happened by Miss Florence Palmowski, 18, Miss Kuchta's roommate. Miss Palmowski went to awaken the other girl after Miss Kuchta's two-hour rest period. As she opened the door she spied the nude body of the nurse near the window.

Uses Fire Escape

A dark man in a white shirt, dark trousers and cap had one foot out the window. He clattered quickly down the fire escape while Miss Palmowski's screams awakened the hospital.

Miss Kuchta's head had been battered with a brick which was found outside the window. Her body was bruised and scratched. Police said she had been assaulted.

The attack occurred like many in recent months. The criminal had mounted a fire escape (in other cases it was a nearby building) and entered the room through a loose screen. On Aug. 7 Miss Palmowski had screamed and routed a Negro from the same fire escape used today. Three days later a nurse had seen a Negro remove a screen from the window of her room and had frightened him away by screaming. A police squad was posted at the hospital but withdrawn after four days of fruitless vigil.

One Woman Slashed

Earlier this year a Negro had slashed Miss Marcella Miles, 26, night superintendent of nurses, with a razor blade when she refused to give him narcotics. That man was sentenced to a year in jail.

Descriptions of the suspect in today's crime indicated he might have been a drug addict. Tom De Brugane and Karl Wilhelm, janitors of nearby buildings, said they saw the long-armed Negro late last night pacing near the hospital. The man appeared "fidgety and nervous" they said.

De Brugane gave the best description of the suspect, whom he had chased away. He said he was a light-colored Negro with exceptionally long arms and a nervous manner. He wore dark trousers and a white shirt. His cap was soiled.

Summon All Cops

Police Captain John-Frederick, chief of 10 uniformed forces, took charge of the investigation and announced:

"Every policeman in the city is on this case and instructed to look for this man. Special squads from the Hyde Park station and central headquarters are cruising the area and investigating all possible suspects." (There are 6,000 on the Chicago force.)

Chief of Detectives John J. Sullivan said he had assigned 40 detectives especially to this case. He said the evidence was similar to that in previous attack cases and that there was no good description of the killer available.

## Two Injured When Car Tire Blows Out

Two persons were injured at 11:30 o'clock Friday evening when a tire blew out on the car in which they were riding and wrecked the vehicle on the Grinnell road east of Valencina field.

The auto was driven by Wayne Holly, 20, of route 1, Kankakee, according to police reports, and his passengers injured were Louis Landry, 26, also of route 1, and Marie Gardner, 26, of 538 East Cypress street. Their injuries were not described.

Two other minor accidents were recorded yesterday. Autos of Faye Fritz, 433 South Adams avenue and Red Farquhar, driver for the Yellow Cab company, collided at Dearborn and Court streets and machines of Joseph Rogers of Momence and Ed Collins of 127 South Chicago avenue, tangled at the intersection of Station and Fifth avenues.

## Authorities at Shanghai to Act, Killing of Sailor

Washington, Aug. 20—(UP)—President Roosevelt intimated today that he would allow American officials in Shanghai to handle the affair in which the U. S. S. Augusta was struck by a shell, killing a U. S. seaman and injuring 18 others.

President Roosevelt said at his press conference that he had received only a "flash" of the incident. He said such an occurrence was almost bound to happen in a situation like that prevailing at Shanghai.

Mr. Roosevelt said that, under the circumstances, he believed it best for officials on the spot to decide what course should be taken.

Mr. Roosevelt revealed, meanwhile, that he and state department officials are discussing the Chinese-Japanese situation daily in the light of America's neutrality act.

Mr. Roosevelt said at a conference Tuesday that any invocation of the arms and loans embargo probably would not come until and if the two nations severed diplomatic relations.

Officials here were anxiously awaiting details of the accident to the Augusta, including the manner in which the shelling occurred.

In ordinary circumstances, an incident of this kind would involve grave international consequences, with a vigorous protest to the government controlling the gun or the battery which fired the shell.

In the present case, however, the danger of some such an incident has been recognized by officials since the fighting in China began.

It has been one phase of the Sino-Japanese hostilities which has given this government deep, continued anxiety.

What action, diplomatic or otherwise may result from the incident will depend largely upon official reports from our naval and consular officials in Shanghai regarding the circumstances of the shelling.

## Spanish Count is Ousted from Paris

Paris, Aug. 21—(UP)—Count de Los Andes, counselor to former King Alfonso XIII and considered one of the leaders in the movement of restoration of the Spanish monarchy, was ordered deported yesterday.

Officials served deportation papers on Andes, ordering him to leave France within 15 days "for actions exceeding the admitted limits" in behalf of Generalissimo Francisco Franco on French territory.

At the same time nine young Spaniards were ordered deported because they alleged received money from the count.

Andes sought refuge in Biarritz at the outbreak of the civil war. He moved a month ago to a secret villa in southern France where, according to officials, he maintained a clandestine radio transmitter.
