MAN CONFESSES TO BURGLARIES HERE RECENTLY

Indiana Ex-Convict
Implicates Other
as "Fence"

BOTH IN JAIL

Officer Gilbert Bowden had a hunch Wednesday night. He noticed that every time a certain young man from Indiana appeared in town, a burglary was committed. The man was seen sitting in his parked car on Cypress street last night and the patrolman picked him up for investigation.

As a result the police department today had cleared up a series of office burglaries which puzzled authorities for several months. Bowden's prisoner proved to be William Francis Kaska, alias Robins, 31, of Michigan City, Ind., ex-convict who has served eight years in penitentiaries at Ionia, Mich., and Pendleton, Ind., for larceny and armed robbery.

His arrest at 10:15 o'clock last night led to the apprehension by Detective Daniel Bergan and Officer Don Blau at 9 o'clock this morning of Pam Caruso, 36, who has been residing in a rooming house at 520 East Cypress street.

Sold the Loot
The latter is believed by police to be the "fence" who disposed of a quantity of paint in Chicago as well as adding machines, typewriters, check protectors, tools, radios, clocks and other equipment taken from coal and lumber offices here.

Kaska has already admitted to Chief of Police L. B. Rogers and Detective Bergan that he "pulled the job" as the Alexander Lumber company, in which a typewriter, adding machine, clock, tools, brief case and license plates were stolen. The plates, recovered by police from Kaska's car, were those of O. H. Undtett of Aurora, salesman for the lumber firm who had parked his car in the drive on the night of the burglary.

Listed Robberies

Kaska also is said to have confessed to the burglary of the Kankakee Lumber and Supply company, which firm lost an adding machine, electric clock, tools, three electric motors and several gallons of paint; also that of the Kankakee

Cocktail School for Bartenders

The Dubouchett "cocktail school" conducted at the K C hall yesterday afternoon and evening with the cooperation of the Kankakee Liquor company and the Bartenders' union was attended by a large number of interested persons.

Bartenders attending were instructed not only in the fundamentals of "mixology" but also in the advanced types along with efficient and cleanly service over the bar. The "students" expressed the desire for a second cocktail school. The instruction was given by Michaelson of Chicago under the supervision of Ralph Rice, state representative of Many Blanc and company.

Red Cross Instructor Gives Safety Tips For Swimmers

With the death-by-drowning season in full swing, Max E. Jaffe, chairman of the Red Cross life-saving service in Kankakee county, offered several tips today on prevention of drownings. "Red Cross statistics reveal that close to 7,000 persons in the United States lose their lives each year in this manner," he said.

"When a boat or canoe overturns, stay with it," is Jaffe's advice. "Any rowboat has the buoyancy to support its regular load of people whether rightside or bottom up. In the latter position it furnishes a floating air chamber that will sustain the heads of more people above water than could possibly have been in the boat before it capsized."

"Right side up and full of water, the boat will sustain the heads of the passengers above water if they sit on the floor and not try to rise as the water creeps toward their chests."

In cautioning men and boys not to show off skill which they do not possess, Jaffe pointed out that 10 males drown for every female because of this. He suggests that no one dive into water that is muddy or of unknown depth without first exploring the bottom with his feet.

Pay Nonstop's Fine?

W. E. Easterwood, Jr., of Dallas, Tex., banker and aviation enthusiast, dug down in his pocket for some ready cash after he had cabled Douglas Corrigan from San Francisco, Calif., that he was willing to "pay" any fine assessed against "Nonstop" for his unauthorized flight to Dublin.

QUEEN'S BODY LIES IN STATE; ROYAL PALACE

Her Favorite Possessions Near the Coffin

Bucharest, July 21.—(P)—The body of Dowager Queen Marie of Romania was placed today in the royal palace to lie in state until the funeral Sunday.

It was brought to Bucharest by train from Sinaita, the royal summer residence, where the 63-year-old queen died Monday after a long illness.

Just before the train left Sinaita, her daughter, Princess Elizabeth, former queen of Greece, fainted.

In Bucharest, the queen's favorite possessions were exhibited near her coffin. Among them was a portrait of her by Philip de Lazlo.

Long lines of people formed to view her body. Authorities expected more than 350,000 to pass by it today.

Royal Family Near

King Carol and Crown Prince Mihail, her son and grandson, appeared in public at Sinaita, for the first time since her death. They were accompanied by other members of the royal family.

Thousands of peasants crowded Sinaita as the coffin was lifted by cavalry officers to a gun carriage, painted cardinal red and purple, which was drawn to the railroad station by six horses.

It was decorated with huge silver initials and the family crest. Roses.

GOVERNMENT TO SUE ESTATE OF BREWERY HEAD

\$139,298 Demanded
for Taxes on Beer
Made Here

IN "DRY" ERA

A claim of \$139,297.71 for taxes on beer was filed in Chicago probate court yesterday against the estate of John J. Nolan, former president of the Kankakee Beverage company.

The claim, according to David Bazelon, assistant United States district attorney, represents a tax of \$5 a barrel and interest on 19,824 barrels of beer, allegedly manufactured from Jan. 6, 1921 to May 1, 1932.

B. M. Steiner of Chicago, representing the Nolan estate, said the claim was "presumably for tax on near beer."

Nolan, who spent a great deal of time in Kankakee, but had his home at Lyons, died June 28, 1937. His heirs are a son John, 17, and three daughters, Charlotte and Mrs. Jocelyn N. Backus of Bridgman, Mich., and Marcella of Chicago.

Estate in Court
A matter of the Nolan estate was in the circuit court here last spring when Judge W. R. Hunter decided that a 100-acre farm on the Kankakee-Iroquois county line near Sugar Island belonged to Mrs. Edith Kiskane of Chicago rather than to Nolan's widow.

The widow, Mrs. Marcella Nolan, sued Mrs. Kiskane, claiming ownership of the land which had been in the other woman's possession. Mrs. Nolan claimed that a warranty deed for the land, which also valued at \$30,000, by one Joseph Newman to Mrs. Kiskane was invalid because the land was owned by Nolan at the time and Newman had no right to make the sale.

Fictitious Name

Mrs. Kiskane, represented by Attorney Eva L. Minor, asserted that the supposed Joseph Newman was in reality John J. Nolan under a fictitious name and that the conveyance was valid.

One of the handwriting experts involved in the famous Lindbergh case was in Kankakee previous to the trial to examine the deed in behalf of Mrs. Nolan but he did not appear to testify.

4 Local Girls Win in Poster Contest

Mrs. Martha Stearns, retiring president of the American Legion auxiliary, has received notice that students of the local schools were prize winners in the poppy poster contest sponsored by the 18th district of the auxiliary at the convention held recently in Paris.

Violetta Betourne and Betty Lineman, Kankakee high school students, won cash awards. Lehnor Freberg of the second class and Mary Passantino of St. Joseph school and Ruth Marie Hoerr of Departmental received honorable mention.

These posters will be sent to Rockford to compete in the department contest Aug. 20. These students were also winners in the contest sponsored by the local unit in May.

Truck Containing 3 Youths Struck by T.P. & W. Train

Watseka, July 21.—(RN Special)—Three Milford youths narrowly escaped death when the truck in which they were riding was struck by an eastbound fast freight train at the T. P. & W. crossing on highway 8 two miles west of Watseka at 4:30 o'clock Wednesday afternoon.

Homer Baier, 21, driver of the truck, pinned under the dash, sustained a broken leg and cuts about the head. His passengers, Donald Baier, 19, Homer's brother, said Robert Cossett, 19, jumped out and were unhurt.

The truck was towing a hay trailer and both machines were demolished, with parts strewn along the right-of-way for 100 feet. Homer was removed to Iroquois hospital here. The boys had been working on a farm in this vicinity.

Countess Barbara to Get Custody of Infant; Agreement?

London, July 21.—(P)—Attorneys for Count and Countess Haugwitz-Reventlow were understood today to be planning a private separation under which the countess, the former Barbara Hutton, would receive custody of their two-year-old son, Lance, and the count would have permission to see the boy at intervals.

Two Danish lawyers retained by the Woolworth heiress have arrived to collaborate with her London attorneys.

Both the count and countess were understood to be desirous of avoiding further court publicity following the sensational hearing July 5 in Bow street police court in which the count was accused of threatening his wife and an unnamed "London society" gentleman.

This charge was dismissed later. The charge was based on a letter written by the count to a friend, in which he threatened to "take care" of the friend's wife.

Under the present plan it is understood the count will be allowed to keep in touch with Lance's education—one of the matters known to have caused a rift between the parents.

10-Inches of Snow and Hail on Upper Slopes, Pikes Peak

Colorado Springs, Colo., July 21.—(P)—Snow and hail ranging up to 10 inches in depth blanketed the upper slopes of Pikes Peak today as a reminder of the worst summer storm in years to whip the 14,110-foot high granite mountain.

At one time more than 150 automobiles, many of the occupants in summer clothes, were marooned on Glen Cove, at the 11,000-foot level, and the summit.

Ambassador Aids Nuns in Leaving War-Torn Spain

London, July 21.—(P)—Twenty-eight Spanish nuns, indebted largely to United States Ambassador Joseph P. Kennedy for permission to depart from bomb-battered Barcelona, are expected in London tomorrow.

When the ambassador placed his three daughters in the Sacred Heart convent at Rochampton last April, the Mother Superior told him of the death in Spain of six members of the order and besought his assistance for others who wished to leave Barcelona.

Kennedy explained he could do nothing officially but would try as a private citizen. At the British foreign office he enlisted the aid of Viscount Halifax, the foreign secretary, who approached the Spanish government.

The British home office also helped Kennedy and the arrangement was completed on assurances to the Spanish government that the nuns would not return to Spain nor help the Spanish insurgents.

A British admiral also helped, sending the British destroyer hero to Barcelona to get the party, which was expected to reach Marseille tonight.

OBSERVATION SEAPLANE CRASHES IN FRISCO BAY

San Francisco, July 21.—(UP)—An observation seaplane from the U. S. S. Idaho made a crash landing in San Bruno today. Except for its tail the craft was submerged. Naval headquarters did not know whether the crew were casualties. The plane usually carried two men—pilot and observer.

JESSIE SUMNER SAYS SPENDING PLAN A RACKET

Pump-Priming Gets
No Relief, Just
More Woe

HITS CONGRESS

Danville, July 21.—(RN Special)—Speaking before a Republican rally here last night, Miss Jessie Sumner, Iroquois county judge and candidate in the 18th district for congress, said:

"I'm a candidate for congress so I might work to prevent racketeering by members of congress."

She referred to "the Honorable So And So's who, under the name of recovery, spend millions and billions out of the government treasury—the common pocketbook—merely to reelect themselves and their friends."

"Then they can spend millions and billions in the next election, if the is one. I haven't the stomach for that kind of justice."

Workers Suffer Most

Judge Sumner said that cheap money is the result when a country becomes too heavily indebted, and that the workers of the nation suffer most because wages and salaries buy less.

"I recall with horror," she continued, "the fate of other extravagant nations. Germany, for instance, was so heavily indebted after the war that it required the equivalent of a \$1,000 bill to buy a newspaper."

"On the matter of relief she said—in 1932 relief was needed. But the election, pump-priming in 1937, threw more people on relief in 1937."

"The great question, pump-priming, will throw still more people on relief next winter."

"If there is presidential pump-priming in 1940, it looks like we'll all be on relief the following year."

The other principal speaker at this meeting, which was sponsored by the Republican Women's club of Vermilion county, was Richard J. Lyons, Republican nominee for U. S. senator.

Mr. Quizz Contest at Bradley Picnic

A Mr. Quizz contest will be introduced this year at the homecoming of St. Joseph church at Bradley, which will be held July 31 on the church grounds.

Committee chairman, called together last night by the Rev. Raymond Bernau, reported on the progress of dinner preparations and the canvass of the parish.

In the Mr. Quizz contest, persons chosen at random from the audience will be invited to answer any question or problem that perplexes Mr. Quizz. Awards for the most original and clever answers will be given.

Contrary to the usual custom of sponsoring an amateur contest, entertainment this year will be given by local and guest singers, dancers and comedians.

New Edgetown Road Will Cost \$11,790

Plans for a new stretch of roadway in Kankakee county near Edgetown were approved today by the state division of highways, according to United Press reports from Springfield.

The new road is to begin at Edgetown, extend north and east a mile and a half and cost \$11,790. The Triangle Construction company of Kankakee has the contract. Financing will be from gas tax proceeds.

GETS RESULTS

Peter Bartoli, owner of the Silverfrost root beer stand at the corner of Indiana avenue and River street, told the Republican-News yesterday that 1,600 people had answered his ad in Tuesday's paper. The ad offered two glasses of root beer for five cents to people who would clip the ad and present it at the Silverfrost stand.

"You don't have to tell me that it pays to advertise in the Republican-News," said Bartoli as he reached beneath the counter and brought out sack after sack of the advertisements and placed them on the counter until they made a huge pile.

Children Set Fire To 2 Houses

Children playing with matches were believed responsible for a fire which damaged a shed, garage and two houses Wednesday afternoon on the properties of Joseph Boudreau, 290 West Hickory street and Jerry Hickory, 310 South Third avenue. The total loss is expected to exceed \$500. Two fire companies were called to the scene and strung two leads of hose to extinguish the flames. Children in the neighborhood whose names were not learned, were playing in a shed at the rear of the Boudreau residence when the blaze started. It spread to the Boudreau garage and house adjoining. Principle damage was that in the Boudreau home. The heat scorched the paint off the side of the Hickory residence nearby and fired the cornice.

Bohmker Off For Europe And Africa

John C. Bohmker, 1043 South Evergreen avenue, general manager of the David Bradley factory, leaves today for New York where he will board the S. S. Europa enroute for Europe and Africa.

After arriving in Europe he will spend a few days in England and then travel to Russia where he will visit the largest agricultural fair ever staged at Moscow. While in Russia he will visit Leningrad, Moscow and Kiev and then go to Hamburg, Germany, where he will take the new motorship Windhuk for Africa.

After arriving at Durban, South Africa, he will spend much time studying the soil and farming methods in North and South Rhodesia and in the Union of South Africa. The soil there makes it necessary for farm implements to be treated with special chemicals to prevent deterioration. "Contrary to belief," Bohmker said, "the principal crop of Africa is corn and wool is second."

After spending a few months in research and study he will return through the Suez canal and the Mediterranean sea, arriving in the United States about Christmas.

Famed Novelist

A visit to the west, necessitated by failing health, transformed Owen Wister from a little known musical composer and author to one of the best known novelists of his day.

Mr. Wister had been graduated from Harvard and enthusiastically entered upon the study of music in Paris in the 'eighties when he was compelled to return to America. He became ill and in an effort to regain health, journeyed westward, eventually undertaking an elk hunting trip through Arizona and Wyoming.

Gladyds Armstrong Sues for Divorce

Mrs. Gladys Armstrong of Kankakee today filed suit for divorce against H. E. Armstrong, whom she charges with desertion.

The Armstrongs were married on July 21, 1932 and lived together until June 16, 1936. There are no children.

Attorney Eva L. Minor represents Mrs. Armstrong.

51-Year-Old Lady to be Prettied Up

New York, July 21.—(P)—The statue of liberty, is getting prettied up—at a cost of \$1,700,000.

Workmen today were removing the seven huge spikes from her crown, part of a general reconditioning of the 51-year-old lady who has stood patiently on Bedloe's island since Oct. 28, 1886.

Visitors have been barred since last April from ascending the decrepit stairway inside the statue. It will be repaired and reopened next fall.

The \$1,700,000 renovation work includes building a new seawall which will increase the size of the island from 12 acres to 15.

The statue, a gift from the people of France, cost \$700,000.

Barber is Sent to State Penal Farm

Carl Johnson, barber of 154 West Chestnut street, was arraigned in county court yesterday for violation of parole by drunkenness.

Judge John H. Beckers ordered him sent to the state penal farm at Vandalla for six months. It was on May 10 that the barber was released on probation when he promised to stay away from liquor. He was arrested for drunkenness Tuesday.

Attorney Francis J. Householder represented Johnson. Assistant State's Attorney Victor Lauridsen was the prosecutor.

PLANE REFUELS AND HOPS OFF FOR NEW YORK

Alights On the St.
Lawrence River
at Montreal

CORRIGAN SORRY

BULLETIN
Port Washington, N. Y., July 21.—(AP)—The 10-ton British "pa-poose plane" Mercury, completing a flight of 3,042 miles from Ireland, arrived at the transatlantic air terminal at 2:08 p. m., est, today.

The actual flying time for the trip across the Atlantic was 22 hours, 28 minutes. A stop of 2 hours, 40 minutes was made at Montreal, making the total time 25 hours and eight minutes.

The Mercury was launched from her mother ship, the flying boat Maia, at Foynes, Ireland, yesterday, high above the sea-coast. It was the first operation of its kind across the Atlantic.

BULLETIN

Dublin, July 21.—(UP)—The \$900 "crate" in which Douglas Corrigan made his surprise flight from New York to Dublin left for home at 7:45 p. m. today aboard the Lehigh of the United States maritime commission.

Corrigan remained behind.

CORRIGAN SORRY

Dublin, July 21.—(P)—Douglas G. Corrigan, who flew "to California" and landed in Ireland, was sorry today he had not flown back across the Atlantic aboard the seaplane Mercury.

Told the pick-a-back plane had alighted at Montreal after a flight from Foynes, Corrigan said: "I sure wish I could have been on her. At least they knew where they were going."

And, wistfully: "Perhaps it's better that way."

Montreal, July 21.—(Canadian Press)—The British pick-a-back seaplane Mercury took off at 12 o'clock noon, est., today for New York from Boucherville air harbor, where she arrived this morning on the first trans-Atlantic flight for a plane of her type.

She had alighted on the St. Lawrence river at Boucherville, 12 miles east of Montreal, at 9:30 a. m., est., 20 hours 20 minutes after leaving Foynes, Ireland, where she was launched in mid-air from the back of her mother ship, the flying boat Maia.

Jury Views Land in Highway Suit

Watseka, July 21.—(RN Special)—The jury selected to hear the condemnation suit by the state against 17 Milford farmers for right-of-way for a new Dixie highway, was completed late yesterday afternoon.

This morning Judge Claude N. Saum had the jurors go out to inspect the farmlands involved in the suit.

Bidding Methods

McBride told of the method of bidding on grain. Buyers in the primary markets of the region—Chicago, St. Louis, Cincinnati and Evansville—determine their supplies each day and in the afternoon send out bids announcing to the various country dealers what they will pay for grain the following day.

If the demand at any of these primary markets is particularly strong they bid higher and the country dealers ship to them. Some days General Foods finds it hard to buy more than one or two carloads. On other days, the procedure may be reversed and the local plant may receive as many as 30 carloads a day.

When the corn mill is running at capacity its outbound carload shipments will run 25 to 30 daily, it was stated. The speaker was introduced by President Harold Borland, Delbert Koerner was a guest.

Describes Transportation of Grain to Kankakee Plant

Transportation problems involved in shipping grain milled at the new General Foods plant here were described yesterday by Hugh D. McBride, traffic manager, at the Wednesday afternoon luncheon of the Exchange club in the Hotel Kankakee.

The speaker recalled the early days of railroading before the interstate commerce commission became operative in 1887, showing how special rates, secret rebates and passes made it difficult for shippers. The only rates were those carried in the pockets of freight agents and they were subject to many changes.

Now the railroads are required to publish and keep on file with the commission all tariffs in effect, of which there are now some 115,000. Industrial traffic men must familiarize themselves with many tariffs to obtain the cheapest and most rapid shipments possible.

Truck Lines, Too
In the country today, 850 railroad lines are operating 450,000 miles of track through some 25,000 stations. In addition, 20,000 to 30,000 trucks are competing with them, according to McBride. Their services must be known.

An important concession obtained from the railroads is that which permits through transit rates for carload shipments of grain even though it is shunted off to plants and processed enroute.

6 Neutral Nations To Settle Dispute

Buenos Aires, July 21.—The government of Bolivia and Paraguay today formally approved a treaty initiated by their foreign ministers today in submitting the century-old dispute over the Gran Chaco to arbitration by six neutral nations.

The agreement was reached after three years of efforts to end quarrels over the almost worthless territory.

Personal signature of the accord will take place tomorrow. Then presidents or their representatives of the United States, Argentina, Brazil, Chile, Uruguay and Peru will meet to fix the Paraguayan-Bolivian boundaries through the Gran Chaco.

Chiang Kai-Shek Restores Teaching of Christianity To Chinese Mission Schools

Peking, July 21.—(AP)—A regulation of some years standing against the teaching of Christianity in American British and European schools in China was dramatically rescinded by Generalissimo Chiang Kai-shek.

The announcement came unexpectedly and was made by Madame Chiang Kai-shek at a gathering of 150 American British mission workers.

According to Madame Chiang, the law was made out of deference to those American British and European missionaries who were locally abused by their armed troops and occasional abuse by Japanese troops.

Many of the missionaries, she continued, had not lived their lives in areas under fire. They were for the needs of the abandoned but took in destitute refugees to shelter and feed and save them from Chinese soldiers from a fate worse than death.

In a glowing tribute to the work of foreign missionaries in China, Madame Chiang revealed the numerous instances of heroic devotion encountered by herself and the government during the past few years.

Explaining that the invaluable work of these missionaries did not

pass unnoticed, Madame Chiang said that Chinese who formerly expelled the effect of foreign missionaries in China and looked slightly upon them as now completely won over by the missionaries' activities and achievements under the flag of the Christian workers.

Spurred lifting of ban on Christianity in mission schools. This ban was lifted during the last few days of the Nationalist government at Nanking.

Most of the missionaries were free to carry out their work and attempt to gain Christian converts, but such courses were not permitted in schools operated by Americans and Europeans.

However, the teaching of religious subjects in registered missionary schools will be a regular part of the curriculum, announced Madame Chiang.

Missionary Oversight. Missionary circles overseas at this time were in a state of surprise. The Christian influence spread in various parts of China with amazing rapidity since the outbreak of the Sino-Japanese hostilities.

Particularly notable aspect of the missionaries in the Chinese interest in Christianity of the Chinese army, whose unprecedentedly large demand for the fact the bible stocks in central China are nearing complete exhaustion.

GABBY HARTNETT SUCCEEDS GRIMM AS CUBS' PILOT.

CATCHER GIVEN MANAGER'S JOB, KEEP COACHES

By WESLEY CARLY
Chicago, July 21.—Gabby Hartnett went to work today on a job he had long hoped of getting—manager of Chicago's Cubs.

Steadily for two years—until late last season when he announced Charlie Grimm's outright release—Hartnett has been working for the job. He had long hoped of getting it, and now he has it.

Wright even had asserted a will-Charles Leo when the veteran catcher's name was mentioned prominently for manager of the Brooklyn Dodgers and the Cincinnati Reds.

But Gabby, who now says, is the man "who could do the most for the club." The owner of the Cubs added he had had a lot of sleep over his athletes' misfortunes this year.
