# REDS ON 'MARCH TO BERLIN'

## U. S. First Army Closing On Houffalize

Drive Within  
One And Half  
Mile Of City

Fog And Snowstorms  
Slow Pace Of Three  
Linked Allied Armies

By James M. Long  
The American first army drove within a mile and a half today of the communications center of Houffalize, pivotal point in the flattening Belgian front.

Heavy fog, a blinding snowstorm and a sharp drop in the freezing temperatures slowed the pace of the steadily linked Allied armies. Again, and again, ground troops and aircraft late in the day fought some planes to attack the Germans on the southern flank of the salient.

**Armies Make Contact**  
The famous hell on wheels second armored division drove closest to Houffalize, striking from the south. Third army troops were a few miles south of the town and British and Americans were reported a little more than 10 miles away from the west.

Other first and third armies extended contact southeast of La Roche, dropping off another segment of the salient. The "virtually emptied" western end of the salient.

Stooge German forces included many rescued tanks. It was reported that the new line was not apparent whether Field Marshal Von Rundstedt would try for a breakthrough or the forces to shield a continued retreat into the shelter of the Siegfried line.

**Nazis Lose 37,894 Men**  
Since the Nazi Marshal struck a month ago tomorrow, he has lost at least 37,894 prisoners alone. "Gefangenen" armies have taken 34,891 prisoners since invading Belgium last June 6.

The supreme headquarters, it was said, that the Ourthe river line was the Germans had hoped to smash and then Houffalize was in a pincer and that Houffalize was in a pincer.

**Nazis Assault Hatten**  
In the Karlsruhe corner of the town, the steadily reinforced German tank assault the American 7th army at Hatten, ten miles southwest of Haguenau. The first assault was beaten back; fighting continued in the second with the Americans holding doggedly to the line.

**Interviews Will Be Held This Week**  
Beginning today through Jan. 21, special representatives of the women's army corps will be in Kankakee. During this period they will have their offices at the United States Employment Service building on Schuler avenue.

They trained interviewers will be used to inform interested women of new changes and opportunities offered to those entering the service. Many women will be able to receive highly technical training at government expense.

This training will not only equip them in the part they play in the battle for victory but furnish them with a specialized training for well paying positions in a competitive post war world.

For many women, this offer represents the opportunities of a life time, that it may enable them to secure an education which otherwise might forever have been denied them.

Women who can qualify owe it to their country and to themselves, to thoroughly investigate these possibilities without delay. Interested persons may call at the U. S. E. S. office, 198 North Schuyler avenue, between the hours of 9 a. m. and 5 p. m. If you are unable to call at the office, a member of the staff will come to your home for a day time or evening interview.

**The Weather**  
(Monday, Jan. 15, 1945)  
Chicago and vicinity: Clearing and colder tonight. Tuesday fair and a little warmer. Moderate winds becoming gentle tonight. Low to night 17 to 20. High Tuesday 33. Low Tuesday night 25.  
Illinois: Clearing and colder tonight. Tuesday fair, a little warmer in afternoon.

Duane E. Close  
Is Killed In  
Action In Italy

A second son of Mr. and Mrs. N. H. Close, 816 South Poplar avenue, Sgt. Duane E. Close, made the supreme sacrifice in Europe Dec. 29, his parents learned Saturday in a telegram from the War Department.

Another son, Lt. Gail E. Close, was killed in action in Italy only three months before, on Sept. 24, 1944.

Duane was a radio operator on a Liberator and was apparently on a mission at the time of his death. He was held at the home of the parents yesterday afternoon with the Rev. A. L. Huff, pastor of the Central Christian church, officiating.

Sgt. Close enlisted in the 4th corps Nov. 23, 1942 and spent nearly two years training at various bases before completing his training at the heavy bomber school at Boise, Idaho. He arrived in England Nov. 14 and was assigned to the 790th Bomber Squadron.

The youth was born in Pontiac Dec. 27, 1920, and moved to Kankakee with his parents in 1936. He was a graduate of Kankakee high school and later attended the Gallagher school of business. Duane was a member of the Central Christian church and was employed as a bookkeeper at Seim's dairy when he enlisted in the service.

Sgt. Close is survived by his parents, a sister, Mrs. LaVerne Ferris, Wilmington, and a brother, Cyril F. Close, Kankakee.

**1,300 American Planes Hit Four Nazi Rail Yards**  
243 Enemy Aircraft Destroyed Yesterday In Large-Scale Fight

London, Jan. 15.—(AP)—Almost 1,300 American bombers and fighters from Britain pounded four railroad yards in southern Germany without interference from German fighters today, following yesterday's large-scale battles in which 243 enemy aircraft were destroyed.

The daylight blow by 600 Fortresses and Liberators, escorted by 673 Mustangs and Thunderbolts, was aimed at Freiburg, Augsburg, Ingolstadt and Reutlingen, all important links on the rail routes which the Germans use to shift troops.

**Pound Leuna Oil Plant**  
The operation was regarded as an emergency shift from the suddenly renewed offensive on German oil centers, eight of which were battered over the week-end by approximately 2,500 bombers.

More than 6,000 planes, including tactical units based on the continent, unleashed a mighty coordinated attack beginning Saturday night. Eighth air force Mustangs and Thunderbolts fought a record battle Sunday against the German air force—up in force for the first time since New Year's day.

RAP heaves "in very great strength" heaped tons of explosives on the Leuna synthetic oil plant at Merseburg and on a fuel depot at Dahlen last night.

### Premier Koiso May Be Ousted Domei Hints

Jap Military Reversals Bring Matter To Head

By The Associated Press  
The Japanese Domei news agency hinted today at the possible ousting of Premier Kuniaki Koiso because of military reversals suffered by Japan.

Political circles in Japan have been split under the "demand" by the nation for a stronger internal structure to meet the growing seriousness of the war, a broadcast sponsored by Domei news agency said.

Newly developed "factions" among national leaders are clamoring for a "bold and unprecedented political renovation" and a "second political reformation," Domei said.

**Held Special Meeting**  
An earlier report by radio Tokyo said that the Koiso cabinet is to hold a special meeting today which suggested that the crisis might come to a head before the Imperial Diet reconvenes Jan. 21.

Koiso came into office last summer, following Hideki Tojo, who was forced to resign under similar internal fire because of the growing threat of American gains in the Pacific.

Domei reported that "Admiral Seiso Kobayashi, president of the powerful imperial rule assistance political society, called the leaders to an important meeting Sunday and the men were asked to express their opinions regarding the current political situation."

**"Need Renovation"**  
Regarding the meeting, Domei said: "within the society are factions which believe current plans are not drastic enough and there exists a strong group which believes."

### Nazi Plans For Outposts Frustrated

Rome, Jan. 15.—(AP)—Repeated Nazi efforts to set up outposts south of the Reno river and east of the Segno along the Adriatic battle-line have been frustrated with heavy losses to the enemy. Allied headquarters announced today.

Strongly reinforced German forces have dug in along the farther banks of the Reno, from the Adriatic to the Apennines, and it is apparent that Field Marshal Kesselring intends to hold that line at all costs.

In the western coastal regions of the fifth army front German patrols stepped up activity, particularly in the Serchio valley, where a recent German counteroffensive was beaten back.

Along the rest of the fifth army front Allied patrols probed enemy defenses in the face of withering artillery fire. One Polish patrol, however, crossed the Senio south of the Bologna-Rimini highway and penetrated to within five miles of Imola before encountering any German troops. The patrol returned to Allied lines without casualty.

Bitter winter weather continued to restrict activity.

### U. S. Losses In Nazi Offensive Near 40,000

Washington, Jan. 15.—(UP)—American losses in the zone of the German breakthrough in the Ardennes totaled nearly 40,000, Secretary of War Henry L. Stimson announced today.

The figures covered the period from Dec. 15, when the enemy offensive began, to Jan. 1.

Of the total, 18,000 are listed as missing and the majority of these presumably were captured.

In the same period in that sector approximately 40,000 Germans were captured and the German killed and wounded were estimated at 50,000, making a total of 90,000 enemy casualties.

Stimson's announcement stressed that the figures were based on preliminary reports and that it would be some time before an accurate accounting could be made.

American casualties for the period on the entire western front, embracing the first, third, seventh, and ninth armies, totaled 52,594.

These included 4,083 killed; 27,645 wounded; and 20,866 missing. Estimates of German losses on the seventh and ninth army fronts were not available.

**Thousands Of Workers Jam USES Offices**  
Threat Of Work Or Fight Legislation Taking Effect

By United Press  
The threat of work or fight legislation has had almost as much effect in getting men to transfer to war industries as a draft would and thousands of workers have jammed U. S. employment offices throughout the country to sign up for war work, a survey revealed today.

Many major war production centers reported the heaviest increases in war job seekers since D-day and in Wisconsin alone, more than 11,000 applicants jammed USES offices with the greatest increase reported in busy Milwaukee.

**Many Are 4-F**  
The war manpower commission at Detroit reported that 5,000 of the applicants processed last week were "highly capable and qualified 4-Fs from service industries—just the kind we're after."

One of the largest increases was in the automotive industry.

### Norway Train Wreck Kills 180 Germans

London, Jan. 15.—(UP)—More than 180 German soldiers were killed and several hundred were injured when a Norwegian paratrooper train, blowing up a railway bridge near Joerdal, Norway, Saturday, plunging a troop train into a ravine, the Norwegian information bureau said today.

## 6th Army Troops Cross Agno River

Carrier Planes Raid Formosa Communications

Japs Report 200 Aircraft In Attack, Doing 'Some Damage'

By Mac R. Johnson  
Pearl Harbor, Jan. 15.—(UP)—Enemy broadcasts said 200 American carrier planes—presumably from Admiral William F. Halsey's rampaging third fleet—raked airfields and communications on the Japanese island bastion of Formosa today.

The broadcasts indicated that the third fleet under radio silence since it wrecked 38 enemy ships in attacks along a 250-mile stretch of the French Indo-China coast last Friday, had swung north from the South China sea for its third assault on Formosa in two weeks.

**Acknowledge Damage**  
A communique issued by Japanese army headquarters said the carrier planes bombed airfields and communications facilities and also strafed and blasted Taichu, Shoka, and several other villages for four and a half hours.

The communique acknowledged "some damage" to airfields and said "small fires" were started at Takao, where 30 civilians were reported to have been killed or wounded. The raids lasted from 8:30 a. m. to 1 p. m. Hokyo time, the communique said.

Five of the raiders were shot down.

### 3,000 South Pacific Vets Return Home

Los Angeles, Jan. 15.—(AP)—En route to their homes today on their first U. S. furloughs in two years were many of the 3,000 South Pacific battle veterans who reached this port of embarkation aboard a large naval transport.

There were 25 Australian wives of service men, and the passenger list included 10 babies.

The veterans are suffering wounds or combat fatigue, and many were taken to hospitals for physical examination before beginning their furloughs.

The scene was both festive and pathetic when the big ship docked yesterday and its passengers streamed ashore.

There were cheers, laughter, shouts, tears—and wry smiles on the faces of the wounded who hobbled on crutches or were borne to their native soil on stretchers.

Lt. Lawrence Weeks

### 33 Missions Against Nazis Is Weeks' Feat

Busy From May To October And Never Received A Scratch

First Lt. Lawrence Weeks, popular young Kankakeean and son of Mrs. William J. Weeks, 857 East Oak street, can look back today on 33 completed missions over France and Germany as he is spending a 23-day delay enroute in Kankakee. During those 33 missions he didn't receive a scratch, the lieutenant states, but he did have some close calls.

"Larry" as he is known throughout Kankakee, entered the service in Sept., 1942 and went overseas April 1, 1944. At that time several of the air routes were closed so Larry had to fly down to Puerto Rico, down farther to South America, then over to Africa, and across the Mediterranean region to England where he was based during the time he performed his missions.

He states he made his missions on Liberators and Flying Fortresses and went out either as a navigator or bombardier. The lieutenant started his missions in May and finished them in October.

**Up 30,000 Feet**  
He flew in combat to all the lead.

### ELAS-British Truce Goes Into Effect

Athens, Jan. 15.—(AP)—A truce ending hostilities between the left-wing ELAS militia and British troops went into effect today.

The peace with EAM leaders was negotiated by Lt. Gen. Ronald M. Scoble, British commander, who yesterday told cheering demonstrators that his forces would protect the Greek people and their liberties against revolution from any quarter.

Moderates who were former members of the EAM, political organization of the ELAS, said at a press conference today they had completely dissociated themselves from that movement. The Moderates were formerly Socialist delegates to the EAM from Salonika.

The Moderates said significantly that they favored inclusion of Communist delegates in an all-party cabinet provided the Communists maintained no private armies.

Scoble's speech, made from a balcony at British headquarters, was wildly cheered by the demonstrators, who surged through the streets of Athens waving British, American and Greek flags.

### Battle Flames From Lithuania To Yugoslavia

Russians Threaten To Split German Armies In Poland

London, Jan. 15.—(UP)—One of the greatest battles of the war raged today along a virtually unbroken front from Lithuania to Yugoslavia, with possibly 3,250,000 Russians and Germans locked in at least nine closely synchronized struggles.

"Bitter fighting has flared up on the entire front," the German high command reported.

The Russians already were calling their great winter offensive the march to Berlin. Nazi military spokesmen warned that the Red army "intends to end the war."

So far Moscow had confirmed only Marshal Ivan S. Konev's push across the frozen plains of south-central Poland, aimed squarely at the great Nazi defense bastion of Krakow and the rich industries of German Silesia.

**Offensive Spreads**  
But Berlin said the Red army offensive had raced to both ends of the front, with sledge-hammer blows so near each other that it was difficult to determine where one attack left off and another began.

Nazi propagandists said the Soviets had flung 115 divisions, plus more than 15 tank corps, into four fronts alone, while a United Press dispatch from Moscow figured German strength in Poland at 100 divisions.

On the single new front reported by Moscow, Soviet dispatches said the Germans had been unable to rally, and the Russians were rolling westward at a clip which threatened to split the Nazi armies in Poland.

**Battle Zones**  
The German high command said the main battle zones, from south to north, were Budapest, the Danube valley northwest of the Hungarian capital, the Hungarian-Slovakian border area, the Krakow front, the Pulawy region of the Vistula valley 66 miles south of Warsaw, the Magusze area 33 miles below Warsaw, the Vistula-Bug triangle north of the Polish capital, Soviet bridgeheads across the Narow on either side of a broad front in East Prussia.

The Nazi command claimed that 175 Russian tanks had been destroyed "in the great winter battle between the Carpathian mountains and the Niemen," 82 in the Narow bridgehead and 51 in East Prussia.

**Ultimate Goal Obscure**  
A Moscow dispatch said Konev's offensive was expanding so rapidly that it was impossible to tell whether the Red marshal's ultimate objective was Germany itself, the capture of Krakow, the

### John L. Lewis, Edmondson Settle Dispute

Springfield, Ill., Jan. 15.—(AP)—Settlement of an eight months dispute between the United Mine Workers and a group of self-government seeking members headed by Ray Edmondson was announced today.

Edmondson and President Hugh White of Illinois UMW District 12 told a joint news conference they had made peace at Edmondson's suggestion because of "national wartime stress" and a desire for union solidarity in negotiations with operators for a new national UMW contract April 1.

White, who was appointed by John L. Lewis to replace Edmondson when the latter quit last May 1, said Lewis had approved the settlement.

**Disband Committee**  
As outlined by White and Edmondson, the peace terms have these effects:  
The Midwest and eastern committee of autonomy and self-government, headed by Edmondson and branded by UMW leaders as a dual movement, has been "completely disbanded."  
All pending court actions which grew out of the controversy, including Edmondson's attempt to run against Lewis for the UMW presidency, have been dropped.  
White will remain appointive president of District 12 and Edmondson will "go back to the mines" as an \$8.50 per day digger.  
Edmondson's recently organized "mine workers legislative and political action committee" has been abandoned.  
Edmondson's UMW membership is recognized fully.  
All UMW union charges against members of the Edmondson autonomy group have been voided.

**Liner Leaves Liverpool With 1,000 Nazis**  
London, Jan. 15.—(AP)—The former luxury liner Arundel Castle has sailed from Liverpool with about 1,000 Germans, mostly wounded prisoners of war but including a number of women. They will be exchanged for British and American citizens in Switzerland.  
The liner Gripsholm is bringing a number of German civilians from the Americas who will be exchanged for American civilians and a few soldiers. A majority of war prisoners figuring in the exchange will be British.

# Nurses And Nurse's Aides Capped Here

## Impressive Ceremony Held In Which A Vet Of Overseas Speaks

Culminating many weeks of intensified training and study, a group of pre-clinical nurses and a group of Red Cross nurse aides were capped last evening in a joint ceremony in the auditorium of Kankakee high school.

Also, on the program, the newly formed cadet nurse corps was formally recognized in Kankakee. At the beginning of the cadet nurse program, in 1943, St. Mary's hospital was admitted to participation in the organization. The class now receiving training here numbers 40 young women.

A. J. Wignerich, representing the Kankakee Rotary Club, told the nurses of the opportunity they had to serve humanity. He commended them for their devotion to duty and their special value today.

Stresses Benefits

The Rev. P. J. Michener, chaplain of St. Mary's hospital, explained the benefits of good training. He said that the nurses of today are better than many synthetic health remedies to be found throughout the world. He said that the good work of man come only through good training. "We are the result of circumstance but the builder of circumstance," Father Michener said.

Attorney Donald Gray, a member of the local Kiwanis club, congratulated the cadet nurse corps. He said that they are to be commended for the part they play in the world today. "We are the result of circumstance but the builder of circumstance," he said.

More than 400 basketball teams from village and some of the state's larger high schools will start firing in the 56 district tournaments that will be the first salvo in the battle for the Illinois state championship on Feb. 20.

That was made known with an announcement by Albert Willis, executive secretary of the state association, of dates and sites for the 56 district and 60 regional tournaments that will eliminate all but a comparative few of the approximately 675 teams expected to compete.

The district tournaments will be held Feb. 20-23, and the regional ones Feb. 27-March 1. Then come the sectional tournaments, March 8 and 9, with the state championship meet at Champaign, March 15-17.

Four Without Districts  
Poultney, N.Y., and Grant Park, Ill., are the only teams without district eliminations. In the other regions, several teams will be eliminated in the regional, with the remainder playing in district meets. The districts which then enter the regional tournament.

The four regions where no district play is necessary are Metro-East, Metro-North, Metro-South, and Metro-West. The regional, with the remainder playing in district meets. The districts which then enter the regional tournament.

## 43 From Kankakee County Are Now Attending Illinois

Kankakee county is represented at the University of Illinois by 43 students this year. This includes 15 men and 26 women on the campus at Urbana-Champaign, and two men on the university's Chicago campus where the colleges of medicine, dentistry and pharmacy are located.

Total enrollment in the university this semester is 8,530 as compared to the peak of 14,142 in the fall of 1938. There now are 7,077 students in the university's 12 colleges and schools at Urbana-Champaign, 1,648 in the three colleges at Chicago, and 405 in college-level extra-mural courses in 12 other Illinois cities. More than 85 per cent of the students are Illinois residents.

## Alvin C. Margrave, Veteran State Employee Dies

Springfield, Ill., Jan. 15.—P. Alvin C. Margrave, 62, treasurer of the Illinois State Bar association since 1937 and for most of 30 years as a state employee chief clerk of the secretary of state's corporation department, died here yesterday after a short illness.

A Republican, Margrave last Thursday was appointed by Governor Green as an administrative aide in the state finance department, effective Feb. 1, the date he was to have left the secretary of state's office now under a Democrat, Edward J. Barrett.

Survivors include his widow, Jessie; a daughter, Mrs. Maxine Stout, St. Louis, and a son, Gerald, Springfield. Funeral services will be held here Tuesday.

## Many Veterans' Aid Proposals Being Studied

Range From Free Tuition To Bonuses, Public Works Programs

By United Press  
State veterans' aid programs still are in the blue print stage with little or no action taken by legislatures to help the returning soldier, a survey revealed today.

Many legislatures do, however, have veterans' aid bills pending before them and some action is anticipated this year.

The New Jersey legislature is an exception. It passed a bill last year granting loans up to \$3,000 to establish themselves in business. The state guarantees 90 per cent of the loan to the lending bank.

Propose Bonus  
Proposed veterans legislation ranges from free tuition at the state university to bonuses and huge public works programs.

The Ohio legislature has before it a \$25,000,000 appropriation bill to give veterans a bonus of \$12.50 for each month of service overseas and \$10 for each month served in this country. Another bill before the Ohio legislature would permit servicemen to hunt without a license. Illinois also is studying bonus bills ranging from \$300 to \$1,000.

Nebraska's unicameral legislature also has before it a proposal to boost the state aid for veterans fund from \$1,950,000 to \$7,950,000 in six years.

Create Reserve Fund  
A proposal before the Washington legislature would create a \$25,000,000 post war reserve fund for a huge public works program to provide work during slack periods.

Another proposal would give veterans free tuition at the University of Washington. Arkansas has a similar proposal which would give veterans \$150 annually to continue their education.

Would Eliminate Poll Tax  
The Texas legislature has before it a proposal to permit soldiers and sailors to vote without paying any poll tax.

One Indiana legislator has proposed that soldiers who formerly worked for the state be guaranteed their old job back and another has introduced a bill giving veterans preference in state jobs.

Many legislatures have received no concrete proposals for aiding returning veterans, but have named

Reduce Voting Age  
At least 10 states, acting on the theory that if a man is old enough to fight, he is old enough to vote show some interest in proposals to lower the voting age to 18 years.

Georgia already has reduced the voting age from 21 to 18 years. A bill to reduce the voting age in Ohio, which has the endorsement of Secretary of State Edward J. Bremer, has been introduced in the senate. A similar resolution has been introduced in the Indiana senate.

Oregon and Oklahoma both have proposed constitutional amendments to permit 18-year-olds to vote. Other states where bills reducing the voting age have been introduced or will be introduced are New York, Nebraska, Illinois, Wisconsin, Utah, and Maryland.
