To Stay In Cabinet: Forrestal

Truman Program
To Require
Higher Taxes

Social Welfare Plans
To Mean Greater Slice
Out of Payrolls

BULLETIN
Washington, Jan. 11.—(UP)—The GOP's top expert on budget-cutting said today that at least \$2,000,000,000 could be squeezed out of President Truman's spending program.

The opinion that the new budget, highest in peacetime history, has a couple of billion dollars worth of water in it was voiced by Rep. John Taber, R., N. Y.

Washington, Jan. 11.—(P)—Low and middle salary groups appeared likely today to escape any general income tax boosts this year in spite of a record \$41,858,000,000 peacetime budget.

But there was fairly general agreement in both Democratic and Republican ranks that if President Truman's spending program for the fiscal year starting July 1 is to be followed, someone is going to have to ante up more money.

Also, if his social welfare proposals are enacted millions of workers and their employers will have larger payroll taxes.

Republicans shouted for economy. They pointed to the spectre of a deficit formed by the budget the President sent to Congress yesterday.

The Democratic heads of the Senate and House tax-writing committees, Senator George of Georgia and Representative Doughton of North Carolina, maintained a cautious position. "We said they want to see how much money Congress votes to spend before considering tax raises."

May Suspend Act
As a result, there is a strong possibility that the legislative budget provision of the congressional reorganization act will be suspended. This provision requires Congress to set an estimate on appropriations and income by February 15 each year. It hasn't been effective in past years and the congressional income-outgo goal have not been binding.

Rep. Cannon (D-Mo.), who will head the House appropriations committee, said the budget ceiling requirement "isn't workable." Cannon called the budget "the most practical that could be presented at this time" but figured that if followed it would result in a deficit for the fiscal year beginning July 1.

The President himself estimated the deficit for the year at \$873,000,000 but he has proposed that it be wiped out and some cash be provided for additional debt payment by hiking tax rates.

"It's a matter of clear arithmetic that we will have a deficit if we go along with the President's program," said Rep. Halleck of Indiana, Republican leader in the last Congress.

Must Be Cut
Rep. Taber (R-N.Y.), appropriations chairman in the 80th Congress, said the budget will have to be "cut down to earth." He didn't say where it should be cut.

In line with the President's recent recommendation that most of the requested \$4,000,000,000 tax increase come from corporations and perhaps from higher income groups,

Delivers Baby With
Pocket Penknife
After Mother Dies

Abingdon, Va., Jan. 11.—(P)—The physician looked up from the woman in the ward bed.

"She's dead," he said to a nurse. "Call Dr. Hayter."

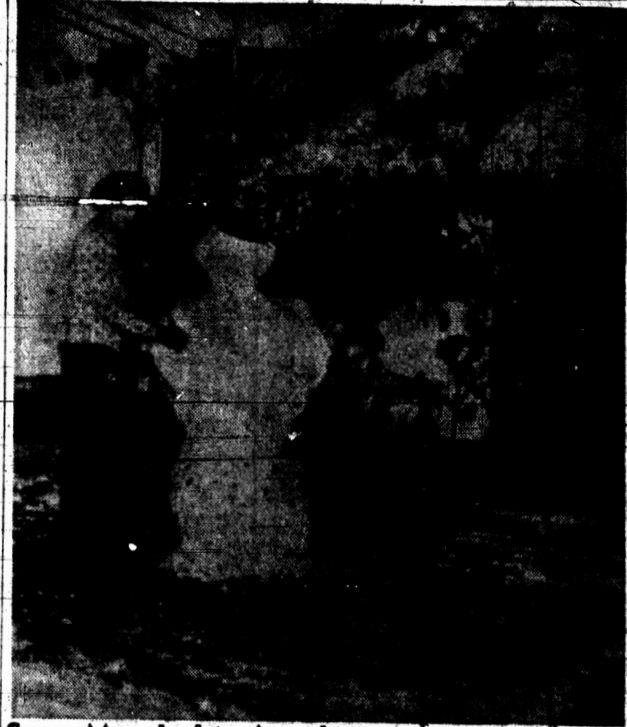

The second doctor came over and made his own examination. He agreed the woman was dead, but his stethoscope picked up the flickering heartbeat of her unborn child. There still was a chance to save the infant.

Dr. Lee M. Cole J., the resident physician, and the nurse went quickly in quest of surgical instruments and oxygen. Standing by, Dr. Harry Hayter heard the flutter of the unborn child's heartbeats grow fainter.

He poked no longer. With his pocket penknife he performed a Caesarean section and delivered a four-pound, four-ounce baby boy—alive and crying lustily.

The mother, Mrs. Elmer Widner of Denton's Valley had been dead for four minutes. She had been brought to the hospital Friday for treatment of a circulatory ailment and a kidney complication, but had not expected the birth of her baby several weeks.

The hospital reported the baby was "going nicely and gaining weight."

Snow Man In Los Angeles

Mr. and Mrs. Harvey Tibbals put finishing touches on the snow man they fashioned in the front yard of their home in a Los Angeles suburb (Jan. 9), after Southern California was invaded by snow, sleet, hail and rain. Forecasters warned of a new cold wave in the state which threatened to add to the \$25,000,000 damage done to citrus fruit in the recent freeze. (AP Wirephoto)

Supervisors Approve Three
Major Road Improvements

Three major items of county highway improvement were approved by the county board of supervisors at its January meeting today.

The improvements consist of the following:

1. Widening of the narrow concrete slab from Herscher to the Iroquois county line by construction of a bituminous shoulder. Appropriated was \$24,700 from the county's share of state motor fuel tax funds.

2. Widening of the narrow concrete slab from highway 45 to Manteno by construction of a black-top shoulder. For this job \$17,000 from the county's motor fuel tax share was appropriated.

3. Extension of Center avenue in Bradley into Kankakee by connecting the street with Schuyler avenue via the Center avenue railroad swerve. This work, to include an overall improvement of the street, was given an appropriation of \$24,500.

Work Outlined
County Superintendent of Highways Harold Tyson was present at the meeting and outlined the plans for the improvements.

All of the measures were approved by the county board highway committee. The motions to appropriate the sums of money were unanimously carried by the board.

Mr. Tyson also gave a brief summary of other county road work.

Federal Secondary Road Route
Federal secondary road route roads now in process of construction or repair work include roads leading south from Aroma Park and from Essex to the county line. Plans are also being made to improve the St. George road to the Dixie highway.

Erection of a new creek bridge near Edgetown to replace a structure which was demolished recently under the weight of a ditch-dredging machine is being delayed pending arrival of specifications from the state, Tyson explained.

Everything possible is being done to expedite the completion of this work, he told the supervisors. Possibilities of erecting a temporary foot bridge over the creek bed have been found unworthy of consideration, it was revealed.

Raise To Employees
In another major item of business, the board passed a resolution which, in effect, provides an approximate 10 per cent raise for all county employees, excepting elected officials.

The raise will be retroactive to last Dec. 1.

This is the first raise for county employees since 1946, it was explained by County Board Chairman George Luehrs.

The supervisors also gave permission to the building and grounds committee to purchase new blankets and mattresses for the county jail and a new sink for the county jail kitchen.

A plat for the Ruth A. Mattocks Smith subdivision in Pembroke township was approved.

Firemen Save East Avenue Hotel; \$75 Damages Estimated
Fire early today threatened a hotel, located over the Coney Island restaurant, 196 South East avenue, operated by George Stavros and Mike J. Costos.

Quick action of Kankakee firemen held the damage to \$75 however. Most of the damage was caused from smoke, when the mattress, caught fire from a cigarette.

Flu Epidemic
Spreading In
France

Paris, Jan. 11.—(P)—An epidemic of influenza is spreading through France and threatening other countries in western Europe.

Unlike the "Spanish flu" in 1918, when the death toll ran into the thousands, the present epidemic has so far claimed only about two deaths per 1,000 cases, a government medical source said. The current epidemic is being referred to as "Italian flu." It struck first in Italy and spread into France.

In Britain, the ministry of health said it was concerned over the danger of the epidemic spreading across the channel, but so far there were no signs of widespread sickness.

"Nothing approaching epidemic proportions" was reported from the American zone of Germany.

The French ministry of public health so far has no figures to report on the number of people affected in Paris. But a week ago about one out of every 10 had influenza or grippe in such provincial towns as Metz, Lyons, Nancy and elsewhere along the eastern border.

Hospitals everywhere are reported filled. In Paris it took two days to get an appointment at the American hospital and two of the doctors were home sick in bed.

Salvation Army
Buys Telephone
Co. Building

Purchase Halts
Plans To Build
New Structure

Purchase of the former Illinois Bell Telephone company exchange building, 356 East Merchant street, by the Kankakee county division of the Salvation Army was announced today by John Beckers, chairman of the board of directors of the Salvation Army. Purchase price was not disclosed although it was described by the chairman as "reasonable."

The buying of the structure by the local organization solves a building program that has been faced by the Salvation Army in Kankakee for several years. It will also mean the abandoning of plans to construct a new building in the city for the organization. Chairman Beckers reported that a 75 by 145 foot lot in the 200 block on North Dearborn avenue, chosen as the site for the proposed new building, will be sold.

Hope to Raise Funds
The chairman explained that steps are being taken to start a building fund campaign in the county during which an attempt to raise \$40,000 will be made. The campaign is expected to be opened within the next few weeks.

Mr. Beckers said that the Salvation Army probably will not be in complete possession of the purchased building until about the first of April.

He explained that only a small amount of interior remodeling is deemed necessary in the two-story brick structure which is 36 feet by 100 feet and includes a basement. He explained that the Salvation Army plans to put an extensive program into operation as soon as the headquarters at the new location are established.

The Army formerly was located in the 100 block on North Schuyler avenue. After selling this building there, it rented headquarters on East Court street. When these headquarters had to be abandoned, the organization was unable to find a suitable building. During the past few months it has had headquarters in Momence and a storage room on South East avenue. The Momence location will be continued, according to the chairman, although the county headquarters will be in Kankakee.

Bill Raising President's Pay
Near Approval In Senate

Washington, Jan. 11.—(P)—A bill raising the pay of the President and Vice President is headed for Senate approval Thursday.

The Senate civil service committee called a closed-door meeting today to consider the measure—which also would boost the salaries of other top officials. Without mentioning his own pay, President Truman yesterday

wrote Senator McKellar (D-Tenn.) the Senate's president pro tempore, that business is outbidding the government for "able men."

But while Senate Republicans decided at a policy conference yesterday that they would not oppose increasing the salary of the President and the Vice President, Chairman Taft (Ohio) said objections were raised to quick action on other pay raises.

The bill under consideration would boost the President's \$75,000 salary to \$100,000 and give him an additional tax-exempt expense allowance

of \$50,000.

The pay of the Vice President and the speaker would be raised to \$30,000, and each would receive \$10,000 expense allowances. They now get a salary of \$20,000. The speaker has a \$5,000 expense allowance; the Vice President receives none.

In addition, the measure would boost the salaries of 222 other top officials and give raises of \$330 a year to 15,000 federal employees passed over in a general pay increase bill last year.

Overall annual cost of the pay hikes would be \$38,207,000.

Report Fall Of
Tientsin To
Chinese Reds

Government Officials
Pour From Nanking As
Assaults Increase

By The Associated Press
Official sources indicated today the Chinese Reds either have occupied the great northern city of Tientsin or that terms have been agreed for its surrender.

These sources conceded that "Tientsin is gone." Chinese officials poured from Nanking today leaving little more than a symbol of government there as Communist troops increased their assaults on trapped armies 150 miles north.

Peiping also was besieged. The fury of the fighting above Nanking, which pilots called the "heaviest" have seen at any time in China, signalled a dismal failure of Chiang Kai-Shek's peace feelers to the Communists who have bested his government armies.

With the military picture darkening, government officials stepped up their flight from Nanking. Officials, archives and equipment are flowing out of the capital at a fast pace.

Flee From Nanking
Thousands of officials and employees have left. Many have moved south to set up emergency branches of their ministries out of reach of Red armies. Others have fled to their native homes where they hope to find obscurity.

One official estimated more than half the National government's personnel has disappeared from Nanking. The ministry of health will move on Monday to Canton in southern China.

Canton and Formosa (Taiwan) are favorite refuges of government officials. As many as 50,000 Chinese a week are reported arriving on Formosa, which some say Generalissimo Chiang Kai-Shek may turn into an island fortress.

Peace rumors continued to flow in every direction. One government official cautioned, "It's no use talking about peace until we know what the communists want. And they are not saying."

**ISRAEL PREPARES NEW
BLAST AT BRITAIN**
Israel was reported preparing a new blast at Britain in the mounting tension of Palestine. Washington and United Nations officials both tried to beat down the bitterness.

Israel shot down five British planes near the Egyptian-Palestine border last week. The small state expressed chagrin that the British were moving troops in Trans-Jordan, bordering Palestine, and called this a repudiation of the security pact and truce regulations.

Britain and Trans-Jordan have a mutual assistance pact.

Israel today placed the blame for the shooting down of the British

Wife, Nearly 14,
Is Proud Mother

Oakland, Cal., Jan. 11.—(UP)—Mrs. Enriquez Ampora, who will be 14 years old in two weeks, proudly displayed her early birthday present today: a six-pound, six-ounce baby daughter.

The tiny, jet-haired Mexican girl gave birth to the baby Sunday at Highland Alameda hospital. Doctors said the young mother was "still weak from the ordeal," but that the infant was "doing nicely."

The pretty child-wife dropped from the seventh grade last March to marry her 18-year-old sweetheart, Alfonso Ampora. They were married with their parents' blessing in Reno, Ampora works in a nursery near the couple's home in Russell City, a small suburb 15 miles south of here. He said Enriquez is an expert housewife.

"I'm going to name the baby Linda Hope," Mrs. Ampora said. "Isn't she beautiful?"

Plant Operation Expensive
It was pointed out by members of the Kankakee board that Bradley probably would find the plan of sewage disposal through the Kankakee facilities much cheaper than the construction of its own plant. It was emphasized that in addition to the actual construction of a plant, its operation and maintenance would also be quite expensive.

Another meeting of the Bradley board is planned as soon as Engineer Schriener draws up the estimated costs for the proposed tie-in between the two localities.

**Pulls Bullet From
Wound With Fingers**
Youngstown, Ohio, Jan. 11.—(P)—Shot in the chest during a holdup today, Ray Schrader, 33, manager of a dairy store, reached into the wound and pulled out the bullet with his fingers, police reported. The robbers got \$10.

Confers With
President On
Security Act

Washington, Jan. 11.—(P)—James V. Forrestal said after a talk with President Truman today that he expects to stay on as secretary of defense.

Forrestal told White House reporters he expects to submit his resignation soon as a matter of routine, but that he does not expect it to be accepted.

He added, in response to questions, that he wants to continue in his cabinet post and expects to do so. Forrestal said he talked with the President about proposed changes in the security act.

He said the problem will be dealt with in a message Mr. Truman will send to Congress, "in the next two or three weeks."

Forrestal said the question of a 70-group air force was not discussed in his conference with Mr. Truman. Then reporters put the question which has been much discussed in Washington for weeks.

"Have you submitted your resignation?"

Forrestal said he had not, but that he would submit one "as a matter of routine" in advance of Mr. Truman's inauguration January 20. He said the resignation which the President has always had, subject to acceptance at will, "needs to be refurbished."

"Do you anticipate its acceptance?"

"No," he replied. "I expect to be a victim of the Washington scene."

**City Asked For
Costs Of Bradley
Sewage Tie-In**

Proposal Is For
Kankakee To Handle
Bradley Sewage

The Kankakee sewer board will draw up for the Bradley village board within the next few days a proposition concerning the handling of Bradley sewage through the Kankakee facilities.

That was decided last night as members of the Bradley board and other Bradley business men met with the local sewer board to discuss Bradley's problems in regard to sewage disposal. The meeting was arranged when the Bradley board, through Mayor Virgil Kinneman, requested a meeting to learn what proposition Kankakee could make the village.

Mayor Kinneman reported that Bradley has taken some steps toward a proper disposal of sewage since it currently has no disposal plant. The village has the alternatives of either establishing its own plant or reaching an agreement with Kankakee by which the sewage could be handled through the Kankakee facilities.

Schriener To Form Estimates
It was agreed at the meeting that the Bradleys make available to Philip Schriener, city engineer of public works, who presided at the meeting, certain estimates as to the amount of water used in Bradley and the amount of sewage which results in the village. From these estimates the engineer and the sewer board will draw up a report of the estimated cost to Bradleys if Kankakee would handle the sewage.

Definite contracts would follow if Bradley would decide to make use of the Kankakee facilities.

Mayor Kinneman reported that a bond issue was passed in Bradley several years ago and installation of a disposal system was started under WPA. He explained that the village ran into several unforeseen difficulties and as a result the money was exhausted by the laying of tile through the village.

**Acheson
Hearing Date
To Be Picked**

Washington, Jan. 11.—(P)—The tangled foreign situation, with emphasis in Russia, engaged, the Senate foreign relations committee today and held up a decision on when to start hearings on Dean Acheson's appointment of secretary of state.

Senator Connally (D-Texas), committee chairman, said a decision would be reached during the afternoon on when to start hearings "and who will be witnesses."

The committee met for two and a half hours to hear a review of the foreign situation from Undersecretary of State Robert A. Lovett. Members adjourned for lunch but arranged to return and hear further from Lovett.

Connally told reporters there was "no significance to any particular foreign situation" in the meeting of the committee—its first since the organization of the new Congress.

Other Senators said Lovett described the Russian politburo as a 14-member group dominated by one man—Stalin.

They quoted Lovett as saying that in his opinion the politburo will take any course necessary to retain power, including war.

Within the politburo, Lovett is reported to have said, war is regarded as an instrument to perpetuate Communism, a method to be used whenever the members agree that fighting is necessary to gain their ends, and that they can win.

Members said Lovett held out no specific hope of an early settlement of the differences with Russia in Berlin. He was said to have reported that the American airlift will make it possible for this country to remain in Berlin indefinitely.

Meanwhile Republicans laid aside criticism of Acheson's appointment until the committee can act.

Sleet, Snow Move
Into Northern Illinois

Travel Hazardous, Phone Lines Down;
Los Angeles Has 6 Inches Of Snow

By The Associated Press
The worst snow in southern California history came today as the latest staggering blow in winter's drubbing of the western half of the nation.

Los Angeles and several of its suburbs measured an incredible six-inch white blanket. And Pasadena's Colorado boulevard, scene two weeks ago of the Tournament of Roses floral parade, was carpeted with more than two inches of snow.

The scene was an Arctic contrast to the sunny, summery weather of the southeast where Birmingham, Ala., had 82 degree heat. But a wide expanse of the country had severe weather.

Snow, ice and sleet storms hit an area from the Texas-Oklahoma panhandle to the Pacific coast.

Fruit Endangered
California shivered again in freezing temperatures. There was snow and ice from the state's winter resort spots to the mountains. Many highways were closed because of ice and snow. The fruit and vegetable crop was further endangered by the wintry blasts. The freezing weather followed last week's killing frost which caused millions of dollars of damage to crops.

The Rocky mountain region and parts of the Midwest got another blast of sub-zero temperatures. Cold weather in the Pacific northwest threatened a severe power shortage.

While many key highways left several towns to the west, the cold was making itself felt in the cold wave swept down the state. The forecast was for light freezing rains in the north and central parts of the state, with rain in the extreme south.

The state highway maintenance division said the ice, generally, was on a line from Quincy to Peoria and then across to the Indiana state line. However, Peoria reported no ice this morning.

But the highway division said the ice was making itself felt in the cold wave swept down the state. The forecast was for light freezing rains in the north and central parts of the state, with rain in the extreme south.

Power Lines Down
Kansas, Oklahoma, Missouri and part of northern Texas got the worst of the storm. Many communities were blacked out as heavy ice-coated power lines snapped. Some schools were closed. Travel over the glazed highways was at a slow pace. Fallen trees on highways added to the hazards of driving.

In California highway crews worked through the night sanding icy roads and clearing snow. Only one main highway out of Los Angeles, coast Route 101 to San Francisco and San Diego, was free of ice.

The mercury slid to freezing and below in many parts of California again today. Snow fell in Burbank and there was a blanket of white in many San Fernando valley and foothill communities.

Register 24 Below
Sub-zero blasts chilled areas in Montana, the Dakotas, Minnesota, Wyoming, Colorado and Idaho. The mercury dropped to -24 at Havre, Mont.; -19 at Pembina, N. D.; -18 at International Falls, Minn.; -8

(Continued on Page 4, Column 5)

**State Senate
Quickly Confirms
Appointments**

Suspend Rules And Vote
Unanimous Approval
Without Debate

Springfield, Ill., Jan. 11.—(UP)—The state senate today confirmed by a 42 to 0 vote nine key appointments submitted by Gov. Adlai Stevenson. Thirty interim appointments by ex-Gov. Dwight H. Green were approved by the same vote.

The Republican-controlled senate suspended the rules and voted approval without debate.

Confirmed were:

George W. Mitchell, Western Springs, director of the department of finance.

William Flanagan, Chicago, superintendent of the division of reports.

Richard J. Daley, Chicago, director of the department of revenue.

James W. Stark, Taylorville, director of the department of mines and minerals.

Charles P. Casey, director of the department of public works.

Clifford Hathaway, Springfield, chief highway engineer.

Frank Amunzio, Chicago, director of the department of labor.

Fern Rauscher, East St. Louis, assistant director of the department of labor.

Leonard D. Schwartz, Edwardsville, director of the department of conservation.

Down To Work
All the appointments had been previously announced.

Practical politics replaced the glitter of inauguration ceremonies yesterday as the split-controlled general assembly started legislative mills full blast.

State Rep. Paul Powell, Vienna, speaker of the house, said action on Stevenson's program would start sometime after Feb. 1. With the senate in Republican hands, it was expected that most of the program would be pushed through the house first.

Sen. Roland W. Libonati, D., Chicago, introduced a flock of bills today, most of them measures which died in committees or under senate vote at the 1947 session.

His bills would establish a \$5,000,000 cancer hospital in the Chicago area; permit city and local governments and other public agencies to enter into bargaining agreements with unions; establish a state reformatory with \$100,000 within a 50-mile radius of Pontiac; establish an \$800,000 state hospital for alcoholics in Chicago; create a five-man commission to investigate causes of divorce; change

ILLINOIS TAKES 3RD IN ROTAT OHIO STATE, 54-63

Osterkorn's Free Throw Wins In Closing Seconds

BIG NINE STANDINGS

Team	W	L	Pct.
Illinois	10	1	.909
Michigan	9	2	.818
Minnesota	8	3	.727
Wisconsin	7	4	.636
Indiana	6	5	.545
Nebraska	5	6	.455
Ohio State	4	7	.364
Purdue	3	8	.273
Northwestern	2	9	.182

Chicago, Jan. 11.—(UP)—Illinois has become the team of destiny in the Big Nine basketball race. The team rallied for a double-overtime victory against Indiana Saturday night to edge Ohio State, 64-63. Both were expected to be in the race, but they were recorded on the road.

A free throw in the last seconds of the game won it for Illinois. Last night at Columbus, Wally Osterkorn anchored one of the margin games, hitting a 30-second mark to remain on top in the title chase.

The league's leading scorer, Dick Schott, scored 20 points, Bob Rodgers added 17 and Bob Donham contributed 12. But still it was not enough for Ohio State which led by 10 minutes in the contest. In the last minute, the Buckeyes were ahead, 57-52.

Osterkorn Gets 18 Points
The final scoring attack was well-balanced. Osterkorn netted 18 points. Fred Green and Bill Erickson hit 10 and 11 shots, respectively. Minnesota and Purdue also remained undefeated, each posting victory No. 2 at Minnesota. The Gophers pushed to a 47-33 decision over Wisconsin although Center Jim Schuster was limited to four points. Scooter Schick banked in 14.

Purdue gave home fans a rousing 45-30 triumph over Defending Champion Michigan. The Hoosiers were led by Coach Remick, 10 players, a pilot and co-pilot. The plane has five players throughout an accumulation of seven personal fouls. Forwards Norris Caudell and Howard Williams pumped in 13 points apiece.

Indiana handed Iowa its second successive setback. The Hoosiers checked the Hawkeyes with only 18 points in the second half. Bill Rodgers led the four starters with six points. Scooter Schick banked in 14.

Big Nine warfare continues Saturday with Minnesota invading Purdue in the headline attraction. Ohio State going to Iowa, Indiana to Wisconsin and Northwestern to Iowa. The Big Nine season is in non-league action.

4 Who Attempted To 'Fix' Basketball Game Are Indicted

New York, Jan. 11.—(UP)—Four men were indicted today for attempting to bribe a player to "fix" college basketball games. A New York county (Manhattan) Grand Jury indicted all four defendants and a federal Grand Jury in Washington, D. C., indicted three of them.

The accused—four in all of whom are former players—were indicted by the grand jury of Miami, Fla.: William Rivilin, 43; Joseph Aronowitz, 35; and Philip Kline, 35. The last three are from New York.

They have denied the charges since their arrest here last Tuesday night. They were accused by David Shapiro of New York, co-captain of the basketball team of George Washington university, Washington, of offering him a \$10,000 bribe to throw the game of Madison Square Garden that night.

The Washington indictment named Levy Aronowitz and Kline as assistants. U. S. Attorney John W. Fisher said the indictments were filed in order allegedly made to shaggy last month in a Washington hotel. He convicted the defendants would be liable to a maximum of five years in prison and a \$10,000 fine.

Conviction on the New York indictment could bring imprisonment from one to five years and a fine up to \$10,000.

Deer Obliging Savers Hunter Shell

Mandan, N. D.—(UP)—Jack Murray, Mandan, N. D. postmaster, was it a party that agreed to shoot deer. He was told the deer were a deer bound into view.

"Don't shoot, it's a doe," yelled Murray.

The deer averted, hit a tree, and fell dead of a broken neck.

It was barely 30 minutes.

Legion, Wayne All-Stars Play At Chebanse

Wayne (Shumway), the jovial sportsman from Whiting, Ind., who'll spend enough money to buy a carload of trophies just to win one in a tournament, brings his 1946 version of the Wayne All-Stars to Chebanse Wednesday evening to face the Kankakee American Legion basketeers in their annual pre-tournament meeting.

The game, originally slated for Kankakee "Tech" school, was postponed to Chebanse when Legion officials learned that other activities were being held at the high school.

Tickets Going Fast

American Legion officials here said this morning that most of the tickets for the game between the Legion-Phillips Oilers game at the Olivet college gym on Thursday, Jan. 20, are sold.

The game will probably be the last of the season. Most of the tickets have been made in the towns surrounding the Kankakee area and the Phillips company in Chicago. Tickets are on sale at the Olivet college gym.

Momence On 'Inside' In KV Title Chase?

One swallow doesn't make a summer nor does one victory make a champion, but right now it looks like that line through the Momence might have well on their way to a league championship. At least, they seem to be in the most favorable spot.

With three other unbeaten teams—one of them already owners of four victories—above the Redskins in the standings, it probably sounds a little foolish to single out a fourth place team as the one most likely to succeed in the rugged campaign ahead. But a glance at the schedule and the team's record in the past few weeks makes the chances of Coach Wayne Hamann's young men seem bright.

Topping May Dissolve N.Y. Grid Yankees

New York, Jan. 11.—(UP)—A spokesman for the New York football Yankees said today that the team has no intention of withdrawing from the All-American football conference. The Yankees, who are coached by Arthur (Red) Patterson, said that the team is in good shape and that the team is in good shape and that the team is in good shape.

BAA Scores Go Higher And Higher

New York, Jan. 11.—(UP)—It takes a team of high scorers to win a game in the Basketball Association of America. The Washington Capitols won their 20th straight victory over the New York Knicks, 74-60, in a game that was a high-scoring affair.
